Eyes like Snow Records 2014 - Fantastic Debut Album with Epic Doom Metal in the vein of Warning, Solstice, While Heaven Wept

This album is one of these rare achievements any band could be eternally proud of! Although the two guys behind CROSS VAULT are anything but newcomers, "Spectres of revocable loss" is their first release under the banner of CROSS VAULT.

If the name WARNING (UK) as a main influence rings any bells, and you're of the opinion that CLASSIC DOOM METAL should first and foremost be slow, harmonious, sorrowful and crushing, yet never tiring, boring, repetitive or lacking in variety; that the most important ingredients are masterful songwriting, flawless musicianship and an unreal (really! we're in awe) vocal performance, then this is THE Doom Metal album you should write on top of your to-buy-list for 2014! The album includes 5 own compositions that focus on the subject of loss, as well as a cover of the WARNING (UK)-track "Footprints" which quite honestly sounds as if it belongs on this album. The CD comes as Collectors Edition in Digipack (ltd. 1000), incl. poster-booklet, and as regular edition in jewel case which includes the same fold-out poster.

GRINDER - Dead End (LIM.ED. + 9 BONUS*GER SPEED/THRASH METALCLASSIC*REALM) - 14 Euro

Divebomb Records 2014 - Limited Edition of a GER Thrash/Speed Metal Classic + 9 Bonus Tracks !

During the height of the worldwide thrash movement there were several epicenters of activity. While New York and the Bay Area were perhaps the most prominent, Germany's big three; Sodom, Kreator and Destruction were leading the charge on the European front. However, what some thrash fans may not be aware of is that there was a secondary stratum to that scene which had some phenomenal, albeit lesser known, acts recording some ambitious material. GRINDER were one of those bands who released three albums worth of "in your face" thrash/speed metal during their brief existence. Deluxe edition of their most impressive album, Dead End, which features not only 9 bonus tracks but new interview and archival photos provided by the band members themselves. Dead End has been out of print for nearly 20 years and was originally fetching high dollar collector prices online until bootleg copies began to circulate within the European market. Divebomb Records and the members of GRINDER have partnered up to take on these illegal activities directly by issuing a band approved deluxe edition reissue. REVENGE/TOXIC TRACE Split (NEW+BRA THRASH MASTERS + SERBIAN THRASH YOUNGSTERS) - 12 Euro

EBM Records 2014 - 36th offering of the "Thrash is Back" Series.

After destroying eardrums worldwide with "Death Sentence", "Metal is Addiction and Obsession" and "Vendetta", REVENGE unleashed "Soldiers under Satan's Command", a record which quite possibly is Columbia's quintessential thrasherpiece. All elements are represented here... chaotic drumming, precise riffage, apocalyptic lyrics and Esteban Mejia "Hellfire"'s razorblade vocal delivery (with a total new vocal approach)... not to mention great cover art and excellent songwriting. Much more refined and elaborated over than previous releases, "Soldiers under Satan's Command" still remains caustic and brutal, with songs like Metal & Wild and Satan's Soldiers thrashing hard enough to rip any wayward metalhead a new one. The music is technical without being pretentious and every song is a keeper. Influenced by first-wave of German thrash metal bands such as Kreator, Sodom and Destruction TOXIC TRACE's "The Chapel of Insanity" spews forth a barrage of intense, fast as fuck thrash songs with guttural harsh vocals that do honor to the genre's pioneers. They do manage to create a real aura of old-school mayhem that will have fans of that classic mid-80's teutonic sound bouncing off the fucking walls. Great cover art by Tara Kerac featuring a disturbing tableau of a black/bloody mass perfectly captures the essence of the blasphemous brutality that TOXIC TRACE unleashes with surgical precision. Unstoppable Speed is the main reference of this Thrash Tornado !!! Fucking essential THRASH FUCKING METAL!!!

REVEREND - Play God (NEW*LIM.ED.+ 6 BONUS TR.*US METAL*HERETIC*METAL CHURCH) - 14 Euro

Divebomb Records 2014 - Limited US Metal Classic Rerelease with many Bonus Tracks !

Despite traditional heavy metal falling out of favor in their hometown of Los Angeles, REVEREND never compromised their musical vision to try and fit in like many of their counterparts awkwardly did. Album tracks like "Another Form of Greed" and "Butcher of Baghdad" found REVEREND mining from their classic metal roots and infusing the material with a modern thrash bite. It was a perfect marriage of both the song craft of early '80s metal with the muscular guitar tones of the day. Their debut EP surfaced in 1989, but it wasn't until REVEREND delivered two classic thrash tinged heavy metal albums that people took serious notice. 1990's World Won't Miss You and 1991's Play God brought the group critical acclaim, and helped grow their fan base throughout the globe. World Won't Miss You and Play God, both long out of print - The new discs both include brand new mastering, bonus tracks and new essays culled from a conversation between former REVEREND guitarist Brian Korban and music journalist Carlos Ramirez of noecho.net.

