Heavy Chains Records 2016 - AUS Import - Limited Edition of 500 copies ! Awesome 80's Hard Rock/Heavy Metal from Sweden !

Ambush formed in Köping, Sweden in early 1983, and were active until 1985, after which they changed line up and reformed as Rampant.

The band released a 7" EP and cassette during their time as Ambush, the initial recordings featured on the EP are a killer and unique blend of mystic doomy heavy metal and folky 1970s rock which will appeal to fans of Pagan Altar, Witchfinder General, Ashbury, and Jethro Tull.

The band's sound gradually became refined to a Rainbow tinged brand of hard rock featuring some great organ sounds while retaining the excellent emotional vocals found on the EP.

This sound reaches it's apex in the Rampant recordings with tracks like Dreamers Boulevard and Feed Me Rock. Total hard rock magic!

Heavy Chains Records is very proud to present this compilation which includes: Four Track 7" EP - Recorded in '83 + Don't Turn Your Back on

ATTALLA - same (NEW*US STONER/DOOM METAL*B.SABBATH*THE CULT*M.MAGNET) - 14 €

Shadow Kingdom Records 2016 - US Stoner/Doom Metal

Marrying the stoned swagger of early Sabbath to the leafiest of '70s hard rock, this Wisconsin quartet don't so much go back in time as stop time itself.

Lumbering, doomed-out rhythms roll forward and engulf the listener in a lysergic haze, while the thick 'n' moist riffs pulse and pound with an insistence that's totally entrancing. In fact, the album's cryptic song titles - chronologically "Light," "Haze," "Lust," "Thorn," "Veil," and "Doom" - vividly portray the trip to come. Too dark for regular hard rock but still committed to its earthier values without traversing into proto-metal territory, Attalla could verily be a sonic document of 1973, unearthed today.

And yet, undeniably retro as the record may be, ATTALLA brim with a potency that's timeless and wholly appealing to a wide swath of rock and metal listeners, and in vocalist Cody Stieg, the band has a great ROCK voice not unlike The Cult's Ian Astbury.

ATTICK DEMONS - Let's Raise Hell (NEW*HEAVY METAL*IRON MAIDEN*CAGE) - 13 €

Pure Steel Records 2016 - Heavy Metal/NWOBHM/US METAL from Portugal - awesome Vocals

Attick Demons are twin guitar harmony in riffs and fiery leads, a rumbling rhythm that deliver blistering speed, yet dial back as necessary, and clean and melodic, yet pitched vocals that can go screamo as necessary. Artur Almeida, who has recently been tapped by Iron Mask for vocals, channels Dickinson with ease, actually sounding better than him.

For Fans of Iron Maiden, Cage, Dio, Manowar

BLACK ROSE - Boys will be Boys (NEW*LIM.500*NWOBHM CLASSIC + BONUS) - 13 €

Limited edition of 500 copies.

BLOODY HAMMERS - Lovely Sort Of Death (NEW*DIGIPAK*US OCCULT DOOM/STONER ROCK/METAL) - 14 €

Napalm Records 2016 - Limited 4 page digipak! Pre-Order: Release Date 05.08.2016, we will send right in time!
Occult Doom/Stoner Rock/Metal Killer! Fantastic Songs in the vein of Black Sabbath, Danzig, Electric Wizard, Trouble, Roky Erickson
"This album is certainly the darkest album I've ever recorded", states BLOODY HAMMERS mastermind Anders Manga, who stays on the dark path to the nether world and opens the seven gates with Lovely Sort Of Death. This BLOODY HAMMERS Dark Occult definitely turns out to be heavier and darker than anything the band has done before. The fourth album haunts the listeners with heavy fuzz toned guitar and an extreme catchy atmosphere. This is the perfect soundtrack for your next favorite horror movie or ouija session! Till death do us part!

CARDINALS FOLLY - Holocaust Of Ecstasy & Freedom (NEW*US DOOM METAL*R.BIZARRE*THE COVEN) - 14 €

Shadow Kingdom Records 2016 - It's only been 2 years since we're drank from the CARDINALS FOLLY Doom cult and yet they're back again with another devastating deathhammer of Doom!

