AEONSGATE - Pentalpha (NEW*EPIC DOOM METAL MASTERPIECE*MATS LEVEN*CANDLEMASS) - 13 Euro

The Church Within Records 2014 - EPIC DOOM METAL Masterpiece ! Aeonsgate is a Doom project and it may become a cult . This first record called "Pentalpha" is a one hour long song that tells a sad, romantic and very heavy -doomy story of someone's first minutes of death. Aeonsgate is the brainchild of Jondix (guitar player and founder of Great Coven, Eight Hands for Kali and Ätman-Acron). This time he is surrounded by amazing musicians. Mats Leven (Krux, Malmsteen, Therion, Candlemass,...) is the singer and his agonic and beautiful voice makes the song as sad and dark as you can get. Joseph Diaz is the mysterious bass player who played before with the likes of Graham Bonnet, Bobby Martin,...) And finally Marco Minneman (Kreator, Necrophagist, Steven Wilson,...) on drums playing in a trance inducing sabbathic progressive way strange in this musical genre. This doom opera song mixes 70's, neoclassical and oriental elements and will be remembered as 2014 Doom's ultimate epitome . A lot of doom cliches and full of surprises, this record will change you forever... For Fans of Candlemass, Sorcerer, While Heaven Wept, Warning, Rainbow, DIO, Black Sabbath (DIO/TONY MARTIN ERA)

KENN NARDI (Anacrusis) - Dancing With The Past DCD (NEW*US TECH/THRASH METAL) - 19 Euro

Divebomb Records 2014 - Fantastic Comeback Album of this US Tech/Thrash/Prog Metal Legend !

As the guitarist/vocalist/producer and chief writer, arranger and lyricist of Anacrusis from 1986-1993, KENN NARDI was widely recognized as one of heavy metal's most forward-thinking musical minds. After releasing four albums between 1998 and 1993 with Anacrusis, KENN NARDI went the solo route under the Cruel April moniker in 2006, weaving acoustically-driven material that was free of any genre expectations looming over his head.

On his new album, Dancing With The Past, KENN NARDI has brought together all of the signature elements of Anacrusis' sound, and melded them with the more streamlined songwriting approach of Cruel April. The result is a 2-CD collection featuring 28 brand new recordings of songs written as far back as 1994. The collection also features material borne from collaborations with KENN NARDI's former Anacrusis band mates during their 2009-2012 reunion run. Clocking in at over 2 1/2 hours, Dancing With The Past keeps true to the avant-garde spirit that made KENN NARDI's songwriting and his former band so thrilling while pushing the songwriting and compositional boundaries even further. Quite simply, Dancing With The Past promises to be the album Anacrusis fans have waiting for only full of surprises they never expected.

LOST BREED - Bow Down (NEW*US DOOM METAL CULT*SAINT VITUS*THE OBSESSED) - 13 Euro

Blood + Iron Records 2014 - Unreleased recordings from this Californian Doom/Heavy Rock cult band of the late 80s with ex-Blind Legifon members. Recorded between 1995 and 2000, this was supposed to be their third album. This is along with their debut from 1993, their best material! 17 tracks in total.

This CD features a massive 17 tracks of unreleased tracks from this Californian Doom/Heavy Rock cult band of the late 80s that was on the Hellhound label, that cult label in the early late 80's/early 90's.

'Clint' sounds like classic Scott "Wino" Weinrich singing, he was present for the first demo and provided a guest vocal here and there through the bands early career, so you know what to expect, but this isn't Wino, it is Eric (Ike) Baestlein on vocals (also of Cardiac Noose). These tracks originally surfaced released as The Vengeance Brothers (the re-named Lost Breed after album recording singer Pat Lydon left post 1995), but these never had an official release. This is developed US doom rock, not like the doom rock that is popular in Europe at the moment, but that low end, dulcet guitar tone with harsh, or rather real gritty vocals.

If you like anything from the now closed Hellhound label then expect great things, bands like Revelation, The Obsessed, Saint Vitus, Unorthodox

What you now hold in your hand is very early materials released for the first time ever on cd by the band Mercyful Fate. All have been tape traded or bootlegged on vinyl at one time or another, this disc collaborates a complete collection of unreleased songs by the band.

The first 9 songs were recorded while the bands name was still in limbo and were continued being called the Brats. This studio demo is very rare and was only available through a couple bootleg releases which had the demo broken apart, 7 of them on a 12" Lp and the other 2 on a 7" EP.

