Skol Records 2018 - Brandnew Limited Edition of 500 copies !

If you are serious about heavy metal, then you know what New Wave Of British Heavy Metal - commonly abbreviated as "NWOBHM" - is all about more than well. The movement that started in the United Kingdom at the end of the '70s, achieved its peak in the early '80s, but let's be honest, it's something that can't be stopped, tamed or limited. Yes, more than 3 decades later and NWOBHM is doing well. Maybe even better than ever!

The album includes covers of such legendary acts as DIAMOND HEAD, SAXON and RAVEN, but also interesting renditions of songs originally recorded by the underground heroes such as WITCHFINDER GENERAL, TYTAN, SAVAGE, SATANIC RITES, PERSIAN RISK, HOLOCAUST, TREDEGAR and BLACK AXE. What's even more interesting, the covers are performed by legendary acts such as AVENGER - who are one of the original NWOBHM acts, WITCH CROSS, who invited the original SAXON guitarist Graham Oliver to join them, or MARTYR and TWISTED TOWER DIRE, and some of the most interesting young heavy metal acts, including ENFORCER, CAULDRON, HELVETETS PORT, GATEKEEPER, IRONFLAME, HITTEN, SUBSTRATUM and SAVAGE MASTER.

Shadow Kingdom Records 2018 - Fantastic Doom Metal with a lot of NWOBHM influences !

For Fans of Manilla Road, Angel Witch, The Lamp of Thoth, Saint Vitus, The Gates of Slumber

Arguably the band's magnum opus, Excalibur is an epic behemoth of Arthurian legend, emitting an atmosphere that's truly medieval whilst sacrificing none of their trademark DOOMED-OUT heaviness. Here, across the album's massive yet strangely concise 48 minutes, Iron Void weave old-as-time tales of myth and magic, all set to rumbling, dramatically dynamic doom metal. The album is sequenced together with a subtle sort of mastery, taking the listener on a journey into centuries past, all concluding with the stark 'n' stirring acoustic closer "Avalon." As the final notes ring out, you'll be reaching for the calendar to check what year it is!

High fantasy in doom didn't die out with the much-beloved The Gates Of Slumber; it's simply been revived by IRON VOID with Excalibur. Long may their reign continue!

For Fans of Fates Warning (Inside Out, Parallels era), Psychotic Waltz, Time Machine, Crimson Glory, Heir Apparent, Power Of Omens , Eternity X , Zero Hour, Queensryche, Enchanter The new 6th Studio studio album from Leviathan: released 2018 Stonefellowship Recordings.

2018 is a new year that will see the release of the strongest material and heaviest sound in decades. For this record, John wanted to get back to the sound Leviathan had at the end of the 90's. The only way to achieve that goal would be to have powerful drums. John was honored to work with his all time favorite drummer, Mark Zonder. Mark played drums on all six tracks.

The departure of Jeff Ward left a very difficult role to be filled. John looked all around the world to find a vocalist that could step up and bring something new to the band. Raphael Gazal from Sao Paulo, Brazil was hired to record the lead vocals for the album. To handle the mixing and mastering tasks on this new album, John found a great local studio in the beautiful mountains of Colorado called Evergroove.

Sepulchral Voice Records 2018 - Brandnew 3 CDs in individual cardboard sleeves / 24page booklet / box The time has come and therefore has the end to be.

9,5 from 10 Points by Götz Kühnemund / Deaf Forever

8,5 from 10 Points by Boris Kaiser / Rock Hard

The final NECROS CHRISTOS album entitled Domedon Doxomedon will surely cut a swath of destruction through the world of today's Heavy Metal scene. Operating totally against the modern zeitgeist of music with all its easy listening and fake productions, this record will become a fist in the face for those searching for light entertainment. Being a triple CD and LP album with an overall playing time of 112 minutes, the record builds a monumental cathedral in its own. While the groups' second and monolithic output Doom of the Occult appeared like a classical oratorio with its lengthy proportions, this magnum opus will be of biblical dimensions, a funeral mass of unseen yet unheard reverberations. Alongside the numerous musical interludes named temples and gates, for which the band is known for, the actual nine Metal songs defy any exegesis.