For Fans The Coven, Saint Vitus, Reverend Bizarre, Electric Wizard

This record shows a more mature effort with their focus more on the grooves of Doom Metal. It's more of an up-tempo version of old REVEREND BIZARRE, with an onslaught of thudding bass and fuzzed out guitars that draws you into the inner circle of the occult. With that beat, they still find a way to mix in some cool 70's tempos, splashes of the N.W.O.B.H.M. and more!

CASTLE - Welcome to the Graveyard (NEW*FEMALE US DOOM/HEAVY METAL*SACRILEGE*JEX THOTH) - 14 € VAN Records 2016 - Brandnew

CAUCHEMAR - Chapelle Ardente (NEW*DOOMY HEAVY METAL/NWOBHM*CAN*P.ALTAR*BLOOD CEREMONY) - 14 €

Nuclear War Now Productions 2016 - US Import!

Doomy Heavy Metal / NWOBH from Montreal/CAN with great female Vocals of Annick Giroux and wonderful guitar harmonies over awesome Riffs!

Chapelle ardente is the second full-length album from Canada's Cauchemar and if you enjoyed 2013's Tenebrario man, are you in for a treat. The album is made up of the same NWOBHM-tinged Doom Metal as its predecessor, only better. The songwriting is tighter, more focused, and the guitar tone is crunchy without sacrificing its solemnity. There are some very melodic bass lines a la Black Sabbath ("Funérailles célestes") and the drums are understated but in a reverential sort of way.

For Fans of Blood Ceremony, Black Sabbath, Pagan Altar, Pentagram, Mount Salem, Witchfinder General

DENIAL - No Comment (NEW*LIM.500*US THRASH METAL CLASSIC*EVIL DEAD*D.R.I.*SACRED REICH) - 14 €

Heaven and Hell Records 2016 - Limited 500 Rerelease of this US Thrash Metal Classic incl. Bonus Tracks!

Cult thrash band from North Carolina DENIAL's first recording 'No Comment' re-mastered and re-issued on CD with bonus tracks. The release titled Still No Comment will include the full EP, bonus studio tracks, and additional live tracks. Re-mastering provided by Jamie King, and new artwork by Steve Cobb.

In the late 80s and early 1990s thrash metal was at an all time high in the United States. A musical assault as if a response to all the fluffy hairballs out there rocking for the cock and masquerading as heavy metal. These bands of disenfranchised youth popped up all over the country bring with them speed, aggression, and a message, DEATH TO POSERS!

North Carolina's response to this metallic blitzkrieg was a foursome from Charlotte who went by the name of DENIAL.

Lead by vocalist/guitar Jeff Tiece, along with guitarist Keith Earnhardt, and rhythm section John Lawton on bass, and drummer Kelly Rodgers. The band delivered a fine blend of crossover thrash metal akin to their peers such as Sacred Reich, D.R.I., and Evildead. Their political based lyrical themes were common in the sub-genre, however helped to set them apart from other bands where they were from. In 1990 DENIAL would release a self-release 6 song EP entitled 'No Comment'. This release would lead to their signing to New Renaissance Records and the release of the Antichrist President album the following year in 1991. But even though the Ed Repka cover was creative it failed to catch many people's attention due to poor promotion and bad timing. This would send DENIAL on a descent into cult underground status.

EDEN - Eden (NEW*LIM.ED. + 9 BONUS*US METAL CLASSIC*AUGUST REDMOON*SAVATAGE*WARRIOR) - 15 €

Divebomb Records 2016 - US Metal Classic with 9 Bonus Tracks

EDEN's roots date back to one of Orange County, CA's most popular hard rock acts of the early-'80s: August Redmoon. However, despite sold out shows and the success of their groundbreaking 1982 EP, Fools are Never Alone—as well as an appearance on the Metal Massacre IV compilation—AUGUST REDMOON disbanded in 1983.

