Divebomb Records 2014 - Brandnew BOOTCAMP SERIES #16 - Limited 500 copies - US 80's Power/Speed/Thrash Metal Killer !

Formed in 1986 by high school buddies Ken Andrews (Obituary) and Matt Riley, AZRAEL released a pair of demos early during their run (1987's Azrael and 1988's Welcome), but it wasn't until Brian Christopher, Steve Zentner and Bob Koeble (Death) joined in 1989 and 1990, respectively, that things really began to gel for the group. The new lineup began demoing material while honing their live chops opening for such acts as Death Angel, Reverend, Exodus, and Vicious Rumors. Recording most of the songs that would eventually become Television Slave in 1990, AZRAEL originally opted to use the material exclusively for promotional purposes, sending the cassettes to record labels. As time passed, and with no label interest in sight, they decided to go back and tweak out the recordings for a proper cassette release in 1992. The group sold all 1,000 copies of Television Slave they had pressed, which is remarkable because by that time, the music industry was definitely shifting away from heavy metal. AZRAEL noticed this change, leading to their decision to disband soon after. The limited edition CD release contains not only the original 7 tracks contained on the Television Slave cassette (newly mastered from original digital sources), but also several additional recordings made during that period that have never been released. Also, as a bonus, we have included their 1988 cassette release, Welcome. For Fans of Overkill, Heathen, Forbidden and Dominance

Features members of OBITUARY and DEATH – limited edition CD – only 500 units pressed worldwide – new artwork – digitally remastered – band supplied photos – full color 20 page booklet with lyrics – new interview – includes Welcome cassette as bonus tracks

Cult Metal Classic Records 2015 - Limited Edition CD/DVD Edition - Classic US 80's Metal at its very Best !

For Fans of early MANOWAR (Into Glory Ride - Era), Cirith Ungol, Warlord, Wotan, Domine

BLIND ASSASSIN, the legendary underground US metal band from California, were formed in the mid-80s and has gained a cult status through the years, due to their majestic epic metal demo tape from 1986, "Put to the Sword". The band had a totally epic image, resembling the style of MANOWAR from "Into Glory Ride" era. This demo is released for the first time on CD, with 7 bonus tracks in total! 5 of them were recorded live in a studio through some rehearsal sessions and 2 of them are taken from a live show of the band. All songs were re-mastered and restored for better listening experience.

The music of BLIND ASSASSIN will drive all epic metal fans nuts! This is what we call PURE EPIC METAL music. Very few managed to touch the majesty of MANOWAR, and we believe that BLIND ASSASSIN has been among the selected few. Similar to WOTAN's "Thunderstorm" Demo and DOMINE's Demo material.

Comes with a great 16-page booklet, including lyrics, interview with the founding member Kevin Jackson, story of the band and tons of rare photos!

Crysis was an American metal band that released just this one album in their career. The year was 1981, and there weren't that many American metal albums to keep track of. These were some really down years for U.S. metal and hard rock. Scant few heavy bands were on major labels at the time.

For Fans or early Riot, Judas Priest, Def Leppard, Anvil, NWOBHM

#### **DARK AVENGER - Tales of Avalon: The Lament (NEW\*BRA PROG/POWER METAL\*NOSTRADAMUS\*F.WARNING) - 15 Euro**

And they get back to Metal front, the Brazilian titans called DARK AVENGER, and with a new album, "Tales of Avalon: The Lament", after a hiatus of 8 years. And seems like time didn't affect them in nothing. Like wine, they're the best form ever seen.

