KARRIER was a classic heavy metal band from U.K. that back in the 80's released a killer studio album entitled "Way Beyond The Night". We were able to trace the original band members and guitar players of the band Chris Clowsley and Ian Hall and thanks to them we are able to re-introduce their '85 only studio album to today's metal audience. Keeping it simple, melodic twin guitar riffing, rather passionate display of soloing, iconic vocals and general vibe of good spirited Rock N' Roll, that what seemed to be KARRIER's name of the game up to 1986. "Way Beyond The Night" established hits such as the catchy riff "Running For Your Love", which sailed down the road of TYGERS OF THE PAN TANG, rocking opener "I'm Back" that screamed early SAXON, dramatic Hard Rock on the verge of Pop meets QUEEN "Too Many Years" and the haunting album clincher, "The Night / Way Beyond The Night" that kind of contributed to the band's subliminal obscurity.

Boize was a heavy metal/glam metal band from Montreal, Canada active from April of 1989 to June of 1993. The band recorded two demos in 1989 (both featuring the same 5 songs; once in their rehearsal space, then again at a professional studio) and then signed with the independent record label Imagination Records in the spring 1990. Imagination Records paid for the recording of Boize's debut full-length album at their own recording studio Cherry Production Studios but the album was shelved due to limit funds from the record label. After severing their contract with Imagination Records, Boize signed with Bill Hill Productions and released a promotional tape in 1991 (featuring a selection of songs from the shelved album completely re-mixed and partly re-recorded) to shop around to major record labels.

Boize then self-released an EP in 1992 through the band's own record label, U-Iliot Records. In mid-1992, Boize was on the verge of signing with major record label Aquarius Records (3) but their first vocalist quit the band. A second vocalist was recruited and the band demoed some

new material in studio but he too quit the band before the contracts could be signed with Aquarius Records. With a third vocalist in 1993, they reinvented their sound completely, which nearly brought the band to a breakup. Finally, with their fourth vocalist Boize decided to change name to Emissary in June of 1993.

DELIVERANCE - River Disturbance (NEW*LIM.500*US WHITE METAL 1994*REMASTERED) - 14 €

Retroactive Records 2018 - Brandnew CD 12 Page booklet with lyrics

Truly transcendent music is rare. Music that is incomparable, matchless, peerless, unrivaled, or inimitable is a very short list. Many artists strive for transcendence, but a precious few ever accomplish it. Starting out originally as a speed metal act with influences of Metallica and Slayer shining brightly, the band's fourth album, Stay of Execution, signaled both change and growth in this epic metal band!

This new sound was most noticeably embodied by vocalist Jimmy P. Brown II altering his vocal style singing much more like David Bowie and Saviour Machine's Eric Clayton. The vocals fit the newer direction musically and with 1994's River Disturbance, unleashed a new level of brilliance for Deliverance fans as they progressed into 1994 and beyond! A timeless album filled with haunting melodies and powerful metal music, River Disturbance ascended to new artistic heights.

The title track is a tour de force of songwriting and arrangements. Melancholy and strong, with deeply introspective lyrical elements, River Disturbance is a prayer for inner peace with music that is melodic, dark, beautiful, and pummeling! The apex of this album is the 7+ minute almost Queen-like ballad, "You Still Smile". Dedicated to the wife of Jimmy P Brown II, this revealing look into the heart of an artist is powerful and beyond memorable. The piano elements (Gene Eugene) are rich and lush, which provide the stitching that holds this tapestry together. River Disturbance is THE quintessential mid-period Deliverance album. It's progressive heavy metal, but much, much more. River Disturbance was transcendent in 1994, and it will remain transcendent in the decades ahead. This is Jimmy Brown's Sgt. Pepper....his Operation Mindcrime....his Ziggy Stardust!

This is art of the highest order. Recorded by Gene Eugene (Adam Again) and Produced by Terry Scott Taylor (DA) the band stretched themselves like never before and fans were richly rewarded! The 2018 Retroactive Records remastered (by Rob Colwell of Bombworks Sound) reissue is part of the Legends Remastered series and features enhanced original artwork, band photos, and lyrics. The CD is packaged in a jewel case with a 12 page insert, and the Vinyl comes with a 12" insert and WHITE Vinyl! Both CD and Vinyl are limited to just 500 units each!

DIRE PERIL - The Extraterrestrial Compendium (NEW*US POWER METAL*ICED EARTH*JUDICATOR) - 15 €

Divebomb Records 2018 - Brandnew US Power Metal Killer with Judicator + Helion Prime Members !

FOR FANS OF: ICED EARTH, BLIND GUARDIAN, HELION PRIME, JUDICATOR and PERSUADER

Consisting of Jason Ashcraft (guitars) from Helion Prime and John Yelland (vocals) from Judicator, DIRE PERIL is finally set to issue their long-overdue full-length debut, The Extraterrestrial Compendium, through Divebomb Records.

Each of The Extraterrestrial Compendium's 12 tracks is based on a sci-fi film. "I always loved the idea behind Iced Earth's Horror Show—making each song based on a famous monster film. If it isn't obvious from the music, I'm somewhat of an Iced Earth fan," Jason states, "so when coming up with ideas for this debut, I thought it would be cool to take a similar direction, but with something that I'm passionate about. As you can see by the final result, we get an album based on some of my all-time favorite sci-fi films. It was certainly hard to choose, as I could probably make DIRE PERIL's entire career on favorite films alone."