FOR FANS OF: WARRIOR, ODIN, MALICE, SAVAGE GRACE, SAVATAGE

Following a brief stint as Terracuda, EDEN was born when remaining members Michael Henry (vocals) and David Young (drums) joined forces with Salt Lake City transplant Rick Scott Crocco on guitar; and his former sound tech, Dave Henriod, on bass. The quartet eventually secured a deal with Enigma/Restless and entered Westwind Studios in Thousand Oaks, CA to record a full-length—but not before bringing former AUGUST REDMOON bassist Gary Winslow back into the fold. Packed to the brim with raucous, energetic heavy metal anthems, EDEN's long-awaited self-titled debut hit the streets in 1986. After being released from their contract due to a lack of label support, the group recruited new frontman (and future QUEENSRYCHE guitarist) Mike Stone and second guitarist Lenny Spickle—recording a new five-song demo in 1987 that displayed a logical progression from the hard-hitting catchiness of the album. This lineup showcased for several major labels, but luck was not on their side, and EDEN folded by the end of 1988. David, Gary, and Lenny, however—alongside an assortment of singers and guitarists—gave EDEN new life in the 2000s, recording a four-song EP in 2010 and making their European live debut at the Headbanger's Open Air Festival in Hamburg, Germany in 2012. 1986's 11-song Eden full-length, rare demo cuts from '85 - '87, and newly remixed tracks from the 2000s era Judgement Day EP—fully remastered by Jamie King at The Basement Recording, and including an in-depth EDEN biography penned by former Headbanger fanzine editor and close friend of the band, Bob Nalbandian.

HELION PRIME - Helion Prime (NEW*US METAL*IRON SAVIOR*DREAM EVIL*STAR ONE) - 14 €

Divebomb Records 2016 - US Metal in the European Way

FOR FANS OF: IRON SAVIOR, STAR ONE, AMARANTHE, DREAM EVIL

Fast becoming home base for an elite squadron of U.S. heavy metal troops, Divebomb Records is proud to enlist science-centric Sacramento, CA power metallers HELION PRIME to a growing roster that already includes such acts as WÜLFHOOK, ZEPHANIAH, EVERTHRONE, FINAL SIGN and JUDICATOR.

First conceived through a common love of heavy metal and science, HELION PRIME was born in 2014 when DIRE PERIL guitarist Jason Ashcraft joined forces with GRAVESHADOW vocalist Heather Michele to forge a new project—between the two, résumés boasted work alongside such greats as Andy LaRocque (KING DIAMOND, DEATH, etc.), Mark Briody (JAG PANZER), Ralf Scheepers (PRIMAL FEAR, GAMMA RAY, etc.), Niklas Isfeldt (DREAM EVIL) and Brittney Slayes (UNLEASH THE ARCHERS). The name HELION PRIME was borrowed from an alien planet featured in the 2004 film The Chronicles of Riddick. The concept? Power metal thematically based on actual scientific theories—with the occasional sci-fi tribute thrown in for good measure.

Their debut EP, The Drake Equation, followed in 2015, and HELION PRIME's lineup eventually solidified with the addition of Jeremy Steinhouse on bass and AXIOM's Justin Herzer behind the kit. Almost precisely one year later, the group returned with a self-titled 10-track full-length: independently released by the band in mid-February of 2016 and already out of print!

LORD VICAR - Gates of Flesh (NEW*SWE DOOM METAL*COUNT RAVEN*REVEREND BIZARRE) - 14 €

The Church Within Records 2016 - The Gates of Flesh is the third album from Lord Vicar. It was recorded by audio wizard Joonas Lukala at Noise for Fiction studio in Turku, Finland, in the Autumn of 2015. The studio had the benefit of a huge live room which gave the band the opportunity to capture a sound that breathes with the ambience of the space, but maintains the sonic weight for which they are rightly known. For fans of Count Raven, Candlemass, Reverend Bizarre, old The Gates of Slumber and old Black Sabbath.

The tracking of the album was undertaken by the core of the band - Kimi, Gareth and the legendary Lord Chritus, with bass duties being split between Kimi and Gareth. Sami is not featured on the album but has been taking care of bass for live shows. Deliberately shorter than previous albums, the band sought to concentrate their trademark heaviness into shorter, punchier songs and fit the album onto a single vinyl LP. The result is an album that the band consider their most focused and intense release to date.

Roxx Productions 2016 - Swiss doom metal outfit Pylon are very excited to announce the details of their latest release, which marks the bands 7th full length release.

For Fans of Candlemass, Solitude Aeternus, Memory Garden, Altar of Oblivion In the two years since the release of Homo Homini Lupus, Pylon have made no progress whatsoever – which is the greatest compliment you can give this Swiss band of doom stalwarts. Again, they have managed to capture that particular down-tuned- slow-because-I-can magic on A Lament with eight brand new and epic tracks such as "Desolation Is Divine" or "Lazarus" but no less with more succinct numbers such as the paean to Clint Eastwood with the track "The Lone Rider" in its seven-minute briskness.

