Divebomb Records 2015 - Brandnew unreleased Album, limited Edition, US SPEED/THRASH Killer !

FOR FANS OF: FORBIDDEN, HEATHEN, TOXIK, LAAZ ROCKIT, ANNIHILATOR ! By 1990, San Luis Obispo thrash act, INTRINSIC, had two releases under their belts (1987's Intrinsic LP and 1990's Distortion Of Perspective EP). But while recording what would become their sophomore album, Nails, the direction of the music industry was shifting. The industry had a "sound" they were wanting and if it did not replicate Metallica's Black Album, Pantera or Helmet most bands were pretty much out of luck. Having self-financed their new progressive thrash opus

INTRINSIC quickly found themselves out of step with the industry. So the Nails sessions were shelved for nearly 25 years, until now. The 20 page booklet contains band supplied archival photos/flyers and features full lyrics with brand new essay detailing the making of the album.

JUDICATOR - At The Expense Of Humanity (NEW*US POWER METAL*JAGPANZER*QUEENSRYCHE) - 14 Euro

Divebomb Records 2015 - US Power Metal Killer- 3rd Album - US Direct Import - For Fans Of: BLIND GUARDIAN, JAG PANZER, QUEENSRYCHE, SCANNER! JUDICATOR's third release, At The Expense Of Humanity, is a progressive power metal concept album about singer John Yelland's brother who passed away after battling cancer. The album details the story of John's family, their struggles, and his personal existential and philosophical quandaries that resulted. Musically, At The Expense Of Humanity, shows the band moving away from the Germanic power metal styles explored on their sophomore effort Sleepy Plessow and plunging into more progressive territories, as well as incorporating other elements they had yet to discover within themselves. At The Expense Of Humanity is a big, bold step for U.S. metal and JUDICATOR exhibits no signs of impeding its momentum now.

KING HEAVY - Same (NEW*EPIC DOOM METAL*CHILE*PROCESSION*CANDLEMASS*PENTAGRAM) - 13 Euro

Cruz del Sur Records 2015 - Brandnew Epic Doom Metal from Chile with members of ProceSSION + Hooded Priest

For Fans of Candlemass, ProceSSION, The Order of Israfel, Pentagram

LANCELOT - But I Just Can't Stay Behind (NEW*HMC #23*GER HARD ROCK*LIM.500) - 13 Euro

Pure Steel Records/Karthago Records 2015 - Heavy Metal Classics #23 - German Heavy Metal, 2015 Re-Release, lim. to 500 copies, certificate with hologram, coloured tray

Lancelot played bombastic rock, no heavy metal, but quite extraordinary. If you are looking for jewels of German (hard-) rock music, you will definitely find some with Lancelot. This band is an exception in the Heavy Metal Classics series, but sometimes it is "heavy" and it is always definitely good music.

MAGISTER TEMPLI - Into Duat (NEW*EPIC DOOM/HEAVY METAL*A.KODEX*I.MAIDEN*SORCERER) - 13 Euro

Cruz del Sur Records 2015 - Brandnew Album from Norway's Magister Templi and they have largely expanded their doom metal origins and are now possessed by a more epic heavy metal force circa the '80s doom circle, having more in common now with acts such as Atlantean Kodex. And they sound all the better for it.

If this isn't enough to convince you of just how great this album is, perhaps a quick listen to the powerful voice of frontman Abraxas d'Ruckus, which has improved tenfold since the band's previous full length, will be enough. His range is simply astonishing; at times one is reminded of Harry "The Tyrant" Conklin circa Ample Destruction- era Jag Panzer.

