ARTCH - For The Sake Of Mankind (NEW*NOR METAL CLASSIC*4 BONUS TRAX*I.MAIDEN*M.CHURCH) - 14 Euro

Divebomb Records 2015 - Limited Edition + 4 Bonus Tracks ! Heavy Metal All time Classic from Norway !
History books have heralded Norway as the black metal movement's most fertile breeding ground, but the country's heavy metal scene isn't exclusively about corpse paint and Helvete. One of the finest and most underrated groups to come out of the land of 10,000 lakes is undoubtedly ARTCH. Formed in 1983, the power metal outfit released two demos before hooking up with Eric Hawk, a killer vocalist from Iceland. With Hawk on board, ARTCH would eventually sign with Metal Blade Records and release Another Return, their debut full-length. Arriving in stores in 1988, the album garnered rave reviews from the heavy metal media of the day. Kerrang! blessed the record with a perfect 5-K rating, while Metal Forces deemed it an instant classic, giving it 100 points, the magazine's top score. Featuring new liner notes, rare photos, and bonus tracks (on For The Sake of Mankind), these discs will surely sell out of their limited edition runs. FOR FANS OF: IRON MAIDEN, DIO, MALICE, FLOTSAM & JETSAM, METAL CHURCH

ARTCH - Another Return (NEW*LIM.ED.*NOR METAL CLASSIC*I.MAIDEN*M. CHURCH) - 14 Euro

Divebomb Records 2015 - Limited Edition! Heavy Metal All time Classic from Norway ! 1991 saw ARTCH unleash their sophomore album, For the Sake of Mankind. The record was packed with anthemic tracks such as "When Angels Cry" and "Titanic," and it also finds the band also introducing more hard rock elements into their sound. As great as For the Sake of Mankind is, it failed to bring them commercial success, eventually leading to ARTCH's breakup in the early '90s. Their lack of mainstream attention never got in the way of ARTCH's popularity within

the underground metal scene in the following decades. Featuring new liner notes, rare photos, and bonus tracks (on For The Sake of Mankind), these discs will surely sell out of their limited edition runs.

FOR FANS OF: IRON MAIDEN, DIO, FIFTH ANGEL, SAXON, METAL CHURCH

AS DARKNESS DIES - As Darkness Dies (NEW*US METAL KILLER*EX-GRAVEN IMAGE) – 13 Euro

Pure Steel Records 2015 - US Metal, 2015 Album, with 1 Bonustrack ! US Power Metal from the EX Graven Image ("The Future Started Yesterday") at its best incl. Harry Blackwell (ex-Steel Prophet), produced by Mike Vescera (the voice of Obsession).

Being old school from the start, As Darkness Dies's heavy metal begins with the fundamentals of melody and harmony, notably in the twin guitars and solid vocal harmonies (provided by music veteran Martin O'Brien - former Beyond Reality/Ex-Weapon X). Then there's the pace of speed for some generous galloping power metal.

ASIA - Armed to the Teeth (NEW*US EPIC HARD ROCK*LEGEND*WARLORD*RUSH) – 13 Euro

Blood And Iron Records 2015 - PROGAOR Series # 1 - Cult rare Heavy Pomp/Prog Rock from the U.S. These American Asia only recorded two albums, one in 1978 and this one which is a true masterpiece in 1980. This album predates for a few years along with Legend's From the Fjords the Epic Prog Metal genre followed later by bands like Warlord and Dark Quarterer. Influenced by monsters like Uriah Heep, Styx, Rush and Black Sabbath, Asia cemented their name on all the want lists of the Prog/Pomp collectors as well as the traditional Metal ones. Acid Nightmare released a few years ago Alpha Centauri and Legend so you know what to expect Out of Rapid City in South Dakota, from the ashes of the defunct band Whitewing (one very rare album much desired in Prog collectors circles), came ASIA, which recorded two independently released albums in 1979 and 1980 respectively. The band gained some momentum for a while, opening for major acts like Nazareth, Ted Nugent, Kiss, Molly Hatchet, etc. Unfortunately the demise of Asia came with the delusion of legal battles for the name with the British Pop-AOR Asia. The band legacy these days relies mostly on their cult masterpiece "Armed to the Teeth", released in 1980. An album that predates the Epic Progressive Metal genre later pursued by bands like Warlord and Dark Quarterer, but also pleases any Pomp/AOR/Prog Rock fan. The only Asia CD release dates back from 1995 on the Wild Places label, but

