For Fans of Nasty Savage, Hallows Eve, E-X-E, Harter Attack, Slayer & Exodus

BETRAYEL formed in Fresno, CA in 1985 with Chris Campise on bass/vocals, guitarists James Carter and James Johnson, and Arlie Patton on drums. Influenced by the burgeoning sounds of Metallica, Exodus, and Slayer, BETRAYEL quickly announced their primal thrash metal fury by opening their debut demo—1986's Helpless Souls—with a bold mission statement: "Attention posers: prepare to die!"

The following year found the group appearing on Godly Records' Raging Death compilation alongside early incarnations of future greats Atheist (as R.A.V.A.G.E.) and Obituary (as Xecutioner), before work ensued on a second demo: Death Shall Overcome.

BETRAYEL then secured its highest-profile appearance to date in 1990 with the opening track on Metal Blade's Metal Massacre Ten compilation, all the while respectfully maintaining their singular focus on intense, raging thrash.

Even early on, BETRAYEL had opened for names such as Anthrax, Death Angel, Overkill, etc.; and would go on to share the stage with a huge number of impressive acts such as Autopsy, Dark Angel, Kreator, Lääz Rockit, and Voivod. Having amassed an impressive cache of songs that had yet to be recorded, the band was prepping to sign with Mechanic Records, before management issues saw BETRAYEL passed over for Vio-lence instead. By the end of 1990, BETRAYEL was finished.

Finally, almost three decades after the fact, Divebomb Records is proud to grant BETRAYEL's recordings a long overdue discography collection: Death Shall Overcome. The 20-song CD includes tracks from the Helpless Souls and Death Shall Overcome demos, the Raging Death and Metal Massacre Ten compilations, plus eight previously unreleased live cuts recorded in 1988. Fully remastered by Jamie King at The Basement Recording, the disc is housed alongside an extensive booklet loaded with archival photos/flyers and a retrospective interview with the band.

DELIVERANCE - The Subversive Kind (NEW*COMEBACK US WHITE THRASH/SPEED METAL KILLER) - 14 €

Roxx Production 2018 - Brandnew Comeback Album - US White Thrash/Speed Metal Killer !

'The Subversive Kind' is a true return to form for thrash pioneers Deliverance, boasting 8 brand new tracks that truly bring that classic thrash sound back. The fans that have been requesting a 'Weapons part 2' will be ecstatic with this new release and I'm going to go out on a limb and say that this new album is the bands 'Reign in Blood.' If you're a fan of the first three albums, you're going to want to jump out of your seat for this one! True to form, Deliverance has recorded in The Subversive Kind an old school thrash album complete with all the expected trimmings: unrelenting fast tempos, aggressive riffing, tenacious drumming, shredding guitar leads and middle register vocals of a terse and brusque variety.

The CD version is packaged in a jewel case with 8 panel insert!

DEMON BITCH – Death is Hanging + Demo 2012 (NEW*US METAL*BROCAS HELM*MERCYFUL FATE) - 13 €

Dystopian Dogs Records 2018 - US Direct Import - 80's Epic and obscure US Metal Killer from Detroit !

The band delivers their own take on traditional heavy metal, topped with killer, totally unique vocals. It's definitely a sound to fall in love with, as it is fresh, twisted and original. Listening to this album, you'll get intensity, melodies and an overall inspired performance from all parts involved. King Diamond and Mercyful Fate are obvious references, but a song like the opener "All Hail Evil" also leans a bit towards newer acts like Sweden's Portrait, and even Enforcer, the latter mainly due to the energy and some of the guitar work. The song is an intense and almost hectic opening tune, musically with lots of NWOBHM-references, great guitar work and some cool bass lines creating a solid foundation for the track along with the strong and natural drums. On top of it all you'll find a very impressive and inspired vocal performance from vocalist extraordinaire Logon Saton. For Fans of oldschool US METAL like Borrowed Time, Brocas Helm, King Diamond, Enforcer, Portrait, Mercyful Fate, Cirith Ungol, Angel Witch, Manilla Road, Doomsword

DERACINATION - Times of Atrocity DCD (NEW*LIM.1000*AUS DEATH/THRASH METAL*MORTIFICATION) - 14 €

Dark Descent Records / Dark Symphonies 2018 - Lim. 1000 DCD - AUS Death/Thrash Metal Killer Rerelease !

