Crimson Thorn is one of the most technical and pummeling death metal bands ever! They stand toe to toe with bands like Obituary, Carcass, and Cannibal Corpse.

Crimson Thorn is one of the few Christian death metal bands that could ever be put in such an elite category. The vocals are low and ultra-guttural. One album literally included a liner note warning that no effects were used on the vocals!

From beginning to end the blast beats, double bass assaults, guttural growls, and general death metal fury never lets up. This release features all three albums remastered and combined onto two CDs.

These classic albums - Unearthed (1994), Dissection (1997), and Purification (2002) have long been out of print. Fans can once again discover the delight and joy of the deep, distressing, and downright disturbing sounds of Crimson Thorn!

FOR FANS OF: HELSTAR, TYRANT'S REIGN, LIEGE LORD, REALM, TOXIK

In 1989, following the success of their debut album, Ascend From the Cauldron, New Jersey power metallers DEADLY BLESSING made the pivotal decision to part ways with their iconic-yet-polarizing frontman, Norman "Ski" Kiersznowski. In search of a more aggressive singer who could still be melodic, the band approached Larry Betson; whose gruffer, less over-the-top approach provided a perfect fit as the group continued to open for increasingly heavier national acts such as Dark Angel.

The following year, influenced by thrash from the Bay Area to New York, DEADLY BLESSING recorded two hard-hitting demos—the well-received Psycho Drama, and the never officially released Mechanical Solutions—before rechristening themselves OPTIMUS PRIME for one last demo, taking some inspiration from that era's increasingly ubiquitous "grunge"-leaning sounds. However, as work began on their sophomore full-length, internal uncertainties combined with label and management woes left the group without a proper home, and the lineup eventually unraveled.

So now, more than 25 years later this is the deluxe edition of Psycho Drama: a massive two-disc set representing the Larry Betson era of DEADLY BLESSING into OPTIMUS PRIME across 18 studio and 11 live tracks—many appearing here for the first time ever—fully remastered by Jamie King at The Basement Recording. You'll also find archival photographs, studio memories from Psycho Drama engineer Bob Kimmel, and an all-new retrospective interview with the band.

FOR FANS OF: HELSTAR, TYRANT'S REIGN, LIEGE LORD, REALM, TOXIK

Of all the metal bands of the current "Thrash Metal revival", Nemesis is at the very top in terms of uniqueness, crazy riffs and lyrics, and mixing bizarre melodies with brutal heaviness.

Retroactive Records 2017 - US Import - White Metal/Hard Rock - Limited to 500 copies only !

This 2017 Retroactive Records reissue features a full color 4 panel digipak, with all artwork taken from an original gatefold vinyl record! The audio is remastered and the same as the 2005 jewel case reissue on Retroactive. The first of The Originals Series on Retroactive Records, be sure to get Mommy Don't Love Daddy (The Originals: Volume 2) and D.M.Z. (The Originals: Volume 3) that all showcase the magic and charm of these original releases!  
Resurrection Band was the first ever full on hard rock/metal bands to sing about faith in God. Too gritty and real to be courted or comfortable in the 'Christian Music Industry,' they eventually created their own record label (Grrr). Rez lives in the slums of downtown Chicago and every ounce of struggle and reality is poured into their 14+ albums, Colours (1980) being one of the most important and formative. Bone-crunching guitar rock with social and spiritual sensibility, in the 70's and 80's Rez ruled the hearts of people in the church who cared more about being real than being religious. Great music, great lyrics, great artwork, great people.

