GROSS REALITY - Escaping Gravity (NEW*US THRASH METAL COMEBACK*POWERMAD*HAVOK) - 15 €

Divebomb Records 2017 - US Import - Brandnew US Thrash Metal Killer !

FOR FANS OF: POWERMAD, TESTAMENT, ANNIHILATOR & HAVOK

Formed all the way back in 1991, Raleigh, NC melodic thrash outfit GROSS REALITY amassed an impressive live résumé throughout the early-'90s; sharing the stage with legends such as Bolt Thrower, Cannibal Corpse, Confessor, Deicide, Type O Negative, and Unleashed. However, the band had left behind not a single recording at the time of their initial demise in 1996. Reforming in 2009 at a time when high-level thrash metal was coming back with a vengeance, GROSS REALITY continued to gain exposure on the live front, performing alongside longstanding icons such as Death Angel and (at the time) relative newcomers such as Evile and Bonded by Blood alike. This culminated in 2014, when Divebomb Records finally unleashed the reunited group's long overdue debut full-length, Overthrow. Now, three years later, GROSS REALITY's fine-tuned trio of longtime core members Daniel Powell (bass/vocals), Roland Arthur (guitar), and Jason Wheeler (drums) has prepared their intense sophomore outing, Escaping Gravity. The eight-song effort—once again produced by Jamie King at The Basement Recording—features gorgeous cover art by Par Olofsson and delves into lyrical topics as diverse as perseverance, the effects of war, alien abductions, and much more.

Escaping Gravity's individualistic brand of tight, high-energy thrash strikes a constant balance between focused aggression and emphatic melody—at times even dipping its toe into more ambitious and prog-leaning waters, sure to pique the interest of those in search of more technical and complex fare. The end result should appeal to fans of everyone from Testament to Powermad; not to mention a younger generation of listeners more accustomed to the contemporary sounds of acts like Charred Walls of the Damned, Havok, and Gama Bomb.

Added to the nostalgia of the British invasion, "Free Again" has the potent elements that mischief Speed and Thrash Metal deeply rooted in the minds of HELL FIRE's members, conveying a destructive force of a battering ram along led by a manic high pitched preacher that might hinder your senses towards RAVEN, BLITZKRIEG and SATAN.

Divebomb Records 2017 - US Import - Brandnew US Power Metal Killer ! KIT Opener 2018 !

FOR FANS OF: IRON MAIDEN, HOLY GRAIL, NIGHT DEMON, HIGH SPIRITS & AMBUSH

IRONFLAME is a traditional heavy/power metal entity born of multi-instrumentalist Andrew D'Cagna. Although the music of IRONFLAME finally came to life in late-2016, its growth into fruition had been decades in the making. Andrew grew up in the late-'80s/early-'90s listening to classic metal acts like Iron Maiden, Savatage, Helloween, and Judas Priest. He was also lucky enough to have been blessed with a singing voice that lent itself well to the genre. Despite Andrew's given ability, however, he rarely used it—instead becoming influenced by more extreme realms of metal and pursuing such musical interests for 15 years, playing various instruments in death and black metal bands.

Andrew was then recruited by renowned guitarist Jim Dofka as vocalist for the band Dofka, where he honed his raw vocal talent and learned how to sing properly through 2010, performing on the Humanity Bleak album. Years later, upon the untimely death of a mutual friend, Dofka reunited for a one-night performance in October of 2016. These events stirred up many old feelings, and Andrew felt it was time to write an album of purely traditional metal.

The end result is Lightning Strikes the Crown: a 40-minute tribute to the glory days of heavy metal. Free of pretension and arrogance, the music of IRONFLAME is catchy, familiar, and hook-laden—just good old fist-banging metal that is as honest as it is memorable. All of the instruments and vocals were performed/recorded by Andrew himself, with the exception of a handful of local guitar buddies recruited for solos—Jim Dofka among them.