This sounds A LOT like early Mortification! Australian Death metal act DERACINATION to reissue their ultra-rare, highly sought after self financed 1992 CD "Times Of Atrocity". As a bonus we will be including the band's equally rare 1992 demo. Almost 80 minutes of full-on, in your face, crushing death / grind metal bringing to mind early Mortification and Living Sacrifice. Last, we will include a second bonus CD with the bands pre-DERACINATION thrash metal incarnation HOLY RITE - Mosh for the Master. In 1989 Holy Rite was formed with a desire to play music together and as the band's influences were heavy metal/Thrash. The band had a desire to play loud and heavy with lyrics that had a positive message, being Christians in a band but not out to preach to people. They changed the name to Deracination as another band was using Holy Rite and recorded their debut CD as Deracination at Machine Head Studio's which is no longer in operation, as always when it came to the end of recording ran out of money and this had an affect on the end result as it was never mastered or properly mixed and with the limited technology from the early 90's wasn't able to fix the problems with the recording, but it was still was quite well received.

During their Australian tour and release of their album, 2 members left the band due to personal reasons and with the new line up, it also changed the direction of the music but not intentionally to a much darker heavier sound which led us to record the final cassette tape as Deracination, and was never released on CD. Only a very small amount of about 250 were made

DRIVE - Idefi (NEW*LIM.500*US MELODIC/PROG METAL*C.GLORY*LETHAL*UNREL.3rd ALBUM) - 15 €

20th Century Music 2017 - Limited Edition of 500 copies only - 24 pages deluxe booklet ! This is their unreleased 3rd Album after "Characters in Time" + "Diablero" !

US melodic Power/Prog Metal for Fans of Crimson Glory, Queensryche, Lethal

IDEFI, the material that should have made up Houston based progressive metallers DRIVE's third album, finally hits the streets in a proper release. Working very closely with the band members and their families, IDEFI is not a reissue, rather, a celebration of singer David Earl Taylor and founder member / guitarist Rick Chavez, lives. The album features a huge 24 page booklet, liner notes from Chris Leibundgut, heartfelt tributes to both Chavez and Taylor

A break that became permanent as other priorities got in the way of any further DRIVE activities although everyone continues to play music to this day. The death of vocalist David Taylor on June 15, 2009, resulting from a freak car accident while he drove along a San Antonio Interstate, forever closed the door on a reunion of the original line-up, something Chavez admits "we had talked about it here and there but life happened – marriages, babies, jobs; we were all doing different things."

And yet there is an unexpected new and final chapter in the band's history in the shape of 'Idefi', the album you are holding in your very hands. Consisting of 'Inherit the Wind' and 'Insanity', familiar to those lucky enough to score a 'Diablero' advance cassette of the unreleased Rampage version, and 8 other songs, this posthumous addition to the DRIVE catalog is further testimony to the band's pure class and style, a perfect blend of metallic muscle and melody, topped off by David Taylor's soaring vocals, that holds up well to this day.

"'Inherit the Wind' and 'Insanity' are the versions meant to be on 'Diablero'. All the songs are original versions – some are demos and raw recordings, nothing has been re-recorded for this release", explains Chavez. "'Inherit the Wind' and 'Insanity' aside, most of the songs were recorded in L.A. and Houston and were supposed to be included on our next album that didn't come to pass. We had some interest from Chrysalis other labels at the time but because of original contracts and the nature of the business it would have cost another label a small fortune to buy us out of our contract. We were not so much dropped from

Zoo.... more like put on a shelf so if anybody else wanted us it would have cost them. And this was at the dawn of the metal killing grunge scene."

"The release of 'iDefi', for me is a tribute to the voice of the band, David Taylor, and his memory and legacy", states Chavez. "I will be forever grateful that he was the man that sang my songs. We are thankful that Kai and Dave have remained fans and believed in the band enough to seek me out and want to release these songs."

EUDOXIS - The Gathering (NEW*LIM.500*CAN THRASH METAL CLASSIC*OBLIVEON*SACRIFICE*DYOXEN) - 13 €

Ragnarök Records 2018 - Brandnew killer CAN technical Thrash Metal Anthology - originally released in 1991! For Fans of Coroner, Sacrifice, Obliveon, Dyoxen, Savage Steel

Eudoxis were one of the first thrash acts in Canada. The first incarnation of Eudoxis came to life in 1983 in Longueil, a suburb of the Franco-Canadian city Montreal. The Judas Priest song "Exciter" had been their blueprint for songwriting and the result was way more aggressive than the British rockers themselves.