since the CD edition is very sought after now, we decided to team up with band leader Mike Coates and repackage again the two albums on one CD, but this time with an even bigger booklet of 32 pages, where the full band

history is presented, as well as the projects pre and post Asia, rare pictures and the lyrics to both albums.

For Fans of Legend, Warlord, King Crimson, Dark Quarterer, early Rush, Alpha Centauri

BETSY (BITCH) - Betsy (NEW* LIM. ED.+BONUS TRACKS*US METAL*WARLOCK*HELLION) - 14 Euro

Divebomb Records 2015 - Limited Edition + Bonus Tracks of US Metal with classic Female Vocals of the BITCH !

Betsy Weiss, aka Betsy Bitch, has been a mainstay in the hard rock and heavy metal scene since the early '80s. The Los Angeles-based vocalist's band, BITCH, was the first band to ever release a record on future indie label giant Metal Blade. BITCH is still active decades later, performing with artists like Doro and Loudness, and playing festivals throughout the globe. Despite BITCH's success, Weiss agreed to change the name of the band to BETSY in 1988 to see if it could help them reach a wider audience. Working with producer Chris Minto, the band released an eponymously titled album that same year. The resulting record features some of the most magnetic

songs in Weiss' discography. Songs like "You Want It, You Got It" and "Flesh and Blood" are hook-filled affairs that any fan of Pat Benatar and melodic rock in general will absolutely eat up. The BETSY moniker might have only lasted for the one album, but the material certainly deserves a revisit. Originally released by Metal Blade, Betsy has been out of print for years now. That's where Divebomb Records come into the picture. The label secured

the rights to reissue the album and worked closely with Betsy Bitch on the expanded liner notes. Not only does the CD include a brand new interview with the singer, it also features photos from her personal archives. If you love hard rock and AOR, the Betsy album deserves a space in your CD collection. FOR FANS OF: BITCH, GIRLSCHOOL, BLACKLACE, HELLION, ROCK GODDESS, WARLOCK

Blind Illusion is one of the most extravagant US-Metal Bands from the 1980s."The Sane Asylum" is their only release and also the album debut of Les Claypool (Primus). The guitarists Larry Lalonde (Possessed, Primus) and bandleader Mark Biedermann (Blue Oyster Cult "Imaginos") wrote sensational arrangements and created a many faceted style of thrash metal with zappaesque 70s hardrock elements. The remastered World In Sound version comes with liner notes by M. Biederman, unseen photos plus previously unreleased bonustracks taken from the 1985 "Trilogy of Terror" demo, which was produced by Kirk Hammett. BLITZKRIEG- A Time of Changes (NEW*LIM. 30th Anniversary ED.*NWOBHM + BONUS) - 15 Euro

Metal Nation Records 2015 - UK Direct Import - NWOBHM Classic 30th Anniv. Rerelease + Bonus Tracks !

2015 sees the 35th anniversary of the English classic rock band , Blitzkrieg who came into existence in 1980. Although their debut single (on Neat records) was released in 1981 , 'Buried Alive b/s Blitzkrieg' it was not till 1985 that the band recorded their debut album as vocalist Brian Ross was involved with his other band , Satan recording and touring their debut opus ' Court In The Act ' . 30 years on because of catalogue sale and resale 'A Time Of Changes ' is lost in the vaults of corporate hell and may never see the light of day again. That said the current line up of Blitzkrieg wanted this album available to fans so they have completely rerecorded the album and added two bonus tracks . 'Too Wild To Tame' which should have made the LP back in 1980 but for time restrictions of vinyl then would not fit ! (It was originally covered by another Neat records stablemate , Avenger in the 1980's)

The second bonus track , 'Jealous Love ' , has never been released before though written at the time .