They keep in the same musical style as before: that elegant and thunderous Heavy Metal, with great vocals (maybe Mário Linhares is the best Brazilian singer in this way), a marvelous guitar work (both in heavy riffs and melodic solos), bass and drums making a heavy and well worked rhythmic basis. And gluing all this, we have a perfect album, a truly masterpiece. 10 from 10 Points at Metaltemple.com

For Fans of Dio, Queensryche, Manowar, Fates Warning, Iron Maiden, Nostradamus

The only official recording of both bands, was in a mega rare and obscure compilation entitled "Full Force Volume One", originally released in 1988 by Reaction Records, a sub label of EBONY Records. The recording of BABY'S BREATH that was present in that compilation was the great song "Hold on to Love" that is also available in our upcoming CD release. #### **ENERTIA - Victim Of Thought DCD (NEW\*US POWER/THRASH METAL\*HERETIC\*M.CHURCH) - 16 Euro**

Divebomb Records 2014 - Brandnew BOOTCAMP SERIES #19 - Limited 500 copies - US Power/Thrash Metal at its best !

Formed in 1996, in upstate New York, ENERTIA are about to release a brand new album in 2015. Since their first run during the most commercially challenging era for heavy metal, the band has always done everything themselves. They are 100% independent, which given the circumstances is extremely impressive. Bassist, Joe Paciolla, has helped Divebomb Records with source materials in the past, and we couldn't think of a better candidate for our Bootcamp Series than ENERTIA. The band is a well-oiled machine, cranking out what could be best described as US power metal. Not the traditional keyboard-driven power metal of today. ENERTIA have always delivered metal with a certain stylistic crunch and power that only bands on this side of the Atlantic seem to deliver. Maybe it's in the water? Whatever the case may be, we aren't complaining.

Victim Of Thought is a limited 2-CD collection featuring ENERTIA's Flashpoint (1999), Momentum (1997), and Law Of Three (1996) releases compiled on 2 CDs with a few killer bonus tracks. For Fans of Metal Church, Flotsam & Jetsam, Heretic, Reverend, Sanctuary

Limited Edition CD – only 500 units pressed worldwide – new artwork – digitally remastered – band supplied photos – full color 20 page booklet with lyrics – new interview

#### **EROTIKILL - Virgin Speed (NEW\*US SPEED/THRASH METAL\*JUGGERNAUT\*WHIPLASH) - 14 Euro**

Divebomb Records 2014 - Brandnew BOOTCAMP SERIES #17 - Limited 500 copies - US 80's Speed/Thrash Metal Killer !

Arriving on the Los Angeles music scene in the late '80s, EROTIKILL was a band poised for success. As far as the succeeding in the industry was concerned, the band was doing everything right. Not only did they pound the pavement, they also had the glossy promo photos, 4 songs recorded by Joe Floyd and full color advertisements in all the best metal magazines. But something just never clicked for the group with record labels.

EROTIKILL's debut was originally titled Seek the Virgin, but changed to Virgin Speed by the time the 8-song cassette was released in 1990. The band had finally delivered their unique brand of speed metal to the masses, albeit, independently. Unfortunately, the metal scene at that time was littered with horror stories of mismanagement, and EROTIKILL found themselves at the end of a losing deal as well. While out on tour supporting the release of Virgin Speed, the group found out that tour support was no longer coming, and that their management had walked with all of their money. It was a death blow very few bands survive, including EROTIKILL. The limited edition Divebomb Records CD release contains the original 8 tracks contained on the Virgin Speed cassette (newly mastered from original digital sources), and as a bonus we have included an audio interview conducted with the band back in 1990.

For Fans of Whiplash, Juggernaut, Anvil Bitch, Nasty Savage and Hallows Eve. Limited Edition CD – only 500 units pressed worldwide – new artwork – digitally remastered – band supplied photos – full color 12 page booklet with lyrics – contains original 1990 audio band interview – new essay by PHARAOH guitarist, Matt Johnsen

Ten tracks in the vein of Fates Warning, Queensryche and Conception are featured on this great comeback album.

8,5 points from 10 in the new ROCK HARD Magazine ! The band's amazing songwriting is still the key feature in here. #### **KENN NARDI (Anacrusis) - Dancing With The Past DCD (NEW\*US TECH/THRASH METAL) - 20 Euro**

Divebomb Records 2014 - Fantastic Comeback Album of this US Tech/Thrash/Prog Metal Legend !