Epic yet utmost angry, brutal yet extravagantly dark, if your soul survives a complete listening of mind ? blowing tracks such as Seven Altars Burn in Sin or The Heart of King Solomon in Sorcery without being dragged into the abysmal regions of hell, your senses will be left in disbelief. From the unusual, mind demanding opener I Am Christ until the final, musical ennead called In Meditation on the Death of Christ, the album functions as a gateway to truly divine spheres. Gaining inspirations from such untouchable sources as MORBID ANGEL, CANDLEMASS or even METALLICA intertwined with NECROS CHRISTOS' very own kind of atmosphere and brand of composing songs, Domedon Doxomedon shall be their grandiose testament. The legacy of a band, which never bowed before any trends, never compromised in their music nor did they ever walk the easy way. Dom. Doxom. has to be heard to be believed and the earth will tremble. Endtyme Death Metal shall unfold. Forevermore. Amen.

Praying Mantis are pleased to announce their 11th studio album, "GRAVITY"! After the positively warm reception to the band's last studio album, 'Legacy' (2015), the new album sees the band returning with an inspired, take-no-prisoners set!

There is a unique type of heavy metal fan that is few, but they are some of the most dedicated of fans. They are those who have an overwhelming appreciation for the most obscure releases from small circuit bands. These releases often all DIY in recording, packaging, distribution, and promotion that would over time come to have a certain charm. And to those fans of circuit bands, the charm is all the appeal. Here is one such band who released an album for such fans on CD for the very first time.

Little is known about the short-lived STRYKER. The band was formed in Fort Meyers, Florida sometime in the early 1980s with members Steve Maitland (lead guitar), Larry Farmer (rhythm guitar), Jerry Young (bass), Lynn Baker (drums), and vocalist credited only as Sarah. They would manage to only release one self-released eight-song album in their short run.

ALMS - Act One (NEW*LIM.400 PURPLE/SILVER V.*US HEAVY/DOOM METAL*THE OBSESSED) – 18 €

Shadow Kingdom Records 2018 - Limited Edition of 400 copies only in purple/ silver marbled vinyl + Poster
Hailing from Baltimore, ALMS honors Maryland's rich heritage of doom metal with a swaggering, soulful sound that unselfconsciously spans decades and idioms. Their made their first, grand steps with a two-song demo released at the beginning of 2017. Having already made waves in their local scene, this demo would soon spread like wildfire amongst doom fanatics, and soon the ALMS name was on many a tongue. But alas, with the full-length Alms, that name will be on tongues worldwide.
For Fans of The Obsessed, Saint Vitus, Deep Purple, Uriah Heep

It's that eternal fire of the greatest rock music, especially in that pre-metal era of the 1970s, where fire and brimstone often coursed through rock 'n' roll, but near-equally pays homage to the heavy developments at the turn of the '80s. But all of this would be for naught if Alms didn't have the songs to back it up, and indeed does Act One have SONGS.

ANGEL OF DAMNATION - Heathen Witchcraft (NEW*LIM.100 BLACK V.*CROSS VAULT*NOCTURNAL) – 18 €

Shadow Kingdom Records 2018 - Limited 100 Black Vinyl + Insert ! Traditional Doom Metal with Members of Nocturnal, Cross Vault + Dawn of Winter !

ANGEL OF DAMNATION specialize in witching classic-style doom. Perhaps not surprisingly, it all comes courtesy of a quartet of underground diehards, including FRONT BEAST mainman Avenger on guitar, the rhythm section of Cross Vault (drummer Skullsplitter and Avenger also play in longtime cult faves Nocturnal), and prolific vocalist Gerrit Mutz (Sacred Steel, Battleroar, Dawn of Winter) under the ever-apt handle Doomcult Messiah. Together, they created the cult debut Carnal Philosophy, released in 2011. Those who had the opportunity to hear it thrilled to the aeons-old metal magick across its concise-yet-expansive 37 minutes. But now, with Heathen Witchcraft, ANGEL OF DAMNATION have perfected their style in a most haunting manner.

