Stormspell Records 2015 - Melodic heavy metal from Finland. Backhill is a solo project by Kimmo Perämäki (Masquerage, Crow's Flight, ex-Celesty)

The material is melodic, immensely harmonic particularly the British Metal inspired guitar, almost of the old IRON MAIDEN or even MERCYFUL FATE vintage of the early 80's, arousing, emotive and quite catchy as it created its impressive powerful hits. Perämäki, in charge of the nearly all the instruments other than the drums, showcased magnificent guitar skills, composing classic riffery and heating up with distinguished soloing. Moreover, the touch of the keyboards, some reflecting the dramatic incense of creamy AOR power balladry, did magic for the tunes.

For fans of Stargazery, Mercyful Fate, Whitesnake, Iron Maiden, Masquerage, Celesty, Altaria, Sonata Arctica, Deep Purple

Baron Steele was formed in Austin, Texas in 1985 and entered the thriving Central Texas heavy metal scene which included such notable contemporaries as WatchTower, Militia, SA Slayer, & Wyzard. The band wrote epic, well crafted tunes influenced by European greats Witchfynde and Mercyful Fate, as well as lesser known U.S. metal acts like Griffin and Warlord. A two song demo was recorded in 1987 but received very little circulation due to the band's dissatisfaction with the final studio mix. In light of this fact, the demo has become somewhat of a 'cult classic' known only to true diehard underground metal fanatics. TMU RECORDS has resurrected this lost tape, finally giving these classic songs a proper release on multi-colored vinyl. Each copy also includes a bonus CD of 6 unreleased never-before-heard tracks recorded live in the Baron Steele rehearsal crypt, a 20 page full color booklet packed with rare photos and an in-depth band interview, and an oversized 11x17 gig flyer reproduction.

Cardinal Wyrms is a three-piece band from the Bay Area. Their music is rooted in traditional, epic doom inspired by the immortal tones of Reverend Bizarre, Count Raven, and Bathory's soaring odes, but is rife with an undercurrent of filth and desperation, creating the uniquely haunting, intimate, and suffocating grandeur of their sound. Steered by drummer and vocalist Pranjal Tiwari, guitarist Nathan Verrill, and bassist Rachel Roomian, the band has been active since 2010, self-releasing their debut album and sharing the stage with

acts such as Wolvserpent, Hobbs Angel of Death, Uzala, and Sabbat along the way. Expect to find yourself lost in an alternate universe, of the void within and beyond, with these eight tracks of dusty, devilish true doom.

**ENCYRCLE - Same (NEW\*SPEED METAL KILLER\*SAVAGE GRACE\*RANGER\*ENFORCER) - 13 Euro**

Unspeakable Axe Records 2015 - Speed Metal Killer from Denmark ! One of the Highlights in 2015 !

Essentially you will like Encyrcle, if you like the music on Iron Maiden's first two records, but you wish that instead of being sung by Paul D'ianno they were fronted by King Diamond after he'd been listening to Judas Priest for weeks on end just to get Rob Halford in his mind.

Largely rooted in speed metal and steeped in the NWOBHM sound, the album has an inherent darkness lying just under the surface. Even with some of the material sounding like it could have been released in the late '80s, the band still manages to sound fresh with their approach-particularly with the NWOBHM-esque guitar melodies and higher-pitched soloing on "Facelasher." The vocals employ a varied range, but truly seal the deal when they hit their Halfordian and Dickinsonian highs. For Fans of Savage Grace, Agent Steel, Iron Maiden on Speed, Enforcer, Ranger, Speedtrap

Tee Pee Records 2015 - US Heavy/Space/70's/Prog Rock/Metal Killer from Boston - Digipack Edition.

On this second album of heaviness the American outfit treat us to another slab of infectious NWOBHM/ Prog loveliness that might not be the most original record you've heard all year but certainly pushes a number of buttons marked "hot".

Mirror Queen's take on guitar rock is both nostalgic and forward facing. The agreeable blend of twin guitar harmonies and unfettered wig outs recalls the days when the likes of Iron Maiden and Judas Priest were slugging it out for the heavy metal championship of the world but Mirror Queen imbue their art with an additional progressive flourish: listen carefully to 'Strangers in Our Own Time' and you will find lashings of Dutch Prog outfit Focus as well as some cap-doffing to Deep Purple, for example.

