AGE OF TAURUS - The Colony Slain (NEW*DOOM METAL/NWOBHM*TROUBLE*ANGEL WITCH) - 14 €

Rise Above Records 2018 - Brandnew Album and again with a fantastic Mix of Doom (Candlemass, Trouble, Black Sabbath) and NWOBHM (Angel Witch, Satan) - Killer Album

Nearly five years on from the release of acclaimed debut Desperate Souls Of Tortured Times, singer/guitarist and conceptual mastermind Toby W. Wright is ready to unveil a new, ultra-dramatic chapter in the turbulent saga of the Taurean Empire. Showcasing a new line-up featuring

new bassist Leo Smee (With The Dead/ex-Cathedral) alongside Wright, drummer Darius Claydon and most recent recruit, guitarist Daniel Knight, The Colony Slain is the sound of a great band reborn in heavy metal glory.

Formed in 2009, Age Of Taurus have already established themselves as a doggedly unique force within the modern world of doom. Ever the stubborn mavericks, they have once again conjured a collection of songs that defy lazy notions of doom metal as a one-dimensional creative cul-de-sac. Still rooted in the rumbling sonic bedrock of Trouble, Candlemass and Sabbath but increasingly steeped in the gritty swagger of the New Wave Of British Heavy Metal and in thrall to numerous left-field, progressive ideas, songs like fiery opener Taken To The Tower and the rampaging In Dream We Die show the languorous repetition of much modern doom in favour of subtly elaborate song structures that proudly salute the spirit of old school heavy metal. With nods to everything from radio-friendly hard rock to gritty crossover thrash, The Colony Slain is a flat-out celebration of the metal code

ALIAS MANGLER – Bite the Metal (NEW*LIM.500*US MELODIC METAL 1985) - 14 €

Heaven and Hell Records 2018 - US 80's Melodic Metal inkl. 11 Bonus Tracks (unreleased Album) - Limited Edition of 500 copies only !

Many years after ALIAS MANGLER's circuit ride had come to an end and the band's disbanding European metal collectors would pick up on this obscure U.S. metal release and pay prices of \$250 – \$300 to obtain a copy of 'Bite the Metal' on vinyl.

What began on the Sunset Strip with bands like Quiet Riot, Ratt, and Motley Crue would spread like a virus across the United States in the early 1980s. Halfway through the decade, everyone would have the hard rock fever and the symptoms were countless hundreds of metallic rock bands began to spring up all over the country. Most of these bands would only enjoy sort rides on their local and regional club circuits before disappearing and never being heard of again. Some of these bands would amazingly manage to even get out a modest release before slipping into obscurity. One such band was a four-piece from High Point, North Carolina that formed in 1984 and went by the name of ALIAS MANGLER. Not too much is known about the band and their brief career. In 1985 ALIAS MANGLER would enter a Battle of Bands competition at Dorton Arena in Raleigh, North Carolina where the band would take first place over thirty-two other bands from all across the state. First place prize included studio time at CMC studios in Zebulon, NC where the band would lay down nine tracks that would become their debut album 'Bite the Metal'. In addition to recording time, the band's winnings also included a limited five-hundred pressing of the album on vinyl. Five-hundred cassettes would also follow. Both vinyl and cassettes sold extremely well considering the limited distribution.

ALIAS MANGLER would continue to play the local and regional circuit with other local acts such as Nantucket and PKM. ALIAS MANGLER would eventually record some demos in 1987 for a follow-up album that would never be released. Eventually, the band had run its course and ALIAS MANGLER would disband in 1991.

ANTACID - Force of Thunder (NEW*THRASH METAL*MALAYSIA*NASTY SAVAGE*SLAYER) - 11 €

Virus Records 2017 - Killer Thrash Metal from Malaysia

For Fans of Nasty Savage, Kreator or Slayer

Antacid has returned after a long break. The latest release of the band from Kajang, Selangor is a split CD "Metal Chaos Across the World" (with Hatred of Colombia) around 2009. The EP contains 4 songs that leads Antacid to Osaka, Japan and recently in neighboring Thailand, 'Force of Thunder' which serves the whole duration of 24:45 minutes contains 3 new songs composed and 1 song (bonus) of old Living in Disorder (from the first demo, 2003) re-mastering. Antacid quite obviously a lot more mature in this EP, in line with the increasingly mature knowledge and experience in making and performing Thrash Metal music. Antacid caliber in Thrash music has long been proven. The works of art in this EP sounds more heavy, and the solo guitarwork so oppressive, tugs cubic coupled nuances of sound that feels quite old-school aura of old school Thrash. Also interesting, outspoken in 'Living in Disorder' brought by Rex Killer, Antacid's lead guitarist. He recalled the history of where they started around 2002. Vocals in the first three songs; Nuclear Inversion, No Turning Back, and Force of Thunder shouldered by Fizan (Vault) which replace the original singer, Sen A.K. Nightcrawler. If you bigots of classic Thrash Metal rhythm, recent works that look back at the golden 80s Thrash .. this is 'Force of Thunder'... favors and food for you!

ASTHAROTH - Gloomy Experiments DCD (NEW*LIM.1000*TECH/THRASH METAL CLASSIC*WATCHTOWER) - 17 €

Dark Symphonies 2018 - Ltd 1000, legendary Polish thrash metal act ASTHAROTH, re-release of the band's debut and only full length album from 1989, "Gloomy Experiments".

For Fans of Watchtower, Coroner, VoiVod

Underrated and buried within the underground depths, we are thrilled to unearth this long lost gem of very complex, original technical/progressive thrash.

