A staggering thirty years have passed since Acery Fury formed in 1986 in Kempton Im Allgau, Bavaria. The album has been remastered by Sasch Machyne, and the CD comes with an 8 page booklet, lyrics included. It represents a slice of metal history which might otherwise have been lost to the ravages of time. Crazy King is aimed at fans of 1980s style heavy, and should internet anyone craving a taste of classic metal nostalgia.

Albert Bell's SACRO SANCTUS - Ad Aeternum (NEW*HEAVY/DOOM METAL*SABBAT*NEMESIS*SAINT VITUS) - 13 €

Metal on Metal Records 2016 - Primeval Blackened Heavy/Doom Metal from Malta - FORSAKEN / NOMAD SON !

For fans of: Venom, Root, Törr, Nemesis (pre-Candlemass), early Celtic Frost, Sabbat (UK), Atomkraft, later Zemial, Mortuary Drape, later Bathory, Ancient Rites, I, Saint Vitus, early Death SS and Paul Chain - The sophomore opus from the Maltese metal-monger Albert Bell's SACRO SANCTUS offers no quarter, forging a unique style of old school epic and primeval blackened heavy/doom metal. Expect a barrage of savage riffs, sometimes more on the doom, other times on the thrash side, intended especially for the initiated in the arcane paths of olde.

Bell conjures references from a rich tapestry of hallowed sources such as VENOM, ROOT, TÖRR, NEMESIS, CELTIC FROST, SABBAT (UK), ATOMKRAFT, ZEMIAL, MORTUARY DRAPE, BATHORY, ANCIENT RITES, Abbath's I or SAINT VITUS.

APOCALYPSE - Faithless (NEW*SWISS TECH/THRASH METAL CLASSIC*HEATHEN*PARADOX) - 15 €

Divebomb Records 2016 - SWISS Tech/Thrash Metal Classic + Bonus, Limited Edition !

FOR FANS OF: METALLICA, HEATHEN, MORDRED, PARADOX, ARTILLERY

Swiss thrashers APOCALYPSE formed in 1984 and unleashed a five-song demo the following year, but the group didn't really pick up steam until the release of their self-titled debut album in 1988. As with most bands of that era, APOCALYPSE drew influence from the Bay Area thrash

scene, and most notably METALLICA—going so far as to enlist the talents of long-running METALLICA producer, Flemming Rasmussen, to handle the engineering of their debut.

A perfectly executed album, Apocalypse is chock full of intense riffs laid over a foundation of intricate and melodically-charged arrangements. The strength of the material comes as no surprise, given that the band spent several years fine-tuning many of the album's nine tracks. Originally released in 1988 by Out of Tune Records—a label owned and operated by female darkwave group, The Vyllies—APOCALYPSE seemed very much out of place on the roster, and without the support of a label completely devoted to the album's success, Apocalypse slowly dwindled towards obscurity.

Five years would pass before APOCALYPSE would resurface with their sophomore album, Faithless, in 1993. Attempting not only to overcome their lengthy absence from a scene that had already found itself hanging by a thread, they also faced the challenges of introducing new frontman, Nic Maeder (now vocalist for GOTTHARD), to the fans. Never willing to sacrifice quality, APOCALYPSE enlisted famed producer, Harris Johns, to help capture their focused vision for a return to glory.

Against all odds, APOCALYPSE delivered a much more mature brand of thrash—overflowing with melody while never sacrificing the speed or technicality of their debut. It was the perfect blend of influences, but unfortunately it simply arrived too late to make an impact. Death metal had stormed the scene with an undeniable fury, and groups like APOCALYPSE were too easily pushed aside.

Divebomb Records is now excited to present both APOCALYPSE albums in a deluxe edition format: freshly remastered by Jamie King and featuring numerous bonus tracks, a retrospective interview, plus unseen photos from the band's archives. For the fans, by the fans...

DEATHROW - Life Beyond (NEW*GER TECH/THRASH METAL CLASSIC REREL.*CORONER) - 15 €

Divebomb Records 2016 - GER Tech/Thrash Metal Classic Rerelase ! Available from 25.05.2016

FOR FANS OF: CORONER, DESTRUCTION, VENDETTA, KREATOR

Formed in western Germany in 1984 under the name Samhain—and releasing three demos prior to rechristening themselves DEATHROW in 1986 for their debut full-length outing, Riders of Doom (a.k.a. Satan's Gift)—DEATHROW's early years laid a foundation of relentless Teutonic thrash. In 1988, however, guitarist Thomas Priebe was replaced with Uwe Osterlehner, which ushered in a much more technical and dynamic approach for the group's third album, Deception Ignored.