Tracks 10 and 11 were recorded live at the bands first show or at least first show known to anyones knowledge, the date is unclear but there is only 2 shows recorded from 1981 in any circulation one of which is on Halloween and then this debut show which is believed to be sometime in Spring or Summer at latest. Since the exact date of the show is unclear it is impossible to know for sure the exact lineup other than King Diamond and Hank Sherman definitely performed on it. Tracks 12 and 13 were recorded live October 5th 1982 this is a tape that was widely traded amongst Mercyful Fate collectors and is a fanclub favorite by many. Now you have an entire 70 plus minute collection of rare as hell unreleased tracks by the greatest satanic heavy metal band of all time enjoy them - for this release was created by fans for fans. Debemur Morti Records 2014 - Epic Viking Metal from SWE + FIN - these are the real heirs of Bathory ! Digipack Edition !

"Riddle of Steel" is the tragic, grand tale of a lone warrior's fate in this world and beyond. Faced with adversity in a myriad of forms, his struggles are of both philosophical and mindlessly barbaric nature, forcing him down a bloody path of death and desolation.

The dramatic atmosphere of this archaic saga is portrayed by genre-defying songs that take the listener on a journey through grandiose sceneries, barren wastelands and vast halls of the slain, filled with epic heavy metal, thrashing brutality, classical moods, folky acoustic interludes, soaring melodies, and much more. The music is closely intertwined with the lyrical concept, moving from reckless slaughter to deep existential contemplation and ultimately leading our hero to the grievous conclusion that his greatest enemy may be himself - the Riddle of Steel can only be solved from within.

For Fans of epic Bathory, Moonsorrow, Vintersorg, Falkenbach, Atlantean Kodex, Manowar

Without regard to modern conventions the Vacationers bring old school heavy metal in it's best form. It's touched with a generous amount of speed metal, adding a galloping pace in every song. Now add in the ambitious twin guitar attack offering a bunch of riffs and leads, the thumping, yet grooving, bass line, and clean catchy vocal arrangements. Then inject an abundance of melody and harmony from nearly every element, and you have the remembrance of NWOBHM, only in an American wrapper. For Fans of Enforcer, Skull Fist, Liege Lord, early Deaf Leppard (Hign 'n' Dry - Era)

SPECTRAL HAZE - I.V.E.: TRANSMUTATED NEBULA REMAINS (NEW*DOOM ROCK*PURPLE HILL WITCH) - 12 Euro

Soulseller Records 2014 - Spectral Haze creates a very psychedelic and 70's orientated form of doom metal which also adds in some stoner rock elements and some modern modern aggressive sludge elements to create a very dark, heavy and ritualistic sound, the production sounds very old school yet professional at the same time while the lyrics cover Eastern Mysticism and Occultism.

Spectral Haze was first conjured from the Void three years ago, through four sonick sorcerers residing in Oslo, Norway; Cēlestial Cōbra (Battery), Döömdogg (Bass guitar), Spacewülff (Vocals, guitars) and Sönik Slöth (Guitars). Through these last few years, Spectral Haze has undulated and grown into channeling through a fifth vessel, namely Electric Starling (Theremin, VOID). The upcoming album "I.V.E.: Transmuted Nebula Remains" follows their eponymous debut EP released in 2012 CE, and brings even more psyched out doom rock rituals.

Tee Pee Records 2014 - Brandnew comeback of EX-Trouble - fantastic US Doom Metal with Eric Wagner - Digipack Edition !

THE SKULL is the new band featuring original members Eric Wagner (vocals) and Jeff "Oly" Olson (drums) of American doom metal legends TROUBLE alongside longtime TROUBLE bassist Ron Holzner, guitarist Lothar Keller and former PENTAGRAM guitarist Matt Goldsborough.

The group's hugely anticipated debut For Those Which Are Asleep features ten tracks of elemental Heavy Metal. The record's greatest strength is how well it captures the apocalyptic trudge that TROUBLE delivered from the first downbeat of their 1984 debut, but now unequivocally propelled by the hallmarks of a hungry new band fueled by new blood. The mighty voice of Eric Wagner is on full display; the vocalist proving on For Those Which Are Asleep that he still wields an eerie power at the mic. Titanic riffs abound as Keller and Goldsborough weave ominous atmospheres over the molten, crushing core of Holzner and Olson's sinister strut.

