AGATUS - The Eternalist (NEW*NWOBHM/BLACK METAL*IRON MAIDEN*ANGEL WITCH) - 12 €

Hells Headbangers Records 2016 - Fantastic long-awaited third album of legendary Greek black metal institution AGATUS, The Eternalist, but now the Band delves further into old heavy metal sounds!

For Fans of Iron Maiden, Diamond Head, Grim Reaper, Angel Witch, early Blind Guardian meets early Agatus

With The Eternalist, AGATUS set a clear course toward older sounds and atmospheres: a golden ratio combining the feel of NWOBHM with '70s rock and everything that you have come to know and anticipate of these two brother musicians over the years. Vorskaath adds, "We decided to take an old-style hard rock/heavy metal approach that is manifest on every aspect of the album, from the performances and recording to the sounds we chose and the way we mixed. From the very first notes of The Eternalist, that feel is unmistakably there."

Rendered in warm analog tones, gritty but full of life, AGATUS' The Eternalist is an epic journey across the hinterlands of the imagination. In many ways, it follows the heavy metalled direction of 2002's celebrated The Weaving Fates but incorporates the proggy textures of 2012's Gilgamesh EP, thus ushering in a new era for the duo that's respectful of the past but sets its sights on the future - and the unknown.

ALTAR OF OBLIVION - Barren Grounds (NEW*EPIC POWER/DOOM METAL*SOLITUDE AETURNUS*CANDLEMASS) - 11 €

Shadow Kingdom Records 2016 - Limited Edition of only 500 copies - Epic Doom/Power Metal Highlight !

For Fans of CANDLEMASS, SOLITUDE AETURNUS, COUNT RAVEN, ATLANTEAN KODEX, PROCESSION and SOLSTICE

It's been four very long years since ALTAR OF OBLIVION's landmark Grand Gesture of Defiance, but the Danish kings are back to reclaim their throne with Barren Grounds! And although those four years have been quiet and could've spelled a change of course, ALTAR OF OBLIVION return rested and firing on all cylinders here, offering the same distinct sound as their celebrated pair of albums but perfecting it in a manner that's anything but barren. As emotional as ever and reaching equally for the heavens and hells, Barren Grounds offers four brand-new songs that span the signature ALTAR OF OBLIVION aesthetic. "State of Decay" begins the record quietly and then charges into molten heaviness, dynamically shifting gears, and often; "Serenity" is aptly titled, a placid instrumental that's the calm before the storm; the title track is pure emotional doom bliss, recalling the classic Candlemass archetype and arguably one of the band's best songs yet, while the hushed closer "Lost" is positively goosebump-inducing in its sonic loneliness.

Altogether, and featuring the band's best and heaviest production to date, Barren Grounds makes for a completely satisfying mini-album experience: herald the return of ALTAR OF OBLIVION!

ASCALON - Reflections (NEW*BRITISH STEEL NEWCOMER*JUDAS PRIEST*TYTAN*ANGEL WITCH*SATAN) - 13 €

No Remorse Records 2016 - ASCALON, the Heavy Metal vigilantes from UK present their first CD release under the title "Reflections". ATTACKER - Sins of the World (NEW* *US POWER METAL*LIEGE LORD*HELSTAR) - 13 €

Metal on Metal Records 2016 - Brandnew US Power/Heavy Metal Killer with Bobby Lucas on Vocals !

For Fans HELSTAR, LIEGE LORD, OVERLORDE, SEVEN WITCHES, IRON MAIDEN, VICIOUS RUMORS and JAG PANZER.

The mighty ATTACKER return with their 6th album, the long anticipated follow-up to 2013's critically acclaimed "Giants of Canaan". Some people doubted that they can write an equally good one, let alone top it. But here they are again, with a blistering slice of US power/heavy metal, a bit more aggressive this time around. Loaded with bone-crushing riffs, excellent double lead harmonies, bombastic drums and bass, and soaring, melodic and aggressive vocals, this album is sure to impress all fans of REAL metal. Just try NOT to raise your fist or sing along to those songs... if you manage to do this, you are probably hearing-impaired! This band can be best compared to wine - they're only getting better with age. The sound that once brought ATTACKER to the forefront of the underground scene has matured and yet remained faithful to the classic sound that has made them great in the first place. The World Destroyer is rising - you can still choose your weapon, but prepare to be decimated and pay for the Sins of the World!

Heavy Chains Records 2016 - Canada's kings of envenomed fantasy metal - Barrow Wight. From their humble beginnings as a Venom cover band, Barrow Wight have forged a truly unique, and extremely heavy sound that takes it's cues from the aforementioned metal tyrants, as well as seamlessly incorporating the razor edge of Amebix and the the epic psychedelic wanderings of Hawkwind.