Back by popular demand is Matt Brand on Ozzy-tinged lead vocals. Ian Arkley does the honors of gracing the album with a majestic guitar solo on "The Day After The War" whilst Damir Eskic, representing the top echelon of Swiss Malmsteen disciples, takes the speed up a notch with a roaring lead break on "Desolation Is Divine".

This brand new album does it again, hitting a true home run for heavy metal fans and doom fans alike. This beautifully packaged Limited Edition digipack comes complete with a 12 page insert and complete lyrics enclosed.

The 90's were a rough period for any traditional Heavy Metal band, to make even worse they were from Belgium, which at the time was dead, compared to the great Metal scene they had back in the 80s. We think its the right time to bring you collectors of Euro-melodic Metal, the short legacy of Ramses. 12 Page booklet includes lyrics, band history and photos of the band and memorabilia.

SHANNAH - Endless (NEW*25th ANNIVERS.*BEL HEAVY METAL*AXEL/RAMSES) - 13 €

Blood and Iron Records 2016 - AXEL guitarist Frank Deroubaix, joined female singer Conny Visschers and formed SHANNAH after AXEL disbanded. Under this moniker, they created a Belgian masterpiece of melodic Heavy Metal with female vocals, through the privately pressed MINI LP "Endless". However, the times were not good anymore for a classic melodic Heavy Metal band.

Specially in Belgium. Thrash was already established, Death/Black have taken over and they were too late for the Hair Metal craze (Grunge was in), so the record failed to have any impact. So it's time to make justice to the short SHANNAH legacy and give to the Euro Metal/Melodic Metal fans this gem.

This expanded edition besides the very rare MINI LP (which sells usually for high values), also includes the 1993 demo. Released for the first time on CD, it includes a 12 page booklet with band history, lyrics, photos of the band and memorabilia and is remastered by the man himself, Frank Deroubaix.

The reissue features 16-page booklet, with cult photos of the band, biography, lyrics and both original and new fantasy artwork.

SLAVE RAIDER - Bigger, Badder & Bolder (NEW*LIM. US MELODIC METAL*KICK AXE*TWISTED SISTER*RATT) - 14 €

Divebomb Records 2016 - Limited US Melodic Metal + Bonus Tracks !

FOR FANS OF: TWISTED SISTER, KICK AXE, RATT, QUIET RIOT

The year was 1989. Cult-favorite Twin Cities shock metallers SLAVE RAIDER found themselves without a label, having been dropped from the Jive Records roster following the release of their first two albums—Take the World by Storm (1986) and What Do You Know About Rock 'n Roll? (1988). Despite losing two members in the major label fallout, the group refused to throw in the towel and set to work independently producing what would become their most daring album... one that would be—quite literally—Bigger, Badder & Bolder.

Having previously reissued the first two SLAVE RAIDER classics in 2015, Divebomb Records is excited to complete the trilogy by issuing Bigger, Badder & Bolder on CD for the first time since its extremely limited edition release in 1990! This bigger, badder, and bolder (pun intended) edition has been brought back to life through the all-new mastering of Jamie King at The Basement Recording, two secret bonus tracks, and an essay on the band's closing chapter by NoEcho.net co-editor Carlos Ramirez—featuring input from SLAVE RAIDER frontman Chainsaw Caine himself.

It may have taken 26 years, but it's time for these underground heavy metal legends to finally get their due.

SOUND BARRIER - Speed of Light (NEW*US METAL CLASSIC 1986*FIFTH ANGEL*RACER X) - 15 €

Prosthetic Records 2016 - Brandnew US Heavy/Speed Metal - US Import !

The band's strength are largely complete. Twin guitars deliver riffs, rhythm and groove, harmony, and fiesty leads. Underneath, the rhythm section propels their tunes with power and groove. When these two parts work together the Spellcaster sound is large, lush, and powerful. I can't overstate how effortlessly Spellcaster melds harmony and melody with rhythm and groove. Upon these layers, add the lead vocals and vocal arrangement, simply an echo of the inherent melody and harmony. Tyler Loney has a natural talent for clean melodic singing, and his range is strong and controlled. He's never screamo or harsh. At this third element and you have heavy metal dynamo, a well-oiled metal machine.