Like some lost relic of the NWOBHM, on Heathen Witchcraft, true to its title, ANGEL OF DAMNATION purge the witchfinder generals and celebrate the old-world splendor of medieval witchery. And compared to the no-less-considerable debut, on LP#2 do they create even longer and more enveloping epics which both firmly establish a fog-choked atmosphere and dispense with time-honored metal classicism. Of course, the album begins most spookily, hitting a fever pitch of harrowing horror on the title track, and then successively builds into (and finishes) with moody, galloping hard-chargers like "Lord of the Seven Churches" and "Tear Off the Veil of the Sun." Through it all, Doomcult Messiah is in top form, seemingly narrating these dark events in realtime.

ANGEL OF DAMNATION has arrived, and they bring you Heathen Witchcraft - try escaping its spell!

Hailing from Calgary, Alberta in Canada, BREAKER were among the most exciting heavy metal bands of the early 80's with a legendary status, mainly due to their underground classic masterpiece, "In Days of Heavy Metal", a 4-song EP released in a few copies, that nowadays has become some kind of holy grail for the U.S. / Canadian metal collectors around the globe. But unlike other sought after bands of the early 80's, BREAKER were delivering the goods and their music on their unique release ever (in 1982) is nothing more and nothing less than straight forward heavy metal with great vocals, super tight rhythm section and blistering guitars. Quite unusual for the metal releases of the time, the B-side of the album featured the same titled 14 minute epic, that easily stands among the top heavy metal anthems of all time, with its unpredictable arrangements.

Gates Of Hell Records - Brandnew Limited Edition in black vinyl, ltd 500 + Insert !

Coronary (FIN) for Fans of Torch, Accept

Traveler (CAN) for Fans of Gatekeeper, Deaf Dealer, Iron Maiden

Never underestimate the power of a good demo tape. Ever since Metallica brandished their legendary No Life Til Leather demo in 1982, the metal scene has actively sought out new and emerging bands through this simple, but effective medium.

Even though the age of digital recordings and the convenience of the internet has removed some of the romanticism in creating and ultimately unearthing a hidden gem, the classic three-song demo tape lives on in 2018.

Case in point: Finland's Coronary and Canada's Traveler, who have combined their respective debut demos for a split release via Gates of Hell Records. Like any good split, this particular offering provides the best of both worlds when it comes to vintage, striking classic metal. Coronary, who formed in Tampere in 2017, when a pair of Finnish metal veterans, guitarist Aku "Herr Lederwurst" Kytölä and drummer Pate "Batvik" Vuorio, reconnected after bumping into each other at a local flea market, strike first with their German-influenced, unvarnished take on freewheeling 80s metal. Flashy and spiraling leads emerge from every corner, while the dirty, rough-and-tumble vocals of Olli "The True Herman" Kärki, emerges as the necessary bridge between the bands notable German/Euro influences that bringing back to mind bands like Accept or Torch and early 80s melodic American metal leanings. The 2017 creation of guitarist, bassist and primary songwriter Matt Ries, Traveler is rounded out by Gatekeeper vocalist Jean-Pierre Abboud and drummer Chad Vallier. The bands contributions to the split are marked by an up-tempo, almost relentless style of ground-and-pound metal, reminiscent of the best of Deaf Dealer and 80s Canadian classics going toe-to-toe with Iron Maiden.

And, much in the same way he fits Gatekeeper like a glove, Abboud proves to be just as good of a fit in Traveler, becoming the perfect offset to Riess penchant for quick, rifling twin-guitar harmonies. This split offers just a mere glimpse of whats ahead from Coronary and Traveler. For now, relish and savor the sounds of two new, but very timeless metal bands.

DESOLATION ANGELS - King (NEW*UK LIM.BLACK VINYL*NWOBHM COMEBACK*BRITISH STEEL) – 19 €

Back On Black Records 2018 - Limited Édition on black vinyl, gatefold cover, Old warriors never die. They just wait for the perfect moment to storm the walls all over again! One of the most keenly anticipated returns in living memory, A blistering tour-de-force of everything that made the band so electrifying first time round, bolstered by a fat dose of contemporary belligerence, its the kind of unrelenting heavy metal blitzkrieg that promises to increase national neck-brace manufacture tenfold. Make no mistake, Desolation Angels are back and hell-bent on conquering all. Comeback Abum from this NWOBHM - Heroes ! And ? You will get what you expect and that's pure NWOBHM incl. vocalist Paul Taylor (ex Elixir)!