BITCHES SIN - Ultimate Invaders (NEW*LIM.DCD NWOBHM CLASSIC + 4 UNREL.BONUS TRACKS) - 15 €

Metal Nation Records 2016 - NWOBHM Classic - Double CD of the band's 1986 Invaders album . There were two versions - both different recording and many different tracks. Both now together for the first time on one cd.

Also includes four unreleased bonus tracks from the time , sleeve notes , lyrics and archive photos.

In 1986 King Klassic Records in America released Bitches Sin 2nd album called Invaders. This 10 track LP went on to become a NWOBHM classic so much so that back in their own country British label. G.I. Records also release another version of it in 1988. This version was completely re-recorded and had a different cover, and moreover, had four tracks discarded and 3 new songs added for a 9 track album. Now here together for the first time are those full two albums put together as a double CD but with another 4 different unreleased bonus tracks added onto two full colour picture disc CDs making a 23 track double CD package. Comes together with a 12 page CD booklet feat. both covers, archive photos and press cuttings plus lyrics and sleeve notes hence the secondary title of 'Ultimate Invaders'.

Bitches Sin came together in 1980, formed by the Toomey guitarist brothers, Ian and Pete from Cumbria, England. The band quickly came to the attention of Neat Records who included them on that year's iconic NWOBHM compilation Lead Weight. The track 'Down The Road' was so well received by rock critics and fans alike Neat went on to release the band's debut 7" single 'Always Ready For Love' / 'Sign Of the Times' also in 1980. Album wise the band had to wait till 1982 when another major label of the NWOBHM released the band's Predator opus. Line-up changes delayed the band's next offering until 1986 but it was well worth the wait as it was their widely regarded classic Invaders album. More line-up changes caused inevitable rifts and the band folded soon after only to return in the 1990's as Flashpoint releasing 3 albums before also this outfit went into permanent hibernation after the interest in Bitches Sin amongst HM fans dictated they resurrect the name and in the noughties and beyond the band have released numerous new studio albums and compilations on their own label.

2015 sees the 35th anniversary of the English classic rock band , Blitzkrieg who came into existence in 1980. Although their debut single (on Neat records) was released in 1981 , 'Buried Alive b/s Blitzkrieg' it was not till 1985 that the band recorded their debut album as vocalist Brian Ross was involved with his other band , Satan recording and touring their debut opus ' Court In The Act ' . 30 years on because of catalogue sale and resale 'A Time Of Changes ' is lost in the vaults of corporate hell and may never see the light of day again. That said the current line up of Blitzkrieg wanted this album available to fans so they have completely rerecorded the album and added two bonus tracks . 'Too Wild To Tame' which should have made the LP back in 1980 but for time restrictions of vinyl then would not fit ! (It was originally covered by another Neat records stablemate , Avenger in the 1980's)

The second bonus track , 'Jealous Love ' , has never been released before though written at the time .

All the classic tracks are here too on this album including many still played live today which included the Metallica covered 'Blitzkrieg' track . It also features guest twin guitar appearances on 'Pull The Trigger' by Satan's Russ Tippins and Steve Ramsay. Great new artwork has been commissioned for the new version too by South American artist Ivan Chacon fronting a new 12 page booklet full of sleeve notes by Brian Ross , lyrics and new photos from the past and present line up..

Svart Records 2016 - Following their critically acclaimed 2015 release Black Hole Gods, California doom trio Cardinal Wyrms return with their new full-length release Cast Away Souls.

Cardinal Wyrms is some really heavy stoner fuzz gloom. Cast Away Souls will cast you away on a sonic space trip through interstellar graveyards. Cardinal Wyrms honor the traditional elements of the doom metal maelstrom, a simple combination of punk riffs and melodramatic sad atmospheres, with some old fashion '70s trippy rock & roll outlandish journey pulling all of the music forward into a hypnotic trance. For Fans of early Candlemass, St. Vitus, Cathedral , Type O Negative, Solitude Aeternus The back and forth vocals of Pranjali Tiwari and Hammers of

Misfortune guitarist and vocalist Leila Abdul-Rauf really work well together, setting fires throughout the album that you couldn't miss even if you're super super stoned. Leila adds a very viscous touch to the hymns Cardinal Wyrms.

A gatefold and booklet of fantastical, full-color artwork by Kim Holm (Solstafir, Vreid) serves as the only map for listeners as they drift on a river of riffs towards the sonic islands of six epic, mesmeric tracks, on a journey through dimensions within and beyond.