Somewhere between the atmosphere of Voivod and the technical aggression of Kreator and Necrodeath, ASTHAROTH have the formula to deliver the goods, while managing to still forge a sound all their own.

For the first time since 1990, we offer this thrash masterpiece as a standalone CD, as the 2009 reissue which included some of the demo tracks was incomplete due to length. To remedy this, we are offering the band's complete "Wisdom of the Blind" 1991 Demo, "Limits" 1992 Demo and "Cycles of the Sphere" 1994 demo as a second CD. Additionally, the bonus tracks "House of Frustration" taken from the original demos sessions and "The Drunk Hate" which was only available on the Metalmania '89 compilation will also be included. Also for the first time ever on CD, the bands "Self Hatred" Demo tracks will be included.

Each CD features the original classic artwork, as well as lyrics, new liner notes, and tons of exclusive band photos. In addition, the layout uses original elements just like the original LP release by Metal Master Records, for complete attention to detail - even down to the typeface.

Mighty Music 2018 - Brandnew NWOBHM Killer with Brian Ross !
"Judge Not" is although five years later in the Blitzkrieg world, a continuation from where the band left off from that last album release. Once again solidifying the bands roots in the British metal genre. The Newcastle based quintet whose heritage evolves from the 'New Wave of British Heavy Metal' era some thirty-five plus years ago in the UK, and the connection with Metallica for the times the Bay Area metal giants have covered the bands' anthem 'Blitzkrieg' over the years, and still sporadically play it in their live set. Hailing from Calgary, Alberta in Canada, BREAKER were among the most exciting heavy metal bands of the early 80's with a legendary status, mainly due to their underground classic masterpiece, "In Days of Heavy Metal", a 4-song EP released in a few copies, that nowadays has become some kind of holy grail for the U.S. / Canadian metal collectors around the globe. But unlike other sought after bands of the early 80's, BREAKER were delivering the goods and their music on their unique release ever (in 1982) is nothing more and nothing less than straight forward heavy metal with great vocals, super tight rhythm section and blistering guitars. Quite unusual for the metal releases of the time, the B-side of the album featured the same titled 14 minute epic, that easily stands among the top heavy metal anthems of all time, with its unpredictable arrangement

Cruz Del Sur Records 2018 - CAN Epic Metal Masterpiece - great show at KIT 2018 !

For Fans of Visigoth, Eternal Champion, Manilla Road, Manowar, Solstice, Omen, Atlantean Kodex

The journey is the reward for Gatekeeper founder Geoff Blackwell. Originally formed in Alberta, Canada in 2009 as a solo project for him to write some barbaric riffs and "teach myself how to play guitar" the band, through a series of EPs and splits and even a cross-country move from Alberta to Vancouver, has finally arrived with their full-length debut, East of Sun, which also marks their first release for Cruz Del Sur Music.

Recorded over the span of six months at Harbourside Studios in Vancouver, Canada with producer Mike Rogerson (Aggression, Annihilator) and Angelo Boose at the helm, East of Sun possesses the songwriting class of Manilla Road with the muscle and storytelling might of Manowar along with the melodic bravado of NWOBHM.

HADES - If At First You Don't Succeed ... DCD (NEW*LIM.1000*US TECH/THRASH METAL CLASSIC) - 17 €

Dark Symphonies 2018 - Ltd 1000, 30th anniversary deluxe 2CD, reissue of their amazing sophomore release from 1988 "If at First You Don't Succeed ..." presented as deluxe double CD set, complete a plethora of rare demo and unreleased tracks from the band's personal archives. Hades first released their now classic speed metal debut "Resisting Success" in 1987. The band broke up after completing a European tour in 1989, a year after releasing their sophomore effort "If At First You Don't Succeed". After the breakup, vocalist Alan Tecchio moved to Austin, Texas to join prog rockers Watchtower for a year. In 1990 he reunited with guitarist Dan Lorenzo in his new band Non-Fiction. Non-Fiction recorded 3 full lengths and toured the U.S. and Europe extensively before their breakup in 1995. Interestingly, Hades released a reunion CD called "Exist To Resist" on Black Pumpkin Records in 1994 while Non-Fiction was still active.

In 1999 Hades signed to Metal Blade Records and released their comeback cd "Saviorself". Originally a demo, this release showed the band focusing on a new, more mature heavy sound. "The Downside" followed in 2000. Possessing a much better production and more cohesive songwriting this release saw Hades pushing themselves to another level as a unified band. Hades finest moment came in support of "The Downside" during an appearance at Germany's infamous Wacken 2000 outdoor festival. Carefully mastered from the original analog sources for the best possible sound, and will be designed after the original releases, featuring original cover artwork, taking elements from the original layouts with attention to detail, even down to the logo and typeface for a touch of nostalgia. Also included are tons of unpublished classic band photos, flyers and brand new liner notes from original founding members.

MELIAH RAGE - Masquerade (NEW*US POWER/THRASH METAL*REVEREND*METAL CHURCH) - 15 €

Divebomb Records 2018 - Brandnew Rerelease of an US Power/Thrash Metal Killer FOR FANS OF: REVEREND, METAL CHURCH, WARGASM, WRATHCHILD AMERICA AND ONSLAUGHT In the mid-2000s, legendary Boston power thrashers MELIAH RAGE found themselves prepped to create a brand new album with all five original members in tow. Drummer Stuart Dowie had returned for 2006's The Deep and Dreamless Sleep, and even fan-favorite vocalist Mike Munro had agreed to find time amidst his family commitments to join up for one more album. Bassist Jesse Johnson ultimately decided to step aside, however, at which point the band brought in Darren Lourie—formerly of Tripphammer/Every Second—to complete the lineup. Unfortunately, Screaming Ferret Wreckords was on the decline, so the album was merely released as a CD-R and without a sufficient promotional presence. The band only performed a small handful of shows with Munro back on the mic—among them opening for Anvil at the House of Blues in Boston—but this brief reunion still satisfied longtime fans, both live and on record.

