DEAF DEALER - Journey into Fear (NEW*CAN POWER METAL CLASSIC*TOP 10 ALBUM) - 13 Euro

- KILLER ALBUM -

Cult Metal Classics 2014 - NEW - Canadian Power Metal Classic - maybe the best never released US/CAN Metal Album of all times. Unbelievable great Songs, Riffs, melodies - a real must have for every serious US Metal Fan. Limited Edition of 500 Copies !

27 years since it was recorded, the greatest unreleased heavy metal album of all time, sees the light of day! "Journey Into Fear", by the Canadian metal masters DEAF DEALER, has been Canada's best kept metal secret. Comes with a 16-page booklet, liner notes, album story, photos and lyrics!

The album was originally tracked in 1987 at the world-famous Toronto studio Metalworks with Dan Johnson and Scott Burns as producers, but for various reasons was never officially made available. A few cassette copies were circulated in the metal underground, and the LP eventually gained a cult status, with many fans going as far to call it "the greatest metal album never officially released." "Journey Into Fear" features the distinctive bass playing of bass virtuoso Jean-Pierre Fortin, coupled with great guitar lines by Marc "Hayward" Brassard and Yves "Ian Penn" Pedneault along with classic vocal lines by Michel "Flynn" Lalonde. Combined with way-ahead-of-its-time power drumming by Dan "Mc Gregor" Gregoire, the effort definitely deserves a spot among the greatest heavy metal creations of the '80s. Based in Quebec, DEAF DEALER started in the early '80s as DEATH DEALER, and made an appearance on the legendary compilation "Metal Massacre IV" in 1983 with the song "Cross My Way". A short time later, the original singer Andre Larouche was replaced by Lalonde and the band changed its name to DEAF DEALER. They released a highly acclaimed debut in 1986 under the title "Keeper Of The Flame" and in 1987 they recorded eight songs that were never released. Soon after the recordings were completed, the group disbanded.

DEATH PENALTY - Same (NEW*NWOBHM*WICHTFINDER GENERAL*PAGAN ALTAR*CATHEDRAL) - 14 Euro

Rise Above Records 2014 - New cult Doom/NWOBHM Band from UK with Cathedral member - after the Sign of Times 7" now with their Debut Album in a limited Slipcase Edition ! With the sad demise of British Doom Metal legends Cathedral in 2013, former guitarist Garry (Gaz) Jennings wasted no time in moving forward, creating his next Metal dream. Heralded as one of Britains most unique, prolific and unsung riff writers, his vast understanding of Heavy Metal mechanics, coupled with his expert historical knowledge in the field, is certainly not rivalled by many.

Death Penalty is a triumphant tour-de-force of pounding heaviness that brilliantly encapsulates everything that Gaz has brought to the table with Cathedral while veering off on a number of new and distinctly compelling tangents along the way. Fans of the NWOBHM era will find themselves instantly entranced by the likes of Howling At The Throne Of Decadence and Golden Tides, while diehard doom acolytes will be immediately reassured that Gaz's ability to pen timeless riffs remains entirely undimmed, as demonstrated on the grandiose grit of Into The Ivory Frost and Children Of The Night.

Shadow Kingdom Records 2014 - Classic 80ies Heavy Metal/NWOBHM from Australia - Killer release !

For Fans of Dio, Judas Priest, Iron Maiden, NWOBHM

Hailing from Australia, they've only put out a demo tape and 2 split 7" records and are barely known outside of their homeland. This is a beyond amazing sounding debut album not just for them, but for any band trying to do something original and leaving a lasting impression on the heavy metal world.

The vocalist is one of the best singers that we've heard in years. The songwriting is extremely complex on one hand, but on the other hand it's really memorable. So it's the best of both worlds when it comes to precision and catchy. Don't miss out on this, it is surely going to be one of the best albums of 2014 and will stand the test of time and has the ability to become a cult classic from years to come!

MANILLA ROAD - Mystification (NEW*US METAL CLASSIC*6th ALBUM RERELEASE*SKR) - 14 Euro

Shadow Kingdom Records 2014 - US METAL Classic Rerelease with the original Mix + Mastering.

Manilla Road's official 6th full length is the last of what many older Manilla Road fans consider as their most classic period.

Manilla Road's "Crystal Logic", "Open the Gates", "The Deluge", and "Mystification" are considered the bands best years. Even though they're one of the very few long time running Heavy Metal bands that are still putting out great Heavy Metal records, those 4 albums are the golden years.

What's great about this album is that it's the first time they've really injected a Thrash Metal sound into their music. They've had some faster songs on other albums, but there's no mistaken some of the songs are intense quality Thrash Metal you'd hear Slayer do. They mix the Classic Metal and Thrash Metal extremely well here because there's no doubt Mark Shelton is one of the best Heavy Metal songwriters of all-time.