CHASER - Raiders - The Anthology (NEW*NWOBHM HIGHLIGHT*TRESPASS*P.MANTIS) - 13 €

Skol Records 2016 - NWOBHM Gem from 1984 for Fans of Trespass, Prying Mantis, Bitches Sin

The term "NWOBHM" - what's a shortcut for the New Wave Of British Heavy Metal - electrify Metal fans around the globe for already more than 30 years. No wonder, as not only it's a goldmine of great bands, albums, riffs and spectacular live shows, but also something that influenced and still influence the entire Metal world, and the biggest Metal bands that ever existed, including METALLICA, whose members are known as a huge NWOBHM enthusiasts.

Probably all the fans know such NWOBHM acts as IRON MAIDEN, SAXON or DIAMOND HEAD, but those who dig deeper, know that there is still a lot to discover.

One of the best kept secrets of the NWOBHM was CHASER. Back in the day, in 1984, the Ipswich, Suffolk based band released just one single titled "Raiders" (which nowadays is a highly sought after collectors item). But between 1984 and 1987, they actually managed to professionally record 15 tracks, worth of an album release. This never happened, and the recordings got buried for the next 30 years. Now the recordings will be heard and officially released for the first time ever! The limited edition CD entitled "Raiders - The Anthology", which will include all the 15 tracks, with new dynamic mastering by Bart Gabriel (CIRITH UNGOL, MYTHRA, SATAN'S HOST)! Album's cover artwork was created by Roberto Toderico, Italian artist known from his cooperation with such NWOBHM acts as TYGERS OF PAN TANG, QUARTZ and MYTHRA.

CHRISTILLOW was formed in Philadelphia, Pennsylvania 1988 by members Michael James Christillow (Vocals), Kenne Mettler (Guitar), Jessy Marks (Bass), Rod Taken (Drums), and David Guistwhite (Keyboards). CHRISTILLOW would quickly generate a buzz as they began playing the circuit up and down the East coast. Sharing bills with bands such as Loudness, Britney Fox, and a number of other touring bands of the time, CHRISTILLOW would prove to audiences that their brand of metallic melodic hard rock with hints of pomp had what it took to be a contender. The band would gain much attention from various labels although the industry was foreseeing a change coming and holding many hard rock bands at bay. Like many bands who stuck to their guns and would not alter their sound for a new audience, they would await that deal that would never come. By 1992 it looked like there was no room for hard rock in the new musical climate and CHRISTILLOW called it a day. CHRISTILLOW managed to record a 10 track demo that would be sent out to labels and sold great at shows. In years since the band's disappearance, the recordings have become quite sought after by collectors who know of the band, the cassettes being nearly impossible to find these days. Their obscurity on the internet would only add to the mystique.

CRIPPLED BLACK PHOENIX - Bronze (NEW*LIM.SLIPCASE ED.+ 2 EXCL. BONUS TRACKS) - 14 €

Season of Mist 2016 - Limited edition with bonus tracks and slipcase.

Crippled Black Phoenix as a vehicle to explore musical arrangements that exhibit heavy, melancholic atmospheres that are played by a seven band crew but sound as if an orchestra is performing.

Just like the alloy this album is named after, CRIPPLED BLACK PHOENIX's music is made of metal and non-metal elements. Dark rock forms the base ingredient in the musical amalgamation process, but it is the addition of metal, progressive influences, gothic, wave, even pop, and many other elements as well as a changing cast of musicians that result in each song shining with its own individual hue and tone. Yet a deep sense of anguish, despair, longing, loss, melancholy, and nostalgia forms a binding force that holds 'Bronze' together and formulates an encompassing theme.

EDDY MALM BAND - Northern Lights (NEW*SWE 80's HEAVY METAL*HEAVY LOAD*HIGHBROW) - 15 €

No Remorse Records 2016 - HEAVY LOAD is BACK !

Eddy Malm gained success with Swedish metal pioneers HEAVY LOAD in the early 80s. In 1998, guitarist Per Hesselrud approached Eddy with the aim of making a comeback album, just because he admired Eddy's voice and his heartfelt lyrics. Many evenings were spent talking through life in general, music and the possibility of a comeback. After years, the band was contacted by No Remorse Records and the comeback became reality.

The line-up of EDDY MALM BAND is Eddy Malm (lead vocals), Per Hesselrud (lead and rhythm guitars), Tomas Malmfors (bass), Micke Kerslow (drums) and the album was recorded between August 2014 and May 2016. All the songs evolved slowly and gracefully and the album became like an extension of the classic hard rock albums from the late 70s and early 80s. Eddy's vocals, the music and the lyrics became just like a vintage wine with loads of input from Per Hesselrud, Tomas Malmfors and Micke Kerslow. The album contains a few, Eddy-written HEAVY LOAD and HIGHBROW songs but recorded with new arrangements.

