Obscure US Speed Metal from 1986 for Fans of Cirith Ungol, Sinister Angel, Brocas Helm

CARNAGE from the barren wastelands of South Carolina was cranking out their own brand of speed metal. Perhaps the band where not going for any particular sound or genre, it just came out as it did, It would be raw, aggressive, organic, and totally DIY. The outcome was the bands self-titled full-length in 1986 that featured 7-tracks that could have easily been featured on any of the first five volumes of 'Metal Massacre'.

"Carnage was a band that was the brainchild of Spike Marshall. While it was heavy metal, the band was developed organically, outside of the burgeoning South Carolina metal scene of the late 70s and early 80s. With influences as diverse as Rush, Blue Oyster Cult, The Sensational Alex Harvey Band, Lou Reed, Crack The Sky and The Stooges, Carnage walked their own path." - Jack Hammer

Cruz Del Sur Records 2017 - Heavy Metal Magic from the best classic metal newcomer out of Germany.

Twin axe-attack driven worship of the olde masters such as OMEN, VICIOUS RUMORS, WARLORD, VIRGIN STEELE, CIRITH UNGOL, just to name a few.

LUNAR SHADOW built a strong reputation over the last 2 years through word of mouth and a selected release and live activity.

Their first 2015's EP Triumphator was nominated Demo Of The Month on German ROCK HARD magazine and since then the band has had a chance to play live with the likes of Atlantean Kodex, Dark Forest and Argus, also including a set on the prestigious Harder Than Steel festival in their homeland. 'Far From Light' is their debut album and delivers eight brand new songs of epic, melodic, thoughtful and proudly regressive Metal. There are so many different details in the 60 minutes of the album, that Far From Light really needs more than a couple of plays to be fully discovered and appreciated.

The band likes to surprise with a continuous changes of pace and speed, the vortex of guitar solos thrown on the table makes an ambitious trial get to the essence of Far From Light. The main reference is to traditional metal acts (the melancholy of Warlord fulfils the album for example), but LUNAR SHADOW likes to develop its personal sound also through epic ballads even throwing in some doom and black metal elements.

Nightcrawler's Testament is a complete retrospective spanning the history of one of Cleveland's premier heavy metal bands. The album is produced by Nox Arcana's Joseph Vargo and William Piotrowski, and also features cover art by Vargo. Fans of Nox Arcana may recall that Nightcrawler vocalist, Jim Hamar, sang on "Spellbound," the hard-rocking hidden track on Carnival of Lost Souls. In addition, Nightcrawler also performed live at Nox Arcana's 666 CD release party on June 6th, 2006.

Vargo states, "We produced this album to honor the memory and musical legacy of our dear friend, Michael "Cat" Landris, Nightcrawler's guitarist and founder, who lost his battle with cancer late last year. We wanted to ensure that his work would live on. Cat was a really great guy and a fantastic guitarist. Music was his life. He will be sorely missed."

This double CD set offers newly remastered versions of rare studio material and previously unreleased demos and live tracks. Disc One contains all 13 studio tracks recorded by Nightcrawler's early lineup, featuring vocalist Tommy Thompson.

This disc includes the band's 1989 Soldier In Time LP, their 1990 studio demo, their 1994 studio demo and a bonus track of their earliest studio recording "Welcome To The Night."

Disc Two contains studio and live material recorded by Nightcrawler's later lineups, featuring vocalist Jim Hamar.

This disc contains the band's 1998 self-titled EP, plus previously unreleased demos and rare live tracks. The 12-page booklet is filled with photos chronicling the history of the band.

SATAN'S FALL - Metal of Satan (NEW*LIM.CD EP*ANGEL WITCH*I.MAIDEN*SATAN) - 10 €

Stormspell Records 2017 - Follow Up - EP from these young Finnish warriors, delivering classic metal in the vein of the olde NWOBHM/Speed metal masters.

The Nordic traditional Heavy Metal Underground strikes again ! A mixture of early IRON MAIDEN, JUDAS PRIEST, SATAN, MERCYFUL FATE, VIRTUE and ANGEL WITCH.

SATURN - Beyond Spectra (NEW*HARD ROCK/EARLY METAL*UFO*JUDAS PRIEST*T.LIZZY) - 14 €

Rise Above Records 2017 - Brandnew Killer 80's sounding Hard Rock, early Heavy Metal, Status Quo Boogie Rock'n'Metal

For Fans of Horisont, UFO, Thin Lizzy, Budgie, Deep Purple, Rainbow and Judas Priest - Sad Wings Of Destiny - Era Having already proved their worth and potential three years ago with their stunning debut album Ascending, this young band have evolved into something truly extraordinary this time round. In stark contrast to many retro-minded records currently doing the rounds, Beyond Spectra offers much more than affectionate pastiche and Luddite petulance.