**RESURRECTION BAND - Mommy don't love Daddy (NEW\*US WHITE HARD ROCK\*IMPORT\*BÖC) - 14 €**  
Retroactive Records 2017 - US Import - White Metal/Hard Rock - Limited to 500 copies only !  
This 2017 digipak reissue is limited to 500 copies, using only the original vinyl gatefold to reproduce the stunning artwork, featuring all the original songs and part of the Retroactive Records The Originals (Volume 2) series featuring both Colours and D.M.Z. in all the glory! This is the same remaster that was used on the 2005 jewel case reissue on Retroactive Records.  
For fans of Blue Oyster Cult, Aerosmith, Led Zeppelin, AC/DC, Daniel Band, and Jerusalem!  
One of Resurrection Band's best albums in part because no Christian band in 1981 was touching topics like divorce, being disabled, or being dirt poor like Rez. Mommy Don't Love.... deals with many injustices lyrically and musically. It's hard, fast, and bluesy with metal sensibilities. No one rocked like Resurrection Band. Originally released in 1981 on Light Records, the album focuses on relationships. "Mommy Don't Love Daddy Anymore" offers social commentary on the painful realities of the American culture of divorce. "The Chair" offers a troubling statement of how a person with physical disabilities responds to being a target for social pity. While "The Crossing" describes the self-denial necessary to achieve emotional peace. And as hard hitting as the band is lyrically, they rip just as hard musically. It's because of albums like Mommy... that Resurrection Band offers the very definition of Christian music's "classic rock."

**RESURRECTION BAND - DMZ: 35th Anniv.Ed. Vol. 3 (NEW\*US WHITE HARD ROCK\*IMPORT) - 14 €**  
Retroactive Records 2017 - US Import - White Metal/Hard Rock - Limited to 500 copies only !  
For fans of Blue Oyster Cult, Aerosmith, Led Zeppelin, AC/DC, Daniel Band, and Jerusalem!  
This 2017 4 panel digipak reissue is limited to 500 copies and features the same remaster that was used on the 2005 Retroactive Records jewel case reissue. This reissued used the original 1982 vinyl record gatefold release to reproduce the artwork and celebrates this album's 35 year impact on lives for Jesus!, The Originals: Volume 3. Colours and Mommy Don't Love Daddy are The Originals Volume 1 and 2.

Originally released in 1982 on Light Records, D.M.Z. offers some of Resurrection Band's most powerful musical testaments. "Military Man" is a blistering opening track sung by Glenn about the loss of a soldier's humanity in the struggle to survive. "White Noise" features Wendy's all-time best raw vocal on a song about the rhetoric of a culture that prioritizes stockpiling arms over feeding children. It begins with a 90 second feedback-drenched guitar solo by Stu Heiss that is Resurrection Band's answer to Van Halen's "Eruption" and is generally considered to constitute the single greatest non-Phil Keaggy guitar moment in Christian rock. "Area 312" is another classic, which is a teenager's lament about the loneliness of the inner city.

SAMSON - Shock Tactics (NEW\*NWOBHM CLASSIC\*BRUCE DICKINSON + 3 BONUS TR.) - 14 €

Dissonance Records 2017 - NWOBHM Classic with Bruce Dickinson on Vocals. Digipak + 3 Bonus Tracks

"Shock Tactics" is the third studio album by British heavy metal band Samson, originally released in 1981. It was singer Bruce Dickinson's last one with the band before joining Iron Maiden (who were coincidentally recording Killers, their last album with Paul Di'Anno, in the same studio at the same time of Samson).

SAURON - Conquest Through Attrition (NEW\*US BLACK/THRASH METAL\*KREATOR\*SODOM) - 13 €

Dystopian Dogs 2017 - Hailing from East Lansing, Michigan, Sauron have been delivering ear blistering blackened thrash for the last seventeen years.

It's easy to compare Sauron's sound to the teutonic German thrash acts of the eighties but the first comparisons that came to mind for me were early Absu and Bloodstorm. These guys are fast, vicious and they are not fucking around. "Twisted Metal Minds" is a whirlwind tornado of metal riffery, pounding drums and bloodshrieking screams. These guys must slay on stage. "Absolute Hell" gives a nod to Hellhammer or early Celtic Frost or "Pleasure To Kill" era Kreator via it's extremely pissed off vocal delivery and razor sharp riffing but come chorus time it's more reminiscent of early mid-tempo Sodom.