MELIAH RAGE - Barely Human (NEW*US POWER/THRASH METAL*REVEREND*ONSLAUGHT) - 15 €

Divebomb Records 2018 - Brandnew Rerelease of an US Power/Thrash Metal Killer FOR FANS OF: REVEREND, METAL CHURCH, WARGASM, WRATHCHILD AMERICA AND ONSLAUGHT Having eventually gone their separate ways sometime after the release of Death Valley Dream in 1996, legendary Boston power thrashers MELIAH RAGE opened the door on reunion talks around 2002 at the behest of upstart label Screaming Ferret Wreckords. Founding guitarist Anthony Nichols quickly roped in fellow axeman Jim Koury, and with original frontman Mike Munro opting out, the two recruited their former CACTUS LAND bandmate Paul Souza on vocals. Original bassist Jesse Johnson was also a go, and friend and former Wargasm drummer Barry Spillberg rounded out the lineup at that time. The resulting nine-song, 45-minute album, Barely Human, represented an inspired and reinvigorated MELIAH RAGE—possessing more powerful drive and energy than even some of the band's earliest work, while still retaining the contrasting dynamics of a classic album like Solitary Solitude. The reaction from fans was overwhelmingly positive, and the group filmed a video for the disc's title track—which was also featured in an episode of the FX television series The Shield. Select live appearances of the era included stops at the Classic Metal Festival (Chicago, IL) and Metal Mind Rage II (Baltimore, MD).

MELIAH RAGE - Idol Hands (NEW*US POWER/THRASH METAL*9th ALBUM*HERETIC*M.CHURCH) - 13 €

Metal on Metal Records 2018 - Brandnew 9th studio album of these legendary power thrashers from Boston features some of the most inspired songwriting in the band's history. It also marks the return of Paul Souza, and with him the top-notch quality of the vocals. His more melodic voice has a good range and displays the much needed grit and aggression, perfectly fitting and complementing the music. Enough can't be said about the guitars - there's so much riff goodness here that it could serve several albums! Overall it's a more riff-driven and heavy album with less clean and acoustic guitar parts, but subsequent listens... will reveal the intricacy of the compositions. The duo of Anthony Nichols and Jim Koury laid down some serious guitar work here, and the hard-hitting drums sound mighty powerful. All this is rounded off with flawless production - very clear, distinct and heavy at the same time. Without trying to sound retro, "Idol Hands" packs the same intensity as the band's classic albums! For Fans of METALLICA, METAL CHURCH, WARGASM, XENTRIX, FLOTSAM AND JETSAM, HERETIC and TESTAMENT.

In 1989, four high school friends from Orlando, FL came together to form a band, based on their mutual love of melodic metal acts such as Iron Maiden, Queensryche & Fates Warning. After years of Friday night practices in the living room of guitarist Chuck McMenamin parents, the band had a cache of original songs ready to go. With lyrics penned by guitarist Dave Borkman and drummer Bryan Shultz, blazing riffs from Bryan, Dave and Chuck and pounding bass laid down by Chris Bongiovanni, they set out looking for a vocalist by placing an ad in Orlando's JAM magazine. The call was answered by Sterling Walker, and they moved out of the living room and into a warehouse to begin perfecting their sound with their new vocalist.

1991 Mind's Eye were released 500 copies of "The Witching Hour" Demo tape and when the first run sold out quickly enough that another 500 cassettes had been placed by year's end.

NUPRAPTOR - The Heresiarch (NEW*LIM.500*US EPIC DOOM METAL*S.AETURNUS*A.KODEX) - 13 €

Shadow Kingdom Records 2017 – Limited Edition of 500 copies ! Comes with an 8-page booklet

For Fans of Solitude Aeturnus, Atlantean Kodex, Saint Vitus, Candlemass, Count Raven, and Warning

NUPRAPTOR, The Heresiarch. Curiously named, NUPRAPTOR is the solo project of White Hornet mastermind Matt St. Ours, who's been itching to record some pure 'n' powerful doom metal for a while now. And that's exactly what you get with The Heresiarch: the purest DOOM, powerful as it comes, downtrodden and desolate to the bitter end.

Hailing the old European gods of traditional doom, NUPRAPTOR crafts seven slumbering beasts of majestic misery within a mystical continuum of 51 minutes, starting with a "Black Mass" and on "Through the Smoke" before "Burning the Believers" "Before the Eyes of God," and at last "Wasting Away" before "The Fall of Christ." Verily, St. Ours crafts music for the grave and the graveyard, his haunting vocals heralding the onset of long nights wrapped in the fog's embrace, languorous and lonely. Or, more accurately, you simply cannot craft doom metal of such a beautifully barren hue without having LIVED it - and dying for it. Behold The Heresiarch, for it has arrived as NUPRAPTOR!

PROFESSOR BLACK - You Bastard! (NEW*US METAL*HIGH SPIRITS*NIGHT DEMON*WASP) - 11 €

Ekstro Records 2018 - The debut EP from PROFESSOR BLACK is a six-song slammer of heavy metal rock and roll entitled You Bastard! This is High Spirits with a shot more Metal !