EMERGENCY - Martial Law (NEW*DUTCH HARD ROCK 1989*PICTURE*DEF LEPPARD*SURVIVOR) - 14 €

Divebomb Records 2016 - Dutch Hard Rock with Picture Vocalist

The history of Dutch rockers EMERGENCY dates back to 1985, when Jos Antonissen (bass) and Frans Limonard (guitar) approached Coen Van Hoof (keyboards) about forming a new band. By April of 1986, EMERGENCY was born, and with the help of former PICTURE manager Henk van Antwerpen, landed ex- PICTURE frontman Pete Lovell on vocals. The group firmed up its songwriting and quickly secured a recording contract to begin work on their debut album, Martial Law, with producer Erwin Musper (ZINATRA, DEF LEPPARD, etc.) at ML Studio and Wisseloord Studios in 1987.

Upon its release in 1989, Martial Law received press comparisons to acts like BON JOVI and EUROPE, but one could even cite similarities to what a band like SURVIVOR was doing around that time: good, solid hard rock with "pop" sensibilities; noticeable influences traced back to the '70s; an '80s-centric prominence of keyboards; as well as tinges of heavy metal. But despite its huge potential and some positive attention from Dutch radio, Martial Law's two singles failed to make waves, writing for the follow-up stalled, and the members of EMERGENCY went their separate ways...

But now, nearly 30 years after its original street date, this overlooked hard rock treasure with a proper CD reissue of Martial Law. Newly remastered by Jamie King at The Basement Recording, the disc will come housed alongside lyrics, archival photographs, and a retrospective interview with EMERGENCY conducted by NoEcho.net co-editor Andrew Aversionline. For the fans, by the fans!

GOATESS - Purgatory Under New Management (NEW*DOOM/STONER METAL*LORD VICAR/COUNT RAVEN) - 14 €

Svart Records 2016 - Doom Metal / Stoner Metal around Swedish cult doom metal vocalist Chritus Linderson (Count Raven, Saint Vitus, Terra Firma)!

For Fans of Lord Vicar, Count Raven, Black Sabbath, Saint Vitus At nearly 65 minutes, 'Purgatory Under New Management' is as epic as its predecessor yet different. Far more psychedelic sounding, its eight songs portray a band not afraid of expanding their horizons and minds beyond the mere 'doom' or 'stoner' tags, heading for something that is both atmospheric and progressive in spirit, even if you'll feel in suspension somewhere between the moon and the sun one moment and assaulted with a ton of brick the next. And of course, you've got Linderson unmistakable voice, a shaman on his own right, preaching to all us sinners to repent before it's too late.

GRAVEBREAKER - Sacrifice (NEW*LIM.500*SWE HEAVY METAL*ACID*MERCYFUL FATE*DIO*RISING FORCE) - 13 €

Cruz del Sur Records/Gates of Hell Records 2016 - Limited Edition of 500 copies only ! A mix of NWOBHM simplicity and (then) burgeoning darker European sounds, like Acid and Mercyful Fate or The Rods .

This musical beast prowls the dark back alleys of Old School Heavy Metal, sharing its DNA with progenitors like Accept, Rising Force, 80s Black Sabbath, Mercyful Fate, Dio, and Motörhead.

No gravestone has been left unturned in GRAVEBREAKER's quest for the original sounds of Heavy Metal - the hot-tempered drums, the irascible guitars and the fiery growls, all presented at breathtaking speed (oh, and the ferocious keyboards, of course...). Are YOU ready for the SACRIFICE? Only Traditional Heavy Metal, Accept No Substitute!

HAMMER KING - King Is Rising (NEW*EPIC/POWER/TRUE METAL*MANOWAR*PRIEST) - 13 €

Cruz del Sur Records 2016 - brandnew 2nd Album with Epic/True/Power Metal Hymns in the Manowar Tradition !

Heavy Metal in the tradition of Manowar, Ross the Boss, Iron Maiden, Judas Priest with more than a reference to German Power Metal like Running Wild, Majesty, Heaven's Gate or Helloween

The band consists of former ROSS THE BOSS' vocalist Titan Fox, former SALTATIO MORTIS' drummer Dolph A. Macallan rounded out by K.K. Basement on bass and Gino Wilde on guitars.