All the classic tracks are here too on this album including many still played live today which included the Metallica covered 'Blitzkrieg' track . It also features guess twin guitar appearances on 'Pull The Trigger' by Satan's Russ Tippins and Steve Ramsay. Great new artwork has been commissioned for the new version too by South American artist Ivan Chacon fronting a new 12 page booklet full of sleeve notes by Brian Ross , lyrics and new photos from the past and present line up..

Divebomb Records 2015 - No strangers to Divebomb Records, South Carolina's EVERTHRONE have returned to the label after the successful release of their Jamie King produced debut album, Evil Tongues, via the label's Bootcamp Series which not only reissues obscure lost treasures of the past, but also is a showcase for new artists through alternative promotion helping to support them while they get a foothold within the industry. Looking to capitalize on the acclaim of Evil Tongues and sharing stages with FATES WARNING, FIREWIND and TURISAS the group teamed up with renowned producer Don Debiase at the Lava Room/Studio D (Cleveland, OH), sculpting 10 new tracks that beautifully showcase their innovative and bold new approach to dark wave-driven metal.

The result of this new creative partnership is, The Dawning, an album which easily advances some of the themes and styles found on Evil Tongues but also takes the band to new artistic heights. The Dawning more than delivers on the promise of EVERTHRONE's previous work. Quite simply, this is a band that even the most jaded heavy metal critic won't be able to deny.

FINAL SIGN - Hold High The Flame (NEW*US POWER/THRASH METAL*OVERKILL*HELSTAR*REVEREND) - 14 Euro

Divebomb Records 2015 - Brandnew US Power/Thrash Metal Killer. It's a ravenous blend of US power metal, thrash and old school heavy metal—executed with unbridled anger and intensity!

The musical partnership between vocalist Shawn Pelata and guitarist Brian "Hellstorm" Williams dates back to 1999, when Brian contacted Shawn with the hope of recruiting him to sing for a new project he was putting together. That short-lived endeavor became K-OCTAVE—yielding a single, highly praised album, Outer Limits, issued via Germany's Hellion Records in 2001.

Williams then continued with his main band, underground metal giants OCTOBER 31; while Pelata released two albums with melodic rock outfit LINE OF FIRE, as well as working with metalcore cultists KILLWHITNEYDEAD. The two kept in touch, vowing to one day work together again when the time was right. FOR FANS OF: OCTOBER 31, HELSTAR, REVEREND, EXCITER, OVERKILL, HERETIC

FOGG - High Testament (NEW*US HEAVY/DOOM*WO FAT*GYPSY KISS*MOTHERSHIP) - 15 Euro

Tee Pee Records 2015 - High Quality Heavy Rock/Doom Metal from Texas again !

An acoustic intro kicks off the album with Joy of Home, but things get heavy pretty quickly as band axe-wielder Chase intensifies the listening experience with the blues-laden, and heavy as hell riffs that bring one back to the glory days of Sabbath in the 60s and 70s.

Much of the instrumental section of FOGG, such as the bass lines of Brandon and the drums of Ethan remind one of records such as Black Sabbath and Paranoid, a nice throwback to the early days of doom metal and metal in general. The leads and solos of Chase in particular aligns FOGG with these doom godfathers, and often one would mistake these moments as lost moments of Black Sabbath. For Fans of Led Zeppelin, Wo Fat, Mothership, Mirror Queen, GYPSY KISS, Black Sabbath

FORGOTTEN CHILD - Forgotten Child (NEW*LIM.ED.*US METAL CLASSIC*THE RODS*HAMMERON) – 13 Euro

Although existing since 1996, they have (including this) released 5 records, and well established their sound as a dynamic threading of Heavy, Power, Thrash and Progressive Metal. HOLOSADE - A Circle Of Silent Screams (NEW*SPEED METAL CLASSIC*RAZOR*HALLOWS EVE) – 14 Euro

Divebomb Records 2015 – BOOTCAMP SERIES #23 - UK Speed/Thrash Metal Classic

Following the release of their debut album Hell House in 1988, HOLOSADE ran into all sorts of member departures (Simon "Jack Hammer" Jones taking up rhythm guitar for SABBAT and Damien "Michael" Lee jumping behind the kit of Scarborough rockers LITTLE ANGELS). The future became so uncertain that in 1991 they eventually drifted into a hiatus.