VALIUM - Pesadelo Real: Anthology 1986-89 (NEW*POR METAL CLASSIC*I.MAIDEN*M.FATE) - 13 Euro

Blood + Iron Records 2014 - LUSITANIAN METAL CLASSIX SERIES: Welcome to the second release of Lusitanian Metal Classix, made up by the Portuguese labels Blood & Iron and Metal Soldiers. The aim is to bring to the collectors Heavy Metal market the unknown glories of Portuguese Metal from the 80's decade and also the worthwhile traditional Metal done in the 90's.

Portuguese band Valium formed back in 1982 and are surely one of the many lost Portuguese 80's Metal treasures. They recorded their first demos in 1986, where at the time they had a strong and dark Heavy Metal influence refined by bands such as Manowar, Iron Maiden and Mercyful Fate.

By 1988, they became more influenced by the American Melodic Metal scene when they changed name to Casablanca and under that name they recorded 3 albums from 1990 to 1999, another in 2002 and a 7" in 1993. A few years later, they disbanded. This band is considered among the true Metal fans in Portugal, heroes of the underground, spending three decades against the grain, ignoring trends and making pure Heavy Metal music. The core members are the three inseparable brothers João, José and Jorge Figueira, who formed the band back in 1982 and still are Hard Rock/Metal fans to the present day.

Remastered edition with thick booklet full of rare photos, memorabilia, biography and lyrics.

Enter Valium: one of the best 80's Heavy Metal bands from Portugal! For Fans of Mercyful Fate, Manowar and of course Iron Maiden

Raising Hell Records 2014 - Remixed and remastered US Speed Metal Classic - Limited Edition of 666 Copies, official Rerelease !
One of the most powerful, wild and sympathetic live bands of all times had been Boston's monoliths WARGASM, who had been known as MANIAC in their demo times. 1988 the trio released its debut album "Why Play Around?" via the New York label Profile Records.
And what a hammer the guys had recorded. Superheavy Power Metal on the border to Thrash. Similarly straight as the best songs of the Canadian legend RAZOR, with a little TANK to it. Despite all straightness the album has enough variety in ideas not to bore even a second. Songs like the grenade "Wasteland" with its strong tempo shifts, "Revenge" with its hypnotic riff, the 'hit' of the album "Bullets And Blades", which reminds me a lot of TANK in the chorus, the darkly starting "Undead", which then turns into a breath taking speed attack or the wonderful calm instrumental "Le Cou Cou", which is followed by the brutal final neck breaker "Humanoid" are banger fodder of first class.

Napalm Records 2014 - BRANT BJORK and the Low Desert Punk Band - Limited Edition Gatefold Black 180 g Vinyl. New Solo Album 2014 from the Stoner Rock Cult Figure Brant Bjork (ex-KYUSS, VISTA CHINO)

No one can fool this man anymore: As a cult figure of the Palm Desert scene, as founder and drummer of the unfortunately no longer active Stoner-Rock legends Kyuss and a permanent member of Vista Chino (formerly KYUSS Lives!), the formation around Kyuss colleague John Garcia, Brant Bjork is washed with all (musical) waters. Now he is sailing under his own flag and proves once again that his multi-instrumental

skills know no creative boundaries. With his excellent occupied Low Desert Punk Band, Bjork lets the scorching heat of Nevada shimmer in his songs. He also scrubs his guitar through all sorts of psychedelic effect pedals and skillfully mixes Stoner Rock, Blues and Doom-bonds to a feverish hazy brew. The Desert Rock Band has reached their oasis.

CAPILLA ARDIENTE / EVANGELIST - split (NEW*LIM.500*DOOM METAL KILLER 12"*ANGEL WITCH) - 14 Euro

Doomentia Records 2014 - Limited Edition 500 copies in Black Vinyl - Split 12"

CAPILLA ARDIENTE: incl. Felipe Plaza Kutzbach (vocals) and Claudio Botarro Neira (bass), are also playing in the mighty PROCESSION, the epic doom metal kings ! One could actually say that both bands are quite alike, bred on a severe diet of classic 80's metal and CANDLEMASS, the difference being that PROCESSION is Plaza's pride and joy, whereas CAPILLA ARDIENTE is first and foremost Botarro's baby. And the latter, as he puts it with a grin, like to "twist things a little bit whenever I get the chance".