In 1986, the 12"-single "Attack from Above" was released and has since become a searched gem. After some lineup changes, the band started recordings for the full length album "Open Fire" and it was released in 1991 on vinyl, CD and K7.

On board was the band leader Rick Raczko, vocalist Sotiri Papafylis, drummer J.P. Perrault and axemen Mario Gilles Vaillancourt and Mars B. Alexander. This lineup gave the seven new songs a very distinct and original sound. "Open Fire" has also become a collector's item over the years. To commemorate 35 years since the formation of Eudoxis, the band members have decided to re-release all of their old material.

"The Gathering" is a compilation of the complete Eudoxis recordings along with two new songs by the band Screen which features 4 of the 5 members of the "Open Fire" lineup.

What you get is one of the most original thrash acts from Canada. Thrash yourself the old-school way!!!

- One of the first thrash acts from Canada
- original thrash metal with a difference
- 7 tunes from the collector's item "Open Fire" plus the 2 songs from the 12"-gem "Attack From Above", completed by new material from the ex-musicians of Eudoxis

- limited edition (500 copies)

"Overlooked and underrated Guardian melodic hard rock debut survives the test of time with its endless array of hooks and catchy guitar rhythms ("I'll Never Leave You" & "Mystery Man" should have been top ten hits). Tony Palacios is a guitar wizard second to only a select few. Oz Fox fills in on production."

Guardian's 1989 debut release on the Enigma Records label. Oz Fox (Stryper) produced and mixed the album in addition to contributing vocals. Its still amazing that this eventual classic sold 30,000 units in just the first month of its release!

Expect hook-laden melodic metal that combines huge Stryper-like vocal harmonies with a top notch display of musicianship.

Paul Cawley contributes a gritty but clean sounding mid-octave ranged vocal in addition to handling rhythm guitar duties.

Palacios is a wonderful talent who brings out the best in the band's sound with his melodic flavored and fast paced lead guitar work. Drummer Rikk Hart and bassist David Bach comprise a tight sounding rhythm section. David Bach contributes exclusive liner notes regarding the recording and release of First Watch. Guardian has been a household name in Christian hard rock and metal circles, contemporaries with Stryper, Bride and Whitecross!

LAST VISION BLACK - Last Vision Black EP (NEW*US METAL '94*ENFORCE*HITTMAN) - 9 €

Divebomb Records 2018 - Information regarding criminally obscure progressive metal outfit LAST VISION BLACK is scarce, to say the least. The quartet formed around 1993 in Holtsville, NY on Long Island with the lineup of vocalist Scott Oliva (formerly of groups such as Deranged, Inner Strength, etc.), Jim Volpe on guitar, bassist Lou Parasimo, and Jules Loscalzo handling drums.

The band would release but one self-titled three-song demo in 1994, engineered by Oliva's former Inner Strength bandmate Joe Marselle, who also performed some guest solos on the sessions.

For Fans of Hittman, Lord Bane, Apollo Ra, Mystic Force and Enforce

Limited edition CD – only 500 units pressed worldwide — digitally remastered – full lyrics

Coming up at a time when an increasing number of hardcore and death metal acts were gaining recognition in the area, LAST VISION BLACK, however, could—and should—have been considered a suitable contemporary of future Long Island Music Hall of Fame inductees Dream Theater. Their all-too-succinct demo has garnered a bit of an über-cult following over the years with its powerfully melodic, prog-tinted yet thrash-rooted brand of high-quality metal—fitting for fans of Hittman, Queensrÿche, or Iced Earth alike.

True, a CD EP re-release of a 23-year-old three-song cassette may seem a bit of a risk in this dismal age dominated by mere clicks and streams, but after several failed attempts at launching their Masters of Metal: Classics compilation series—and knowing undeniably worthy material when they hear it—Divebomb Records is willing to explore new territory in order to grant LAST VISION BLACK's outstanding music a new chance to be heard. Fully remastered from the band-supplied DAT tape by Jamie King at The Basement Recording, this is yet another true labor of love reissue: for the fans, by the fans!