Fast forward to 1994, Phillip de Sade (vocals) and Gary Thomas (guitar) decide to get together to record the last batch of songs the group had worked up before it's hiatus. Joining them once again was Simon Jones along with newer members Andy Barker (drums), Steve Wright (bass) and Fred Purser from Tygers of Pan Tang on the keyboards. This new and revamped HOLOSADE recorded 12 songs that was a perfect follow-up to Hell House, but the industry had changed and they couldn't find a label to support them or the release of A Circle Of Silent Screams. So, the recordings sat unreleased for 20 years, until now. This is the first official release of HOLOSADE's sophomore album, A Circle Of Silent Screams. Sourced from the band's original DAT master and remastered by Jamie King, this album fulfills everything HOLOSADE fans have been yearning for and more. Limited edition of 500 copies - new interview with Phillip de Sade - archival photos - 8 page booklet - new artwork by Steven Cobb, For Fans of Anthrax, Hallows Eve, Abattoir, Razor

HOLOSADE - Hell House (NEW*UK SPEED METAL*DELUXE + 6 BONUS*ABATTOIR*RAZOR) – 15 Euro

Divebomb Records 2015 - UK Speed/Thrash Metal Classic + 6 Bonus Track !

HOLOSADE hail from Darlington in the North East of the UK which was also home to such revered acts as VENOM, RAVEN, ATOMKRAFT and WARFARE. Originally intended to be an EP, Hell House, was released in 1988 as a full length based on the label's confidence that HOLOSADE had a surefire formula to success which combined a gritty mixture of Anthrax and Di'anno-era Iron Maiden. HOLOSADE delivered little in the way of sophistication and refinement, but they were a raucous quintet full of honest under-arm sweaty stains and intrinsically British. It wasn't long after the release of Hell House that the plague of line-up changes resumed and HOLOSADE slowly fell apart with some members departing to such notable UK acts SABBAT and LITTLE ANGELS.

Here is the release of Hell House in this special deluxe edition reissue. The 20 page booklet contains band supplied photos, archival magazine features and full album lyrics. This edition also contains 6 bonus tracks, four of which are from a previous unreleased BBC 1 Rock Show Session. FOR FANS OF: ANTHRAX, HALLOWS EVE, ABATTOIR, RAZOR

Blood And Iron Records 2015 - US DOOM Metal Killer Classic ! Limited Edition of only 300 copies ! Eric "Ike" Baestlein, the mainman behind Blind Legion, Lost Breed and Cardiac Noose, dug deep on his personal vault and discovered this precious gem for all the old school Doom fans! After Wino left the band in 1989 and Gary Tocco (Blind Legion singer) joined briefly the band, they recorded songs for the Desert Fox/No Hope single plus some more songs that would be for the supposed first Lost Breed album. The tape was shelved and forgotten after they found a permanent singer and got a deal with Hellhound Records in 1993 for their first album "The Evil Between you and me". These 12 songs include not only the 1989 self released 7" songs but the Wino Daze demo songs with different lyrics sung by Tocco, except two of them by another singer who was with the band for a short time only. Some of these songs were later reworked with different lyrics for the debut Hellhound album. Needless to say, this is the best period of the band and a must-have in any decent Doom Metal collection! A second demo, Equivocal Quiescence, was released in early 1991 leading to their deal with Shark Records. Later in 1991, OSIRIS released their one and only album, Futurity And Human Depressions, a progressive whirlwind consisting of 7 songs and clocking in at nearly 55 minutes. SACRED STEEL - Reborn In Steel (NEW*LIM.DELUXE ED. + 8 BONUS TR.*GER METAL CLASSIC) – 13 Euro