For Fans of Candlemass, Sorcerer, Iron Maiden, Manilla Road, Atlantean Kodex, Merciful Fate

MELIAH RAGE - Before the Kill (NEW*US METAL KILLER*HERETIC*M.CHURCH*RIOT*WARGASM) - 13 Euro

Metal on Metal Records 2015 - pre-MELIAH RAGE rehearsal with Mark Mastroianni on vocals: 8 songs, half of which were never re-recorded, and more classic US metal sounding, resembling quite a bit Guy Speranza era of RIOT. This 1986 rehearsal reminds us also of the MERCYFUL FATE demos and, from much younger bands, of MIDNIGHT IDOLS. The pulsating energy and the sheer enthusiasm of these young guys is palpable, and listening to this recording not only takes you on a trip down the memory lane, but makes you feel you're right there in their practice room. At least that's what it does to us. The other half of the compilation features MELIAH RAGE as we all know them, but with some previously unpublished material: the very first demo from 1987, 3 live tracks and the "Kill to Survive" song off the second demo. When Mike Munro joined the band in 1987, he brought a more thrash edge to their sound with his powerful and aggressive vocals, and they started resembling more METAL CHURCH and METALLICA. The booklet features many archival photos and an in-depth interview with the band's founder, Anthony Nichols, focused exclusively on the earliest period of the band's existence. All of the audio has been remastered, but, obviously, this release is not for those who value good recording and production above all else. If you do, stay away from this compilation, as it's as raw and authentic as it gets. This is only for true, old school metalheads who long for that special '80s vibe!

. Compilation of the earliest recordings of this established US thrash/power metal band before they signed to Epic Records.

. Includes pre-MELIAH RAGE rehearsal with never before published songs and other rare and previously unreleased songs, all digitally remastered.

. Exclusive, in-depth interview and many archival photos in the booklet.

. A must have for all old-school metal collectors.

. Cover art painted by Jowita Kaminska (Exodus, Manilla Road, Attacker, Witchburner, Forsaken, Deceased, Meliah Rage, Nomad Son, Arkham Witch, Metal Law...).

. For fans of: Riot, Metal Church, Heretic, Metallica, Flotsam and Jetsam, Wargasm, Xentrix, Paradox, Testament...

OBSCENE JESTER - Citadel's On Fire (NEW*US 80's TEXAS METAL*OLIVERMAGNUM*L.BORDEN) - 14 Euro

Divebomb Records 2015 - BOOTCAMP SERIES #22 - Limited Edition CD - only 500 units pressed worldwide - new artwork - digitally remastered - band supplied photos - full color 16 page booklet with band essay and lyrics For Fans of Oliver Magnum, Lizzy Borden, Heretic and Savage

Grace Hailing from the flourishing late 80's Texas metal scene OBSCENE JESTER were a hard working metal band who slugged it out all over the tri-state area always looking to expand their growing fanbase. In 1989 they released the Citadel's On Fire cassette to much local acclaim and not wanting to lose any momentum began work on a follow up full length album.

However, while in the process of recording that full length album something within the OBSCENE JESTER camp went awry and sadly enough it was never properly finished.

This Bootcamp Series reissue collects the original Citadel's On Fire cassette release as well as 11 bonus tracks taken from the only known copy of mix references for their unfinished album. All audio was transferred from band supplied sources and remastered by Jamie King. Cover art, by Steven Cobb, is a faithful recreation of the original Citadel's On Fire cassette release.

PRISONER - See The Scars (NEW*THRASH METAL KILLER SERBIA*SPACE EATER) - 12 Euro

RED RAZOR - Beer Revolution (NEW*BRA THRASH METAL/CROSSOVER KILLER*WEHRMACHT*TANKARD) - 12 Euro

Slaney Records 2015 - Debut CD by Brazilian Thrash Metal outfit Red Razor is available now for purchase from the webstore, Artwork from the master himself (Ed Repka) and limited to only 500 Copies.

When listening to the debut album "Beer Revolution" by Brazilian thrash metal band Red Razor the vocals remind of Tom Araya. The similarities are amazing! I would say that Red Razor is about as thrash metal as thrash metal gets. I'd also draw another close comparison to beer-worshipping German thrash metal band Tankard. It is somewhat of a thin line to walk when it's balancing between Bay area thrash metal and Germany style thrash metal, but Red Razor rises to the occasion. "Beer Revolution" manages to capture the essence of mid 80s to early 90s thrash metal.