Four years later, having severed ties with Noise Records, 1992's Life Beyond became DEATHROW's lone outing as a part of the growing roster of West Virginia Records (run by Andy and Sabina Classen from Holy Moses). Having decided that Deception Ignored may have been overly complex in hindsight, the quartet opted to streamline their approach for album number four: injecting Deception Ignored's intricacy and melody with a dose of focused, aggressive thrash from their early roots—a fitting end to the "second phase" of DEATHROW's career.

Expanded reissue of DEATHROW's Life Beyond—fully remastered by Jamie King at The Basement Recording, and including a slew of archival photographs direct from the band plus full lyrics as well as a brand new essay by Andrew Aversionline (of NoEcho.net) with participation from guitarist, Uwe Osterlehner.

DESPAIR - Beyond All Reason (NEW*GER THRASH METAL CLASSIC REREL.*INTRUDER*CORONER) - 15 €

Divebomb Records 2016 - GER Tech/Thrash Metal Classic Rerelase ! Available from 25.05.2016

FOR FANS OF: INTRUDER, POLTERGEIST, CORONER, PROTECTOR

Formed in Germany in 1986, DESPAIR dealt out thrash of the highest order over the course of their next six years together. Originally lead by vocalist Robert Kampf, DESPAIR issued their debut album, History of Hate, in 1988, but he exited the band before their next full-length so he could concentrate his energy on Century Media, the future label powerhouse he founded that year. The group then hired former APOSTASY vocalist Andreas Henschel as Kampf's replacement and released their critically acclaimed sophomore full-length, 1990's Decay of Humanity.

By the time the band went into Tonstudio Mohrmann in Bochum, Germany to record their next album, guitarist Waldemar Sorychta emerged as a force to reckon with, in front and behind the scenes. The guitarist seized the producer reigns on 1991's Beyond All Reason, a well-rounded onslaught of thrash and more traditionally minded heavy metal that is the finest moment in their discography. As fierce as Beyond All Reason proved to be, it was sadly their swan song.

Reissue of DESPAIR's third and final album, Beyond All Reason. This reissue features all new digital mastering with expanded layout featuring lyrics and brand new essay by Carlos Ramirez (of NoEcho.net).

FORCED ENTRY - same (NEW*GER 80's HEAVY METAL*STS 8 MISSION*JUDAS PRIEST) - 13 €

Battle Cry Records 2016 - Forced Entry formed in 1986 with Harry Amthor on vocals, Mike Gare and Rüdiger Blindert on guitar, Achim Meyer on bass and Willi Schwäbig on drums. Their debut album was released in 1988 only on vinyl. It has become a hard-to-find gem for collectors. Shortly after the album came out, the band changed their name due to another "Forced Entry", a thrash band in San Francisco. First as The Pakk and then released three albums as STS 8 Mission.

Now, they're releasing their original self-titled debut album on CD for the first time. . It has a strong '80s sound. Amthor's powerful vocals combined with the heavy riffs and speedy solos of Gare and Blindert offer a debut CD that stands up to many of the big name rockers of the day. From the opening riff of "Desperate for Your Love" to the speed metal spectacular "(Don't) Fall for the Dark," Forced Entry offers a sampling of what could have been if not for the name and personnel Forced Entry Booklet back pagechanges.

Raw, yet focused, Forced Entry had enough potential to make a name for themselves in the metal world and should have gotten a few strong opening spots for some of the bigger tours of the day. With the right exposure (especially in the US) and some momentum, they had a chance to go far.

If you missed Forced Entry the first time around, don't make the same mistake twice. This CD deserves some attention. It's easy to see why Battle Cry Records and Mighty Monster Records polished this off and released it with the support of Decibel Geek. For Fans of Judas Priest, Accept, Iron Maiden and Whitesnake

PSYCHEDELIC WITCHCRAFT is a project fronted by an Italian doomstress named Virginia Monti. The band was formed in March 2015, living through the imaginary of occult and witchcraft with psychedelic colors and emotions, inspired by the sounds and the pictures of an almost lost era. The EP "Black Magic Man" was released on vinyl in July and sold out in less than 10 days.

Traditional heavy metal from Wilmington, NC formed in 2009 with members; Carlos Denogean(Drums), Dan Todd (Guitars), Vic Marriott (Bass), and Nick Sponse(Vocals, Guitar). In 2010 the band would self-release their debut 'Going to Hell'. The next year their follow up 'Way More Unstoppable' would be released, once again by the band. In 2014 Salvación would release 'God Gold and Glory'.