MINIER - Same (NEW*US SPEED/THRASH METAL*EXPANDED + DEMO*METALLICA*DELIVERANCE) - 14 €

Retroactive Records 2017 - Limited 500 copies in a 6 panel insert, jewel case ! US Speed/Thrash Metal - For fans of classic era Metallica, Deliverance, Vengeance Rising and Megadeth !

Originally released on the legendary R.E.X. Records in 1990, this 7 song EP of crunchy Bay Area Thrash was of special interest because Minier was none other than Greg Minier of the already legendary punk/thrash/metal crossover legends, The Crucified! He recorded the album at Casbah Studios with a budget of \$400. When R.E.X. heard it, they fell in love with it and released it exactly as Greg had delivered it to them. Of special note, Greg was highly influenced by Metallica's (at the time) newly released, And Justice For All album.....and when he ran out of money recording his album, he figured if Metallica could release their album without bass, then so could he! So this classic Minier CD followed in the footsteps of And Justice For All....featuring whiplash guitars, dense drums, Hetfield styled vocals, but no bass!

Digipak Edition ! For Fans of Orchid, The Sword, Black Sabbath, Crypt Sermon, Kadavar, Graveyard, Magic Circle, Witchcraft The second coming of NEKROMANT is upon you ! More than a year has passed since this heavy/doom metal band released their debut, an album which was received with great warmth by critics and metalfans alike. Even though the band changed their name from "SERPENT", nothing in their sound or approach to music was altered.

NEKROMANT is still about heavy metal made from pure admiration for the music, which is abundantly clear on this album. Fast-paced facemelters like "Stoned to Death, Doomed to Die" share space with darkened and psychotic tracks such as "Never Saved" and "Funeral Worship", all accompanied by lamenting lyrics. NEKROMANT still wear their inspirations on their sleeves and if heavy riffs interest you even in the slightest, this is your thing.

PAGAN ALTAR - The Room of Shadows (NEW*UK EPIC METAL/NWOBHM*10/10 DEAF FOREVER) - 14 €

Temple Of Mystery 2017 - Brandnew milestone with Occult Epic Metal /NWOBHM incl. Terry Jones on vocals (RIP) !

12 page booklet, Pagan Altar are one of the originators of doomy NWOBHM, mixing their 70's influences into occult-tinged heavy metal. Alongside bands like Witchfinder General and Legend, their very own unique breed of mystical doom metal was unfortunately sunk into obscurity after no interest were shown from labels. Despite that, the timelessness of their music ultimately prevailed as doom-obsessed fanatics kept Pagan Altar's music alive over two and a half decades by trading their self-titled demo cassette and even bootlegging it.

After receiving so much interest from the underground scene, the original master tapes were re-released in 1998 and re-christened Volume 1. The band then reformed in 2004 and released two albums of re-recorded materials namely Lords of Hypocrisy and Mythical and Magical. These two records proved to be the best and most exciting releases of the genre, and brought the band to international attention. They have since played numerous shows, traveling ashore to Canada and the United States, as well as everywhere in Europe. The songs for the long awaited The Room of Shadows were originally written back in 2004-2005, and the album was set to be released as Never Quite Dead in 2014 until the tragic passing of their beloved frontman Terry Jones, who had been bravely battling cancer for a year prior. The album will thus be released in homage to this true gentleman, who was well loved by his treasured family and fans. Having being heavily postponed for various reasons, the recordings of this album were completely re-done with Alan Jones on guitar, and former Pagan Altar members Diccon Harper on bass and Andy Green on drums. The Room of Shadows picks up where Mystical and Magical left, and admirers of their previous works will be pleased to hear that this album is just as timeless, with its epic riffs and enchanting, poetic macabre lyrics of olde, plunging the album in an aura of somber allure. The Room of Shadows will be their fourth and final album but their legacy is sure to reverberate for eternity

Ragnarök Records 2017 - US Thrash/Speed Metal Classic for Fans of Panic, Forced Entry, Bitter End

· 16 pages-booklet with artwork, lyrics & pics· limited edition (500 copies)