Musically, this release will be exactly what fans will have been hoping for: layers of riffs, pounding rhythms and melodies that will stay in your head long after the album has finished. DROID - Terrestrial Mutations (LIM.400 DLP COLORED V.*CAN TECH/THRASH METAL*VOIVOD*VEKTOR) – 22 €

Shadow Kingdom Records 2018 - Brandnew Vinyl Edition of this awesome Debut Album from these Tech/Thrash Metal warriors from Canada !
For Fans of VoiVod, Vektor, Realm, Watchtower
Limited double purple/ white blend vinyl, ltd 400, gatefold cover, lyric sheet!

With enviable ease and effortlessness, DROID create some of the catchiest tech-thrash you'll ever hear. The signposts of the subgenre are all accounted for across Terrestrial Mutations - twisting time signatures, palpating riff mutations, labyrinthine song lengths, and even that thinner style of production which highlights each player's performance - but unlike most tech-thrash, DROID create actual hooks that are both immediately memorable and infinitely challenging...and they create A TON of them across the album's 57-minute runtime. Sure, there's no shortage of dazzling/mind-boggling musicianship across Terrestrial Mutations (it comes with the territory), but this power-trio always puts the SONG first. As such, there's a certain spaciness - or, at least, a sense of space in terms of texture - to their alternately hummable/haunting hooks, an effect that's quite calming amidst all the technical trigonometry going on around them. Fittingly, the lyrical themes follow suit: "Abandoned Celestial State," "Mission Drift," "Suspended Animation," and of course, the album's title track among others. Additionally, while the production is more "airy" and sonic-sensitive, it's by no means any less powerful, ringing out richly with a sparkling sensation that simply serves to make DROID's mighty hooks that much more massive.

HIRAX - Born in the Streets 1983/1984 (NEW*LIM.400 BLACK V.*US SPEED METAL) – 19 €

F.O.A.D. Records 2018 - Brandnew black vinyl, booklet, Ltd 400, The roots of LA Metal! This is the ultimate collection of early HIRAX recordings on LP including their cult Demo 1984 in the best quality ever, unreleased tracks from the same era and the rare LA KAOS Demo 1983 for the first time on vinyl!

Instead of the savage thrashin' assault met on albums such as "Raging violence", these early HIRAX recordings are a pure incarnation of denim smelling and fast Heavy Metal, at times showing a NWOBHM influence. Every song is a riff-fest from beginning to end topped with fierce guitar solos and the absolutely amazing vocals of Katon. The 4 track Demo 1984 has been ripped and remastered from the best source around, then you'll find 3 unreleased songs 1983-84 ("To be free", "The saviour", "War hero") and the very hard to find LA KAOS (pre-Hirax) demotape ripped straight from Katon's personal copy!

And to complete the FOAD quality treatment, you'll also find a booklet including liner notes, lyrics, rare photos, 'zine excerpts and flyers! Katon W. De Pena about this release: "You hold in your hand something very special. This record / album is HIRAX's first time in the recording studio. This release also includes music from a pre-HIRAX era. We hope to give the listeners high quality with never before seen photos, lyrics, flyers, reviews, memorabilia, etc. We have to go back in time? the year was 1983? getting ready to turn over to 1984? (I was 20 years old) ?" (continued on the LP booklet!)

INFERNAL DEATH - 1989-1993 (NEW*LIM.375 BLACK V.*US DEATH METAL*MORBID SAINT*NECROVORE) – 21 €

Buried by Time and Dust Records 2018 - Brandnew Limited Edition in black vinyl, insert, Ltd 375

Totally CULT BLACK DEATH SICKNESS FROM TEXAS. LP WITH INSERT/UNSEEN PHOTOS/LYRICS AND FORWARD BY BAND

Forming in 1988 and taking their name from the legendary Scream Bloody Gore album, Infernal Death was an obscure Black/Thrash Metal band from Texas, of all places. Hailing from El Paso, this band had quite a following in their area.

They recorded and released their first demo in March 1989, titled Incantations of the Gates.

Sounding nothing like other American underground bands, such as Morbid Saint, Necrovore or Preacher, this had a demonic quality that hearkened back to the blackness of the ancients, such as Bathory, Sodom and Possessed.