In 2015 Sponse would be replaced with ex-Praetorius vocalist Elliot Madre. That same year two tracks from 2011's 'Way More Unstoppable' album would be re-mixed with Madre's vocals to induce the new vocalist. Steady gigging up and down the East Coast would follow crating a buzz surrounding one of U.S. metal's strongest newcomers.

'Way More Unstoppable' REDUX re-mixed and re-mastered with new vocals tracks by new vocalist Madre.

In addition the new version contains bonus cover songs of the Riot classic 'Swords & Tequila' as well as 'Push It To The Limit' by Giorgio Moroder/Pete Bellotte. Also new artwork once again provided by artist Yannick Bouchard, known for his work with H&H Records, King Diamond, among others.

SILENT SCREAM - From The Darkest Depths Of The Imagination (NEW*US THRASH*MORBID SAINT) - 15 €

Divebomb Records 2016 - US Thrash Metal Classic Rerelease ! Available from 25.05.2016

FOR FANS OF: DARK ANGEL, DEVASTATION, SOLSTICE, MORBID SAINT, DEMOLITION HAMMER

Formed in a Long Beach, CA garage in 1985 when the average age of the band's members was just 15 years old, SILENT SCREAM's brief run into the early-'90s still managed to leave a mark on the California thrash scene. Soldiering on through a revolving door of guitar players across three demos, the group solidified its core lineup of Mario Atencio (bass/vocals), Cris McCarthy and Tom Perry (guitars), and Patrick Short (drums) leading up to their sole full-length offering, From The Darkest Depths Of The Imagination.

Originally released in 1992 by Tombstone Records, From The Darkest Depths Of The Imagination's eight tracks put forth a meaty, midpaced style of thrash—reminiscent of other high-level early-'90s gems such as DEVASTATION's Idolatry and DARK ANGEL's Time Does Not Heal. This is perhaps no coincidence, as the sessions were produced by none other than the legendary Gene Hoglan of Dark Angel—who also contributed lyrics and a guitar solo to two of the album's choice cuts.

From The Darkest Depths Of The Imagination in a deluxe edition format: newly remastered by Jamie King and featuring their first demo, Thanatopsis; as well as a retrospective interview, plus unseen photos from the band's archives.

SKEPTIC SENSE - Mind Versus Soul: The Anthology (NEW*GER TECH/THRASH METAL*WATCHTOWER) - 15 €

Divebomb Records 2016 - GER Tech/Thrash Metal Killer Anthology !

FOR FANS OF: WATCHTOWER, SPIRAL ARCHITECT, SIEGES EVEN, TARGET, ARCANE

The roots of SKEPTIC SENSE date back to southern Germany circa 1987, when co-workers Stephen Thumm (guitar) and Peter Sugg (guitar) bonded over their love of heavy metal and decided to form a band called Sluggard with friends (and half-brothers) Jürgen Knörle (bass) and Joachim Klinkosch (drums). After finally securing vocalist Cornelius Halder and releasing their debut demo in 1990, the group's final lineup was solidified in 1991 with a new drummer, Ilias Fischer, and a new name, SKEPTIC SENSE—inspired by lyrics from the SANCTUARY song "Future Tense."

Increasingly influenced by more progressive metal acts such as FATES WARNING, WATCHTOWER, and fellow Germans SIEGES EVEN, SKEPTIC SENSE advanced towards a more technical direction -- recording one more demo, Harmony of Souls, before entering Delta Studios in Wilster, Germany to begin work on their lone full-length, Presence of Mind—released by Inline Music sub-label Gorgon in 1994. Unfortunately, the record label had mysteriously disappeared by the end of that same year, so SKEPTIC SENSE was unable to capitalize on the favorable press received by Harmony of Souls, and Presence of Mind went largely unheard—the band falling apart shortly after its release.

Now, more than two decades later Mind Versus Soul: The Anthology collects the complete, 16-song SKEPTIC SENSE discography, fully remastered by Jamie King at The Basement Recording. In addition to all-new cover art by Steven R. Cobb, the booklet includes a retrospective interview by Andrew Aversionline (of NoEcho.net), lyrics, and photographs direct from the band's archives—finally treating this underappreciated jewel of progressive thrash metal as the cult classic for which it has always deserved to be recognized

TANTRUM - Trenton City Murders (NEW*US METAL CLASSIC 1986 + 12 BONUS*HEATHEN'S RAGE) - 14 €

Cult Metal Classics 2016 - US Metal Classic from 1986 with many Bonus Tracks

TANTRUM from New Jersey, had been one of the most qualitative heavy metal bands in the history of 80's metal. They released just 4 songs on vinyl back in 1986 on their legendary EP that was released without a cover artwork, that gained them immortal status among the underground metal circuit.

