They keep in the same musical style as before: that elegant and thunderous Heavy Metal, with great vocals (maybe Mário Linhares is the best Brazilian singer in this way), a marvelous guitar work (both in heavy riffs and melodic solos), bass and drums making a heavy and well worked rhythmic basis. Divebomb RECORDS 2014 - BOOTCAMP SERIES #14 - Killer US Metal for Fans of Crimson Glory, Queensryche, Manta Ray, Dead Calm - Limited Edition CD – only 500 units pressed worldwide – new artwork by Steven Cobb – band supplied photos – full color 12 page booklet with lyrics – new essay/interview with Nick Ellingson. Most fans of cult/obscure metal remember Baltimore thrashers, Have Mercy, from their 1986 Combat Records' Bootcamp release, Armageddon Descends. Guitarist Nick Ellingson departed soon after the EP's release, going on to play in a few non-starter bands until 1988 when he once again crossed paths with former Have Mercy vocalist, Lonnie Fletcher. ENFORCE was born soon after.

With the concept of the band in full swing, Ellington then called upon ex-Krybaby band mate and drummer, Cliff Saunders, to help round out the new group with bassist Jody Lewis. ENFORCE decidedly took a more melodic approach to their heavy metal attack, slowing the pace down drastically from Have Mercy's thrashier style. Influenced by groups like Queensryche and Crimson Glory, ENFORCE went on to craft two impressive demos (only 1 was ever released to the public before now). For Fans of Crimson Glory, Queensryche, Manta Ray, Dead Calm

**OCEAN CHIEF - Universums Härd (NEW\*ULTRAHEAVY SWE DOOM METAL\*CONAN\*YOB) - 13 Euro**

I Hate Records 2014 – Brandnew ultra heavy Doom Metal from Sweden ! The previous album, "Sten", was an imposing monolith. Huge, heavy and crushing beyond measure. Lots of things have changed since then: the tempo has been increased and the songs are a lot shorter and more melodic, yet they retain an ominous bite that leaves your mind searing. A second guitarist was recruited to fill a perceived void in the sound, and it will become extra evident if you catch the band in concert. It's also worth noting that "Universums härd" was written in a few months and that the songs were recorded live in the studio to let the music feel lifelike and audacious. All these changes breathed new life into the band and should make "Universums härd" easier to digest for listeners who thought "Sten" was too excessive and overwhelming. But the most important thing, the riffs, the core of the phenomenal Ocean Chief

experience, remain untampered with. This album will demolish you too, have no doubt about it! So buckle up to enjoy collisions

**SUPERIOR - Moral Alliance (NEW\*GER POWER/SPEED METAL CLASSIC\*SCANNER\*HELLOWEEN) - 13 Euro**

Divebomb RECORDS 2014 - BOOTCAMP SERIES #15 - Fantastic German Power/Speed Metal from 1989 for Fans of Helloween, Gamma Ray and Scanner!

Limited Edition CD – only 500 units pressed worldwide – new artwork – band supplied photos – full color 16 page booklet with lyrics – new interview with Peter "Sweety" Süss – includes live bonus tracks recorded at 20th Anniversary concerts. Germany's SUPERIOR released several critically acclaimed progressive metal albums in the mid to late '90s, but what most fans don't know is that it all started with their 1989 Moral Alliance cassette.

Originally released seven years before their 1996 debut album, Behind, Moral Alliance first delivered their majestic style of power metal to the masses. Sure, everyone knows about the bigger German bands, but Moral Alliance (now celebrating its 25th anniversary) effortlessly ranks up there with other classics like Walls of Jericho, Heading for Tomorrow and Hypertrace. This era was short-lived with all but two members

departing the group before they decided to alter directions creatively. Regardless of the stylistic changes SUPERIOR went through, it's now 25 years later and fans of classic power metal consider Moral Alliance one of the most underrated releases of their beloved genre.

As a bonus this limited release contains several live tracks recorded at SUPERIOR's 20th anniversary shows. The songs were originally written during the Moral Alliance era, but were never properly recorded until the band took the stage to celebrate the cassette's original release.

For Fans of Helloween, Gamma Ray and Scanner

Cruz Del Sur Records 2014 - Classic 80s Italian Heavy Metal Monster in the vein of NWOBHM

Truth be told, it's even sadder to consider that RAFF were the only Italian band able to keep at par with the explosive energy of other contemporary British Heavy Metal stalwarts. RAFF in fact had above average technical skills, and a great level of professionalism for such a young band.

This vinyl edition of RAFF "s/t" curated by Cruz Del Sur Music comes in a stylish layout with embossed logo and a 8 page booklet filled with rare pictures and trivia that, next to Giovanni Loria's contribution (music journalist and one of RAFF's most knowledgeable fans), take us back in time through the span of their thirty-year career. The included download card will allow you to get a free digital version of the album to play with your mobile devices. The glory of American hard rock has returned with the debut eponymous album by THE GOLDEN GRASS! This Brooklyn-based power-trio is the real deal, and their LP harkens back to the golden age when heavy rock music was upbeat, skillfully played, energetic, edgy, and bursting with goodtime sunshine vibes. Bad Omen Records 2014 - Limited Edition DLP in Red Vinyl, Gatefold Cover  
The discovery of Witchfyndes Lost Tapes illuminates a fascinating missing link in the history of British heavy metal. In the lull between the Purple/Zepplin/Sabbath revolution and the angry charge of punk rock and NWOBHM, in the East Midlands county town of Derby, four lads came together to create a tentatively progressive and intriguing new sound, and get heads banging in boozers all over the Peak District.....  
The Lost Tapes features the full 40-minute demo of original material recorded in 1975, as well as the two tracks recorded in their 1977 Coventry sessions, all lovingly restored direct from their source reels by Jaime Gomez Arillano (Ghost, Angel Witch, Hexvessel) and pressed as a double 180gm LP package.