Formed in 1990 near Seattle, Rawhead were pushing a powerful fast aggressive metal style at a time when a flood of musicians and media descended into the Northwest hypnotized by the “grunge sound.” Long before the “yarl”, there was a dense network of heavy and aggressive music seething in the underground. A few of those bands broke through the hype and hooked up with small distributors and pioneering metal labels. Rawhead flew beneath the radar, independent and unattached to any imprint. Undeterred, they self-released quickly recorded demo cassettes out to local and international DIY networks of metal heads getting the music out into the trenches. In the wake of an overwhelming commercialized wave, Rawhead—like many of the loudest, heaviest, hardest hitting bands from that time in the Northwest—left the evidence in the echoes of those nights on the floors and in the pits of the live shows.

This new anthology, “Demonstrations”, contains all material from Rawhead’s three demos: “Something Crushes Spine” (1991); “Bones Of All Men” (1992); and “The Last One” (1994)

The Crypt Records / Dark Symphonies 2017 - Limited Ed. - US Direct Import ! US Power/Thrash Metal Classic + 6 Bonus Tracks ! New England thrash legends WARGASM! One of the most underrated bands from the late 80's, Wargasm had a unique sound unlike any of their peers. Often referred to as a 'Thrash Metal' band, their music does contain elements of thrash, but the band has always viewed it's music as a hybrid of thrash, traditional metal and the NWOBHM.

Wargasm's 1994 Fireball EP has now been remastered and doubled in length, with 6 additional tracks added, all never before available on CD! Packaging includes 12 pages of previously unpublished photos, detailed track notes, and brand new liner notes that continue laying out the band's history, written by vocalist/bassist Bob Mayo.

XALT - Dark War (NEW*LIM.500 + DEMO*US WHITE METAL CLASSIC*DIO*STRYPER, PRIEST*DOKKEN) - 14 €

Retroactive Records 2017 - Limited Edition of 500 US Import + Bonus Tracks, CD 12 panel booklet / jewel - US White Metal Classic !

Dark War is an unabashedly "old school" metal record, and for as much as collectors have sought out this near impossible find, this 1988 cassette only album was an independent release put out by a band that was leading a Christian metal movement in Michigan, Ohio and the surrounding areas! The band would not have the support of a label (Pure Metal) until their sophomore release, Under the Ruins. Dark War has consistently been on the the most requested (and bootlegged) Christian Metal reissues list because the songs are nothing less than lumbering beasts with monolithic slabs of rhythm guitar, and hooks that bring to mind 1980's Dio - especially his work with Black Sabbath during their Heaven & Hell era.

It's literally impossible to listen to such epic tracks as "The Cross," "God In A Box," and "Dark War" and and not imagine how easily Xalt could have become the next MTV sensations right alongside Stryper, Judas Priest, and Dokken. Yes, Dark War is THAT good! And, for almost 30 years it's never been officially available in any format but cassette...until now! The official 2017 Retroactive Records, Dark War (Retroarchives Edition) features a complete remaster at the hands of Rob Colwell (Bombworks Sound), as well as 6 previously unreleased bonus demo tracks the band recorded in preparation for their Under the Ruins (1990) release on Pure Metal Records. We packaged this metal masterpiece in a 12 page booklet / jewel case with lyrics, including six pages of detailed liner notes and reflections from Xalt's elite axeman, James Erdman.

ARMOURED ANGEL - Wings Of Death (NEW*LIM.RED VINYL*AUS THRASH METAL KILLER) - 16 €

Hells Headbangers Records 1989 - Limited Edition 12" in RED Vinyl - 700 copies

As longtime fans of the band, HELLS HEADBANGERS is proud to present a special vinyl pressing of ARMOURED ANGEL's Wings of Death demo. Formed in