Instead, this is the sound of red-blooded heavy metal with its eyes focused on the depths of outer space, as the rampaging grooves and analogue hiss of prime '70s proto-doom, the swaggering boogie braggadocio of UFO and the stately grandeur of Sad Wings-era Priest collide in a mesmerising shower of irresistible riffs, unearthly melodies and moments of shimmering psychedelia.

SCREAM KING - Tyranny of the Sea (NEW*US POWER/THRASH METAL*OVERKILL*K.DIAMOND*PRIEST) - 13 €

US Private Press 2017 - US Direct Import - Brandnew US Power/Thrash Metal from Michigan on their 2nd Album ! US Metal that hearkens back to some of the best Metal from the 80s, but adds a clean mix of NWOBHM, Power Metal and Thrash. While generally heavier than most Power Metal bands around today, a melodic tone and vibe is

expressed through the use of Judas Priest-esque dueling guitars that follow one another or spit with the bass and the leads.

Joe "Screaming" Lawson has vocals from Hell that act as a pendulum from low, throaty and growling cleans to high pitched falsetto throughout the release. While unusual vocals can be a polarizing subject (read: King Diamond), Lawson tends to keep the extremes in check to allow for a much more accessible range that perfectly fits the overall vibe of the band.

For Fans of Overkill, Testament, Judas Priest, King Diamond, Iron Maiden, Dio, Accept, Metal Church, Slayer, Black Sabbath, Megadeth, and Metallica

SYNAPTİK - Justify and Reason (NEW*LIM.DCD*UK PROG METAL*WATCHTOWER*EVERGREY) - 17 €

Divebomb Records 2017 - Limited Edition UK Tech/Prog/Thrash/Power Metal Highlight - US DCD Version !

The end result is mandatory listening for fans of QUEENSRYËCHE, NEVERMORE, WATCHTOWER and EVERGREY alike. Since forming in 2012 from the ashes of such bands as Fifth Season, Inner Sanctum, and Twisted Autumn Darkness, the primary concern of Norwich, England's SYNAPTİK has been musical intensity. Compartmentalizing SYNAPTİK's approach is as futile as attempting to cage a wild animal, but—nevertheless—traits of progressive metal seem ubiquitous, and a dark aura tends to cloak the band's output.

When SYNAPTİK's debut, The Mechanisms of Consequence, was released in 2014, the press reacted with bewilderment. Near-perfect reviews became the norm, and one factor that seemed to be particularly appreciated was the group's knack for fusing technical sophistication with traditional metal sonorities such as blast beats; powerful riffs; and screaming, Priest-styled melodic vocals.

Test Your Metal Records 2017 - CAN Direct Import - Killer CAN Speed/Thrash Metal

Ex - SKULL HAMMER - yes the CAN Speed/Thrash Metal Monsters with "Destroyers Of The Faith"

As the two guitars and bass are working in frantic, harmonic union, the drums find themselves blasting away in the background with fluid rolls, evolving blast beats, fancy double bass footwork and hi-hat crashes. While the footwork is quick as a machine gun, the handwork finds itself often playing off the patterns of the rhythm guitar to create memorable hooks.

For Fans of Dark Angel, Nasty Savage, Testament, Destruction, Exodus, DEATH ANGEL / MEGADETH / WARBRINGER

Rise Above Records 2017 - Brandnew Killer Heavy Rock/Psycho Doom Metal from Sweden ! Swedish psych rock with a touch of NWOBHM with a dude who sounds like Jim Morrison's bastard child on vocals - For Fans of Graveyard, Witchcraft, Horisont

In the wild and wayward world of undiluted, old school heavy metal and rock'n'roll, Sweden's Troubled Horse are a living, breathing, balls-out example of how change must always be harnessed to make things bigger, better and more exhilarating.

Formed in 2003 in their hometown of Örebro (also home to Witchcraft), the Horse crew erupted into the consciousness of riff-worshippers everywhere with a low-key seven-inch vinyl release in 2010, and then their debut album Step Inside, which was released by Rise Above Records in 2012.

TYRANT - King of Kings CD+DVD (NEW*20th ANNIVERSARY ED.*LIM.500 US METAL CLASSIC) - 16 €

Blood and Iron Records 2017 - Classic U.S. Power Metal band TYRANT, that were a household name on the Metal Blade label in the 80s, along with Slayer, Trouble, etc. released later on in the mid 90s a new album in a german label called King of Kings.