You Bastard! EP showcases exactly that in the form six cuts, pulled to life as if from early to mid-80s. Muscular and naive (When the Devil Walks Again), catchy and anthemic like Manowar (Last Call) or old WASP (Stuck in the USA), the songs on the EP make me reach out for the dusty air guitar, so that I can follow these simple, straightforward and absolutely infectious hooks.

These songs had been iced for a while, but now, as they say, it's out of the freezer and into the fryer! Recorded in 2017, You Bastard! uniquely connects Chris ProfessorBlack's grim past fronting SUPERCHRIST to his unknown future as a solo act.

But far more provocative are the pounding drums, blazing guitars, and skyscraper-choruses, all recorded by Mr. Black himself and mixed by longtime colleague Sanford Parker.

The core of the group, singer DALE LEE, guitarist KEVIN DEVER and the drummer only known as ANIMAL, formed a band in Erie, Pennsylvania called SPEEDQUEEN. With this band, they toured the East Coast and Canada. After a considerable number of performances, the band members decided they wanted to be more visual and theatrical so as to give full value to their audience. Hence, the SNOW MEN were born, with a full blown stage production including state of the arts special effects and the Snowmen's outlandish makeup and costuming.

SOLDIER - Babylon & Beyond DCD (NEW*LIM.500*US WHITE METAL*MALACHIA*ETERNAL RYTE) - 21 €

Roxx Records 2018 - Limited Edition DCD - US White Metal - complete recording history of one of the Bay area's finest Christian metal bands of the late 80's SOLDIER ! 30th Anniversary in 2018!

For Fans of Malachia, Eternal Ryte, Holy Soldier, Queensryche

This album and band should have been WAY bigger in our humble opinion, Alas, like many very talented bands of that era (Malachia and Eternal Ryte come to mind) they somehow got lost in the shuffle or over looked by the major labels of the day pushing and promoting Christian metal.

The disc will be limited to a one time pressing of 500 pieces. Disc 1 will contain the entire Babylon album, the Louder Than Hell demo and end with the two tracks from California Metal II. Disc II will include 4 previously unreleased tracks that the world has never heard before! These special 4 tracks were recorded in 1992, when the band would go in to the studio and record a 4 track demo after the interest of a record label prompted this reunion. These tracks were ultimately shelved since they were recorded and are being released from the bands personal archives for the first time ever! Also on disc 2 there will be an entire live show recorded by the band that has also been in the bands archive and never heard before. This show was recorded live at the HIS I Festival in Riverside California, and was somewhat unofficially dubbed 'The Mormon Show' (You'll have to hear the show for yourself to understand why!). Ending the CD is one more long last track entitled 'Call My Name that was recorded live and rarely played and was never officially recorded in the studio.

We are very excited to bring you not just Babylon, but the bands entire recording catalog back to life on CD and vinyl for the very first time! Babylon was originally released on cassette tape only and 5000 of those were pressed back then! Before Babylon the band would also release another demo on cassette tape only entitled Louder Than Hell with only 1000 copies of this one being pressed, both are impossible to find these days. After those two releases the band would get to go in to the studio and work with acclaimed producers, John and Dino Elefante, where they would work on and record two tracks that would be released on the compilation California Metal II. This would mark what would be the last recordings the world would see from Soldier, until now!

Roxx Records will be releasing Babylon & Beyond the 30th Anniversary release of Soldier! This anthology style release will be a full jam packed release over 2 CD's with a full 16 page booklet loaded with band photos and archived images, with all new liner notes and commentary from lead guitarist Rick Martinez. The CD will also feature all new cover art designed by Jimmy Arceneaux, with 2 different covers for the CD and vinyl versions! Both being officially unveiled below for the first time!

SYE need no special introduction. They were formed in Toronto, Canada in the early 80's by the charismatic guitar player and singer Bernie Carlos and after releasing some demo tapes, they released their debut album in 1985 entitled "Turn on the Fire" and three years later the MAJESTIC follow up named "Wings of Change" that is definitely one of the most criminally underrated albums of all time, as it features frenzied power metal with razor sharp riffs and killer vocals.

Featuring a total of 10 (!) bonus songs coming from demo tapes of the band, all of them, previously unreleased.

Both CD reissues come with lyrics, photos and band story and the sound is bombastic as it was remastered at the highest quality.

No Remorse Records 2018 - Brandnew full length Debut from these NWOBHM Heros - Sounds like their 80's NWOBHM stuff and mixed with some FIFTH ANGEL (Melodies, Voice, Guitar Work)

Formed in the early '80s in UK, TRAITORS GATE are best known for their seminal EP "Devil Takes the High Road", a New Wave Of British Heavy Metal classic which was originally released in 1985 and is now considered as a collector's item.

After many live shows from 1984 to 1989 the band somehow ceased its activities. In response to a growing number of requests, TRAITORS GATE decided to reform in late 2016 in order to do a "one-off" reunion show at the Brofest 2017 event. However, requests to play other shows in Europe quickly followed, proving the band still had something to offer in the live arena.

After almost 30 years apart and with a renewed desire to deliver the goods once more, TRAITORS GATE are fired up to be returning to the live environment and also with brand new material. The future is definitely metalling up! The band independently released the "Only The Strong" EP in 2017 and on May 25th 2018 the first full-length album, "Fallen", will be unleashed by No Remorse Records, connecting the glorious past with the present and the future. The Devil Rides Again!

TROLL – Same (NEW*US EPIC DOOM METAL*PALLBEARER*PAGAN ALTAR*HOUR OF 13) - 13 €

Shadow Kingdom Records 2018 - Hailing from Portland, Oregon, TROLL released their first demo in 2015. Not long after came Troll, their debut album, which was originally self-released on cassette tape. Its original edition sold out quickly, and soon came to the attention of SHADOW KINGDOM. Duly impressed, the label simply had to release TROLL's album on wider-available physical formats and get the band the attention they so truly deserve.