1982 and disbanding in 2001, ARMOURED ANGEL were Australia's very first extreme metal band - and for many years, one of its only ones. Originally released in 1989 on cassette tape and then a vinyl edition that's long out of print, Wings of Death was the band's second demo and first to truly nail the signature ARMOURED ANGEL sound: patient, pulsing, and largely mid-tempo death metal rife with nuance and molten power to spare. Although still early days at this point, contemporaries could be likened to Bolt Thrower, Asphyx, and Gorefest, but there's always been a certain clarity of expression to ARMOURED ANGEL that favorably compares to later Amebix; here on Wings of Death especially, their classic death metal uptempos bear a proud 'n' poignant pulse, symptomatic of strong songwriting even at this early stage in the band's storied history. And although they would only release one album - and quite belatedly, at that - it was always the short-length format where ARMOURED ANGEL excelled most. The four-song Wings of Death stands as a testament to this fact, and more so the endearing legacy of one of heavy metal's true cult favorites.

Just like HELLS HEADBANGERS' earlier edition of Communion, this pressing is a one-sided 12" with a photo silkscreened on Side B.

After relentless touring and festival appearances since 2015's Heads Held High, DL have sharpened their sound and stagecraft, enabling them to step up their dedication for their sacred levels of quality-control, 1976 authenticity. The band's third full-length was recorded on analogue reel-to-reel in sunny Spain, and it's full of heartfelt lyrics, hard-hitting proto-metal swagger and stomp as well as passionate balladry.

DEATH SS - Black Mass (NEW*LIM.250 SPLATTER VINYL*ITA OCCULT METAL MASTERS) - 19 €

Shadow Kingdom Records 2017 - Limited Edition of 250 copies in gatefold cover with insert. pressed on blood red/white "half/half" vinyl with black splatter.

DEATH SS's legendary second album, Black Mass. One of the most cult names in international heavy metal, Italy's DEATH SS have influenced thousands over the past three decades in their long, twisted history, equally influencing the nascent speed metal and black metal scenes with their trademark ghoulish and theatrical presentation.

Granted, the band's trademark horror-laden atmosphere remained, but as a whole, Black Mass slotted well alongside the likes of King Diamond and Lizzy Borden and made DEATH SS a more contemporary band without sacrificing any ancient power. Faithfully restored to its original sound and design, as per the band's specifications, hear DEATH SS's Black Mass as it was meant to be heard!

DEATH SS - Heavy Demons (NEW*LIM.250 SPLATTER VINYL*ITA OCCULT METAL MASTERS) - 19 €

Shadow Kingdom Records 2017 - Limited Edition of 250 copies in Blue & white "half/half" vinyl with black splatter, gatefold cover and include an insert.

DEATH SS's legendary third album, Heavy Demons. One of the most cult names in international heavy metal, Italy's DEATH SS have influenced thousands over the past three decades in their long, twisted history, equally influencing the nascent speed metal and black metal scenes with their trademark ghoulish and theatrical presentation.

Formed in 1977, the initial lineup DEATH SS would feature four "characters": The Death, The Mummy, The Werewolf, and of course The Vampire, who was frontman Steve Sylvester (and who gave the band their "SS" appellation). While by no means merely repeating the formula of Black Mass, on Heavy Demons, DEATH SS simply consolidated their by-now-considerable strengths and delivered a record which could only come from them: that trademark DEATH SS sound was, and will always be, one of the most unique around. Further fueling the more speed metallized sound of Heavy Demons is the band's clearest and most powerful production to date. Faithfully restored to its original sound and design, as per the band's specifications, hear DEATH SS's Heavy Demons as it was meant to be heard!

ENTRENCH - Through The Walls of Flesh (NEW*LIM.BLACK V.*SWE TRHASH METAL*ANTICHRIST) - 15 €

I Hate Records 2017 - Brandnew lim. ED. of 350 copies in Black Vinyl + Insert - RAW SWEDISH THRASH METAL IS ON THE RISE!
And with the new albums from ENTRENCH and ANTICHRIST I HATE brings you the best of 2017!

Yes, the new generation of Thrashers influenced by the old & evil sound of POSSESSED/MERCILESS/SADUS have started to make their presence known!