For Fans of Nuclear Assault, Wehrmacht, D.R.I., Municipal Waste, Exodus, Slayer, Tankard and Kreator

RUBY THE HATCHET - Aurum (NEW*US OCCULT STONER/DOOM METAL*BLUES PILLS*BLOOD CEREMONY) - 14 Euro

KOZMIC ARTIFACTZ 2015 - Awesome rarities Compilation - US Stoner/Hard Rock with Occult/Doom Influences! Ruby The Hatchet is a female-fronted rock band from New Jersey, influenced by psychedelic and classic rock and inspired by vintage horror movies and the occult.

For Fans of Blues Pills, Black Sabbath, Blood Ceremony, JATAO, Jex Thoth

Ruby The Hatchet was founded as a quartet in New Jersey in 2010. The band recorded its debut full-length Ouroboros with a classical rock-lineup consisting of John Scarperia (guitar), Mike Parise (bass), Owen Stewart (drums, vocals) and Jilian Tylor as frontwoman and vocalist in 2012 and self-released it in a strictly limited run of 100 pieces on CD.

Since then a lot of things have happened. Sean Hur has been added as a constant member on organ, the band has moved to Philadelphia, a new single

(Eliminator) was released and the band got signed by the prestigious Tee Pee Records label for their second album (Valley Of The Snake) which came into the world early in 2015. And now is there a new album (Aurum) just a few months afterwards? No, it's "just" a new release without new material.

Aurum basically is a best-of-record which contains seven songs of their debut-album Ouroboros and the two songs of the Eliminator-single. In this sense it's a collector's item, which makes it possible to enjoy early songs of Ruby The Hatchet as a limited edition on vinyl for the first time. But also new fans could be interested in Aurum because it gives a quick and good overview on the band's creative work.

THE DEEP - Premonition (NEW*NWOBHM*EX DEEP MACHINE*DIO*A.WITCH*D.LEPPARD) - 13 Euro

UK Private Press 2015 - Brandnew Album - EX Deep Machine ! They may be a new name but The Deep have a long pedigree starting way back in the early 80s and a convoluted history involving members of Angel Witch, Vardis, Deep Machine. The Deep are at the melodic side of NWOBHM but their songs still pack plenty of punch, proven by the ten heavyweights on Premonition. Tony Coldham's vocals have always reminded me of Biff Byford but with a higher range. With a new line-up featuring some old collaborators, from bands they had played with in the past, the almost 1982 line-up, now unable to assume the "Deep Machine" name that certain other members of the band had assumed and resurrected, with a different line-up, opted for calling themselves "The Deep" and self-penned and financed an album, entitled "Premonition" that they started recording in 2013 only to gig between sessions and finally wrap up a couple of years later.

The album, itself is classy, classic NWOBHM, with generous amounts of melody, and features various songs from Deep Machine's 82 setlist like "The Rider", "Night-Stalker", "Premonition", "Spell-Bound" & "Saga", together with a few songs written by Strutt (which featured a couple of members of the band in the early 80s "All I Want", "You Take My Breath Away", "Out of Touch" & "Turn Me Loose". "Cold-Heated" is also another song, the band uses, and it was written in the early 90s by "The Rodford Files" project.

THE HORDE OF TORMENT - Distorted Recollections (NEW*US THRASH METALCLASSIC*SACRIFICE) - 14 Euro

Divebomb Records 2015 - BOOTCAMP SERIES #21 - Limited Edition CD - only 500 units pressed worldwide - new artwork - digitally remastered - band supplied photos/flyers - full color 20 page booklet with band essay and lyrics !