"King Is Rising" contains 12 Metal anthems literally made for live shows – with a nod towards faster paced songs compared to their debut "Kingdom Of The Hammer King".

The second chapter of the Hammer King's saga thematically centers about war and revolt, while the King's battle stories drastically bespeak today's global crises.

For the album's artwork, the band decided to set up again a partnership with brilliant German artist Timo Würz and the result speaks for itself: Timo is the kind of artist who guarantees quality in every aspect of his job!

HAVOC was formed in 1986 by guitarist Mark Weddington, bassist Mark Lyrly, drummer Michael James, and vocalist Binny Orrell, HAVOC would quickly become one of the strongest drawing acts on the N.C. club scene. In 1988 the band would release a six-song, self-titled EP that

would be well received by fans, press, and industry. The foursome continued to maintain a steady draw and eventually recorded another four tracks.

Unfortunately, as the coming decade was drawing near HAVOC would become another one of those all too common stories of 80s rock casualties to the changing times.

This will surely be a blast from the past for those who were there, and a new discovery for those fans and collectors of 80s melodic rock worldwide.

Metal on Metal Records 2016 - Traditional Heavy Metal from Germany

For Fans of IRON MAIDEN, MANOWAR, JUDAS PRIEST, ACCEPT or old RUNNING WILD

METAL LAW don't reinvent the wheel, they're just satisfied to run you over with the wheel that's already there. If you want something unique or innovative, you've come to the wrong place. It is not, but who ever said that music needs to be original to sound good and be downright enjoyable? It took 8 long years for the German defenders of steel to come back with a new full-length, the 3rd one in their discography. But good things come to those who wait, and the 10 new songs (plus a re-recording of a tune from their previous album) are traditional heavy metal anthems with solid riffs, sing-along choruses and somewhat gruff vocals reminiscent of Eric Adams, rounded up by production which is a vast improvement over their last effort.

Hell, yes this is a real great piece of METAL coming from Brazil playing the good old US 80ies US Metal with some prog influences ! Mario Pastore's voice can be compared with Bruce Dickinson, Geoff Tate, M. Kiske or Rob Halford.

Review from Marios Metal Mania - with 100 from 100 Points for the first time ever in this Metal Mag history:

"This is the debut album of Brazilian based band PASTORE; fronted by singer Mario (nice name;) Pastore whos career began in the 80's singing in bands like Acid Storm, Sacred Sinner, Titanio, Opera's Noise, etc..just to name a few. Raphael Gazal is the guitarist (and producer) of Pastore and the band is completed with Alexis Gallucci (bassplayer) and Fabio Buitvidas (drummer).

I never ever heard of these guys and the more I was surprised by this awesome album! This is power metal the way it should be played! From the first (title) song "The Price for the Human Sins" (with extreme great vocals) till the last second; this album is AWESOME!!!! Long time ago I heard such an incredible album with such great musicianship and excellent vocals!!

I don't have much info about the band besides what is written above but who cares? This band needs to be famous and when its up to me; they will!!! This is my kind of metal; US-metal-a-like powermetal with great musicians, superb singer and only great compositions!"

PICTURE - Traitor (NEW*DUTCH STEEL* 1st TIME ON CD + BONUS*JUDAS PRIEST*SAXON*ACCEPT) - 15 €

Divebomb Records 2016 - Finest Dutch Steel for the first time on CD - their 5th Album!

Widely recognized as one of (if not the) first Dutch heavy metal bands, PICTURE's storied career dates all the way back to 1979. Their classic first four albums have previously been subject to Divebomb's two-on-one CD treatment in 2013, and it's now time to see the group's fifth opus, Traitor, join the ranks.

Originally issued on LP and cassette in 1985, Traitor was PICTURE's second-and, at the time, final-album with English frontman Pete Lovell. This period signaled a shift towards a slightly more commercial hard rock direction, under pressure from a record label hoping to mirror the massive success of American acts such as MÖTLEY CRÛE. But make no mistake: Traitor's nine tracks remain packed with hard-hitting traditional metal riffs and absolutely anthemic choruses-a logical next step on the heels of 1983's Eternal Dark.

And now, over three decades its official reissue of PICTURE's Traitor-for the first time ever on CD! Freshly remastered by Jamie King at The Basement Recording, with three bonus tracks and includes archival photographs as well as a retrospective interview with Pete Lovell conducted by NoEcho.net co-editor Andrew Aversionline.

Metal on Metal Records 2016 - Traditional Heavy Metal from Germany

For Fans of SAXON, ICED EARTH, IRON MAIDEN, ASKA, BLAZE, DESTILLERY, THUNDERBOLT, METAL LAW, METAL INQUISITOR, early ARTCH or BLITZKRIEG!