With "Through the Walls of Flesh" ENTRENCH have delivered a lethal piece of Thrash metal, sure to pierce its way straight to heart of both puritans and connoisseurs. Traditional violent sound, but with a twist of their own! ENTRENCH started in 2005 and have delivered two full-lengths prior to "Through the Walls of Flesh" – their first deal with I HATE. Unlike so many "heroes" of the 80s, who turned more polished with every successive release, ENTRENCH continues to push borders and refuses to succumb to any trends whatsoever. In the bands own words, the new album should be seen as "an example of pure energy and a way of channelling that humanity's deserved doom is drawing near." "Through the Walls of Flesh" brings a fresh stench of decay to the Thrash world!

EVIL INVADERS - Feed Me Violence (NEW*LIM.180 gr. BLACK VINYL*SPEED METAL) - 18 €

Napalm Records 2017 - Brandnew 180g black vinyl, gatefold cover !

Let down your hair and rip off your shirt, Speed Metal is back! With lustful joy, the Belgians of EVIL INVADERS wallow in those mad days of early Metallica and Slayer, when Thrash Metal was marked with speed and metal's madness was bigger than the Beatlemania. Their second monstrosity of an album is called "Feed Me Violence" and delivers true Thrash Metal in its rawest strength: wasted and wild, lightning-swift and erratic! Full-throated Heavy Metal-screams that would make Rob Halford proud shoot over electrifying whirlwinds of solo guitars. Prepare yourself for massive divebombs and a grim beating snare drum! A must-have for every guitar-freak and for fans of Death, Slayer, Kreator and Judas Priest's Painkiller!

HELL FIRE - Free Again (NEW*LIM.BLACK V.*US METAL*PRIVATE PRESS*IRON MAIDEN/DIO + OVERKILL) - 22 €

US Private Press 2017 - US Direct Import, Limited Black Vinyl

Brandnew US Metal Killer mixing metallic NOWBHM (Maiden, Satan, Rainbow incl. Epic Double Leads) with some US Speed (early Metallica/Overkill) !

From San Francisco, California. Hell Fire pulls influences like the twin guitars and soaring vocals of New Wave of British Heavy Metal movement of the late 1970s combined with the speed and intensity of the early 1980s Thrash Metal Scene. Sounding a lot of early IRON MAIDEN and RAINBOW, composing classy sounding twin guitar battles bearing tantalizing harmonies, along with holy riffs of the vintage era. Added to the nostalgia of the British invasion, "Free Again" has the potent elements that mischief Speed and Thrash Metal deeply rooted in the minds of HELL FIRE's members, conveying a destructive force of a battering ram along led by a manic high pitched preacher that might hinder your senses towards RAVEN, BLITZKRIEG and SATAN.

HOUR OF 13 – Salt The Dead: The Rare And Unreleased (NEW*LIM.250 DLP MARBLED VINYL) - 23 €
Shadow Kingdom Records 2017 - Limited edition DLP - 250 copies in clear/black marbled vinyl. double smoke vinyl + Poster
Long-overdue demos & rarities collection from the immortal HOUR OF 13, appropriately titled Salt The Dead: The Rare And Unreleased. Across this massive collection, one will find HOUR OF 13's very first steps into doom metal godhood, alongside alternate recordings of fan favorites.

Listening to Salt The Dead: The Rare And Unreleased, it becomes quickly apparent that something truly special was being birthed upon the band's first recorded notes. The first half of this collection - or sides A and B of the double-vinyl edition - comprise demos recorded in 2007. The first three songs were the very first written by HOUR OF 13 in November 2006 and then recorded not long after; the next five songs were recorded nearly a year later. Together, these eight songs would form the foundation of the band's now-classic debut album, released by SHADOW KINGDOM as Hour of 13. Although recognizably HOUR OF 13, these early demo versions of the debut album's songs have slightly different arrangements while others have slightly different vocals, but every single bit of the band's trademark atmosphere is plentiful and poignant. Verily, this is the sound of lingering incense and burning blood.