For Fans of Pagan Altar, Pallbearer, Hour of 13

And even just one spin through Troll and you can immediately detect the magic coursing through TROLL's molten stomp. Reverently within the doom spectrum, there's a particularly swampy groove to their thundering chunder that's less like something rooted in the American South and more like primordial ooze that's been bubbling eerily since time immemorial. Likewise, TROLL largely steer clear of regular rock-rooted verse/chorus structures and instead build rolling, rumbling epics that nod to classic prog more often than not. But, let it be known that Troll has a wealth of hooks across its concise and fully satisfying 34-minute runtime - and much of that stems from frontman John, whose pipes have that hauntingly forlorn quality of Ozzy in his early '70s prime.

AGE OF TAURUS - The Colony Slain (LIM.BLACK VINYL*DOOM METAL/NWOBHM*TROUBLE*ANGEL WITCH) - 21 €

Rise Above Records 2018 - Limited Black Vinyl, Gatefold Cover + Insert ! Brandnew Album and again with a fantastic Mix of Doom (Candlemass, Trouble, Black Sabbath) and NWOBHM (Angel Witch, Satan) - Killer Album

Nearly five years on from the release of acclaimed debut Desperate Souls Of Tortured Times, singer/guitarist and conceptual mastermind Toby W. Wright is ready to unveil a new, ultra-dramatic chapter in the turbulent saga of the Taurean Empire. Showcasing a new line-up featuring new bassist Leo Smee (With The Dead/ex-Cathedral) alongside Wright, drummer Darius Claydon and most recent recruit, guitarist Daniel Knight, The Colony Slain is the sound of a great band reborn in heavy metal glory.

Formed in 2009, Age Of Taurus have already established themselves as a doggedly unique force within the modern world of doom. Ever the stubborn mavericks, they have once again conjured a collection of songs that defy lazy notions of doom metal as a one-dimensional creative cul-de-sac. Still rooted in the rumbling sonic bedrock of Trouble, Candlemass and Sabbath but increasingly steeped in the gritty swagger of the New Wave Of British Heavy Metal and in thrall to numerous left-field, progressive ideas, songs like fiery opener Taken To The Tower and the rampaging In Dream We Die show the languorous repetition of much modern doom in favour of subtly elaborate song structures that proudly salute the spirit of old school heavy metal. With nods to everything from radio-friendly hard rock to gritty crossover thrash, The Colony Slain is a flat-out celebration of the metal code

Such music needs to be heard on vinyl! Gates Of Hell edition has been specifically remastered for vinyl and includes a revamped layout by Annick Giroux, an A4 insert and a promotional band's photo as bonuses.

FINAL PROPHECY - Reawakening (NEW*LIM.150 BLACK V.*US WHITE THRASH METAL CLASSIC 1990-'92) - 30 €

Roxx Records 2018 - Killer Christian Thrash Metal release to melt your ears off this Summer! Welcome to the fold Florida's very own FINAL PROPHECY !!!!

FINAL PROPHECY 'RE-AWAKENING THE DEMO 1990-1992' which will be released on limited edition Roxx Underground Series and coming in at #9 in the series, this will be limited to only 150 hand numbered copies on black vinyl!

FINAL PROPHECY was formed in April of 1990 by former Thanatos (U.S.) / Therion (U.S.) guitarist Eric Hoffman in West Palm Beach, Florida, along with drummer James Silvestri as a five-piece. Rounding out the early line-up was bassist Kyle McKelvey, guitarist Pat Flynn (now a classical music professor at Bob Jones University in Greenville, SC) and vocalist Tim Williams. By August of that same year the band ended up as a trio with new bassist Nick Varhola entering the fold.

As a trio, FINAL PROPHECY would record and release two studio demo's, "HE SET THE CAPTIVES FREE" (1990) and "RUDE AWAKENING" (1991), as well as having played with such acts as Dauphin (formerly Revelation), Royal Anguish, Prophecy, Demented Jester, Fatal Sin, and Torn Flesh. After the release of their sophomore effort "RUDE AWAKENING", both James and Nick left to pursue other opportunities.

Though officially put to rest, one last FINAL PROPHECY demo was recorded for a planned 7" release on the A.R.T Records label, "THROUGH EYES OF FIRE" (1992). This session would go unreleased...until now.

We are very happy to announce FINAL PROPHECY 'RE-AWAKENING THE DEMO 1990-1992' which will be released on Limited Edition CD and also for a limited time on vinyl!!!! Continuing on with our limited edition Roxx Underground Series and coming in at #9 in the series, this will be limited to only 150 hand numbered copies on black vinyl.

HIGH REAPER - Same (NEW*LIM.350 BLACK V.*ORCHID*BLACK SABBATH*OZZY) - 18 €

Heavy Psych Sounds Records 2018 - Brandnew US Doom Metal /Heavy Rock Killer from Philadelphia and they are good as hell !

8 from 10 Points at Streetclip.tv by Ju Tschamler

For Fans of early Black Sabbath with Ozzy, Orchid, Count Raven

Formed in 2016, High Reaper is made up of Zach Thomas, Napz Mosley, Andrew Price, Pat Daly and Shane Trimble. Originally started as just a studio band, it rapidly became apparent that these songs were meant to be heard live and loud. The band made their debut in the Philly/DE stoner rock scene in early 2017 with success which was followed up by the recording of their self-titled debut in May. With a sound deeply rooted in modern stoner rock while still giving a nod to the earliest Sabbath records, High Reaper's first offering is driven by pounding rhythms, thick guitars and soaring, screeching vocals.