If Armageddon is anything like the new SACRED GATE album, it would be something to count down the days to with excitement! The already solid songwriting known from this German traditional heavy metal band's two previous albums has developed even more as they have further consolidated their own style, which often brings to mind '80s US power metal, gives a few nods to NWOBHM, but also verges on thrash in some chunky riffs.

The addition of a new singer with dynamic, melodic and full of passion vocals has facilitated it and helped the band reach their artistic maturity. It's hard not to appreciate the intricate arrangements, catchy choruses, flowing leads with beautiful, epic melodies and the robust rhythm section, especially when the powerful production helps them shine.

X-CALIBER formed in Irwin, Pennsylvania back in 1984. These five young heavy metal knights; James Yedlick (guitars), Kevin Donegan (vocals), Bruce Fleckenstein (bass), Jerry Conrad (guitar), and Donnie Lee Poland (drums) would set out upon a quest to realize their vision and rock and roll fantasy. Against all odds and disbelievers, they battled furiously and gallantly. The result of their trials would be the self-produced 'Warriors of the Night' LP released in 1986.

Since the album's release three decades ago it has become the Holy Grail to many collectors and has been known to fetch hundreds of dollars. Now all these years later finally this gem will see a proper re-issue and first time ever on CD remastered from the best possible sources.

CADAVERIC POSION - Same (NEW*LIM.500 GREEN V.*DEATH/THRASH METAL*MASTER*WITCHBURNER) - 16 € Heavy Forces Records 2016 -

Lim.Ed. of 500 copies in green vinyl, high glossy cover , heavy weight printed innersleeve , poster It was 2013 when an idea to start an old school death metal project began forming in Simon Seegel's head. Simon, who had been the guitarist of WITCHBURNER since 1996, played on all releases of this respected German thrash metal band, including seven full-length albums, several EPs and splits. He then asked his band mate Felix Darnieder (WITCHBURNER drummer since 2002) if he'd like to join him, to which Felix agreed, and soon the song writing commenced. After a few weeks, the first song, later called "Fight for Evil", was recorded in the rehearsal room in its rough demo version (just guitar and drums). CADAVERIC POISON's self-titled debut album is a true old school death metal manifesto - it will take you back to the time when the genre was just emerging and often had some thrash metal elements. Paul's insane vocals are instantly recognizable, and the solid instrumentation by the German thrash veterans is just as convincing.

CARDINAL WYRM - Cast Away Souls (LIM.200 PURPLE SPLATTER*US DOOM METAL*CANLDEMASS*CATHEDRAL*S.AETURNUS) - 19 € Svart

Records 2016 - Following their critically acclaimed 2015 release Black Hole Gods, California doom trio Cardinal Wyrms return with their new full-length release Cast Away Souls.

Limited Edition of 200 copies in Purple Splatter, Gatefold Cover Cardinal Wyrms is some really heavy stoner fuzz gloom. Cast Away Souls will cast you away on a sonic space trip through interstellar graveyards.

Cardinal Wyrms honor the traditional elements of the doom metal maelstrom, a simple combination of punk riffs and melodramatic sad atmospheres, with some old fashion '70s trippy rock & roll outlandish journey pulling all of the music forward into a hypnotic trance.

For Fans of early Candlemass, St. Vitus, Cathedral, Type O Negative, Solitude Aeturnus The back and forth vocals of Pranjali Tiwari and Hammers of Misfortune guitarist and vocalist Leila Abdul-Rauf really work well together, setting fires throughout the album that you couldn't miss even if you're super super stoned. Leila adds a very viscous touch to the hymns Cardinal Wyrms.

A gatefold and booklet of fantastical, full-color artwork by Kim Holm (Solstafir, Vreid) serves as the only map for listeners as they drift on a river of riffs towards the sonic islands of six epic, mesmeric tracks, on a journey through dimensions within and beyond.

We are working directly with original label owner and Excruciation drummer Andy Renggli, brother to guitarist Chris Renggli (R.I.P.) who has supplied the original cover artwork for both the album and the EP, new liner notes from Andy, drummer Levent Sunu and Excruciation vocalist Eugenio Meccariello, lyrics and classic band photos.

CRIPPLED BLACK PHOENIX - Bronze (NEW*LIM.DLP BLACK VINYL*ELECTRIC WIZARD, PINK FLOYD) - 22 €

Season of Mist 2016 - Limited Black DLP 12" vinyl with insert in deluxe gatefold with UV spot varnish and matte lamination.