As the guitarist/vocalist/producer and chief writer, arranger and lyricist of Anacrusis from 1986-1993, KENN NARDI was widely recognized as one of heavy metal's most forward-thinking musical minds. After releasing four albums between 1998 and 1993 with Anacrusis, KENN NARDI went the solo route under the Cruel April moniker in 2006, weaving acoustically-driven material that was free of any genre expectations looming over his head.

On his new album, Dancing With The Past, KENN NARDI has brought together all of the signature elements of Anacrusis' sound, and melded them with the more streamlined songwriting approach of Cruel April. The result is a 2-CD collection featuring 28 brand new recordings of songs written as far back as 1994. The collection also features material borne from collaborations with KENN NARDI's former Anacrusis band mates during their 2009-2012 reunion run. Clocking in at over 2 1/2 hours, Dancing With The Past keeps true to the avant-garde spirit that made KENN NARDI's songwriting and his former band so thrilling while pushing the songwriting and compositional boundaries even further. Quite simply, Dancing With The Past promises to be the album Anacrusis fans have waiting for only full of surprises they never expected.

Hells Headbangers Records 2014 - Limited Edition DCD - US Import !

Hotter than Hell in the metal/punk underworld, MIDNIGHT's debut album, Satanic Royalty, became an instant classic upon its release in 2011. Now, with anticipation at a fever pitch, the hooded demons return with the even better No Mercy for Mayhem. Whereas Satanic Royalty was the culmination of nearly a decade's worth of hard slogging in the underground, No Mercy for Mayhem is an intensification of everything its predecessor seemingly perfected: the hooks even more anthemic, the power more piledriving, the dirt dirtier, the sum effect being absolute BLACKOUT. Really, there's no current band who are able to mainline classic heavy metal, hard-charging punk rock, and grimy rock 'n' roll quite like MIDNIGHT can, and No Mercy for Mayhem is studded-leather, 10-track proof that mainman Athenar and crew are at the top of their game and bow to no one. As an added bonus, initial CD pressings of No Mercy for Mayhem will include a bonus track and a whole bonus disc comprising MIDNIGHT's super-limited Alive on the Streets of Cleveland live LP. On your feet or on your knees, you'll get No Mercy for Mayhem from MIDNIGHT!

Germany's NIGHT IN GALES really need no special introduction to heavy metal fans. The band has been a vital part of the melodeath scene since 1996, releasing albums for Nuclear Blast, Massacre and Lifeforce Records throughout their career. So why be part of the Bootcamp series you ask? Well, besides our long-running affinity for the band, this collection predominantly represents recordings the group made while they weren't attached to any one record label. The Divebomb Records collection, Ashes & Ends, includes the long out of print Sylphlike demo EP, as well as various other demos recorded throughout the years. The true highlights of this 20-track collection includes their Ten Years of Tragedy EP (previously only available digitally), Promo MMVIII industry demo, and covers of Anthrax and Pentagram songs. **OCTOBER 31 - Bury The Hatchet (NEW\*US METAL COMEBACK\*KING FOWLEY\*EXCITER\*ATTACKER) - 13 Euro**

Hells Headbangers Records 2014 - Great US Metal Comeback Album !

Comes with a 6-page booklet featuring all lyrics. At long last, the wait is over: OCTOBER 31 deliver their long-awaited fourth album, Bury the Hatchet. The band's first album in nine years, Bury the Hatchet sees OCTOBER 31 returning with a vengeance, firing off one mean, lean headbanger after another.

Led by erstwhile DECEASED frontman/founder King Fowley, here OCTOBER 31 range their entire repertoire, which goes all the way back to the mid '90s: from thrashing-like-a-maniac attacks to heart-pumping speed metal missiles and plenty of traditional metal in between, Bury the Hatchet is varied, dynamic, and immediately memorable HEAVY METAL to the bloody, glorious end.