IRON VOID - Excalibur (NEW*LIM.400 BLUE V.*DOOM METAL/NWOBHM*THE GATES OF SLUMBER) – 18 €

Shadow Kingdom Records 2018 - Limited Edition of 400 copies only in Blue vinyl + insert

Fantastic Doom Metal with a lot of NWOBHM influences !

For Fans of Manilla Road, Angel Witch, The Lamp of Thoth, Saint Vitus, The Gates of Slumber

Arguably the band's magnum opus, Excalibur is an epic behemoth of Arthurian legend, emitting an atmosphere that's truly medieval whilst sacrificing none of their trademark DOOMED-OUT heaviness. Here, across the album's massive yet strangely concise 48 minutes, Iron Void weave old-as-time tales of myth and magic, all set to rumbling, dramatically dynamic doom metal. The album is sequenced together with a subtle sort of mastery, taking the listener on a journey into centuries past, all concluding with the stark 'n' stirring acoustic closer "Avalon." As the final notes ring out, you'll be reaching for the calendar to check what year it is!

High fantasy in doom didn't die out with the much-beloved The Gates Of Slumber; it's simply been revived by IRON VOID with Excalibur. Long may their reign continue!

9,5 from 10 Points by Götz Kühnemund / Deaf Forever

8,5 from 10 Points by Boris Kaiser / Rock Hard

The final NECROS CHRISTOS album entitled Domedon Doxomedon will surely cut a swath of destruction through the world of today's Heavy Metal scene. Operating totally against the modern zeitgeist of music with all its easy listening and fake productions, this record will become a fist in the face for those searching for light entertainment. Being a triple CD and LP album with an overall playing time of 112 minutes, the record builds a monumental cathedral in its own. While the groups' second and monolithic output Doom of the Occult appeared like a classical oratorio with its lengthy proportions, this magnum opus will be of biblical dimensions, a funeral mass of unseen yet unheard reverberations. Alongside the numerous musical interludes named temples and gates, for which the band is known for, the actual nine Metal songs defy any exegesis.

Epic yet utmost angry, brutal yet extravagantly dark, if your soul survives a complete listening of mind ? blowing tracks such as Seven Altars Burn in Sin or The Heart of King Solomon in Sorcery without being dragged into the abysmal regions of hell, your senses will be left in disbelief. From the unusual, mind demanding opener I Am Christ until the final, musical ennead called In Meditation on the Death of Christ, the album functions as a gateway to truly divine spheres. Gaining inspirations from such untouchable sources as MORBID ANGEL, CANDLEMASS or even METALLICA intertwined with NECROS CHRISTOS' very own kind of atmosphere and brand of composing songs, Domedon Doxomedon shall be their grandiose testament. The legacy of a band, which never bowed before any trends, never compromised in their music nor did they ever walk the easy way. Dom. Doxom. has to be heard to be believed and the earth will tremble. Endtyme Death Metal shall unfold. Forevermore. Amen.

Praying Mantis are pleased to announce their 11th studio album, "GRAVITY"! After the positively warm reception to the band's last studio album, 'Legacy' (2015), the new album sees the band returning with an inspired, take-no-prisoners set!

It's everything you expect and love from the band: classic and catchy melodic hard rock, sometimes with some metal bite. Although, I felt that latter characteristic to be more dialed back this time around. Otherwise, you have the signature Praying Mantis trademarks: twin guitar harmony, fine feisty leads, toe-tapping rock groove from the rhythm section, and melodic and harmonious vocals.

STRIFE - Rush (NEW*LIM.100 BLACK V.*UK HEAVY ROCK 1975*BUDGIE*T.LIZZY*J.PRIEST*UFO) – 19 €

Shadow Kingdom Records 2018 - Limited Edition of 100 copies in Black Vinyl + Insert !

This is the 1975 debut album by the British band STRIFE, a seminal influence on IRON MAIDEN and a truly superlative, underrated act. Though active throughout the '70s, they might be most properly filed into the second renaissance of hard rock/heavy metal in the late mid-to-late part of that decade. At that time, their peers such as JUDAS PRIEST, UFO, BUDGIE, and THIN LIZZY were finally flourishing with material that was more modern and aggressive than what came before. Although unfortunately failing to capture the same success as such other bands, STRIFE were more than a match in quality. In particular, their sound was as unique and forward-thinking as any of those legends.