During the second half of Salt The Dead: The Rare And Unreleased, we find a number of alternate recordings, some with special circumstances surrounding them. On side C is an alternate full-band recording of "Call To Satan," recorded at the HOUR OF 13 rehearsal spot, alongside an alternate version of "The Rites of Samhain" with fully correct lyric placement and vocals by mainman Chad Davis. But most poignantly is the song "Upon Black Wings We Die," written and recorded within a matter of a few hours upon hearing the news of the passing of Jason McCash from The Gates Of Slumber. On side D are the complete Candlemass Eve Recordings, the second rehearsal with Beaten Back to Pure's Ben Hogg on vocals: all recorded in a single session on a Zoom H2 microphone in the room, captured here with a newfound energy and stirring vocal performance. Feel the ancient atmosphere of early metal rehearsal rooms of yesteryear here!

QUAYDE LAHÜE - Day Of The Oppressor MLP (NEW*LIM.200 BLACK V.*NWOBHM*C. MISTRESS) - 14 €
High Roller Records 2017 - Limited to 200 x black vinyl, insert ! 70's Hard Rock + early NWOBHM from USA for Fans of Christian Mistress, Scorpions, Judas Priest, Suzi Quatro, The Runaways
Quayde Lahüe drank profusely in 1970s Metal bands like early Judas Priest and Scorpions. It was a time those bands bounced between an aggressive sonority and musical virtuosity, almost hitting progressive rock. But, for instance, first track "The Oppressor" is more kind of late 1970s Metal or, better, early NWOBHM. The 11 tracks of "Day Of The Oppressor" are somewhat inspired in those musical moments. What I can say for sure is that Quayde Lahüe "Day Of The Oppressor" is a real time travel. Moreover, Jenna Fitton's voice make us travel to Suzy Quatro songs. I guess that this comparison fits a lot better to Quayde Lahüe, as it's inevitable. Quayde Lahüe's recreation of the early era of Metal is technically perfect. Instruments sound quite the same. Even the musical techniques are the same. Nobody goes far from it. "Just So You Know" is like if "The Runaways" were back. Jenna feels like Joan. We can also hear those rock'n'roll guitar riffs that almost went extinct. Quayde Lahüe has just added some boogie to modern Metal. No doubt that it's a delight to hear Quayde Lahüe.

The Crypt Records / Dark Symphonies 2017 - Limited Ed. - US Direct Import ! Limited to 150 copies on black vinyl DLP, Gatefold Cover !
New England thrash legends WARGASM! One of the most underrated bands from the late 80's, Wargasm had a unique sound unlike any of their peers. Often referred to as a 'Thrash Metal' band, their music does contain elements of thrash, but the band has always viewed it's music as a hybrid of thrash, traditional metal and the NWOBHM.
Wargasm's second album, originally released in 1993, is finally available for the first time ever on vinyl! It's 100% official and has been newly-remastered by guitarist Rich Spillberg. Roaring back after their acclaimed debut, this legendary Boston band unleashes 55 minutes and 56 seconds of thrashtastic rage on their most varied and ambitious album. Amazing riffs, outstanding songs and super-human chops guaranteed.
The DLP will come housed in a 350 gram gatefold jacket with an additional printed lyric / mini poster insert, and will be designed after the original 1993 Massacre Records release, featuring alternate cover artwork, while taking elements from the original layout with painstaking attention to detail, right down to the logo and typeface for an extra touch of nostalgia. Also included are unpublished classic band photos, flyers, and other archival material, as well as new liner notes written by bassist/vocalist Bob Mayo.

Swords and Chains Records 2017 - US Import TAPE

For Fans of Diamond Head, Exciter, early Armored Saint, Killer, Angel Witch

Debut 4 track demo from this new heavy metal group from California featuring current and ex-members of Exhumed, Angel Witch and Nausea (CA). These 4 tracks are pure heavy metal and we are proud to present it on cassette! Limited to just 100 hand-numbered copies!