POWERLORD - The Awakening (NEW*US SPEED METAL CLASSIC*EXCITER*JAG PANZER) - 13 Euro

Shadow Kingdom Records 2014 - Brandnew US Metal Classic rerelease - in the vein of Exciter, old Jag Panzer, early Savatage (Sirens).

Powerlord was one of those bands that popped up out of nowhere and completely fell off into obscurity. Out of all of the rare 80's US Metal gems, Powerlord is arguably the very best at what they do. They straddle somewhere between Savage Grace and Slayer. So to describe their sound, we would call it Speed/Thrash Metal, but done extremely professional and the songs were written with such precision. You can just tell these guys were perfectionists back then and as far as the songwriting, this album is completely flawless.

This is was 80's Metal was all about. If they would have gotten lucky, they could have been a much bigger band back then, but with the flood of Thrash Metal after Slayer and Metallica came out, they fell quickly into the cracks of obscurity.

It would be a rare case if anyone were even aware of Zone Zero as they only put out 1 Single and a few demo tapes in the early 80's before disbanding. In the land of early Swedish Heavy Metal, the very first and most important band was without question Heavy Load, who started in the late 70's. With that said, Zone Zero does have a very strong Heavy Load influence and were also influenced by Judas Priest and the New Wave Of British Heavy Metal. There were quite a few bands that popped up in the early 80's in Europe that could have easily been apart of the N.W.O.B.H.M. but they weren't because that period of time only included England. This package includes their entire career, which started in 1980 and includes the band re-uniting for 3 brand new songs that were recorded in 2008.

With the sad demise of British Doom Metal legends Cathedral in 2013, former guitarist Garry (Gaz) Jennings wasted no time in moving forward, creating his next Metal dream. Heralded as one of Britains most unique, prolific and unsung riff writers, his vast understanding of Heavy Metal mechanics, coupled with his expert historical knowledge in the field, is certainly not rivalled by many. Death Penalty is a triumphant tour-de-force of pounding heaviness that brilliantly encapsulates everything that Gaz has brought to the table with Cathedral while veering off on a number of new and distinctly compelling tangents along the way. Fans of the NWOBHM era will find themselves instantly entranced by the likes of Howling At The Throne Of Decadence and Golden Tides, while diehard doom acolytes will be immediately reassured that Gaz's ability to pen timeless riffs remains entirely undimmed, as demonstrated on the grandiose grit of Into The Ivory Frost and Children Of The Night.

Carrying the banner of South American heavy metal since 2008, Whipstriker's sound strikes that fine balance between speed metal, thrash and blackened heavy metal. TAPES

DEMON BITCH - Death is Hanging (US METAL*LIM.ED.TAPE*CIRITH UNGOL*M.FATE*BORROWED TIME) - 9 Euro

Dying Victims Records 2014 - 80's Epic and obscure US Metal Killer from Detroit ! This is their 2nd and professional Release after Demon Bitch' first demo, released by Arcane Metal Arts back in 2012. Through four songs, the band delivers their own take on traditional heavy metal, topped with killer, totally unique vocals. It's definitely a sound to fall in love with, as it is fresh, twisted and original. Listening to this EP, you'll get intensity, melodies and an overall inspired performance from all parts involved.

King Diamond and Mercyful Fate are obvious references, but a song like the opener "All Hail Evil" also leans a bit towards newer acts like Sweden's Portrait, and even Enforcer, the latter mainly due to the energy and some of the guitar work. The song is an intense and almost hectic opening tune, musically with lots of NWOBHM-references, great guitar work and some cool bass lines creating a solid foundation for the track along with the strong and natural drums. On top of it all you'll find a very impressive and inspired vocal performance from vocalist extraordinaire Logon Saton.

For Fans of oldschool US METAL like Borrowed Time, King Diamond, Enforcer, Portrait, Mercyful Fate, Cirith Ungol, Angel Witch, Manilla Road, Doomsword

WITCHING ALTAR - Vol.1 - Goat TAPE (LIM.100*HAND NUMBERED*OCCULT DOOM METAL) - 9 Euro

Sarlacc Productions 2014 - Killer Occult Doom Metal in a Lim. Edition TAPE of only 100 Hand numbered Copies !

Highly influenced by traditional doom bands and 70's occult rock, band's sound is a blend of low tones, heavy guitar riffs, dirty bass and hefty rhythmic drums. Menacing laconic vocals plus psychedelic keyboards complete the amalgam; all immersed in a vintage blackened atmosphere. The members' main influences are classical bands such as Black Sabbath, Pentagram, Bedemon, Saint Vitus, The Obsessed, Witchfinder General, Pagan Altar, Candlemass, Count Raven and Cathedral. As well as newer bands as Reverend Bizarre, Lord Vicar and Electric Wizard.