LUV HUNTER - Same (NEW*LIM. CD+DVD*US METAL CLASSIC*OBSESSION*BANSHEE) – 17 €

Lost Realm Records 2018 – Brandnew + Limited CD + DVD rerelease of an US METAL CLASSIC for Fans of OBSESSION, SCREAMER, QUEENSRÛCHE, BANSHEE, M.A.R.S. or LEATHERWOLF!

As is commonly known, the Heavy Metal world is replete with examples of bands/artists that had everything to reach the peaks of stardom (the music, the attitude, the looks), but for one reason or another, they weren't able to receive the rewards for their hard work. As we advanced into the end of the 80s, the examples are more and more abundant. In that category, we will have to include LUV HUNTER. "How such a tremendous band didn't went big?"... This question roamed our minds during the past months, as we were working on this release. Formed in 1985 in Las Vegas by two friends, Walter Robbins and David Milligan, LUV HUNTER is such a fine example of the best late 80s US Metal had to offer!

Don't be fooled by the band moniker, because here you will only find pure Heavy Metal, with lots of power and melodies!

This more-than-deserved CD re-release will comprise the full self-titled album, plus unreleased tracks, in a total of 14 songs of pure metal hysteria! But there is more! The intensity of playing live was an essential part of LUV HUNTER. Because of that, this release will include a DVD with three live performances: 1987 in Las Vegas, 1990 in Tokyo (a never-seen-before footage) and the 2013 reunion, when they were inducted in the Las Vegas 80s Rock Hall of Fame! The 20-page booklet will include the official band biography written by David Milligan, songs lyrics and rare photos! It's definitely a MUST-HAVE for any late US Metal fancier!

KILL RITUAL - All Men shall fall (NEW*US POWER/THRASH METAL*OVERKILL*IMAGIKA) - 14 €

Dissonance Records 2018 - Brandnew 4th Album - US Power/Thrash Metal for Fans of Imagika, Testament, Overkill, Anthrax Formed in 2010 by former members of Imagika, Dark Angel and Eldritch, Kill Ritual launched themselves into the metal world with their debut CD "The Serpentine Ritual" in 2012 on Scarlet Records and the band were immediately rewarded with great reviews and positive reaction from around the world.

Following the initial success the band completed a US tour in the fall of 2013 and followed it up with the release of "The Eyes Of Medusa" in 2014 on Golden Core/ZYX and again received great press and accolades from fans and press worldwide.

2015 saw Kill Ritual recruiting vocalist David Reed Watson (Rage of Angels, Electric Messiah) to record their new CD "Karma Machine" after the departure of original vocalist Josh Gibson and ushered in a new direction and focus to the bands already expansive sound.

The band followed the release with a full US tour in 2016 and European tour with NWOBHM legends Raven in June 2017. 2018 again sees the band releasing their new CD "All Men Shall Fall" through Dissonance Productions with yet another new slew of touring hence bringing their definition of metal to the masses...

MAJESTIC RYTE - Same (NEW*LIM.500*US PROG/POWER METAL *88*F.WARNING*ENCHANTER) - 14 €

Cult Metal Classics 2018 - Lim. 500 - US Prog Power Metal from 1988 for Fans of Fates Warning, Lethal or Enchanter !

Hailing from New York, MAJESTIC RYTE have become through the years an underground legend. The band started in the mid 80's and recorded a 5 song album loaded with powerful U.S. heavy / power metal with vocals reminiscent of early FATES WARNING and epic lyrics about warlords, dragons and battles. Their only same-titled album came out in 1988 as a limited edition cassette EP and thanks to the internet it gained a cult following mostly due to its superb quality and also because it was not easy to find and therefore the band members were unknown for quite some time. After a 4-year quest to locate all original band members and negotiate a deal with them, we're in the pleasant position to announce a reissue of their classic album for the first time on CD, featuring killer remastered sound, fat booklet with band story, lyrics and photos of the band. If you're not familiar with the band, be prepared for an unrelentless sonic assault and some of the best heavy/power/epic metal the 80's had to offer!

MAJOR DENIAL is a melodic-progressive metal project from Greece founded by Nektarios Ntagkas and Ahilleas Diamantis in the summer of 2013.

Nektarios vision was to express himself by composing his ideas out of the guitar lessons with his tutor Achilleas Diamantis.