Their version of "Waltz the Night", recorded right after the session that spawned their recently released 'Bravery, Truth and the Endless Darkness' album, and with the addition of a second guitar player to enhance the heavy riffing, makes the CAPILLA ARDIENTE treatment sounds bleaker and more majestic than ever... EVANGELIST: Not ones to be left behind biting the dust, the mysterious Polish chaps that hide behind the EVANGELIST moniker have decided to pick up the gauntlet by covering another well known act. Except that infamous MAYHEM is black-metal at its purest and their ultimate classic, the bleakest ode to Transylvania ever penned, "Freezing Moon". But covered by EVANGELIST, it has been turned into a forlorn classic doom ten minutes long symphony. You never heard it that way so get ready to be blown away!

SOLAR EAGLE was a Canadian band, hailing from Ontario, active in the second half of the '80s.

SONS OF CROM - Riddle of Steel (NEW*LIM.500*BLACK V.*BATHORY*EPIC VIKING METAL) - 16 Euro

Debemur Morti Records 2014 - Limited Edition of 500 Copies in Black Vinyl, printed Innersleeve ! Epic Viking Metal from SWE + FIN - these are the real heirs of Bathory ! "Riddle of Steel" is the tragic, grand tale of a lone warrior's fate in this world and beyond. Faced with adversity in a myriad of forms, his struggles are of both philosophical and mindlessly barbaric nature, forcing him down a bloody path of death and desolation.

The dramatic atmosphere of this archaic saga is portrayed by genre-defying songs that take the listener on a journey through grandiose sceneries, barren wastelands and vast halls of the slain, filled with epic heavy metal, thrashing brutality, classical moods, folk acoustic interludes, soaring melodies, and much more. The music is closely intertwined with the lyrical concept, moving from reckless slaughter to deep existential contemplation and ultimately leading our hero to the grievous conclusion that his greatest enemy may be himself - the Riddle of Steel can only be solved from within.

For Fans of epic Bathory, Moonsorrow, Vintersorg, Falkenbach, Atlantean Kodex, Manowar

SPECTRAL HAZE - I.V.E.: TRANSMUTATED NEBULA REMAINS (LIM.500*BLACK VINYL*DOOM ROCK) - 15 Euro

Soulseller Records 2014 - Limited Edition of 500 Copies in Black Vinyl, with reverse side print for outer and double sided printed inner sleeve!

Spectral Haze creates a very psychedelic and 70's orientated form of doom metal which also adds in some stoner rock elements and some modern modern aggressive sludge elements to create a very dark, heavy and ritualistic sound, the production sounds very old school yet professional at the same time while the lyrics cover Eastern Mysticism and Occultism.

Spectral Haze was first conjured from the Void three years ago, through four sonick sorcerers residing in Oslo, Norway; Cēlestial Cōbra (Battery), Döömdogg (Bass guitar), Spacewülff (Vocals, guitars) and Sönik Slöth (Guitars). Through these last few years, Spectral Haze has undulated and grown into channeling through a fifth vessel, namely Electric Starling (Theremin, VOID). The upcoming album "I.E.V.:

Transmuted Nebula Remains" follows their eponymous debut EP released in 2012 CE, and brings even more psyched out doom rock rituals.

For Fans of Hawkwind, High Priest of Saturn, Jimi Hendrix, Purple Hill Witch

Bridging the musical gap between 70's Hard Rock and the burgeoning Heavy Metal sounds of the early 80's, Wicked Step played an integral role in San Antonio earning its reputation as the Rockin' Capital Of Texas. In a time when Disco and Yacht Rock dominated the airwaves, Wicked Step stood tall in delivering no-frills, ass-kicking Rock N' Roll. Taking cues from their heroes Black Sabbath, Jimi Hendrix, Judas Priest, and Frank Marino - Wicked Step was a staple in the biker clubs, neighborhood bars, backyard parties, and guerrilla-style empty lot gigs. Heavy, crunchy guitars evoke the Germanic school along with a healthy dose of Iron Maiden while the ubiquitous double-kick drums are reminiscent of the Finnish style, though Alderson is much more brutal to his bass drums than his northern European counterparts. The vocals have a distinct US feel with their clear but gritty delivery, interspersed with a few soaring high notes. Think David DeFeis or Eric Adams.