SEAX - High on Metal (NEW\*US SPEED/THRASH METAL\*EXCITER\*RAVEN\*AGENT STEEL) - 15 €

EBM records 2016 - 20th offering of the "Thrash is Back" Series. US Speed Metal meets NWOBHM !

For Fans of Exciter, Razor, Agent Steel, early Maiden and Raven

SEAX combines uncompromising old-fashioned speed metal with an unabashedly punk sensibility. The band have captured the essence of that metal/punk hybrid that characterized so much of what we called "speed metal" during the 80s, I cannot think of any other current band mining the same territory quite the way SEAX does.

Formed in 2010 this group of thrashers set out to bring old-school thrash/speed metal to the New England area and eventually bring their style of music to the rest of the world

SEAX music has a purity, a simplicity, a nostalgia and an unstoppable energy that sets this band apart from the rest.

High on Metal will be definitely the soundtrack to one of your favorite nights of live heavy metal music in recent memory.

Detailed liner notes will help explain the context of each demo, and enhance the charm of Seventh Angel's maturing process.

Don't expect all the bells and whistles of a fully produced studio album, but with the Jeff Mortimer remastering, we offer these demos in as glorious a form as ever possible.

You get the complete Seventh Angel demos RED DEMO (March 1989), REHEARSAL DEMO (November 1989), HEED THE WARNING DEMO (1990), and DUST OF YEARS DEMO (2008)! Another Heavy Metal chapter from 80s Seattle... STRYCHNINE "No Escape... Live Or Die! 84-87" CD!

For Fans of Jag Panzer (Ample Destruction), Overkill, Deadly Blessing, Ded Engine, Lääz Rockit, Flotsam & Jetsam (Doomsday), Judas Priest

Formed in 1981 by the Lamberty brothers, Strychnine is another great example of how prolific the Washington Metal scene was at the time. With two demo tapes recorded, one 7" single released (nowadays, a quite rare and desirable item between record collectors) and a notable participation on the famous 'Metal Meltdown Volume 1' LP compilation, Strychnine delivers a puissant wrecking ball to any US Metal appraiser!

Their early recordings, clearly influenced by Judas Priest's riffage, will definitely please enthusiasts of Ded Engine and early Overkill.

With the 1987 'Plug The Plug' demo, Strychnine reached a new level in their sound, playing a more powerful style resembling early Heretic and Lääz Rockit!

STRYCTNYNE - Unfinished Business (NEW\*US METAL COMEBACK\*PRIEST\*MANOWAR\*MAIDEN) - 14 €

For Fans of Iron Maiden, Rage, Etheral Architect with Queen Vocal harmonies and Priest Riffing

That the old-school flavoured metal they play can be a little generic isn't really a problem, because it's done so well – it's catchy and fun and well-executed, with strong lead guitar work, some chunky and rocking riffs and solid if strangely rather one-dimensional vocals, all great elements for fast-paced heavy metal enjoyment. The hard rock feel in many of the tracks puts Taberah in touch with early Judas Priest

The band had many songs worthy of an official reissue, featuring killer straight forward heavy metal with thundering riffs and raging frenzied vocals plus a concrete solid rhythm section.

Thanks to Laurent Ramadier of SNAKEPIT magazine the band members were located as they were using monickers on the compilation, making it very hard to find their real names.

US Thrash Metal Comeback ! Together with Infernal Majesty - this is the future of THRASH Metal US-Style !

At long last, BLOOD FEAST is reborn into the metal underground with their highly anticipated third full-length album, The Future State Of Wicked, set to be released by longtime fans HELLS HEADBANGERS. Fans old and new will not be disappointed, as the "holy trinity" of releases from the band's early days – Kill For Pleasure (1987), the Face Fate EP (1988) and Chopping Block Blues (1990) – inform much of the new album.