However, OCTOBER 31 are far, far beyond "retro" retreat; the band entirely comprises 100% dyed-in-the-wool metal maniacs, including ex-Overlord shredder Brian "Hellstorm" Williams and bassist Jim Hunter of epic metal legends While Heaven Wept and Twisted Tower Dire. Ten tracks and nearly 42 minutes, Bury the Hatchet doesn't overstay its welcome, and buries itself deep into your metal heart.

A statement from vocalist King Fowley reads: "The new album is finally done, and we are very, very pleased with the results. LOUD FUCKING HEAVY METAL is what the witch's cauldron is a'brewing! So drink up, ye olde metal muthas - DRINK UP!!!"

#### **SACRAMENT - Testimony of Apocalypse (NEW\*US WHITE THRASH METAL CLASSIC\*SACRIFICE\*SLAYER) - 14 Euro**

Retroactive Records 2014 - Limited Rerelease (Legacy Edition) of US White Thrash Metal Classic - Digipack Ed. !

Sacrament was an intense East Coast Christian thrash metal band that pushed the boundaries of early death/thrash metal, not unlike Sacrifice or Death. The music is fast and furious leaning towards the more extreme European thrash sound, as opposed to the Bay Area style. Vocalist Mike Torone has a raw, coarse, throaty voice that adds to the overall extreme vibe of the music, though he never really dives into full on death metal growls Despite the speed and intensity of the music, Sacrament does not forsake memorable songwriting.

“Conquer Death” is a full-throttle thrasher with a manic vocal delivery, one sick high-pitched scream, and a bridge with a killer groove that gives way into a mid-paced lead break. Originally released in 1990 on R.E.X. Records, Testimony of Apocalypse became an instant favorite with thrash fans. Songs like “Slave To Sin” displayed beefy thrash guitars and classic thrash vocals used to create an abrasive wall of sonic power - all coming together to create some of the finest examples of Christian thrash metal anywhere! - By Scott Waters of Ultimatum & NoLifeTilMetal.com

For Fans of Slayer, Forbidden, Dark Angel, Kreator, Death, Sacrifice

#### **SACRAMENT - Haunts of Violence (NEW\*US WHITE THRASH METAL CLASSIC\*FORBIDDEN) - 14 Euro**

Retroactive Records 2014 - Limited Rerelease (Legacy Edition) of US White Thrash Metal Classic - Digipack Ed. !

Sacrament's second album Haunts Of Violence may deserve a nomination for the best thrash metal release that most people never heard of. From the opening title track to Portraits Of Decay, this album is an ultimate piece of American thrash metal of the highest order.

Originally released in 1992 on the legendary R.E.X. label and was hyped as the heaviest disc they had ever released. And, while Death Metal was starting to dominate the scene, new vocalist Robert Wolfe showed he had the perfect voice for these thrash titans - cool, high pitched shrieky vocals that work so well with classic thrash. Haunts... is stinking' heavy and at times reminiscent of Slayer and Death. Expect loads of

gang vocals and some furious guitar playing. In the words of metal historian (and the voice of Christian thrashers, Ultimatum) Scott Waters, "This disc is EXCELLENT!" Kevin Ayers of Haven produced the disc. After the band broke up, bassist Eric Ney went on to play with Sardonyx for a short time. In 1999 he reappeared with Joey Daub (ex-Believer) in a new project called Fountain of Tears. This 2014 Retroactive reissue ensures this mega-classic thrash album is finally properly reissued with a stunning full color 4-panel digipack designed by Greg Hays and given a deluxe audio improvement when remastered by J. Powell at Steinhaus.

For Fans of Slayer, Forbidden, Dark Angel, Kreator, Death, Sacrifice

A hybrid formed from the darkness of black metal (minus the screeching vocals), doom, and goth, the band's music is simply referred to as "devil rock"! It's heavier than the usual occult rock suspects (The Devil's Blood, Ancient Wisdom, Jex Thoth, and so on), but in the same general vein both lyric- and atmosphere-wise.