Panagiotis Haramis (bass) joined them after a while.

Nektarios started writing songs in a short period of time and that period he contacted Mark Zonder (Warlord, ex. fates Warning) to play the drums on the first song (No Sunrise). He contacted also Yannis Papadopoulos (Wardrum, Beast In Black, ex. Until Rain) to sing the song. On February 2014 they presented the first lyric video for the song, followed by a second lyric video (Never Neverland) on April 2014. They decided to release an EP, but, Yannis Papadopoulos could not continue because of his schedule. "Minor Ways" EP, released January 2015 with two more songs, "A Man" with Stratris Steele (Endomain) on the vocals and "I Am The Shadow" by Denny Anthony (Signs Of Reing), proposed by Mark Zonder. Minor Ways released also on Vinyl, special edition of 525 hand numbered copies.

They decided to continue after a long period and wrote songs for a full album. They contacted Kostas Milonas (Sunburst, Foray Between The Ocean) to join the project on the drums and Yannis Papadopoulos recorded the vocals as a guest.

Lisette van den Berg (Scarlet Stories, Ruud Jolie, she sang and played the character 'The Data Chamber' in the rock opera videogame Karmaflow, features on albums by Soulburn, Cirrha Niva and Ayreon's "The Source". Their sound influences cover a very wide range of melodies, riffs, groovy rhythm section and beautiful vocals.

Their first full album is called "Duchess Of Sufferings" and is mixed and mastered by Daniel Cardoso [Anneke Van Giersbergen, Anathema].

OLD WOLF - Faustian Mass (NEW*US EPIC METAL*E.CHAMPION*VISIGOTH*ARGUS) - 14 €

Divebomb Records 2018 - Brandnew US Epic Metal Killer for Fans of: ETERNAL CHAMPION, VISIGOTH, ATLANTIAN KODEX & ARGUS

Somerset, KY's OLD WOLF began as a drunken conversation in February of 2014 during a night full of debauchery and headbanging. Solidifying its first lineup by the summer of 2015, the old school power metal aficionados were well-prepared to act as crusaders for the New Wave of Traditional Heavy Metal. Hitting the scene with a three-song cassette/CD demo in late-2015, the band worked to establish a live presence over the course of the following year, at which point the demo was picked up amidst the premiere edition of the Divebomb Records Masters of Metal compilation series. Work on new material ensued, but progress hit a snag and OLD WOLF set upon a six-month hiatus to refine its ranks later in 2016.

Back in the studio by March of 2017 with a new lineup comprised of guitarists Jake Wilson and Jerome Peters, Jason Norfleet on drums, bassist Josh Campbell, and vocalist Rick Langford, OLD WOLF set out to finally complete their 10-song debut full-length, Faustian Mass, through a continuing collaboration with Divebomb Records. Produced by OLD WOLF alongside engineer Scott Briggs at Velocity Studios in Cave City, KY, the album strives to shred faces through even more neck-breaking riffs than before. With Faustian Mass, OLD WOLF is sure to inspire fans of any number of classic acts from the U.K., Europe, and the U.S. alike with their fist-raising brand of classic metal anthems, and are out to prove once and for all that true heavy metal will never die...

OVERHEAT - Fight To The Finish (NEW*SWE HARD ROCK '87*OVERDRIVE*SILVER MOUNTAIN) - 14 €

Cult Metal Classics 2018 - Lim. 500 - Killer SWE Hard Rock/Heavy Metal with Janne Stark (Overdrive) - originally 1987 !

Janne Stark needs no special introduction. Having penned the three volumes of Swedish Hard Rock and Metal Encyclopedia and being active in the music scene of Sweden since the 70's through various bands (PARADIZE, OVERDRIVE, OVERHEAT, LOCOMOTIVE BREATH, GRAND DESIGN, MOUNTAIN OF POWER etc etc), the reissue of his best 80's works on vinyl and CD is a reason for every dedicated metalhead to start celebrating.

OVERHEAT reissue will feature remastered sound from the original master tapes, detailed band story, lyrics, bonus songs and killer 80's photos. Amazing hard rock / heavy metal music, with elements from both British heavy metal and Swedish heavy metal coupled with unique elements that derive from Janne's rich musical background.