All the speed, brutality, and twists 'n' turns BLOOD FEAST is known for are intact and in your face (nine of the 10 songs being written by original guitarist Adam Tranquilli), yet updated with modern production. Joining Adam are vocalist Chris Natalini and bassist Tom Lorenzo, along with some new blood in Joe Moore (drums) and CJ Scioscia (guitar).

The past is indeed alive on The Future State of Wicked, and the days ahead surely spell that a BLOOD FEAST is imminent!

F.O.A.D. 2017 , die-hard edition on grey/black vinyl with extra backpatch and A1 poster ltd to 150 !

The ultimate, total POISON discography boxset on F.O.A.D. Records!! All their existing recordings from 1984 to 1987 + an extensive choice of unreleased material, over 5 hours of pure infernal armageddon from one of the most ancient pioneering Black/Death Metal hellhounds of the mittel-European scene of the 80s. To make things fair for those who had already got our previous POISON vinyl releases, this boxset is somehow completing the series because "Sons of evil", "Bestial Death" and "Awakening of the dead" on it are featured on CD only, while all the rest (that has never been released by us before) is included on LP. Quoting the band's master-mind of evil Uli "Angel Of Death" Hildenbrand: "When F.O.A.D. contacted me the first time to discuss the possibility of a complete re-release of all those ancient tapes, I basically thought they were nuts - and told them so - however; through sheer tenacity they managed to convince me that it was about time for a really professional overworking of the material - hence the re-release of the first 3 demos and now THIS: basically everything you always wanted to know about POISON but were afraid to ask for! Seriously; this box has it all - the best sounding-material available, all lovingly remastered and re-designed (with a little help from yours truly); all of it taken from the original masters, some of it never released before! Even I

myself was amazed by the results - which is something that happens very rarely - so, if you are a fan and you want to experience the story of the band from beginning to end, here is your perfect time machine! So if you're ready for some 5-6 hours of poisonous pleasures - IMMERSE YOURSELF!" This monster comes in an embossed deluxe box and includes 5 x LPs, 2 x digipack CDs and a 60 page hard cover book collecting all the existing POISON photos, flyers, artworks, 'zine excerpts and more! Keep It True Band 2018 - one of the best US Hard Rock Album of all times !

Highly anticipated 35th anniversary and first ever vinyl reissue of this all-time classic hard rock guitar private press record from 1982. Revival overflows with a powerful classic hard rock sound featuring the unmatched soaring vocals of bassist Doug Brown, tight, powerful hard hitting drumming from Scott Benes and the incomparable guitar wizardry of Jordan Macarus, who will leave you wondering why he isn't featured in every guitar magazine around. If you love hard rock lead guitar action like me, then do yourself a huge favor and grab this thing immediately, you absolutely will not regret it! As a classic hard progressive rock band. Winterhawk, thrived in Chicago's late 70s rock scene that included groups like The Hounds, Cheap Trick, Pentwater, M&R Rush, Off Broadway, Arion, Sorcery, Medusa and many more. You could find them opening shows for acts like Budgie, Black Oak Arkansas, Steppenwolf and others.

The band went through a few incarnations with different second guitarists, but was pared down to a three-piece for the Revival album which finally came together in 1982. The album was originally released in a limited edition on the band's own Lambda records and is now very collectable and sells for nearly \$200 when it surfaces. Revival was first reissued on CD nearly 20 years ago and this has helped garner the band a large worldwide following, which has led to reunion concerts at festivals here in the USA and Europe, including an upcoming show in Germany at Keep It True Festival XXI. The reissue comes with full size booklet with lyrics, liner notes, interview and vintage photos plus an 11x17 poster featuring Doug Brown and Jordan Macarus.