Crippled Black Phoenix as a vehicle to explore musical arrangements that exhibit heavy, melancholic atmospheres that are played by a seven band crew but sound as if an orchestra is performing.

Just like the alloy this album is named after, CRIPPLED BLACK PHOENIX's music is made of metal and non-metal elements. Dark rock forms the base ingredient in the musical amalgamation process, but it is the addition of metal, progressive influences, gothic, wave, even pop, and many other elements as well as a changing cast of musicians that result in each song shining with its own individual hue and tone. Yet a deep sense of anguish, despair, longing, loss, melancholy, and nostalgia forms a binding force that holds 'Bronze' together and formulates an encompassing theme.

EXCUSE - Goddess Injustice (NEW*LIM.500 BLACK VINYL*FIN SPEED METAL*RAZOR*SACRIFICE) - 16 €

Shadow Kingdom Records / Hells Headbangers 2016 - Finland's hottest newcomers: EXCUSE and their brand-new Goddess Injustice EP. Limited Edition of 500 copies in Black Vinyl !

Set to be released on 12" vinyl, Goddess Injustice is EXCUSE's second EP to date after a debut demo in 2013. In a short amount of time, this fierce Finnish foursome have developed into a finely honed missile of speed metal glory. In many ways recalling the classic Canadian gods

Sacrifice and Razor, EXCUSE take that evil 'n' sleazy surge of power to more darkly melodic lengths, but always never losing sight of true heavy metal feeling. And at four swift and sharp tracks, the EP gets in and gets out, doing maximum cranial damage. Goddess Injustice may be a cruel mistress, but there's no EXCUSE to not worship her! For Fans of Razor, Sacrifice, Ranger, Artillery

GAMMACIDE "CONTAMINATION: COMPLETE (Discography 1987-2005)". The ultimate collection from Texas' ballistic speed-freaks of Thrash! If you're not familiar with this devastating band, their ground shaking full length "Victims of science" originally released in 1989 by Wild Rags Records is hands down one of the most powerful, creative and criminally under rated US Metal albums of the '80s. It unleashes an unstoppable overkill of energy and tightness made of highly-skilled riffs, schizophrenic solos, head punching vocals and an incredibly solid drum delivery. If you thought that the peaks of US Thrash were bands like Exodus, Dark Angel, Testament, Anthrax, Vio-lence... check out this boxset and you'll probably find a new name to add to your top ten, no bullshit!

It contains their complete discography 1987-2005 including the following:

GRAVEBREAKER - Sacrifice (NEW*LIM.400 BLACK VINYL*ACID*MERCYFUL FATE*RISING FORCE*DIO) - 16 €

Cruz del Sur Records/Gates of Hell Records 2016 - Limited Edition of 400 copies in BLACK Vinyl only + Insert ! A mix of NWOBHM simplicity and (then) burgeoning darker European sounds, like Acid and Mercyful Fate or The Rods !

This musical beast prowls the dark back alleys of Old School Heavy Metal, sharing its DNA with progenitors like Accept, Rising Force, 80s Black Sabbath, Mercyful Fate, Dio, and Motörhead.

No gravestone has been left unturned in GRAVEBREAKER's quest for the original sounds of Heavy Metal - the hot-tempered drums, the irascible guitars and the fiery growls, all presented at breathtaking speed (oh, and the ferocious keyboards, of course...). Are YOU ready for the SACRIFICE? Only Traditional Heavy Metal, Accept No Substitute!

HAMMER KING - King Is Rising (LIM.150 GREEN V.*EPIC/POWER/TRUE METAL*MANOWAR*PRIEST) - 18 €

Cruz del Sur Records 2016 - brandnew 2nd Album with Epic/True/Power Metal Hymns in the Manowar Tradition !

Limited Edition of 150 copies in green vinyl, gatefold, insert, download code

Heavy Metal in the tradition of Manowar, Ross the Boss, Iron Maiden, Judas Priest with more than a reference to German Power Metal like Running Wild, Majesty, Heaven's Gate or Helloween

The band consists of former ROSS THE BOSS' vocalist Titan Fox, former SALTATIO MORTIS' drummer Dolph A. Macallan rounded out by K.K. Basement on bass and Gino Wilde on guitars.

"King Is Rising" contains 12 Metal anthems literally made for live shows – with a nod towards faster paced songs compared to their debut "Kingdom Of The Hammer King".

The second chapter of the Hammer King's saga thematically centers about war and revolt, while the King's battle stories drastically bespeak today's global crises.

For the album's artwork, the band decided to set up again a partnership with brilliant German artist Timo Würz and the result speaks for itself: Timo is the kind of artist who guarantees quality in every aspect of his job!