For Fans of Sacrifice, Epidemic, Possessed, Slaughter and Num Skull As part of it's ongoing Bootcamp Series, the label will issue Distorted Recollections, a compilation from late 80s underground thrash masters THE HORDE OF TORMENT. Almost two years in the making, Distorted Recollections collects the Las Vegas band's Product of a Sick Mind and Inherit the Sin demos, plus rare bonus tracks. If that weren't already enough, Divebomb Records is also including Infected, the 1987 demo the group recorded when they were still going by the name Pestilence. THE HORDE OF TORMENT had the songs, energy, and drive to succeed on a large scale, but despite all of the attention the band received from the heavy metal press of their era, they never locked down a record deal during their time together. In spite of this, fans have been trading the thrash crew's demos in the over two decades since they broke up.

Distorted Recollections features new artwork by Steven Cobb based on the band's original vision for their Product of a Sick Mind demo tape.

WULFHOOK - The Impaler (NEW*80's STYLE US METAL*METAL CHURCH*MALICE*JUDASPRIEST) - 14 Euro

Divebomb Records 2015 - Classic 80's US Metal from Detroit - US Direct Import !
For Fans Of: JUDAS PRIEST, MALICE, GRIM REAPER, METAL CHURCH WULFHOOK, having formed in 2009, is a five piece American heavy metal band from Detroit, Michigan. They have impressively self-financed three remarkable demos including 2012's stellar Sacrifice, which are the recordings that lead to their deal with Divebomb Records.
Their debut album, The Impaler, is a culmination of years of hard work and overcoming unforeseen adversities along the way. The end result, which was mixed by Jamie King at his Basement Studios, is nothing short of magnificent. The Impaler, simply put, is an unrelenting sonic attack that reveals a band that is completely unaffected by what's popular or what other musicians are doing and is zeroed in on exactly what will make WULFHOOK stand out in the over-crowded underground scene. No tongue in cheek retro throwback, just straight up heavy metal..

Cruz del Sur Records 2015 - Brandnew Limited Edition DLP in Black Vinyl - 350 copies, Gatefold Cover, with 2 bonus tracks / 4-page booklet and download card! DARK QUARTERER, the legendary Italian band from 1980, known as pioneers of epic progressive style, come back with their 6th full-length album "Ithaca". Their style could be best described as an amalgam of '80s epic heavy metal with '70s progressive rock, and some elements of doom. Masterful musicianship and songwriting is a guarantee with this band, and this shows in the instantly memorable songs that reveal more sublime details with every spin of the album. Their music is very warm, full of various emotions and moods, much thanks to the impressive vocal use, ranging from mystical and fragile sounding sotto voce, through more eccentric singing and falsettos, to full-on powerful metal delivery. Lyrically, it's a concept album inspired by the poem "Ithaca" by Constantine P. Cavafy, in which Odysseus' travel back home from the Trojan War is seen as a metaphor for life, where the goal is not important, but the journey itself. And the album itself is a fascinating journey through sound and words. Spellbinding, unconventional, quirky... A unique and monumental work of art which could be also described with just one word: EPIC.

For fans of ADRAMELCH, MANILLA ROAD, THUNDER RIDER, SLOUGH FEG, as well as Italian prog rock bands like THE TRIP or GOBLIN.

WITCH BLADE - Oskuldernas Eld (NEW*LIM.100*ORANGE+PATCH*SWE 80's METAL*GOTHAM CITY*MAIDEN) - 19 Euro

Dying Victims Productions 2015 - Limited Edition - 100 copies in Orange Vinyl + Patch + Sticker + Poster + Insert !
Raw + 80's NWOBHM sounding Heavy Metal from Sweden !

After releasing 1 demo tape and 7" single, Sweden's Witch Blade comes out with their debut album, Oskuldernas Eld. 8 songs of raw heavy metal sung in their native language.

"Oskuldernas Eld", as a record, is about as straightforward as it gets:

energetic riffs, driving rhythms and shouted vocals. Unadulterated Rock 'n'

Roll to the very core. The guitars bear that unmistakable "we're gonna have some fun tonight" feel that's a trademark of eighties-style Heavy Metal, with fast-paced energy-filled rhythms and blazing pentatonic solos.