No Remorse Records 2014 - TILT were one of the biggest hopes of British Metal during late 80s. Original "Ride The Tiger" album was critical acclaimed receiving 4 K's in Kerrang magazine.

ALPHA CENTAURI-s/t LP (Rare cult 70's U.S./Can Hard Prog/Pomp) - 14 Euro

Acid Nightmare Records 2013 - Limited Reissue on Black Vinyl - Cover has one bent corner.

Alpha Centauri was formed in Greeley, Colorado in 1971. The band performed its hard driving rock throughout the American Midwest for years opening for artists such as STYX and URIAH HEEP. With a fairly strong US following, the band moved to Canada where they began to write original material. The result was 1977's long awaited eponymous debut on Salt Records.

With the release of the album came more concerts as well as several radio and television appearances including the Canadian TV special "Alpha Centauri In Concert" from 1978. The band was then aiming for the UK, but management problems and road burnout led to the band returning to the USA, appearing on TV's 'Rock and Roll America'. Alpha Centauri stayed on the road until 1983 when they finally broke up. In the '90's a resurgence of sorts occurred following a glowing review of their sole album in the International Encyclopedia of Hard Rock and Heavy Metal stating them as the "Worlds best undiscovered Pomp band". 70's Hard Rock aficionados began scouring the globe for their only album and in 1995, was issued on CD. Nowadays a rare sought after gem in the collector's market, Acid Nightmare thought it would be the right time to reissue this Hard Prog Pomp masterpiece on glorious vinyl. The record comes with insert and is limited to 400 copies.

TÖXIK DEATH - Speed Metal Hell (LIM.400 BLACK VINYL*THRASH/SPEED METAL*NORWAY) - 16 Euro

Demonhood Productions 2013 - Ltd. edition of 400 copies on black vinyl.

For some strange reason, Norway has become a haven for new, oldschool speed / thrash metal. And we're not talking polished modern "retro thrash" here; bands like Nekromantheon, Condor, Deathhammer, Inculter and so on sound like they actually existed during the early to mid-eighties, yet in a parallel dimension that was not accessible until recently. They live, breathe and exude filthy, authentic, hellblazing THRASH like there was no tomorrow, and each with a strong identity of their own. The latest addition to this havoc wreaking crew are TÖXIK DEATH, who with their fulllength debut Speed Metal Hell frankly eat polished modern "retro thrash" posers for breakfast, lunch and dinner.

There's something inherently malignant about this west Norwegian fivepiece, as if the record's about to spin out of control, fling itself off your turntable and slash your throat. Taking their influences from the early to mid eighties speed and thrash metal of Germany and South America in particular and adding a very potent mix of something very foul, nasty and completely their own, Töxik Death ups the ante on how vital and authentic oldschool thrash can be in an age where plastic, pitch perfect and piss poor seems to be the order of the day. Never mind what year it is - Speed Metal Hell awaits!

TAPES

BEASTMILK - Climax Tape (NEW*LIM.TAPE*200*DEBUT ALBUM*DARK ROCK/METAL) - 10 Euro

Svart Records 2014 - Very limited tape edition of the Beastmilk debut album, with cover art by Samu Salovaara.
"Apocalyptic visions and a wicked sense of humor populate audio nightmares as Beastmilk create visceral, unsettling death rock for the elite", wrote Pitchfork of the band whose highly anticipated debut album poignantly combines haunting clean vocals, darkly shimmering melodies, and a throbbing rhythmic pulse to create an atmospheric yet energetic journey into post-punk's past, present, and definitely its future.
"Elements of a gloomier Joy Division, an angrier Echo & The Bunnymen, a medicated Killing Joke, and even a lush layering of Peter Murphy" - all this, and vastly more, describes the immediately memorable 3D darkness of Beastmilk. Born in 2010 during a nuclear winter in Helsinki, Finland, the void-mothers of Beastmilk kick out an irradiated dust of what they appropriately dub "apocalyptic post-punk."
Their debut demo, White Stains On Black Tape, sold out quickly and earned the attention of Darkthrone's Fenriz, who made it one of his favorites of 2010.
In June 2013, they flew out to Boston, USA to record at GodCity Studio with the legendary Kurt Ballou (Converge), who produced their debut full-length album, Climax; the members of Converge found Beastmilk online, loved them, and ordered both their 7"s, with Ballou soon offering to produce their debut album at his world-famous studio. The result is Climax, an album of dark, driving anthems that work their magic instantly upon the first notes - fall in with the fallout and get down with BEASTMILK!