#### **THE SKULL - For those which are asleep (NEW\*US DOOM METAL\*TROUBLE\*E.WAGNER) - 14 Euro**

Tee Pee Records 2014 - Brandnew comeback of EX-Trouble - fantastic US Doom Metal with Eric Wagner - Digipack Edition !

THE SKULL is the new band featuring original members Eric Wagner (vocals) and Jeff "Oly" Olson (drums) of American doom metal legends TROUBLE alongside longtime TROUBLE bassist Ron Holzner, guitarist Lothar Keller and former PENTAGRAM guitarist Matt Goldsborough.

The group's hugely anticipated debut For Those Which Are Asleep features ten tracks of elemental Heavy Metal. The record's greatest strength is how well it captures the apocalyptic trudge that TROUBLE delivered from the first downbeat of their 1984 debut, but now unequivocally propelled by the hallmarks of a hungry new band fueled by new blood. The mighty voice of Eric Wagner is on full display; the vocalist proving on For Those Which Are Asleep that he still wields an eerie power at the mic. Titanic riffs abound as Keller and Goldsborough weave ominous atmospheres over the molten, crushing core of Holzner and Olson's sinister strut. Make no mistake, THE SKULL are in complete command of their craft and have capably created a modern classic; a recording where atmosphere is established as drums crash, guitars blare and stories are told.

#### **WITCH MEADOW - Cry Of The Wolf (NEW\*US METAL CLASSIC\*BANSHEE\*LIZZY BORDEN) - 14 Euro**

Divebomb Records 2014 - Brandnew BOOTCAMP SERIES #18 - Limited 500 copies - US 80's Metal Killer !

Rhode Island's WITCH MEADOW fought tooth and nail through the '90s during a period where heavy metal was no longer the powerhouse genre it had been the previous decade. The fact that they were isolated from the influential New York and New Jersey metal scenes helped the group craft tunes that successfully merged styles without fear of outside pressure.

Even with the deck stacked against them, WITCH MEADOW were still able to deliver two amazing independent releases: 1995's When Midnight Falls and 1997's Down Eternity's Hall. Featuring equal bits of classic metal and early power metal. WITCH MEADOW were definitely forging their own path. The band also had the habit of inviting their die-hard local fans to their practice space to watch them perform due to a lack of local venues supporting heavy metal acts. The group always found a way to get their music heard, that is, until they officially disbanded in 2000.

The limited edition WITCH MEADOW release contains both When Midnight Falls and Down Eternity's Hall on one CD, remastered from the band's own source audio files. For Fans of Iron Maiden, Banshee, Malice, Leatherwolf, Lizzy Borden and Grim Reaper

Limited to 450 copies on black vinyl. All copies include a double-sided 'grindhouse' insert and 5"x5" sticker of the cover art.

Headless Eyes is a triumphant return by Blood Farmers. It's a must have for doom metal fans and if you're into 70's horror and B-movies then it's a bonus. A heavy as hell main riff rides a vicious groove and births smoldering leads in the vein of a Michael Schenker or Uli Jon Roth - this one is just a doom metal juggernaut. The three-piece of vocalist Eli Brown, guitarist Dave Szulkin (who also plays bass here) and drummer Tad Léger (original member of Westchester, NY, thrashers Toxik) have a stripped down approach to the genre!

Originally formed in 1989, BLOOD FARMERS combine the atmosphere of '70s horror with heavy doses of psychedelia and doom in the tradition of BLACK SABBATH and SAINT VITUS. The band's 1995 debut on the legendary Hellhound Records has been cited as an influential underground classic by such bands as ELECTRIC WIZARD and CHURCH OF MISERY. For Fans of Black Sabbath, early Scorpions/UFO, early Judas Priest, Orange Goblin, Pentagram, Saint Vitus, The Wounded Kings

Svart Records 2015 - Limited Edition in green Vinyl ! Hailing from Sacramento, this female-fronted three-piece plays crusty blackened doom, with just enough variety and youthful fervour to surpass the other sure-fire time-killers. Stoner Doom Metal with Black Metal influences !