Skol Records 2015 - SACRED STEEL do not play Heavy Metal. They ARE Heavy Metal, or to be more exact: True Heavy Metal. Back in the middle of the '90s, when Classic Metal was fighting for its survival and was losing, bunch of Heavy Metal maniacs from Germany got tired of new trends in Metal, and decided to start a band which would celebrate the legacy of legends such as AGENT STEEL, MERCYFUL FATE, SANCTUARY, OMEN, CIRITH UNGOL, early MANOWAR or HELSTAR. Not only they succeeded, and got signed to the legendary Metal Blade Records as the first German band ever, but they managed to ignite the fire that the scene needed, and they were in the front row of maniacs who were responsible for the revival of True Heavy Metal in Europe. Exclusive, expanded edition reissue of their already rare, classic, and out of print debut from 1997, "Reborn In Steel". The CD will be limited to 1000 copies worldwide. Package will include 8 previously unreleased bonus tracks (no live recordings and no interviews), thick booklet with lyrics, lot of previously unseen photos, and killer liner notes written by Gerrit P. Mutz – band's singer, also known from cooperation with bands such as BATTLEROAR and DAWN OF WINTER. The album has been remastered by Bart Gabriel (CRYSTAL VIPER, SATAN'S HOST, BURNING STARR), who also produced band's most recent studio album, "The Bloodshed Summoning" (out on Cruz Del Sur in 2013).

SANCTUS - Same (NEW*NWOBHM CLASSIC*SHIVA*TRESPASS*MARQUIS DE SADE) - 13 Euro

High Roller Records 2015 - Brandnew NWOBHM Classic - Limited to 500 Copies ! It's no exaggeration to say that Marquis De Sade, formed in late 1979/early 1980, is one of the most legendary bands of the entire New Wave Of British Heavy Metal period. Their sole 7" single "Somewhere Up In The Mountains"/"Black Angel" has over the years turned into the holy grail for serious NWOBHM collectors. The band has, quite convincingly, often been described as a mixture of Hell, Dawnwatcher and Kraken. Marquis De Sade split up in late 1982. Until then, they had performed more than 50 gigs (in roughly two years). After the demise of Marquis De Sade, guitarist San Remo immediately formed a new band called Sanctus. Musically Sanctus is more or less a direct continuation of Marquis De Sade. Maybe a bit more far out and spacey. "King For A King" for example is quite long and progressive, "Gates Of Sorrow" features some occult lyrics. The album also contains an outstanding re-recording of the Marquis De Sade classic "Welcome To The Graveyard". The current anthology collects the whole Sanctus catalogue, nine songs all in all (recorded between 1982 and 1983). Dreamy compositions such as "Temple In The Sky" or "Creature From Vercenta" show some slight influences of other NWOBHM acts such as the mighty Trespass and Shiva.

SATAN'S SATYRS - Don't Deliver Us (NEW*US PROTO METAL*W.GENERAL*PENTAGRAM) – 14 Euro

Bad Omen Records 2015 – This trio of rock n roll heathens bash away at their instruments like the last 40 years of hard rock never happened. We're talking a primitive and primal sound that harkens back to pre-Black Sabbath heavy metal. A time when crazy longhairs were discovering the joys of over-amplification and fuzz pedals. Call it proto-metal, if you like, but Satan's Satyrs harken back to the glory days of the early hard rock, even adding a dash of proto-punk attitude and enough modern touches to make it fresh and exciting.
For Fans of Witchfinder General + Pentagram

SPEEDTRAP - Straight Shooter (NEW*HEAVY/SPEED METAL*RANGER*ENFORCER*EXCITER) - 14 Euro