For Fans of Iron Maiden, In Solitude, Lethal Steel

WEIRD LIGHT - Doomicvs Vobiscvm (NEW*DOOM METAL CULT*CANDLEMASS*REVEREND BIZARRE) - 14 €

Shadow Kingdom Records 2016 - Doom Metal Cult from France !

French doom cult WEIRD LIGHT. It's a damn shame this short-lived band couldn't have stayed together longer to put together a killer debut album for the label, but after years of communication, the band just couldn't see eye to eye on it.

Their sole recording, the 2007 demo "Doomicvs Vobiscvm," and add two previously unreleased tracks, making this that full-length that could not be. Everything you need to know about WEIRD LIGHT is in the title "Doomicvs Vobiscvm": this is ultra-doom of the highest order, balancing the eerie drama of classic Candlemass with the molten weight of prime Reverend Bizarre.

Seriously, these four tracks are the BEST French doom metal songs ever created, and exactly how DOOM METAL should sound in all its forlorn glory!

Grain Of Soul – the fourth full length album by the riff-laden German rock fourpiece Zodiac, is their most graciously focused effort to date, between the obscenely relaxed desert guitar sounds and melodies bigger than the horizon, Zodiac have triumphed upon their return.

For Fans of Graveyard, Thin Lizzy, Monster Magbet, Dead Lord, Free Fall, Kadavar, Horisont, Wolfmother, Rival Sons

Recorded, mixed, and produced by Arne Neurand (Guano Apes, etc.) at Horus Sound Studio in Hannover, and mastered by Grammy Award winning Jean-Pierre Chabos (Gojira, etc) at La Source Mastering in Paris, the backdrop for this mature rock manifesto flirts heavily within the

At nearly 65 minutes, 'Purgatory Under New Management' is as epic as its predecessor yet different. Far more psychedelic sounding, its eight songs portray a band not afraid of expanding their horizons and minds beyond the mere 'doom' or 'stoner' tags, heading for something that is both atmospheric and progressive in spirit, even if you'll feel in suspension somewhere between the moon and the sun one moment and assaulted with a ton of brick the next. And of course, you've got Linderson unmistakable voice, a shaman on his own right, preaching to all us sinners to repent before it's too late.

Buried By Time And Dust 2016 - Limited Edition in white vinyl, Ltd 250, gatefold cover + 4 Bonus Tracks !

Sherwood originally formed in the hills of Yorkshire near the latter end of the NWOBHM movement in 1984 honing their classy progressive brand of metal. By 1986 the band was ready to record tracks for their debut 7".

When the recording was finished the tracks were too long to fit properly on the seven inch format so the 4 tracks were released on the bands own label on a 12" mlp with the monochromatic winged stallion gracing the cover. The "Riding the Rainbow" mini lp co-produced by Mendes Prey Jih Seymour was released in 1986 in an edition of 500 copies and quickly disappeared. Even with the advent of the internet the recording is generally only familiar to underground vinyl hunters and NWOBHM maniacs and sickos. Upon contacting the band it was revealed that the session produced a full lp with eight tracks of killer melodic and emotional heavy metal. The record will contain all eight tracks,full lyrics,forward by Mark(fluff) Hodgson and many unpublished photos in gatefold cover.

Again, killer classy and melodic metal for fans of Magnum/Gillan/White Spirt/Dark Star and old Praying Mantis.

Prosthetic Records 2016 - Brandnew US Heavy/Speed Metal - US Import ! Limited Edition 300 copies in Black Vinyl !

The band's strength are largely complete. Twin guitars deliver riffs, rhythm and groove, harmony, and fiesty leads. Underneath, the rhythm section propels their tunes with power and groove. When these two parts work together the Spellcaster sound is large, lush, and powerful. I can't overstate how effortlessly Spellcaster melds harmony and melody with rhythm and groove. Upon these layers, add the lead vocals and vocal arrangement, simply an echo of the inherent melody and harmony. Tyler Loney has a natural talent for clean melodic singing, and his range is strong and controlled. He's never screamo or harsh. At this third element and you have heavy metal dynamo, a well-oiled metal machine.

Napalm Records 2016 - Limited 180gr. BLACK Vinyl - awesome Hard Rock from Germany on their best Album so far, more straight Rock less Blues - fact !