A few years back, it was reissued on CD with live bonus tracks and on vinyl with different cover art.

Now Blood & Iron releases the ultimate reissue with a bonus DVD. For the first time the cover art was done like the band originally intended.

Included were 5 bonus tracks (Dio, Motorhead, Sabbath etc. cover versions) recorded in the 90s and a DVD including a TV show in a cable TV in 1990 plus two bootleg recorded shows in 1985 (opening for Slayer) and 1992. On this third album the band matures to a more Doom influenced sound where the Sabbath influence is more evident and could match perfectly with the sound of ex-label mates Trouble.

Eight songs clocking in right around 65 minutes, with liner notes from the Iron Messiah himself! One of the best kept secrets of the NWOBHM was CHASER. Back in the day, in 1984, the Ipswich, Suffolk based band released just one single titled "Raiders" (which nowadays is a highly sought after collectors item). But between 1984 and 1987, they actually managed to professionally record 15 tracks, worth of an album release. This never happened, and the recordings got buried for the next 30 years.

Most notably they took part to the seminal proto-death metal manifesto "Raging Death" LP alongside SADUS, XECUTIONER (Obituary), R.A.V.A.G.E. (Atheist) and BETRAYEL. After Lethal Presence demise in 1988 Bobby Sadzak went on with SLAUGHTER/STRAPPADO with whom they re-recorded a couple of old Lethal Presence tunes, on this Lp in their primal version.

LUCIFERIAN LIGHT ORCHESTRA - Black EP (NEW*LIM.200 CLEAR V.*70's OCCULT ROCK*THERION) - 17 €

Svart Records 2017 - Limited Edition of 200 copies in CLEAR Vinyl

Luciferian Light Orchestra is a band formed in 2014 by Christofer Johnsson (Therion). The band is performing songs that Johnsson has written over the years but he thought they were too retro sounding for Therion.

Christofer always had a big passion for the 70's music. Luciferian Light Orchestra sounds like a 70's version of Therion, mainly inspired by the 70's occult vibes and themes. The self-titled album was recorded and mixed by Christofer at Adulruna Studio and mixed by Lennart Östlund (LED ZEPPELIN, ABBA) at Polar.

In the process of making the record, there was a large group of people involved:

2 drummers, 1 bass player, 5 guitarists, 2 keyboard players, 3 hammond organists, 4 lead singers, 5 backing singers
It's not official who contributed on the album and who the members are, but Christofer has revealed that it's "a mix of old symphonic rock and progressive musicians, some current Therion members, one ex. Therion member and some artists from other bands. Plus some known and unknown people from Dragon Rouge giving a hand with backing vocals."

The self titled debut album was released in Europe on the Walpurgis night 2015. The record got many positive feedbacks from different circles – from the media, Therion fans, lovers of the 70's rock and roll and fans of the occult rock genre. Luciferian Light Orchestra made numberless enthusiasts shortly after the record was out.

LUCIFERIAN LIGHT ORCHESTRA - Black EP (NEW*LIM.300 BLACK V.*70's OCCULT ROCK*THERION) - 16 €

Svart Records 2017 - Limited Edition of 300 copies in BLACK Vinyl

LUNAR SHADOW - Far from Light (NEW*LIM.350 BLACK V.*DEBUT*GER HEAVY METAL* WARLORD) - 17 €

Cruz Del Sur Records 2017 - Heavy Metal Magic from the best classic metal newcomer out of Germany.

Limited Edition of 350 copies in BLACK Vinyl

Twin axe-attack driven worship of the olde masters such as OMEN, VICIOUS RUMORS, WARLORD, VIRGIN STEELE, CIRITH UNGOL, just to name a few.

LUNAR SHADOW built a strong reputation over the last 2 years through word of mouth and a selected release and live activity.

Their first 2015's EP Triumphator was nominated Demo Of The Month on German ROCK HARD magazine and since then the band has had a chance to play live with the likes of Atlantean Kodex, Dark Forest and Argus, also including a set on the prestigious Harder Than Steel festival in their homeland. 'Far From Light' is their debut album and delivers eight brand new songs of epic, melodic, thoughtful and proudly regressive Metal. There are so many different details in the 60 minutes of the album, that Far From Light really needs more than a couple of plays to be fully discovered and appreciated.

The band likes to surprise with a continuous changes of pace and speed, the vortex of guitar solos thrown on the table makes an ambitious trial get to the essence of Far From Light. The main reference is to traditional metal acts (the melancholy of Warlord fulfils the album for example), but LUNAR SHADOW likes to develop its personal sound also through epic ballads even throwing in some doom and black metal elements.