Svart Records - 2015 - Brandnew Heavy Metal/Speed Metal Killer from Finland Speedtrap's debut album, Powerdose, took many by surprise and left many established acts eating dust on several end-of-the-year lists in 2013. Metal Hammer called it "metal fed on a diet of Motorhead and alcohol, Exciter and suspect powders - high octane and hellbent for leather" while InvisibleOranges.com considered it a "fist-raising triumph." Since then, Speedtrap have performed across the European continent and also gone through some lineup changes: Jaakko Hietakangas (ex-Ranger) has joined the ranks as second guitarist, and Antti Salminen has taken up bass duties while earlier bassist Markus Hietamies has switched to the drum-set. Even though Speedtrap still are a loud, obnoxious bunch of catchy riff-mongers with no regard for speed limits, Straight Shooter also showcases the band's ability to push the envelope and, with their new dual-guitar setup, write memorable songs that twist and turn like a drag racer on LSD. For Fans of Ranger, Bullet, Judas Priest, Exciter, Diamond Head, Motörhead, Enforcer

Their debut album, "Of Terror and the Supernatural" has been obliterating the underground Temple of Void is poised to reign death and dooms the world over. Drawing comparisons to titans of death and doom metal like Asphyx, Autopsy, and Hooded Menace, Temple of Void is carving their niche among an elite company of bands. The riffs are bulldozer-like, the vocals are monstrous, and the album was mastered by Tony Hamera from the legendary cult Detroit death metal act, Fatal. The production is often cited as another key element to the sheer power of the debut. But the most heralded aspect of Temple of Void's first album is the quintet's song-writing mastery. Divebomb Records 2015 - Limited Editon + Bonus Tracks of an all time US Metal Classic ! Portland's WILD DOGS strategically decided to switch things up after two successful albums with popular indie metal label, Shrapnel Records. The first major change came with the recruitment of new vocalist, Michael Furlong, to fill the newly vacant front man position. His arrival brought with it an entirely new range and influence the band magnificently channeled into their compositions. Secondly, the band collectively decided to supercharge their ferocious musical tactics for what would become their magnum opus, Reign Of Terror, which helped to define and influence US Power Metal for years to come. Originally released in 1987, Reign Of Terror was supposed to set the scene afire with its potent mixture of power metal and blazing thrash metal, but the timing couldn't have been any worse. Their new label, Enigma Records, went belly up a few months after the album's release and that was that. The band did continue on without label support playing shows when they could and even began work on a follow up album. However, music industry climate in the early 90s was not promising for metal acts and WILD DOGS decided to throw in the towel. Divebomb Records is excited to present Reign Of Terror in this special deluxe edition reissue. The 20 page booklet contains band supplied archival photos and features full lyrics with brand new interview with Jeff Mark detailing the making of the album. This edition also contains 3 high quality pre-production demos including the never before released track, "Eat You Alive." This is a reissue for the fans, by the fans. FOGG - High Testament (NEW*LIM.BLACK VINYL*US HEAVY/DOOM*WO FAT*GYPSY KISS*MOTHERSHIP) – 15 Euro

Tee Pee Records 2015 - High Quality Heavy Rock/Doom Metal from Texas again ! Lim. BLACK Vinyl. An acoustic intro kicks off the album with Joy of Home, but things get heavy pretty quickly as band axe-wielder Chase intensifies the listening experience with the blues-laden, and heavy as hell riffs that bring one back to the glory days of Sabbath in the 60s and 70s. Much of the instrumental section of FOGG, such as the bass lines of Brandon and the drums of Ethan remind one of records such as Black Sabbath and Paranoid, a nice throwback to the early days of doom metal and metal in general. The leads and solos of Chase in particular aligns FOGG with these doom godfathers, and often one would mistake these moments as lost moments of Black Sabbath. For Fans of Led Zeppelin, Wo Fat, Mothership, Mirror Queen, GYPSY KISS, Black Sabbath