The vocalist is also rather typical of the genre - more power and enthusiasm than technical ability, but it works great - along with the guitar sound and frankly rather low production quality it brings a sort of pre-Dickinson IRON MAIDEN feel to it.

For Fans of IRON MAIDEN, TOKYO BLADE, ACCEPT, ANGEL WITCH, GOTHAM CITY

MAGAZINES

DEAF FOREVER #7 (NEW*GER METAL MAG*GÖTZ K.*LEMMY*POSSESSED SPECIAL+ POSTER) - 6 Euro

Brandnew 7th Issue of the Heavy Metal Magazine around Götz Kühnemund - written in German language - over 130 pages, full colored + Poster (Judas Priest - Killing Machine + Sulphur Aeon Album Cover. Der Endspurt der Festivalsaison 2015 hat begonnen, und DEAF FOREVER wartet mit einer neuen, prallgefüllten Ausgabe auf!

Bringt man den Inhalt von Nummer 7 auf den Punkt, so könnte man sagen: Wir bieten Euch eine knackige Mischung aus gestandenen Kämpfern (deren Alterswerk so stark ist, dass es Fans mehrerer Generationen begeistert) und blutjungen Helden, denen die Metal- und Hardrockwelt fortan zu Füßen liegt.

Der Boss aller Altvorderen himself – der beinahe 70-jährige Lemmy Kilmister – traf sich mit Götz zu einem langen Gespräch und bringt alle Themen unserer Zeit klug, furztrocken und humorvoll auf den Punkt.

Ebenfalls klare Worte gibt's vom "Triple S": Slayer, Savatage und Satan! Dem gegenüber steht die Jugend: Dead Lord, Black Trip und Thundermother berichten alles Wissenswerte zu ihren neuen Knalleralben. Path Of Samsara, (Dolch), Steorrah, Grave Pleasures und Christian Mistress stellen wir Euch vor, weil wir überzeugt sind, dass diese Bands am Anfang einer großen Zukunft stehen. Und auf Ahab, Orchid, Speedtrap und Cattle Decapitation ist erneut Verlass...

"Metal Rules The Globe" lautet der Titel einer neuen Serie, in der Euch Manuel Trummer diverse Städte aus Heavy-Metal-Sicht vorstellen wird. Den Anfang macht die türkische Metropole Istanbul.

Im Zuge unserer Rubrik "The Arts Of Destruction" stellen wir Euch die surrealen Arbeiten des Coverkünstlers Markus Vesper vor – und zuweilen surreal erscheinen auch die Erinnerungen der Mitglieder des Death-Metal-Urgesteins Possessed an ihre wilden Anfangstage und an die Entstehung ihres Debütclassikers "Seven Churches", der nun 30 Jahre alt wird.

Weitere Highlights der Ausgabe: der zweite Teil des "Earmageddon"-Specials über die Space-Rocker Hawkwind, ein Überblick unseres Langhaardackels Volkmar über rare Death-Metal-Singles aus der Zeit zwischen 1988 und 1994 im Rahmen unserer "Heavy-Metal-Schätze"-Rubrik, Interviews mit Gus G., Annihilator, Imperial State Electric, Year Of The Goat, Krisiun, Skeletal Remains, unsere beliebten Rubriken Forgotten Jewels, The Dungeons Are Calling, Soundtrack Of My Life, Battle Of The Records, Maniac der Ausgabe, Under A Funeral Moon und und und.

Unbedingt lesenswert sind auch unsere Reportagen über die geschmackssicheren Festivals Muskelrock, Bang Your Head!!!, Chaos Descends, Protzen Open Air sowie Funkenflug. Ein Poster mit zwei ausgesuchten Kult-Motiven gibt es natürlich ebenfalls.

Nun denn: Jede Menge Lesestoff wartet auf Euch!