RANSOM - Soul Asylum (NEW*LIM.300*25th Anniversary*US WHITE METAL/HARD ROCK*LITA FORD) - 14 €

Roxx Productions 2017 - Classic Christian female fronted Hard rockers Ransom are up next to receive a very special Limited Edition remaster and reissue from Roxx Records as we celebrate the 25th anniversary of the bands second and final album 'Soul Asylum' - in the vein of Lita Ford, The Runaways !

This very special remaster will be extremely limited to only 300 pieces on CD format only. Each CD will come with a special hand numbered CD insert, packaged in a jewel case with an 8 page booklet with lyrics and some special liner notes from Ransom bassist Michael Preciado.

Ransom burst on to the Christian music scene in 1990 featuring the fiery female fronted vocals of Lisa Faxon, the amazing guitar work of Tony Ortiz and the beautiful bass sounds of Michael Preciado as the core members of Ransom. In a male dominated world of hard rock and metal bands, Lisa would rise above bringing the polished vocal sounds of Ransom to the forefront of the Christian rock world throughout the early 90's.

Releasing their self-titled debut album in 1991 on Intense Records the band was ready to take the Christian rock world by storm. Hot on the heels of this critically acclaimed release the band began working immediately on their sophomore follow up release. In 1992 the band would release 'Soul Asylum' again receiving accolades and critical acclaim throughout the industry. Alas the turn of the hard rock and metal community was upon them with grunge starting to overturn the hard rock world in the early 90's and this would ultimately be the final release from Ransom.

Soul Asylum was a masterpiece of an album being produced by Lanny Cordola , who also played on several tracks and handled some of the writing duties, as well as a very special guest appearance from Oz Fox of Stryper. The original pressing of this album has been long out of print and tough to find for fans. Copies of the original CD are scarce and the album is definitely in need of a remaster to bring it up to today's standards and volume levels.

This year marks the 25th anniversary of Soul Asylum and Roxx Records is set to help breath some new life in to this very special hard rock release. Soul Asylum has been completely remastered by Rob Colwell (Bombworks) and the artwork and layout has been updated and refined by Scott Waters (No Life Til Metal)

TYRRANICIDE - God Save The Scene DCD (NEW*US SPEEDCORE '87*CRYPTIC SLAUGHTER*ANGKOR WAT) - 19 €

Divebomb Records 2018 - Brandnew Remastered Limited Edition of 500 copies only - US Thrash Metal / Speedcore / Crossover Masterpiece from 1986 - 1992 with many Bonus Tracks + unreleased stuff !

FOR FANS OF: THE ACCUSED, DR. KNOW, NO MERCY & CRYPTIC SLAUGHTER

TYRRANICIDE originally formed on Halloween of 1984 in Pleasanton, CA under the name of Mayhem. The group eventually solidified its lineup of guitarists/vocalists Jeff Hill and Tim Narducci, drummer Mike Serafin, and Ty Turner on bass before being rechristened TYRRANICIDE prior to recording their first demo in 1986. Existing on the fringe of the fabled Bay Area thrash scene's heyday, TYRRANICIDE rubbed elbows with everyone from future legends such as METALLICA and EXODUS, to second-wave favorites like SACRILEGE B.C. and ATTITUDE ADJUSTMENT. The band was initially adamant, however, that their thrashing attack not be pigeonholed as simply "speedcore" or "crossover," desiring instead for their inclusive attitude to welcome a range of different fans.

After securing an appearance on the Metal Blade/Death Records Complete Death II compilation LP in 1987 alongside contemporaries from IMPULSE MANSLAUGHTER to ANGKOR WAT, TYRRANICIDE hit the studio in October of 1988 to track their lone full-length LP, God Save the Scene. Recorded for a mere \$800 and self-released through Hill's own Whirling Dervish Records, the album would go on to become an influential force in the local scene with regard to the D.I.Y. ethic—and a cult classic, no less.