No-nonsense twin guitar action, rough and ready melodies that parlay into mighty hooks, and songwriting that encourages beer swilling good times. It's not hard to imagine Pounder opening for Iron Maiden circa 1981 with "Web of Fear" and the burning "Hot and Runnin'" blitzing the speaker cones or shaking the foundations from the stage. Between Matt Harvey's smooth vocal delivery, plus his killer rhythms along with Tom Draper lighting his fretboard through magnetic leads, the denim and leather brigade will champion this easily

MAGAZINES

DEAF FOREVER #20 (NEW*GER MAG*RAM*PROCESSION*POSTER:HELLHAMMER/VOIVOD) - 6 €

Freundinnen und Freunde des Stahls! Auf einen verregneten Sommer folgt nun ein heißer Herbst - zumindest was die Menge an hochwertigen neuen Tonträgern betrifft. Womit wir bei den Titelhelden unserer neuen Ausgabe wären: RAM schießen mit ?Rod? an die Spitze unseres Soundchecks und beweisen erneut, dass sie zu den wichtigsten Heavy-Metal-Bands der dritten Generation gehören ? und auch inhaltlich etwas zu sagen haben. Es hätte nicht viel gefehlt, und Procession statt Ram hätten unseren Soundcheck mit ihrem neuen Album gewonnen. Manuel Trummer hat seiner derzeitigen Lieblingsband mit einer gewohnt intensiven Fragerunde manch interessantes Statement entlockt. True Metal Doom!

Auch die Death-Metal-Legende Cannibal Corpse meldet sich zurück. Laut Frank Deathbrecht haben die Kannibalen nicht nur ein überragendes neues Album, sondern gar eins ihrer absoluten Karriere-Highlights veröffentlicht. Und bevor uns Fränk lebendig in seiner Festival-Friteuse brutzeln lässt, stimmen wir ihm lieber zu! Ebenfalls bestechende Form muss man Glenn Hughes attestieren. Ein so ausführliches Interview mit dem Ex-Deep-Purple-Paradiesvogel hatten wir eigentlich gar nicht geplant - aber dann kam Jakob Kranz in Plauderlaune und fand in Glenn plötzlich einen Bruder im Geiste. Ganz ohne Koks, Nutten und Marsriegel. Mit den Grave Pleasures ist das so eine Sache: Einerseits sind sie die offiziellen Nachfolger von Beastmilk, andererseits wollen sie als eigenständige neue Band wahrgenommen werden. Egal, das zweite Album ist jedenfalls ein großer Wurf und erinnert stark an? nun ja, Beastmilk.

Wenn Neudi nicht gerade bei einer seiner zahlreichen Bands die Trommelklöppel schwingt, dann ist er auf der Suche nach verlorenen Schätzen. Erneut hat unser Hansdampf in allen Gassen ein ?vergessenes? Kultlabel wiederentdeckt und ausführlich porträtiert. AAARRG-Chef Ralf Hubert, den viele eher als Mastermind hinter Mekong Delta kennen, plauderte aus dem Nähkästchen, während Rumpelstilzchen Neudi nervös um ihn herumzappelte. Ebenfalls quasi wiederentdeckt haben wir eine Frau namens Srila Devi, die in den neunziger Jahren unter ihrem bürgerlichen Namen Tiziana Stupia das gleichermaßen kultige wie auch berüchtigte Label Misanthropy Records betrieben hat.

Weitere Interviews haben wir geführt mit: Threshold, Sorcerer, Jag Panzer, Degial, Heat, Air Raid, Enslaved, Savage Messiah, Wucan, Shrapnel, Evil Invaders, Night Viper, Samael, Moonspell, A Sound Of Thunder, Nocturnal Rites, Satyricon, With The Dead und Kadavar.