For Fans of Fisc, Faithful Breath, Dokken, Danger Danger, early Scorpions, Brainfever

The Album is an upbeat blending of punchy, heavy riffs, over the top AOR choruses, and chantey, fists in the air anthems; thoroughly enjoyable and pretty well done. The main benefits are the often George Lynch-esque guitar phrasing and quick tapping solos, coupled with huge, over the

top AOR choruses and plenty of heavy hitting drums that kick you in the ass. Very chorus orientated, poppy kinda sounding metal done better than many of the other wannabe US bands of the genre.

Infernö Records 2015 - Brandnew 2nd full length Album from these Canadian Thrash Metal Warriors from Quebec ! This is the jewel case Edition !

Compared to their debut, here we can find more speed/heavy references, especially in the bridges and choruses. The guys are old-school, from sound production, artwork to attitude, with tempos that stay in high levels almost always. Special reference goes to the lead guitars with catchy riffing and melodies that in times become almost epic. Bass guitar is always present, drumming is steady, solid without exaggerating and the vocal delivery is dirty with rough accent. #### **VALKYRIE - Shadows (NEW\*US Stoner/Heavy Metal\*Thin Lizzy\*Baroness\*Sabbath) + OBI - 15 Euro**

Relapse Records 2015 - Fantastic US Stoner/Heavy Metal with great twin guitars - side project of Peter Adams (Baroness) - Digipack Edition ! Shadows, the band's third full-length, was clearly worth the wait, with the band reaching new heights in songwriting and instrumental dynamics on tracks like the onomatopoeic "Mountain Stomp," the rampaging "Temple" and the spacy epic "Wintry Plains." There's plenty of Thin Lizzy-style badass twin-guitar action in these grooves, as well as flashes of St. Vitus, early Danzig and 'Sad Wings'-era Judas Priest - in other words, a whole lotta awesomeness. For Fans of Thin Lizzy, Corsair, early Danzig and 'Sad Wings'-era Judas Priest

#### **WHERE EVIL FOLLOWS - Portable Darkness (NEW\*US METAL\*ONWARD\*SATAN'S HOST\*MF) - 13 Euro**

Moribund Records 2015 - Killer US Metal with Guitar Wizard Toby Knapp (ONWARD) + Dean Sternberg on Vocals (Ashes of Ares) Underground legend/guitar genius Toby Knapp (Onward, Waxen) unveils his latest diabolical creation: WHERE EVIL FOLLOWS and their debut album, "Portable Darkness". WHERE EVIL FOLLOWS returns the six-string sorcerer to his '80s speed metal roots. Knapp and vocalist/bassist Dean Sternberg (Ashes of Ares, ex-Into Eternity) take these winding-yet-headbanging anthems down darker and more potently evil paths, turbo-charged with no small amount of power metal. Mandatory for fans of Onward, Mercyful Fate, Iron Maiden, Vicious Rumors, Crescent Shield, Satan's Host, Iced Earth, Fates Warning, Agent Steel

#### **WICKED INQUISITION - Same (NEW\*US DOOM/HEAVY METAL\*PRIVATE\*P.ALTAAR\*WITCHCROSS) - 14 Euro**

US Private Press 2015 - US Doom/Heavy Metal ! This is the debut album by US Traditional Heavy Metal Wicked Inquisition. Their previous EP Silence Thereafter was Traditional Heavy Metal mixed with Doom Metal and the band's new album continues this theme. This is song-oriented catchy music that should be instantly recognisable to anyone into Classic Metal. Add to that some 70's vibes and a bit of Traditional Doom and you have a recipe for a corker of a listen. Warm, heavy riffs are the mainstay of the band's music and they certainly know how to write them. Gorgeous leads and solos add colour to an already vibrant package and Wicked Inquisition show they're more than ready for the big leagues now.  
For Fans of Black Sabbath, Witchcross, Pagan Altar, Witchfinder General, Budgie, and Pentagram