Grain Of Soul – the fourth full length album by the riff-laden German rock fourpiece Zodiac, is their most graciously focused effort to date, between the obscenely relaxed desert guitar sounds and melodies bigger than the horizon, Zodiac have triumphed upon their return. For Fans of Graveyard, Thin Lizzy, Monster Magbet, Dead Lord, Free Fall, Kadavar, Horisont, Wolfmother, Rival Sons Recorded, mixed, and produced by Arne Neurand (Guano Apes, etc.) at Horus Sound Studio in Hannover, and mastered by Grammy Award winning Jean-Pierre Chalbos (Gojira, etc) at La Source Mastering in Paris, the backdrop for this mature rock manifesto flirts heavily within the multiple genres of hard rock, from stoner, to grunge, to alternative, Grain Of Soul ultimately succumbs to one thing only: a timeless collection of songs from a band that seem to have found their ultimate artistic freedom.

DEAF FOREVER #13 (NEW*GER METAL MAG*KREATOR*HIGH SPIRITS*POSTER R.WILD/DIO) - 6 €

Es schlägt 13! Liebe Headbangerinnen und Headbanger! Willkommen zu unserem 13. Riot Of Violence und gleich sind wir mitten im Geschehen: Nach dem runden Geburtstag von "Obsessed By Cruelty" jährt sich mit "Pleasure To Kill" ein weiterer absoluter Thrash-Klassiker zum 30. Mal: In unserer zehnteiligen Titelstory erfahrt Ihr alles, was es über Kreators extremstes (und für nicht wenige bestes) Album zu wissen gibt. Mille gräbt tief in seinen Erinnerungen, und viele Zeitzeugen kommen - wie gewohnt in solchen Fällen - ebenfalls zu Wort.

Auch die Quasi-Kreator-Nachbarn Sodom kommen zu Wort, denn ein großer Teil unseres Teams spricht vom stärksten Sodom-Longplayer seit Jahren - weil sich Tom Angelripper und Co. wieder hörbar auf ihre Wurzeln besonnen haben. Anklänge an "Obsessed By Cruelty" oder Agent Orange sind jedenfalls nicht zu überhören. Für das Sommer-Album des Jahres sorgen Chris Black und seine High Spirits. Euch erwartet ein Feuerwerk der guten Laune und grandiosen Hooklines!

Eine lange Anlaufzeit brauchte unser Interview mit Teitanblood, weil Bandkopf Nasko kaum welche gibt. Monatelange Vorarbeit zahlte sich aber schließlich doch aus: Herr Mühlmann wurde zur Audienz gebeten und auch Michael Kolsiek fühlte sich in seinem Element, als er fünf

Musiker von Psychotic Waltz interviewte und danach sechs Seiten über die vielleicht beste Progressive-Metal-Band aller Zeiten verfasste. Cascadian Black Metal ? was ist das denn?

Black Metal mit humanistischen Untertönen und viel grüner Grundfärbung? Und trotzdem die pure Raserei? Wie kann das gehen? Woher kommt die Inspiration für so etwas? Und wer sind die Hauptprotagonisten dieser Szene? Die Antworten erfahrt Ihr in unserem großen Special, an dem mehrere DF-Mitarbeiter mitgewirkt haben.

Weitere Interviews haben wir geführt mit Running Wild, Monument, Lord Vicar, Dautha, Hellbringer, Graveyard, Dark Forest, Blues Pills, Cauchemar, Inquisition, Vanhelgd, Witherscape, Virus, Hammers Of Misfortune, Dool, Vicious Rumors, Widow und Assassin?s Blade. Die bekannten Rubriken wie Maniac der Ausgabe, The Dungeons Are Calling, Under A Funeral Moon und Forgotten Jewels liefern Euch wieder spezielle Typen, vielversprechende Newcomer und heiÙe Tipps. Zu den Schwerpunkten unserer Konzert- und Festivalrückblicke zählen diesmal das Bang Your Head!!!, Live Evil, Protzen Open Air, das Stoned From The Underground sowie der Funkenflug.

Massenhaft Tonträger-Reviews sind selbstverständlich, und zwei historisch wertvolle Poster spendieren wir Euch ebenfalls: Beglückt Eure Mitbewohner mit Running Wilds Gates To Purgatory und Rainbow auf ihrem Zenit mit Dio. In diesem Sinne: Raise the Fist of the Metal Child!