Die bekannten Rubriken Under A Funeral Moon (u.a. Vassafor, Ophis und Perverted Ceremony), The Dungeons Are Calling, Maniac der Ausgabe und Forgotten Jewels liefern euch wieder schwarze Freaks, bunte Wahnsinnige und brandheiße Tipps. Zu den Schwerpunkten unserer Konzert- und Festivalrückblicke zählen u.a. das Party.San Festival, Headbangers Open Air, Chaos Descends, Prophecy Fest und die Weltturbojugendtage.

Natürlich gibt?s eine viertel Milliarde Tonträger-Reviews, und zwei kultige Poster spendieren wir euch ebenfalls: Hellhammer und Voivod.

DEAF FOREVER #19 (NEW*GER MAG*POSTER: CIRITH UNGOL + NIGHT DEMON) - 6 €

Metallerinnen und Metaller! Wir sind zu der Entscheidung gekommen, dass wir unserer Leserschaft eine gehörige "Bestial Invasion" schulden. Aus diesem Grund haben wir mit Infernal Overkill, dem legendären Debüt-Longplayer von Destruction, einen weiteren Album-Meilenstein ausgewählt, der uns ein großes Special wert ist. Auf 13 Seiten erinnern sich Schmier, Mike und ihr alter Drummer Tommy - sowie spezielle Weggefährten - an die Zeit Mitte der Achtziger, als ein neues Genre namens Teutonic Thrash aus der Taufe gehoben wurde.

Von den Achtzigern in die Gegenwart: Ein weiterer Volltreffer geworden ist das vierte Accept-Album mit Sänger Mark Tornillo, auch wenn man einige Feinjustierungen an Sound und Gesang vorgenommen hat. Bandleader Wolf Hoffmann nahm sich viel Zeit für Andreas Schulz' freche Fragen.

Tomb Of The Mutilated, der Inbegriff der todesmetallischen Fleischeslust und die Hymne eines jeden vollbeschäftigten Metzgereibetriebes, wird 25! Wir erinnern uns noch genau an die orgiastischen Zuckungen und blutunterlaufenen Augen von Fränk McDeathbrecht, als unser gefährlichster Mitarbeiter das 1992er Knüppelmanifest von Cannibal Corpse erstmals hörte! Zum großen Jubiläum liefert Frank gemeinsam mit seiner Ultra-Truppe Stefan Franke und Leimy fünf Seiten voller Todesblei der unbarmherzigsten Sorte! Einige Leserbriefe brachten uns auf die Idee, eine längst überfällige Würdigung der unterbewerteten Berliner Progressive-Thrasher Depressive Age zu verfassen.

Und wenn wir schon bei unterbewerte sind: Auch vor den schwedischen Power-Metallern Morgana Lefay ziehen wir den Hut. Manuel Trummer wollte einfach nur eine seiner Lieblingsbands intensiv abfeiern - und hatte gar nicht damit gerechnet, dass ein letztes Pagan-Altar-Album schon veröffentlichungsreif in der Pipeline hing. Und so kommt unsere Story nun sogar unfreiwillig termingerecht.

Weitere Interviews haben wir geführt mit: Dead Lord, Attic, Paradise Lost, Portrait, Tau Cross, Travelin Jack, Argus, Destructor, Wolves In The Throne Room, Schammasch, Alpha Tiger, Vulture, Crippler, Die Apokalyptischen Reiter, Lifeless, Karl Walterbach und Schafott.

Die bekannten Rubriken Under A Funeral Moon (u.a. Highland, Cemetary Urn, Temple Of Void und Phrenelith), The Dungeons Are Calling, Maniac der Ausgabe und Forgotten Jewels liefern euch wieder Freaks, Wahnsinnige und brandheiße Tipps en masse. Zu den Schwerpunkten unserer Konzert- und Festivalrückblicke zählen u.a. Bang Your Head!!!, Protzen Open Air, House Of The Holy, Live Evil und Stoned From The Underground.

Natürlich gibts eine knappe Million Tonträger-Reviews, und zwei wunderschöne Poster spendieren wir euch ebenfalls: Cirith Ungol und Night Demon. In diesem Sinne: Hell storms, rush over the earth - Bestial Invasion!