#### **WITCH BLADE - Oskuldernas Eld (NEW\*SWE 80's HEAVY METAL\*GOTHAM CITY\*MAIDEN) - 13 Euro**

Swords & Chains Records 2015 - Raw + 80's NWOBHM sounding Heavy Metal from Sweden !  
After releasing 1 demo tape and 7" single, Sweden's Witch Blade comes out with their debut album, Oskuldernas Eld. 8 songs of raw heavy metal sung in their native language. "Oskuldernas Eld", as a record, is about as straightforward as it gets: energetic riffs, driving rhythms and shouted vocals. Unadulterated Rock 'n' Roll to the very core. The guitars bear that unmistakable "we're gonna have some fun tonight" feel that's a trademark of eighties-style Heavy Metal, with fast-paced energy-filled rhythms and blazing pentatonic solos. The vocalist is also rather typical of the genre - more power and enthusiasm than technical ability, but it works great - along with the guitar sound and frankly rather low production quality it brings a sort of pre-Dickinson IRON MAIDEN feel to it.  
For Fans of IRON MAIDEN, TOKYO BLADE, ACCEPT, ANGEL WITCH, GOTHAM CITY

Baron Steele was formed in Austin, Texas in 1985 and entered the thriving Central Texas heavy metal scene which included such notable contemporaries as WatchTower, Militia, SA Slayer, & Wyzard. The band wrote epic, well crafted tunes influenced by European greats Witchfynde and Mercyful Fate, as well as lesser known U.S. metal acts like Griffin and Warlord. A two song demo was recorded in 1987 but received very little circulation due to the band's dissatisfaction with the final studio mix. In light of this fact, the demo has become somewhat of a 'cult classic' known only to true diehard underground metal fanatics. TMU RECORDS has resurrected this lost tape, finally giving these classic songs a proper release on multi-colored vinyl. Each copy also includes a bonus CD of 6 unreleased never-before-heard tracks recorded live in the Baron Steele rehearsal crypt, a 20 page full color booklet packed with rare photos and an in-depth band interview, and an oversized 11x17 gig flyer reproduction.

Tee Pee Records 2015 - US Heavy/Space/70's/Prog Rock/Metal Killer from Boston - Limited Ed. Clear Vinyl, printed Innersleeve, download card.

On this second album of heaviness the American outfit treat us to another slab of infectious NWOBHM/ Prog loveliness that might not be the most original record you've heard all year but certainly pushes a number of buttons marked "hot".

Mirror Queen's take on guitar rock is both nostalgic and forward facing. The agreeable blend of twin guitar harmonies and unfettered wig outs recalls the days when the likes of Iron Maiden and Judas Priest were slugging it out for the heavy metal championship of the world but Mirror Queen imbue their art with an additional progressive flourish: listen carefully to 'Strangers in Our Own Time' and you will find lashings of Dutch Prog outfit Focus as well as some cap-doffing to Deep Purple, for example. For Fans of Hawkwind, Black Sabbath, Blue Oyster Cult, early Judas Priest, UFO, Focus, Deep Purple

Whereas the self-titled debut and the band's other early work had mostly been the work of two people - singer Janu Kiviniemi and guitarist Jura Salmi - with last year's EP release No 2, Sammal closed the doors on its past. Myrskyvaroitus is very much an ensemble album, and the band worked on the material as a tight-knit unit. The album was mixed and mastered by Jaime Gomez Arellano (Messenger, Hexvessel, Paradise Lost, Ulver) in London.

Dying Victim Productions 2015 - New wave of blackened + occult Heavy Metal ! Brandnew 2nd full length in a limited Edition on black vinyl + Poster, Sticker - Hounds of Megiddo features nine tracks of blackened heavy metal and a running time of around thirty-six minutes. Taking the primal styling of early Venom and blending it with a dose of rollicking heavy/speed metal a la Enforcer or Skull Fist. While that might sound like tons of fast paced and frenetic fretboard wizardry are in order, Vigilance's take on the style seems to be more focused on mid-paced songs and choppy riffing.

Vigilance is a Slovenian metal band that formed in 2010. The band released their debut full length, Queen of the Midnight Fire, in 2013, which came after an EP and a pair of demos.