Bog Oak are a fuzz-drenched blackened doom outfit from California formed in May of 2013. Their debut EP "A Treatise On Resurrection And The Afterlife" consists of four allegories that pay as much homage to Black

Sabbath and Hellhammer as they do to the metaphysics of Mulla Sadra, Suhrawardi's philosophy of illumination and the alchemy of Al-Ghazali.

With their commitment to huge, gnarly guitar and bass tones, thundering drums, and vocals that range from demonic screams to angelic cleans, Bog Oak create a heavy brew of mystical dirges and forsaken atmospheres. For Fans of Cathedral, Thorr's Hammer, Cough, Black Sabbath and Hellhammer

**BRANT BJORK - Black Power Flower (LIM.500\*PIC.LP + 2 BONUS TR.\*US STONER/DOOM METAL\*KYUSS) - 19 Euro**

Bonus Tracks. New Solo Album 2014 from the Stoner Rock Cult Figure Brant Bjork ( ex-KYUSS, VISTA CHINO ). This is the first Vinyl Edition with the 2 Bonus Tracks from the CD !!! No one can fool this man anymore: As a cult figure of the Palm Desert scene, as founder and drummer of the unfortunately no longer active Stoner-Rock legends Kyuss and a permanent member of Vista Chino (formerly KYUSS Lives!), the formation around Kyuss colleague John Garcia, Brant Bjork is washed with all (musical) waters. Now he is sailing under his own flag and proves once again that his multi-instrumental skills know no creative boundaries. With his excellent occupied Low Desert Punk Band, Bjork lets the scorching heat of Nevada shimmer in his songs. He also scrubs his guitar through all sorts of psychedelic effect pedals and skillfully mixes Stoner Rock, Blues and Doom-bonds to a feverish hazy brew. The Desert Rock Band has reached their oasis.

Hells Headbangers Records 2014 - Limited Edition Oxblood Vinyl comes with a large 18" x 24" poster & lyrics insert.

Hotter than Hell in the metal/punk underworld, MIDNIGHT's debut album, Satanic Royalty, became an instant classic upon its release in 2011. Now, with anticipation at a fever pitch, the hooded demons return with the even better No Mercy for Mayhem. Whereas Satanic Royalty was the culmination of nearly a decade's worth of hard slogging in the underground, No Mercy for Mayhem is an intensification of everything its predecessor seemingly perfected: the hooks even more anthemic, the power more piledriving, the dirt dirtier, the sum effect being absolute BLACKOUT. Really, there's no current band who are able to mainline classic heavy metal, hard-charging punk rock, and grimy rock 'n' roll quite like MIDNIGHT can, and No Mercy for Mayhem is studded-leather, 10-track proof that mainman Athenar and crew are at the top of their game and bow to no one. As an added bonus, initial CD pressings of No Mercy for Mayhem will include a bonus track and a whole bonus disc comprising MIDNIGHT's super-limited Alive on the Streets of Cleveland live LP. On your feet or on your knees, you'll get No Mercy for Mayhem from MIDNIGHT!

Alone Records 2014 - Limited Edition of worldwide only 250 x Hand numbered black 12" (140g) with full-color (CMYK) labels in a white paper bag, 2 page Insert with Lyrics + 4 BONUS Tracks ! Fantastic German Power/Speed Metal from 1989 for Fans of Helloween, Gamma Ray and Scanner! Germany's SUPERIOR released several critically acclaimed progressive metal albums in the mid to late '90s, but what most fans don't know is that it all started with their 1989 Moral Alliance cassette.