Their main songwriter and guitar player John Riccio wrote some killer riffs and displayed a great variety in musicianship and along with the powerful singing of Chuck Bird, they marked their status forever in the 80's metal hall of fame along with their label mates at the time HEATHEN'S RAGE.

After spending quite some time to locate the original band members, we take pride in the announcement of this reissue, that will feature the original METAL HYMNS of the EP plus 12 Bonus Songs from the past of the band, including their very first demo with a different singer and live tracks.

All songs were remastered and they will be released on CD, featuring original fantasy artwork, band photos, interview with John Riccio and lyrics of all songs in a fat 16-page booklet. Get ready to listen to cult classics such as "Shot For Shot", "Call Of The Beast", "War Games", "Backs To The Wall", "Solid Seven" etc. Forever HAIL!!!

WILDHUNT - Descending (NEW*TECH/THRASH METAL*CORONER*GRINDER*SACROSANCT) - 13 €

Metal on Metal Records 2016 - Technical Thrash Metal from Austria

For fans of: Deathrow, Despair, Coroner, Grinder, Metallica, Heathen, Paradox, Vendetta, Sacrosanct, Target, Mekong Delt

WILDHUNT from Austria have recorded an album with the kind of thrash that is rather rare nowadays but harkens back to the late '80s/early '90s when a few technical thrash jewels were released mainly in Germany and Switzerland.

This young band is clearly influenced by some of the greats from the past, but they have managed to create their individual sound and give their music a unique feel. They've got impressive technical skills but, what's even more important, their song writing is very strong, too.

Although you can't use the word "catchy" to describe their songs, they have a high "replay" factor, stay in your memory, and will surely appeal to the fans of bands such as DEATHROW, DESPAIR, CORONER, GRINDER, METALLICA, PARADOX or HEATHEN.

WITCHING ALTAR - Ride With The Devil (NEW*US DOOM METAL KILLER*R.BIZARRE*LORD VICAR) - 14 €

Divebomb Records 2016 - US Doom Metal Killer ! Available from 25.05.2016

FOR FANS OF: REVEREND BIZARRE, CHURCH OF MISERY, ELECTRIC WIZARD, BLACK SABBATH

WITCHING ALTAR came into being in the year 2011 with but a single desire; to fulfill their oath of reverence to the traditional doom metal cult.

T. Witchlover and Peter Vitus bow in supplication to forefathers BLACK SABBATH, PENTAGRAM and SAINT VITUS, and stand alongside newer priests of doom like REVEREND BIZARRE, LORD VICAR and ELECTRIC WIZARD.

North American release of WITCHING ALTAR's new album Ride With The Devil, and join the band on its crusade of despair. Deep, heavy guitars, dirty, punishing bass and hefty, bludgeoning drums bring forth tales of witchcraft, left hand path, narcotic indulgence and human debauchery.

WYTCHE HAZEL - Prelude (NEW*NWOBHM/FOLK INFL.*JETHRO TULL*THIN LIZZY*LEGEND*NWOBHM) - 14 €

Bad Omen Records 2016 - NWOBHM Masterpiece ! Lim. Slipcase Edition

In the parallel universe where the New Wave Of British Heavy Metal happened 600 years early, WYTC HAZEL are the band of choice for the discerning Plantagenet headbanger. The folk-rock eccentricity of Jethro Tull, the mystical harmony of Wishbone Ash & Thin Lizzy, and the exuberance of prime NWOBHM, immersed in sacred medieval influences via David Munrow's Early Music Consort of London; on their debut long-player Prelude, Lancastrian hard rockers WYTC HAZEL have happened upon an extremely singular and compelling alchemy. 10 from 10 Points at Powermetal.de

Unspeakable Axe Records 2015 - Speed Metal Killer from Denmark ! One of the Highlights in 2015 !

Limited Edition of 100 copies in Silver w/Black Marble vinyl, Includes a digital download card.

Essentially you will like Encyrcle, if you like the music on Iron Maiden's first two records, but you wish that instead of being sung by Paul D'ianno they were fronted by King Diamond after he'd been listening to Judas Priest for weeks on end just to get Rob Halford in his mind. Largely rooted in speed metal and steeped in the NWOBHM sound, the album has an inherent darkness lying just under the surface. Even with some of the material sounding like it could have been released in the late '80s, the band still manages to sound fresh with their approach- particularly with the NWOBHM-esque guitar melodies and higher-pitched soloing on "Facelasher." The vocals employ a varied range, but truly seal the deal when they hit their Halfordian and Dickinsonian highs.