In the years that followed—with new bassist Sean Kinnick in tow—TYRRANICIDE's final recording sessions were originally intended to comprise a second full-length. In the end, however, the darker and harder-hitting material yielded a pair of EP releases in 1992: a two-song 7" on French label Bad Card Records; and two more songs on a split 8" flexi with Liquid Courage. TYRRANICIDE would ultimately endure a few more lineup changes before finally throwing in the towel before the end of 1993. But now, nearly 25 years later, Divebomb Records is excited to announce this definitive double-CD reissue of God Save the Scene. The 27-song collection includes the full-length album itself, "Don't Label Me" from Complete Death II, 1986's Hiding Under White demo, plus the complete sessions from what would have been TYRRANICIDE's sophomore full-length—four songs of which have never before been released! Fully remastered by Jamie King at The Basement Recording, the set is rounded out by an extensive 24-page booklet loaded with photos, flyers, press clippings, and a retrospective interview with the band.

Extermination Day Records 2018 - Limited Edition - 'Seventies Tapes' is pressed on 180 gram vinyl and housed in a 300gsm reverse card sleeve with metallic silver print !

Released on the bands own imprint, Extermination Day Records, manufactured and marketed by Bad Omen Records, this is a heavyweight vinyl release of the cult demo tapes recorded by Angel Witch in 1978 & 1979, on various reel to reel recording devices across the attics and front rooms of their native South London.

Comprises of the earliest, embryonic recordings of tracks such as 'White Witch', 'Baphomet' & 'Sorceress' which remain staples in the Angel Witch live cannon almost 40 years later, testament to the timeless song writing skills of, the then 18 year old, Kevin Heybourne.

Empire Records 2017 - Limited Edition of 166 copies in YELLOW Vinyl + printed Innersleeves !

Thrash/Speed Metal Killer from Belgium for Fans of Evil Invaders or Distillator

A sonic devastation! The sonorous breakdown! A blast that comes into your years and make you bang your heads all the way! That urge to mosh! I introduce you Devastatiön and ?Drink With The Devil.? A pure piece of how Metal can be of a pure destructive urge. Social criticism rocked by a sonic mass of angry Metal forces. ?Drink With The Devil? is only five tracked, but the pouding is enough to please. Devastatiön are a band with lots of hardcore influences. Right-in-the-face fast and furious music. The way Metal has to be. Devastatiön and ?Drink With The Devil? defy the speed of light to bring us the finest. Just listen to ?Reborn Through Fire? to check out how Devastatiön teach us a lesson of how speed can still prevail. Punk influences are clear not only on lyrics, but also on the cadence of songs. The drumming goes from simple punk beats to modern double bass. ?Society Will Die? has a kind of martial cadence that features all the anger that Devastatiön desire to show. ?Drink With The Devil? is an effort full of angry, no doubt about it. Hence, it?s the beauty of it. Anger is the driving force of Metal. My best shot here is the first track, ?Drink With The Devil.? I like the speed and the aggression. Killer guitar fast riffs in the best teutonic speed metal tradition. And the singer that sounds like an even angrier Accept?s Udo Dirkschneider.

No Remorse Records 2018 - Limited Official Rerelease in Black 180 gr. Vinyl + 12 Page Booklet + extra CD with 6 Bonus Tracks (4 unreleased) ! Keep It True Headliner !

HEAVY LOAD is widely held as the band that started the whole Swedish Heavy Metal wave with their first album in 1978. In addition, they are regarded as the first Viking Metal band in the world. Heavy Load was founded in the depths of midwinter

1974-75 by the two brothers Ragne Wahlquist (vocals, keyboard and guitar) and Styrbjörn Wahlquist (vocals and drums). The brothers' vision has always been the core of what Heavy Load was all about. In 1978, HEAVY LOAD released their first album entitled "Full Speed at High Level", and after expanding the line up with a second guitarist, they founded their own recording facility, the famous Thunderload Studios, along with their own label, Thunderload Records. On their own label, they released timeless HEAVY LOAD classics, such as: "Metal Conquest" (1981), "Death Or Glory" (1982) and "Stronger Than Evil" (1983). The reissue will contain 6 bonus tracks out of which 4 never have been available publicly before. LP-versions will contain very extensive booklets designed by the Wahlquist brothers themselves.

The booklets will feature previously unpublished photos, as well as the band's memories and ideas about the songs - LP-booklet will be 12 pages in full LP-size.

The reissue is remastered directly from the original analogue tapes by the Wahlquist Brothers and the LP version will be on 180 gram vinyl, including the 6 bonus tracks in extra CD.