## MAGAZINES

DEAF FOREVER #18 (NEW\*GER MAG\*POSTER: ATLANTEAN KODEX / HEAVY LOAD) - 6 €

Einer der Größten, eine lebende Legende unserer Szene, zielt das Cover unserer aktuellen Ausgabe: Seit der Painkiller-Tour wandelt Rob Halford regelmäßig auf Solopfad, und trotz der Reunion mit Judas Priest erscheinen immer noch Aufnahmen seiner Nebenprojekte. Wir nahmen die Veröffentlichung eines karriereumspannenden Boxsets zum Anlass für ein intensives Gespräch. Intensiv ist auch das Aufeinandertreffen von Solstafir mit unserem Papst Johannes Paul, dem Köhler, denn ganz unumstritten ist das neue Album der Isländer nicht.

Im Gegensatz zu dem grandiosen Werk von The Ruins Of Beverast. Stefan Franke führte ein sehr interessantes, aufschlussreiches Gespräch mit Meilenwald, dem Meister der Ruinen. Dass Manuel Trummer ein riesiger Scald-Fan ist, wissen Atlantean-Kodex-Fans schon lange. Ein Interview mit dieser mysteriösen, nicht mehr existenten russischen Band zu bekommen, war allerdings schon zu Lebzeiten so gut wie unmöglich. Manuel hat es nun geschafft.

Immerhin die Hälfte der legendären schwedischen Metal-Band Heavy Load pilgerte zum diesjährigen Keep It True - und stolperte dort über einen weiteren wackeren Nordmann: Martin Brandt rappelte sich wieder auf und verwickelte die Wahlquist-Brüder zur Strafe in ein stundenlanges Gespräch.

Quo vadis, Nachtmystium? Selten hat es ein derart offenes, schonungsloses Interview über ein Leben am Abgrund gegeben wie dieses! Blake Judd hat seine Drogensucht zwar überwunden, aber seine Karriere als Musiker inzwischen auch fast ruiniert. Zusammen mit Wolf-Rüdiger Mühlmann wagt er den schwierigen Blick zurück und geht brutal ehrlich mit sich ins Gericht.

Einen einzigartigen Event haben Atlantean Kodex mit ihrem brandneuen Live-Album (bzw. ihrer Live-DVD) The Annihilation Of Bavaria festgehalten, der aber natürlich nicht das einzige Thema in Michael Kohsieks ausführlicher Story ist. Sänger Markus Becker hat einiges zu erzählen.

Weitere Interviews haben wir geführt mit: Iced Earth, Midnight Rider, Night Flight Orchestra, Slaegt, Below, Vampire, Troubled Horse, Sortilegia, Emerald, Deathwish, King Of Asgard, Satan's Hallow, Tankard, Witherfall, Antichrist, Stallion, The Wizards, Dead Head, Indian Nightmare und Hate. Die bekannten Rubriken Under A Funeral Moon (u.a. Occvlta, Ofermod und Morbid Flesh), The Dungeons Are Calling, Heavy Metal Hunter und Forgotten Jewels liefern euch wieder Freaks, Wahnsinnige und brandheiße Tipps.

Im Rahmen unserer Earmageddon-Serie widmen wir uns dem Schaffen der Bombast/AOR-Legende Toto, und in unserer Rubrik The Arts Of Destruction geht es diesmal um den amerikanischen Gruselmeister Wes Benscoter (u.a. Autopsy, Kreator, Slayer). Außerdem stellt euch Frank Albrecht das schwedische Melodic-Metal-Label Uterium Records und seine wichtigsten Releases vor. Zu den Schwerpunkten unserer Konzert- und Festivalrückblicke zählen u.a. das Keep It True, das Acherontic Arts Festival sowie das Roadburn.

Natürlich gibt's tonnenweise Tonträger-Reviews, und zwei wunderschöne Poster spendieren wir euch ebenfalls: Atlantean Kodex (The Annihilation Of Bavaria) sowie ein kultiges Heavy-Load-Livebild. In diesem Sinne: Pounding the world like a battering ram - forging the furnace for the final grand slam!