The sound of the record is running from uptempo straight ahead rock, to slowed down, heavy, early doom. With a rhythm section throwing down grooves that are deeper than the darkest abyss and guitars big enough to put a hole in your chest.

High Reaper is meant to be played loud and to be played often!!!

NY Metal band HITTMAN with their classic debut, self titled album on the eve of the 30th anniversary of it's release in 1988 (originally on SPV/Steamhammer Records).

For Fans of Solitude Aeternus, Atlantean Kodex, Saint Vitus, Candlemass, Count Raven, and Warning

NUPRAPTOR, The Heresiarch. Curiously named, NUPRAPTOR is the solo project of White Hornet mastermind Matt St. Ours, who's been itching to record some pure 'n' powerful doom metal for a while now. And that's exactly what you get with The Heresiarch: the purest DOOM, powerful as it comes, downtrodden and desolate to the bitter end.

Hailing the old European gods of traditional doom, NUPRAPTOR crafts seven slumbering beasts of majestic misery within a mystical continuum of 51 minutes, starting with a "Black Mass" and on "Through the Smoke" before "Burning the Believers" "Before the Eyes of God," and at last "Wasting Away" before "The Fall of Christ." Verily, St. Ours crafts music for the grave and the graveyard, his haunting vocals heralding the onset of long nights wrapped in the fog's embrace, languorous and lonely. Or, more accurately, you simply cannot craft doom metal of such a beautifully barren hue without having LIVED it - and dying for it. Behold The Heresiarch, for it has arrived as NUPRAPTOR!

The essential elements are self-evident in the Old Season sound: twin guitar harmony in riffage and leads, a solid rhythm section to deliver groove and pacing, and clean melodic vocals and harmonious vocal arrangements, with these things wrapped up in an abundance of melody.

Put together, in many arrangements, Old Season has a true depth and breadth for that epic heavy metal sound

Salem is a heavy metal band hailing from Hull, England. They were formed in 1979 following the split of the new wave of British heavy metal band Ethel The Frog. The album was recorded at Hairy Monster Studios in Hull. Developing from the up-beat theme of "Forgotten Dreams" (2013) and the more reflective mood of "Dark Days" (2016), lead guitarist Paul Macnamara described the third studio as a little "edgier", but with the same Salem heavy and melodic approach.

SEVENTH ANGEL – The Torment (NEW*LIM.300 ORANGE V.*UK WHITE TRHASH METAL CLASSIC) - 26 €

Retroactive Records 2018 - Brandnew Legends Remastered on limited Orange Vinyl – 300 copies w full color jacket and inserts w lyrics, band pics

Early 90's Seventh Angel is a U.K. thrash band that wedded speed metal with doom and gloom and the irresistible vocals of elite frontman, Ian Arkley.

The iconic debut, *The Torment*, offers emotion-packed songs with lyrics that promise eternal suffering to the unrepentant ("Tormented Forever") while "Expletive Deleted" encourages Christians to cleanup their language. Originally released on The Edge Music/Kingsway Music in the U.K., the album found its way to the U.S. through Pure Metal Records in 1990. *The Torment* offers high quality thrash that rivaled anything in the mainstream or Christian markets. Seventh Angel's debut masters the art of big, thick, crunchy guitars with doomy thrash vocals. Considering the quality of the album, and the unique sound of Seventh Angel, it didn't take long for the band to garner a large and loyal fan base. Seventh Angel produced some serious magic on this album, contacting some dark, artistic thrash metal that floored metalheads with the band's ability to wrap a clever melody in a tasty wall of distortion!

The album would eventually make the HM Magazine Top 100 Metal Albums of All Time at number 51. And, of course the brilliant cover art was created by famed British fantasy artist, Rodney Matthews. The 2018 Retroactive Records reissues have been digitally remastered by Rob Colwell at Bombworks Sound and with full band approval.

For fans of Sabbath, Trouble, Vengeance Rising, Believer, Detritus, Deliverance, Metallica, and Exodus.

SEVENTH ANGEL – Lament for the Weary (NEW*LIM.300 DLP BLUE V.*UK THRASH METAL CLASSIC) - 30 €

Retroactive Records 2018 – Limited Edition of 300 copies DLP in Blue Vinyl

Only one year after their groundbreaking debut release, Seventh Angel unleashed this 1991 thrash metal masterpiece upon a very unsuspecting world. As the album title indicates, *Lament For the Weary* is a concept album which lyrically focuses on how we deal with lifelong depression and pain. "No Longer a Child" offers God's words of consolation: "My little child, I see your pain / I cry with you / every tear you weep - weep with you." Haunting musically and lyrically, don't be surprised when *Lament For the Weary* sends chills down your spine! Rarely does a thrash metal band hit the bullseye so squarely. And rarely is a band able to augment full-on shredding with mellow, subtle moments the way Seventh Angel triumphs on *Lament*.

UK magazine *Cross Rhythms* wrote in 1992 that *Lament for the Weary* was "superior thrash". The *Whipping Post* Matt Morrow states that *Lament for the Weary* belongs to one of the very best albums of heavy metal music in general and that the album is "a classic in every sense of the word."

On the Christian Metal Realm's Top 100 Christian Metal Albums Seventh Angel--*Lament For The Weary* was voted #68 by fans!

Fan online reviews regularly hail *Lament* as "one of the best thrash metal albums of all time!" They are not wrong!