The album was released on the incredible Chrysalis Records, who put out UFO's "Force It" that same year. It was clear the label spared no expense on their new hard-hitting and progressive act, from the awesome studio production to the Hipgnosis-designed sleeve (that art collective having designed the covers to "Force It" and PINK FLOYD that year, and having designed covers for LED ZEPPELIN among many others previously). However, the strongest aspect of the album is the music itself, which truly belongs among the best of the age.

IRON MAIDEN fans need look no further than the second song "Man Of The Wilderness," which features an intro, tempo, and double-tracked harmonized guitars that sound like IRON MAIDEN's "Killers" LP. Songs like "Back Streets Of Heaven" and "Better Man Than I" kick with terrific speed and instrumental skill for their – or any – time. The album is varied, with epic British fantasy done incredibly well on the song "Indian Dream." However, I must above all mention the 12-minute closing title track, where the band truly demonstrates their progressive muscle while extolling the perils of living a fast-paced, modern life. The first two minutes of the song is where we truly believe IRON MAIDEN's song skeletons were born. The first two minutes of this song could be mistaken for IRON MAIDEN's world-famous "Phantom of the Opera." After that, the song takes many twists and turns and has some very cool SCORPIONS - "Lonesome Crow" -type vibes along with some BLACK SABBATH harmonica. This closing song belongs alongside such works as UFO's "Love To Love," SABBATH's "Megalomania," and LIZZY's "Roisin Dubh" in the firmament of hard rock epics. Metalheads and all rock fans will not be disappointed purchasing this fully band-authorized deluxe reissue produced directly from the source tapes, confident you will encounter a great and beautiful band that once ruled that holiest cradle of our genre and subculture: the UK club scene of the 1970s. The VINYL version will be identical musically to what was produced originally except for the enhanced sound. Both versions will have updated original artwork, but enhanced and redesigned more in line with how the band would have wanted it to look like originally.

STRIFE - Back to Thunder (NEW*LIM.100 BLACK V.*UK HEAVY ROCK 1978*BUDGIE*T.LIZZY*J.PRIEST*UFO) – 19 €

Shadow Kingdom Records 2018 - Limited Edition 100 copies in BLACK Vinyl + Insert !

This is the 1978 sophomore album by the terrific British hard rock band STRIFE, a seminal influence on IRON MAIDEN and many others. By this point, the band had shifted to the smaller Gull Records, which had released JUDAS PRIEST's first two albums only a few years earlier. Although conventional underground wisdom has always stressed their 1975 debut (likely because it was on Chrysalis), "Back To Thunder" is, in the opinion of many, at least as good - if not better!

The album improved on their debut on several fronts, not least of which is the stellar production: the guitar tone is nicely crunchy, especially for its time. The technical performance of all musicians in the band – always a high point with STRIFE – had progressed in the intervening three years, as well. Songs like "Shockproof" and "Feel So Good" hit the listener with high-energy riffing and skill right out of the gate; the band delivered rock here as good as any contemporary heavy UFO, NAZARETH, or BUDGIE work. However, STRIFE retained a great deal of their progressive tendencies, as well; special mention must go to "Let Me Down," a doomy break-up song as good as any similarly themed THIN LIZZY number. The bass performance on this record particularly shines, but I don't want to ruin any surprises. If you don't dig this, you just might be shockproof, with skin as thick as a brick. Crank It!

Metalheads and all rock fans will not be disappointed purchasing this fully band-authorized deluxe reissue produced directly from the source tapes, confident you will encounter a great and beautiful band that once ruled that holiest cradle of our genre and subculture: the UK club scene of the 1970s. They've been bargin' heads since the early 80s and they've earned every accolade that comes their way. You wanna talk heavy metal then ya gotta talk Thrust, who were one of the first metal bands in Chicago before later relocating to Los Angeles.

Best known for their contribution to the classic 'Teutonic Invasion' compilation with the speed metal masterpiece 'Terminal Breath', Xandril are widely considered one of the greatest 80's speed metal bands to never have released an album.

With Daffy on vocals, who rejoined the band again in 1988 for the 'Perfect Darkness' demo. And original drummer Christian. More hard rock'ish from a nowadays point of view, but for us that was already METAL!