For Fans of Savage Grace, Agent Steel, Iron Maiden on Speed, Enforcer, Ranger, Speedtrap

The British Channel Islands? very own Legend is not included in this category. They never amassed the amount of exposure and adulation granted to some of their NWOBHM peers, such as Judas Priest, Iron Maiden or Motörhead, but they are by no means forgotten. They never were. Formed in 1980, Legend came up with a pioneering DIY production style that was partly dictated by Jersey's backward recording studios of the day. The main culprit for their unique sound was, however, the visionary blend of a quirky sense of time, melody and the dynamics of their songwriting and arrangement, which can be heard in the output by the newly-formed lineup as well. To put them in a context, Legend were an unrivalled mix of Black Sabbath-esque heavy metal riffs, Pentangle-esque vocal harmonies and the horny groove of Thin Lizzy

After a couple of demos and two full length albums, the band composed a very solid opus with good roots in old glories of extreme metal genre, as Slayer, Possessed, Coroner, Annihilator etc, with high musical skills and extremely aggressive guitar riffs.

POISON - Bestial Death (NEW*LIM. BLACK VINYL*GER THRASH/DEATH METAL*SODOM*KREATOR) - 15 €

F.O.A.D. Records 2016 - GER Thrash/Death Metal Classic from 1985 - Limited regular pressing on solid black vinyl + booklet. For the very first time on vinyl and of course licensed and approved by the band. Raw, extreme and BESTIAL blackened Thrash/Death Metal at its most savage form.

Recorded in fall 1985 and following their classic debut Demotape "Sons of evil", this second chapter offers another journey into the realms of sonic perversion and mental obscurity. Ripped from the best sounding source that we found after selecting several copies from our team of collectors always ready to support, this LP offers another chapter in POISON's uncompromised evil, keeping the original sound the most faithful and pristine as possible with that claustrophobic feeling of cavernous horror that no other band has been able to recreate at so crude dimensions.

Alternating moments of ultra-fast (for the time) proto blasting mayhem with slowed down breaks of suffocating Doom, "Bestial death" recalls the sickest elements of Hellhammer's demos and of course the school of Venom, or to keep it closer to Teutonic savagery, Sodom on their "Witching Metal" demotape. Deluxe sleeve with restored original artworks and a thick 16 page booklet '80s fanzine styled including old interviews, reviews, flyers and rare photos.

POISON - Awakening of the Dead (NEW*LIM. BLACK VINYL*GER THRASH/DEATH METAL*SODOM*KREATOR) - 15 €

F.O.A.D. Records 2016 - GER Thrash/Death Metal Classic from 1986 - For the very first time on vinyl and of course licensed and approved by the band.

Regular edition on solid black vinyl + booklet.

POISON's official Demotapes in the most complete and pristine shape. After their terrifying first two abominations ("Sons of evil" - 1985 and "Bestial death" -1985) and a live tape, 1986 sees these pioneering German maniacs deliver another nightmarish assault of dark, creepy Death Metal. It's the turn of "Awakening of the dead" that even showing some kind of progress in their brutal primitivity and a 4-track production, still delivers the insane rawness and hallucinating morbidity they were feared for.

On a promo sheet of the time they were describing it as follows: "POISON play a very extreme mixture of ultra-fast + ripping Death Metal and more classical, Black Sabbath-inspired Doom stuff, without trying to follow and special trend or ripping off any famous band". It's all there, think of a death chamber unleashing the most stabbing screams of terror in a chtlulhu-ish pace alternating blasts of uncontrolled fury with Hellhammer tinged breakdowns. Once again mastered at Toxic Basement Studio from the best sounding source in existence still keeping the impact and genuinity of the original sound as it was on tape. Deluxe sleeve with restored original artworks and a thick 16 page booklet '80s fanzine styled including old interviews, reviews, flyers and rare photos.

AUS 80's Thrash Metal at its best ! For Fans of Kreator, Slayer, Dark Angel, Sadistik Exekution, Mortal Sin

The year is 1986, and thrash metal is nearing its peak; however while everyone is focused on Metallica, Slayer and the like, a young Australian thrash band releases its first demo "Taste of Blood". Whilst highly thrash influenced, Slaughter Lord presented their own brand of thrash; one incorporating more aggressive Slayer-esque riffage as well as Bathory style black metal. This demo exploded in the underground Australian metal scene, with the band becoming an instant cult sensation. However with such a small scene, Slaughter Lord were unable to attract label interest, and following another EP in 1987, the band broke up. "Thrash til Death" is an incredibly aggressive and pure metal record.