METAL GRAVE - The Eternal Flame of Deception (NEW*LIM.300 BLACK V.*M.FATE*TRIAL*ATTIC) - 16 €

Lighten the Underground Records 2017 - Limited Edition of only 300 handnumbered copies in Black vinyl + A3 Poster + Insert

Fantastic obscure + occult Heavy Metal from Chile with King Diamond - like vocals !

With a classic touch of Heavy metal ambiented in Dante's Divina commedia, the chileans Metal Grave deliver their first album filled with Chaos and Judgment for the impure without mercy. Highly influenced by the early Slayer, Running Wild and Mercyful Fate, they manage to create a great dark and attractive atmosphere. Once you listen to this, you'll know and feel that you're condemned to the seventh circle for all eternity. For Fans of Mercyful Fate, Portrait, Attic, In Solitude, Trial, Brocas Helm, Manilla Road, Slayer (Show No Mercy)

METAL GRAVE from Chile are currently one of the best occult power metal bands worldwide. The album is based on Dante's inferno concept.

METAL GRAVE are delivering a unique and original style of traditional heavy metal, influenced by the satanism of MERCYFUL FATE, the chains and leather attitude of RUNNING WILD and the perception of speed and complexity of early FATES WARNING.

MindMaze - Back From The Edge (NEW*LIM.200 BLACK V.*US METAL*FEMALE VOC.*PHARAOH) - 18 €

US Private Press 2017 - US Direct Import ! Fantastic US Power Metal with female Vocals ! Limited to 200 copies only ! Self-released LP edition of the band's second album "Back From The Edge". The edition is strictly limited to 200 copies worldwide.

For Fans of Savatage, Lord, Pharaoh, Symphony X, A Sound of Thunder, Judicator

Despite nearly unanimous praise for the songwriting on their debut album "Mask of Lies", the band has strived harder than ever to craft amazing songs filled with first-class musicianship, memorable hooks, and powerful melodies and riffs. The new album sees the band moving further towards forging a strong identity rather than borrowing little bits and pieces from all over their map of influences. Mike LePond [Symphony X] performs bass on all tracks on "Back From The Edge". The artwork was created by Carl-Andre Beckston [Seventh Wonder, Harem Scarem, Brazen Abbot]. Legendary Stratovarius keyboardist Jens Johansson lends an expectedly awesome solo and harmony to the progressively-tinged track "Moment of Flight".

OMEN / BATTLEROAR - Split 7 (NEW*LIM.500*US METAL/EPIC METAL) - 9 €

Cruz del Sur Records 2017 - Brandnew Split 7" with classic US Metal "Omen" + Epic Metal "Battleroar" !

When it comes to the world of EPIC METAL, OMEN and BATTLEROAR are two names that do not need much introduction. OMEN (USA) was formed by guitarist Kenny Powell in 1983 and since the release of their debut album "Battle Cry" on Metal Blade Records have set the standards for the genre, while Greek BATTLEROAR, founded in 2000, are one of the most-valued and long-lasting active bands, releasing 4 albums in 17 years of activity.

OMEN's "Up From The Deep" sounds as if it was taken directly from "Battle Cry" ... War cries introduce the legendary OMEN sound, with Kenny Powell painting a majestic tapestry of guitar notes above which Kevin Goocher delivers a brazen complimentary vocal performance.

BATTLEROAR's "Stronghold" is in the same style as the fastest and heaviest songs on their last album "Blood Of Legends" (Cruz Del Sur, 2014). It shows a massive rhythmic session, great leads and Gerrit's classic, epic and melodic vocals.

Candlemass-channelling riffs and employs an extremely strong sense of melody. Brett Campbell's voice is perfectly suited to the task, sitting somewhere between the humble yowl of Ozzy Osbourne, the melodrama of Messiah Marcolin, and the weariness of Wino.

UK Private Press 2017 - Limited Edition of 300 Copies in Black Vinyl, Hand Numbered, Printed Innersleeves with Lyrics - UK Tech/Prog/Thrash/Power Metal Highlight! EX-Inner Sanctum Members !

The end result is mandatory listening for fans of QUEENSRÿCHE, NEVERMORE, WATCHTOWER and EVERGREY alike. Since forming in 2012 from the ashes of such bands as Fifth Season, Inner Sanctum, and Twisted Autumn Darkness, the primary concern of Norwich, England's SYNAPTİK has been musical intensity. Compartmentalizing SYNAPTİK's approach is as futile as attempting to cage a wild animal, but—nevertheless—traits of progressive metal seem ubiquitous, and a dark aura tends to cloak the band's output.