Sixteen years after the release of "Aelin", cult Swedish epic metal band QUICKSAND DREAM is finally ready to release their second album, "Beheading Tyrants"
QUICKSAND DREAM is one of those bands surrounded by an aura of secrecy, its name spoken among a selected circle of fans. The strength and beauty of "Aelin", originally released in 35 CDRs copies and repressed in 2010 by Chris Black's own label "Planet Metal" (vinyl version on High Roller Records), built up a loyal and strong army of devotees enchanted by the band's unconventional and genuine offer. Through all these years founding members Patrick Backlund (Mortalicum) and Göran Jacobson have kept the flame of QUICKSAND DREAM alive, and now with the help of Henrik Högl and Andreas Häggström are ready to release their second opus.
Adorned by Vincent Van Gogh beautiful "Autumn Landscape At Dusk" painting, "Beheading Tyrants" consists of six tracks of heavy, doom-tinged epic metal

MAGAZINES

DEAF FOREVER #15 (GER METAL MAGAZINE*STEVE HARRIS*SOLSTICE + POSTER LEMMY / ANGEL WITCH) - 6 €

Auf den ersten Blick mag man auf ein verschollenes historisches Foto von Ex-Mayhem-Sänger Dead tippen – aber nein, bei unserem Coverhelden handelt es sich um Erik Danielsson, den charismatischen Bandkopf von Watain. Um die schwedische Black-Metal-Instanz sowie um die gesamte internationale Black- und Death-Metal-Szene des neuen Jahrtausends geht es in unserem 22-seitigen Special, also auch um Bands wie Bölzer, Mglá, Oranssi Pazuzu und Deathspell Omega. Ein historischer Abriss über das weltweite finstere Geschehen der vergangenen 16 Jahre sowie ein Überblick über die 200 wichtigsten Alben sind ebenfalls Bestandteil unserer Titelstory.

Mit British Lion hat Bassist Steve Harris neben Iron Maiden noch eine zweite Spielwiese, auf der wesentlich bodenständiger gekickt wird als auf dem großen Champions-League-Rasen. Interessant, was uns der Maiden-Boss bei einem kleinen Dribbling zuflüsterte.

Coroner, die Schweizer „Progressiv-Thrasher“ (wie man sie früher nannte), sind wieder da und haben gerade eine groß angelegte DVD-Retrospektive veröffentlicht. Das war uns eine ausführliche Story wert, die niemand Geringerer als Tom Gabriel Warrior verfasste.

Eine außergewöhnliche Band, die sich niemals in irgendeiner Form angebedert oder verbogen hat, bekommt bei uns auch eine außergewöhnliche Story: Solstice-Oberfan Michael Kohsiek widmete sich der Geschichte der Engländer in ausführlicher Weise.

Bang gehören zu den (bis vor kurzem) wohlgehüteten Geheimnissen des Siebziger-Proto-Metals, obwohl sie ganz groß hätten durchstarten können. Ihr musikalisches Erbe verwaltet und verwurstet Manuel Trummer auf drei Seiten.

Jahresende ist auch bei uns die Zeit der Rückblicke (und zwar alles andere als besinnlich): Wie immer im Dezember präsentieren wir euch unseren höchst subjektiven Jahrespoll, an dem sich das komplette Team beteiligt hat. Gekoppelt ist das Ganze wieder an unsere Lesenumfrage, und es stehen zahlreiche Platten, CDs und sonstige Gewinne für euch in unserer Postkammer.

Weitere Interviews haben wir geführt mit: Deserted Fear, Demon, Ranger, Downfall Of Gaia, Steelpreacher, Ultha, Pretty Maids, Helstar, Robert Pehrsson's Humbucker, Spiritus Mortis, Witchery und Space Chaser.

Die bekannten Rubriken Under A Funeral Moon (u.a. mit Bestial Raids, Kringa, Krypts, Escarnium und Revel In Flesh), Maniac der Ausgabe und Forgotten Jewels liefern euch wieder spezielle Typen und heiße Tipps.

Zu den Schwerpunkten unserer Konzert- und Festivalrückblicke zählen diesmal u.a. das Leafmeal, Hammer Of Doom sowie das Storm Crusher Festival.

Massenhaft Tonträger-Reviews sind selbstverständlich, und zwei historisch wertvolle Poster spendieren wir euch ebenfalls: Wir gedenken Lemmy Kilmister, bekanntlich Namensgeber unseres Familienblattes, und auf der Posterrückseite findet ihr das Cover des legendären ANGEL WITCH-Debütalbums.