Shadow Kingdom Records 2015 - Fantastic new Album from these Portuguese Barbarian Metal Warriors - this is Epic + obscure US influenced Barbaric Heavy Metal ! Limited Edition DLP in Splatter Vinyl, Gatefold Cover! It seems like it's been over a decade since we've heard some new IRONSWORD, but technically it's only been about 7 years since "Overlords of Chaos" came out. When that album came out it was by far their best album in their full-length catalog. What shines the most on this album is their EXCITER (Canadian 80's Classic Heavy Metal) influence. They really put some speed precision into some of these new songs and if you've never heard this band before, think of a blend of IRON MAIDEN and EXCITER and you're awfully close to what they sound like. If you're into more obscure metal, throw in BROCCAS HELM and MANILLA ROAD along with the other two above mentioned bands and you're pretty much dead on to what they sound like. This album screams cult classic in the making and this will be a treat for heavy metal fans just getting into this band as it's not only a great album, but a great place to start with this band as well. For Fans of Manilla Road, Iron Maiden, Manowar, Running Wild, Thor, Broccas Helm, Exciter and Cirith Ungol

DEAF FOREVER #8 (NEW*GER METAL MAG*I.MAIDEN*WATCHTOWER*RAM*+POSTER) - 6 Euro

Brandnew 8th Issue of the Heavy Metal Magazine around Götz Kühnemund - written in German language - over 140 pages, full colored + Poster (Blue Öyster Cult + Deserted Fear) "Im Herbst habt Ihr mehr Zeit zum Lesen, also stocken wir Euer Lieblingsmagazin auf straffe 148 Seiten auf! Warum sind Metal und Hardrock vielseitiger denn je? Warum strotzt unsere Szene vor Vitalität? Warum ist das Hier und Jetzt so spannend? Unter anderem deshalb, weil eine neue, enthusiastische, extrem coole Generation von Metal- und Hardrock-Frauen eifriger denn je mitmischt und dabei uns alle aufmischt. Diese neue Frauenpower haben wir zum Thema unserer großen Titelstory gemacht, und mit dabei sind u.a. Marta Gabriel (Crystal Viper), Elin Larsson (Blues Pills), Britta Görtz (Cripper), Liv Jagrell (Sister Sin), Jessica Thoth (Jex Thoth), Milena Eva (Gold), Stacey Peak (Savage Master), Alia O'Brien (Blood Ceremony), Annick Giroux (Cauchemar), Liz Blackwell (Castle), Johanna Sadonis (Lucifer), Robin Mazon (Gruesome) und Francis Tobolsky (Wucan). Umfassende Interviews liefern wir euch mit Iron Maiden (Bruce Dickinson - interviewt von der kompletten DF-Redaktion), Scorpions (Matthias Jabs und Rudolf Schenker), Saxon (Biff Byford), Ram, Secrets Of The Moon, Queensryche, Horisont, Avatarium, Macbeth, Graveyard, Degial, 77, Black Breath, Travelin Jack, Denner/Shermann, Clutch, Cruciamentum, Division Speed sowie Malevolent Creation. Ferner wartet ein umfassendes Feature über die Progötter Watchtower ebenso auf euch wie unser aufwendig gestalteter Rückblick auf das Party.San Open Air (unser zweites Zuhause). Während Peter Hesse gemeinsam mit Dead Lord und Audrey Horne auf großer Fahrt war und ein Tourtagebuch führte, wühlte unser Team mal

wieder in seinen Heavy-Metal-Schätzen, um euch einige Juwelen vorzustellen. Die kanadische Stumpf-Institution Blasphemy mischt auf unnachahmbare Art und Weise unsere "Under A Funeral Moon"-Seiten auf, und auch die Echtmetal-Rubrik "The Dungeons Are Calling" bietet wieder jede Menge starken Underground-Stoff. Ebenfalls an Bord: eine neue Folge der Artwork-Serie "The Arts Of Destruction", Rückblicke aufs Headbangers Open Air und aufs Summer Breeze sowie neue Folgen der Rubriken "Der Soundtrack meines Lebens", "Maniac der Ausgabe", "Forgotten Jewels" und "Heavy Metal Hunter". Tonnenweise Tonträgerreviews sowie Konzertberichte sind selbstverständlich, und zwei kultige Poster (Blue Öyster Cult/"Fire Of Unknown Origin" & Deserted Fear/"Kingdom Of Worms") werden bald an euren Wänden und Türen hängen! In diesem Sinne: Heavy Metal is the law!"