TERMINAL - Zadnji Izlet (NEW*LIM.500 BLACK VINYL*12" EP*ENFORCER*POKOLGEB) - 18 €

Electric Assault Records 2017 - Brandnew Limited to 500 copies and already Sold out - 12" EP by TERMINAL - US Direct Import !

As with all classic trilogies, the third and final installment is always the most grandiose, and Terminal's 'Zadnji Izlet' ('The Final Trip') is true to this timeless formula. The past two singles, 'Heavy Metal Lokomotiva' and 'Satanski Naročila,' have highlighted the immense power of Eastern Bloc Heavy Metal but on 'Zadnji Izlet,' mastermind Tobias Lindkvist goes all-in with the genre's overlooked ballad style, complete with melancholy melodies that you can sing along to, regardless of whether or not you know Slovenian or not.

The flip-side, appropriately titled 'Epilog,' features the songwriting of Antichrist's Gabriel Forslund, and is the perfect ending that wraps up what Terminal was created for: a tribute to a wonderfully peculiar and once obscure style of Heavy Metal.

'Zadnji Izlet' will be released as a 12" single for optimum sound quality. As with the previous two, this release is strictly limited to 500 copies worldwide.

For Fans of Ossian, Omen, Pokolgep, Enforcer

DEAF FOREVER #17 (NEW*GER METAL MAG - POSTER: SORTILEGE / VEKTOR*SPEED METAL SPECIAL) - 6 €

Masters Of Metal, Agents Of Steel! Seit unserer allerersten Ausgabe erreichen uns regelmäßig Leserbriefe, in denen ein konkreter Wunsch geäußert wird, und auch in unserem Onlineforum wird es immer wieder gefordert: das große Speed-Metal-Special!

Okay, ihr wollt es ? und wir wollen es auch: Den Speed Metal und seine Geschichte haben wir auf 21 Seiten aufbereitet und stellen euch alle maßgeblichen Geschwindigkeitsfanatiker von A wie Agent Steel über E wie Exciter über M wie Metallica über S wie Savage Grace bis Z wie Zoetrope vor. Reviews der 100 wichtigsten Speed-Metal-Alben aller Zeiten, Blicke hinter die Kulissen und Interviews sind Ehrensache!

Unsere Soundchecksieger heißen diesmal Night Demon, und die Jungs aus dem kalifornischen Ventura wissen, was echter Heavy Metal ist. Deep Purple haben auf der Zielgeraden ihrer Karriere mit InFinite noch einmal ein echtes Meisterwerk veröffentlicht. Schlagzeuger Ian Paice spricht über lustige Getränkeunfälle der Vergangenheit und seinen heutigen Blick auf die Welt? während es bei Michael Kohsiek mal wieder besonders episch zugeht: Unser Romantiker aus Osnabrück widmet sich diesmal seinen Lieblingen Warlord. Ebenso erinnern wir uns an die französische Achtziger-Metal-Helden Sortilège, deren erste zwei Scheiben soeben wiederveröffentlicht wurden. Und weil Geschichtsunterricht mit Manuel Trummer gleichermaßen unterhaltsam wie auch lehrreich ist, wartet unser Herr Oberstudienrat mit einem Earmageddon zu Budgie auf. Johannes Paul, der Dritte und seine Ein-Mann-Gefolgschaft Brutus nervten uns so lange, bis wir einer Story über die metallische Randerscheinung Crippled Black Phoenix zustimmten. Wir hatten keine Wahl.

Weitere Interviews haben wir geführt mit: Trial, The Doomsday Kingdom, Ghost, Skyclad, Antropomorpha, Memoriam, Mastodon, Hetroertzen, God Dethroned, The Wild!, Possession, Metall, Infernal Mäjestry, Harlott, Disbelief und Eclipse. Die bekannten Rubriken Under A Funeral Moon (u.a. ein Special über die Medellin Ultra Metal-Szene sowie Interviews mit Nightbringer und The Committee), The Dungeons Are Calling, Maniac der Ausgabe und Forgotten Jewels liefern euch wieder spezielle Typen und brandheiße Tipps. Zu den Schwerpunkten unserer Konzert- und Festivalrückblicke zählen diesmal u.a. das Hell Over Hammaburg Festival, German Swordbrothers, Unholy Metal Mayhem, Metal Assault sowie das Idiots Records Festival. Massenhaft Tonträger-Reviews werden zur Gefahr für eure Geldbörsen, und zwei verdammt coole Poster spendieren wir euch ebenfalls: Sortilège mit dem Motiv ihrer gleichnamigen Debüt-Mini-LP sowie Terminal Redux von Vektor. In diesem Sinne: Long live the loud, we are loud and proud!