Again, featuring the epic artwork of Rodney Matthews the band reached for aural and visual perfection with their second album and definitively made it.

The 2018 Retroactive Records reissues have been digitally remastered by Rob Colwell at Bombworks Sound and with full band approval.

The Double Vinyl reissue is Blue Vinyl with a full color jacket and insert. After being reissued several times, we can say definitively the album has never looked or sounded better!

For fans of Sabbath, Trouble, Vengeance Rising, Believer, Detritus, Deliverance, Metallica, and Exodus.

SEVENTH ANGEL – The Dust of Years (NEW*LIM.300 DLP RED VINYL*UK THRASH METAL CLASSIC) - 28 €

Retroactive Records 2018 – Limited Edition of 300 copies DLP in RED Vinyl

2009 was the year British thrash legends Seventh Angel returned with their first full length album in 18 years. Seventh Angel stormed onto the scene in the late 80's and blessed the UK thrash circuit with several demos before being signed and bringing the world thrash classic *The Torment* and the thrash / doom meld of *Lament for the Weary*. After multiple international tours and great album sales worldwide, the band hung it up at the end of 1992, and each of the members went their separate ways. Frontman and guitarist Ian Arkley has played in a number of bands since, the most well known being Bombworks Records band, *My Silent Wake*. Joining him are Simon Bibby and Mark Broomhead (*Firefly*, *Detritus*) and Tank on drums. Rather than writing a rehash of older material like many bands who reunite tend to do, Seventh Angel boldly tread new ground, delivering an album that still hearkens back to the classic Seventh Angel sound while drawing influences from each of the members current projects to create a brilliant soundscape that mixes thrash, doom, and a little death along with some killer haunting melodies. Ian's trademark snarls are at the forefront, but they are joined by clean vocals dominated by minor harmonics that give the music an even more somber and dark sound. The guitar lines include crushing riffs, killer melodies, and well-placed solos. The drums range from slow and gloomy to bombastic and in-your-face.

The Dust of Years features 9 tracks of molten hot metallic lava clocking in at approximately an hour, and they are sure to whet any true metal fan's appetite. Current fans of Seventh Angel will be thrilled, and all fans of bands like Celtic Frost (especially Monotheist era), Believer, Vengeance Rising, Candlemass, *My Dying Bride*, and thrash, doom, and death metal will delight in this brilliant slab of the most creative metal on the planet!

The 2018 Retroactive Records reissue has been digitally remastered by Rob Colwell at Bombworks Sound and with full band approval. The Double Vinyl reissue is Red Vinyl with a full color jacket and insert. This will be one of your greatest METAL treasures!

A special 7th anniversary to an album recorded completely by one man, one man who was a driving force in one of Australia's most historic death metal bands Mortification for many years before venturing on his own to create this true thrash / death metal masterpiece, the man Mick Jelinic, and the band is his very own side project Terraphobia.

While Terraphobia can date back all the way to 1985, it was not until 2011 when the very first full length album EVILUTION would be released, which makes it seven years old this year. Released to critical acclaim this album featured every instrument actually being played and recorded by Mick himself, and he created a masterpiece in the process that is now out of print!

Completely remastered by Rob Colwell of Bombworks Sound for vinyl! With artwork, layout and design being handled by Scott Waters from No Life Til Metal Graphics and Design.

So Join us as we celebrate this very special 7th Anniversary of a classic thrash and death metal masterpiece and rediscover this amazing piece of Christian metal history.

The glory of American hard rock has returned with the new album by THE GOLDEN GRASS! This Brooklyn-based power-trio is the real deal, and their LP harkens back to the golden age when heavy rock music was upbeat, skillfully played, energetic, edgy, and bursting with goodtime sunshine vibes. And throughout their progressive arrangements and timeless grooves are lush and powerfully delivered vocals, stacked with gorgeous harmonies and maddeningly catchy verses and choruses singing the tales of real-life loves, losses, and the drive to keep on keepin' on!

An eight-track sonic adventure steeped in psychedelic flavored blues riffs, the mind-warping fantasy of early progressive/jazz rock, a pulsating British freakbeat/mod sound, heavy doses of proto-metal power, funk, soul, and a southern rock edge, "Absolutely" is undoubtedly the band's strongest, most accomplished offering to date.

THE GOLDEN GRASS transport you to a place and time in the 70s musical golden era !

VORBID - Mind (NEW*LIM.BLACK VINYL*TECH THRASH METAL*TERRIFIER*VEKTOR) - 19 €

Indie Recordings 2018 - Limited black vinyl, The fresh and upcoming Thrash pioneers of Norway!

For fans of breakneck-thrash like Kreator, Vektor and Terrifier!

Vorbid is a fresh and incredibly energetic progressive thrash metal band from Arendal, Norway. The band fills a quartet with the members Michael Briggs, Daniel Emanuelsen, Marcus Gullovson and Jonas Tellefsen. The album cover hints towards the conceptual theme of the record – with 5 different figures representing the 5 tracks. However, despite the small number of tracks on the album, it still runs up to 50 minutes long! Vorbid was founded in 2013, and has since then had a rapid and intense growth into a quite unique style of thrash metal. They mix the riffs and the intensity from the thrash genre with the techniques and melodies from the progressive rock genre. Since their start, they have won multiple contests, like 4th place in GBOB world finale (Global Battle of the Bands), Massive destruction, Rytmisk Fabrik and the Norwegian finals in the Wacken Metal Battle as well as Bloodstock's Metal 2 the Masses.