Originally released seven years before their 1996 debut album, Behind, Moral Alliance first delivered their majestic style of power metal to the masses. Sure, everyone knows about the bigger German bands, but Moral Alliance (now celebrating its 25th anniversary) effortlessly ranks up there with other classics like Walls of Jericho, Heading for Tomorrow and Hypertrace. This era was short-lived with all but two members departing the group before they decided to alter directions creatively. Regardless of the stylistic changes SUPERIOR went through, it's now 25 years later and fans of classic power metal consider Moral Alliance one of the most underrated releases of their beloved genre.

**THE SKULL - For those which are asleep (LIM.GOLD VINYL\*TROUBLE\*E.WAGNER) - 20 Euro**

Tee Pee Records 2014 - Brandnew comeback of EX-Trouble - fantastic US Doom Metal with Eric Wagner - Limited Edition in GOLD Vinyl, Gatefold Cover !

THE SKULL is the new band featuring original members Eric Wagner (vocals) and Jeff "Oly" Olson (drums) of American doom metal legends TROUBLE alongside longtime TROUBLE bassist Ron Holzner, guitarist Lothar Keller and former PENTAGRAM guitarist Matt Goldsborough.

The group's hugely anticipated debut For Those Which Are Asleep features ten tracks of elemental Heavy Metal. The record's greatest strength is how well it captures the apocalyptic trudge that TROUBLE delivered from the first downbeat of their 1984 debut, but now unequivocally propelled by the hallmarks of a hungry new band fueled by new blood. The mighty voice of Eric Wagner is on full display; the vocalist proving on For Those Which Are Asleep that he still wields an eerie power at the mic. Titanic riffs abound as Keller and Goldsborough weave ominous atmospheres over the molten, crushing core of Holzner and Olson's sinister strut. Make no mistake, THE SKULL are in complete command of their craft and have capably created a modern classic; a recording where atmosphere is established as drums crash, guitars blare and stories are told.

DEAF FOREVER geht in die dritte Runde! Und zwar mit Vollgas: Wir präsentieren euch eine prall gefüllte Kiste voller seltener, manchmal teurer und oftmals auch unverschämt teurer Tonträger jeglicher Art in unserem großen, 16-seitigen (!!!) Raritäten-Special, für das sich unser Team wochenlang durch die heimischen (Party)-Keller, Gruften und Grabkammern buddelte, die eigenen, über Jahre gehorteten Schätze - aber auch fremde - sichtete, abfotografierte und euch nun vorstellen möchte. Was macht den Metal so wertvoll? Was ist der Kern der Sammelleidenschaft, die uns alle verbindet?

Überhaupt strotzt unsere neue Ausgabe vor exklusiven Features: Wir blicken zurück auf das legendäre Debütalbum der New Yorker Nuclear-Thrash-Urgesteine Carnivore und lassen Zeitzeugen sowie das letzte lebende Bandmitglied zu Wort kommen.

Ein umfassendes Feature über Chris Black (High Spirits, Dawnbringer usw.) und sein komplettes Schaffen ist uns vier Seiten wert, und ein Special über Nidrosian Black Metal sogar stramme fünf.

Unser Rückblick aufs Hammer Of Doom-Festival ist Herzenssache, genau wie der Start-Artikel für eine fortlaufende Rubrik namens "Entartete Kunst". Außerdem besuchten wir die Scorpions im Studio und hörten in ihr neues Album rein.

Ebenfalls im Heft: Air Raid, Lucifer's Friend, Postmortem, Trial, Firewölfe, Marduk, Avatarium, Night Demon, ZOM, Allen/Lande, ein sammelwütiger Portugiese mit über 200 NunSlaughter-Vinylen, unsere beliebten Rubriken "The Dungeons Are Calling", "Die Szene bist du!" und "Forgotten Jewels", viele Daumen nach oben und etliche nach unten in unserem umfassenden Jahrespoll, neue Spitznamen für Fürchtnix Patzig, eine große Weihnachtsverlosung mit besonders coolen Präsenten und und und!