HIROSHIMA - Taste of Death (NEW*LIM.200 RED V.*FIN HEAVY METAL CLASSIC*OZ*DOKKEN) - 22 €

Svart Records 2018 - Gatefold jacket, red vinyl. 200 copies. Freshly mastered from the original tapes! Originally released in 1984 on Kräk Records + rare as hell ! Strongly influenced by NWoBHM, they sound pretty much as a UK band - ferocious storm of melodic heavy metal with a dash of speed metal ! For Fans of NWoBHM, OZ until Dokken

The history of Finnish Heavy Metal wasn't all Sarcophagus and Oz in the 80's. Stockholm-based Hiroshima may have had a Swedish vocalist, but the rest of the ranks were Finns, relocated to Stockholm like Hanoi Rocks.

Guitarist brothers Kari Varonen and Ismo Waronen founded Hiroshima with Rape Pikanen, Jorma Uusitalo and Erkki Tallavaara in the infamous immigrant harbour of Flemingsberg, Stockholm, in 1982. At a couple of shows before the line-up stabilised, the band used the title Alwari-X, because before relocating to Sweden, Rape Pikanen had been drumming for the first Finnish glam rock band Alwari Tuohitorvi. After trying out a few bass players, the group hired Jouko Kinnunen as the band's permanent low frequency specialist. Singer Tony Hedin, the band's only Swedish member, joined the ranks during the same year. The band recorded an eight-song demo in eight hours at Stockholm's Decibel Studio in 1983. The demo, on which the line-up was already the same as on Taste of Death, led to a recording contract.

Thanks to playing shows and gaining recording experience in the studio, the band swiftly transformed into a hard rock force to be reckoned with. At this point the set list was already built upon original material. The band scored a recording contract in 1984 with Finnlevy, and things were looking up to this young Scandinavian quintet. The same year they put out their debut, Taste of Death, which was a memorable blast of heavy metal and featured the Finnish guitar legend Albert Järvinen on one of the tracks.

However, fame and fortune passed the band by, and Taste of Death remained their only record. As years passed, collectors, heavy metal fanatics and cultists found this little gem of a metal album. Svart Records are happy to reissue it, this LP release being the first time in 33 years it's being brought back from the grave.

Davide Tiso (Ephel Duath, Gospel Of The Witches), has announced the formation and signing of extreme progressive metal outfit, Howling Sycamore, to Prosthetic Records.

Tiso elaborates, "Howling Sycamore was born from the stubborn idea of melting together different styles of heavy music into something powerful, sincere and with a strong identity. I wanted to mix extreme metal drumming, layered down-tuned guitars and old school prog metal singing. I'm so grateful that these amazing musicians helped shape the album into the beautiful weirdness that it became."

The musicians he speaks of are none other than former Watchtower and Dangerous Toys singer, Jason McMaster and drumming sensation, Hannes Grossmann (BLOTTED SCIENCE, Necrophagist, Obscura).

JOIN THE DEAD - Armed for Battle 7" (NEW*LIM.150 COPIES*US WHITE THRASH METAL*DELIVERANCE*ULTIMATUM) - 14 €

Roxx Productions 2018 - LIMITED EDITION 7" - 150 Piece Pressing each hand numbered + will also come with a special digital download of these tracks. This 7" is only limited to 150 hand numbered copies and will NOT be pressed again.

Thrash fans unite for this very limited pressing of the very last recording from Bay area thrashers Join The Dead. The band has officially called it a day, but before they did they recorded one last tune!

Walking in Darkness was recorded and was supposed to be a track on the next album from Join The Dead, but that never came to be. The track was shelved until a worthy cause came up when the band donated the track to the Metal Pulse Radio tribute to Dale Huffman. Outside of that first appearance it has never been officially released until now.

This thrash tune was just too good to go unnoticed so we decided to put it out on a special Limited Edition 7" single. This is in fact the very first 7" record ever for Roxx Records and also No Life til Metal Records.

We decided to make it extra special and on side B of this 7" there are 2 additional RARE tracks. The first track is a previously unreleased version of a Deliverance cover song entitled 'What a Joke'. The second track is another Deliverance cover song for the track 'It's The Beat' originally released on the 2009 Michael Phillips solo album 'Mirrors within Mirrors'. Both of these very cool cover tunes feature Michael Phillips on guitars/bass, Jim Chaffin on drums and Scott Waters on vocals.

This 7" is only limited to 150 hand numbered copies and will NOT be pressed again.