Pagan Altar are one of the originators of doomy NWOBHM, mixing their 70's influences into occult-tinged heavy metal. Alongside bands like Witchfinder General and Legend, their very own unique breed of mystical doom metal was unfortunately sunk into obscurity after no interest were shown from labels. Despite that, the timelessness of their music ultimately prevailed as doom-obsessed fanatics kept Pagan Altar's music alive over two and a half decades by trading their self-titled demo cassette and even bootlegging it. After receiving so much interest from the underground scene, the original master tapes were re-released in 1998 and re-christened Volume 1. The band then reformed in 2004 and released two albums of re-recorded materials - namely -Lords of Hypocrisy- and -Mythical and Magical-. These two records proved to be the best and most exciting releases of the genre, and brought the band to international attention.

They have since played numerous shows, traveling ashore to Canada and the United States, as well as everywhere in Europe. The songs for the long awaited -The Room of Shadows- were originally written back in 2004-2005, and the album was set to be released as -Never Quite Dead- in 2014? until the tragic passing of their beloved frontman Terry Jones, who had been bravely battling cancer for a year prior. The album will thus be released in homage to this true gentleman, who was well loved by his treasured family and fans. Having being heavily postponed for various reasons, the recordings of this album were completely re-done with Alan Jones on guitar, and former Pagan Altar members Diccon Harper on bass and Andy Green on drums. -The Room of Shadows- picks up where -Mystical and Magical- left, and admirers of their previous works will be pleased to hear that this album is just as timeless, with its epic riffs and enchanting, poetic macabre lyrics of olde, plunging the album in an aura of somber allure. The Room of Shadows will be their fourth and final album but their legacy is sure to reverberate for eternity.

DEAF FOREVER #23 (NEW*GER MAG*SOLSTICE*NECROS CHRISTOS+Poster:VISIGOTH/BOLT THROWER) - 7 €

Brothers of Metal, Maidens of Steel! Unsere Titelhelden Solstice haben einst mit 'New Dark Age' das wichtigste Epic-Metal-Album der Neunziger veröffentlicht. Wer seitdem 20 Jahre für einen neuen Longplayer braucht, hat sich entweder zwischendurch aufgelöst - oder arbeitet besonders akribisch an neuer Musik. Auf die Kings der Epic-Metal-Szene trifft natürlich Letzteres zu: 'White Horse Hill' ist der erwartete, alles überragende Volltreffer geworden! Drei vollständige Alben in einem, drei CDs, drei Vinyl-LPs - das hat es im Death Metal noch nie gegeben. Die Berliner Necros Christos waren immer schon eine ganz besonders eigenwillige Band, aber mit 'Domedon Doxomedon' betreten sie tatsächlich vollkommenes Neuland.

Klassiker-Alarm! Neben Solstice und Necros Christos übertreffen auch die Black-Metaller Ascension sämtliche Erwartungen mit einem höchst originellen, äußerst musikalischen, aber auch wahrhaft bedrohlichen Album, das für Gesprächsstoff sorgen wird - nicht nur, weil sich die Band damit neu erfunden hat. Achtung, an dieser Stelle geht's ausnahmsweise mal um grottenschlechte Musik! Unser neues - zweigeteiltes - Special hat bei der Vorbereitung besonders viel Spaß gemacht: Was sind die größten Verfehlungen der Metal- und Hardrock-Szene? Fragt man 20 Leute, bekommt man 20 verschiedene Antworten - aber in einigen Fällen sind wir uns dann doch sehr schnell einig geworden.

Von einem Nixkönner wie Angelo Sasso zu einem Alleskönner namens Rory Gallagher: Rockgeschichtsunterricht mit Manuel Trummer, Folge 264. Diesmal widmet sich Professor T. diesem ganz besonderen Gitarristen, der bereits zu Lebzeiten sträflich unterbewertet war: Irlands ganzer Stolz in puncto Bluesrock ist für viele immer noch ein relativ unbeschriebenes Blatt. Skandal! Jutta Weinhold zählt zu den größten Rocksängerinnen, die Deutschland je hervorgebracht hat, auch wenn sie in Metal-Kreisen oft auf eine Band reduziert wird, deren Namen sie nicht mehr benutzen darf: Zed Yago. Mit Velvet Viper und ihrem neuen Album knüpft Jutta inhaltlich aber genau dort an. Chris Goss hat sowohl als Produzent als auch als Bandleader von Masters Of Reality Musikgeschichte geschrieben. Wir spürten den sympathischen Glatzkopf in der kalifornischen Wüste auf. Weitere Interviews haben wir geführt mit: Bullet, Riot V, Seax, Axel Rudi Pell, Gatekeeper, Monument, Memoriam, Burning Witches, Shadowkeep, Crescent, Saviour Machine, Sacred Leather, Antlers, Demonical, Crone, Jaded Hart und Pripjat. Unsere Dunkelkammer namens Under A Funeral Moon bietet euch diesmal u.a. ein exklusives Interview mit der Black-Metal-Legende Abigor. Unsere beliebten Rubriken The Dungeons Are Calling, Maniac der Ausgabe und Forgotten Jewels liefern euch wieder Freaks, Tipps und Talente.

Außerdem warten wir mit einer neuen Folge unseres Specials über Coverkünstler 'Arts Of Destruction' auf.

Zu den Schwerpunkten unserer Konzert- und Festivalrückblicke zählen u.a. Hell Over Hammaburg und Metal Assault. Natürlich gibt's ein ganzes Universum voll an Tonträger-Reviews, und zwei Wohnstube-taugliche Poster spendieren wir euch ebenfalls: die US-Metaller Visigoth in voller Live-Pracht sowie Bolt Throwers 'The IVth Crusade'.