The album features guest performances by Brittney Slayes (Unleash the Archers)—reprising her role as Barbarella for a re-recorded version of "Queen of the Galaxy"—and the mighty Arjen Anthony Luccassen (Ayreon, Star One, The Gentle Storm), who lends his voice and guitar skills to album-closer "Journey Beyond the Stars." Ashcraft comments, "I have been biting my tongue, mostly, for about three years now that we got Arjen to perform on one of our tracks. Those who know me understand that this is a dream come true for me. Arjen is a huge inspiration to myself and my music, and to have had the honor to work with him is something that will be a main highlight throughout my career. He is very humble and great to work with. I hope everyone is as pleased with the outcome as I am."

Through many obstacles, DIRE PERIL is excited to present The Extraterrestrial Compendium to the heavy metal community at large. Notes Yelland, "Working on this album was a joy. I had always admired Jason's material, so the opportunity to collaborate with him was irresistible. I am so proud of what we have accomplished, and can't wait to share this—and more—with the world..."

Cult Metal Classics 2018 - Killer 80's US Metal - Limited to 500 copies. ! For Fans of Heathen's Rage, Liege Lord, Jag Panzer's - Ample Destruction or Slaught Xstroyes

GENOCIDE from Chicago, is probably one of the top 10 bands from USA to have never released their songs on any format except for cassette demo tape. They literally had taken the metal circuit from '82 to '86 by storm and their music can be described as a relentless power metal assault with intense riffing, godly vocals and killer rhythm section.

Thanks to Laurent Ramadier, publisher of SNAKEPIT magazine, what seemed to be an impossible case, finally materialized and after locating the mastermind behind the band, the guitar player, Brian Foster, he secured the necessary rights in order to make this reissue available to the public.

This is one of our proudest collaborations with Laurent so far, cause especially this time, the songs contained in the classic '86 demo of the band are beyond being labeled as "just good" or "very good". What you're going to end up be facing against is a wall of KILLER, MURDEROUS riffs, the kind of metal hymns that turn someone from a regular music listener to a die hard METAL FREAK.

We made an effort to offer you the best possible sound experience by restoring and remastering the sound and aside from the cool photos, band story and liner notes you will also get some previously unreleased tunes that will totally blow you away.

There are not many unreleased demos from the 80's left that are as good as this one. The band had the potential to destroy every other band at the time, had they stayed longer. Of course, what would have happened, we'll never find out but for the time being do yourselves a favor and get ready for a June, 2018 reissue of a total of 12 songs. An hour of pure metal madness. The kind of metal magic that brought us to the metal brotherhood in the first place. HAIL!

GHOST SHIP OCTAVIUS - Delirium (NEW*US PROG METAL*PRIVATE PR.*GHOST*NEVERMORE*PAIN OF S.) - 14 €

US melodic progressive Metal monster with plenty of big choruses and hooks!

For Fans of early Nevermore, Pain of Salvation, Ghost

It is no exaggeration to restate that 'Delirium' has to be one of the strongest releases that 2018 has delivered to date. It is a truly excellent blend of heaviness, melody, theatrics and powerful bombast with enough complexity to give the record plenty of longevity. Ghost Ship Octavius deserve to be dining at the top table of heavy metal because 'Delirium' is a genuinely killer record.

GHOST TOWER - Head Of Night (NEW*OBSCURE US METAL*BROCAS HELM*BORROWED TIME*C.UNGOL) - 14 €

Paragon Records 2018 - Brandnew Obscure US Metal Rerelease - now for the first time on a real silver pressed CD + 3 Bonus Tracks - GHOST TOWER incl. MATT PRESTON - ex-member of Borrowed Time (Highroller Records) / The Swill (Ft. members from Harbinger, Solace, Wastelander, Trouble)

For Fans of Brocas Helm, Borrowed Time, Liege Lord, Cirith Ungol

Originally released back in 2012 on CDR by the band and on Cassette by MetalPunkRex exclusively. Head Of Night is finally being released on official CD with 3 bonus tracks! This is a band whose career was far too short as far as we are concerned!!!

Excellent riffs, haunting original vocals, raw but very dynamic drumming, & a truly unique approach to their craft. With titles such as Ninth Tooth of the Gravekeeper's Grin, Secret of Black Moss Lake, The Brooding Silence... & ...of Untimely Death you can imagine the dark epic atmosphere the band has created.

These songs are carefully constructed and are meant to be catchy & emotional, with some very nice lead guitar work. We really can't compare them to anybody we have heard but if YOU ARE looking for something a little different with the true spirit of Metal look no further than Ghost Tower!

HYPNOS - GBG Sessions (NEW*LIM.CD ED.*SWE HARD ROCK/METAL*T.LIZZY*HORISONT*J.PRIEST) - 14 €

The Sign Records 2018 - Limited Edition of 1000 copies CDs !

Fantastic Hard Rock, 70/80's Metal for Fans of Thin Lizzy, Scorpions, Rainbow, Gyax, Horisont, Saturn, Flight, early Priest / Maiden, Mountain 'The GBG Sessions' introduced the elastic pipes of vocalist Linus Johansson (Trial, Black Cyclone) whose passion for classic rock and metal spews from his 70's Halford-esque tone. Johansson's performances, with no disrespect to Phil Lindgren, are just the extra shove of personality Hypnos' retro heavy metal-tinged hard rock songwriting needed.

Hypnos find a balance between the melodrama of 'Heaven and Hell', the relative chill of 'Chinatown' and the fiery wailing of 'Sad Wings of Destiny' showing deeper flashes of NWOBHM-era heavy metal grit amidst their usual dynamic 70's-fed songwriting.

These guys have some greater love for Thin Lizzy that shows up a bit more with each release and despite having heard scores of Lynott style balladry in 2018

GBG Sessions is a studio recorded live album containing the two new tracks "Ain't No Fool" and "Looking Out", five original tracks from previous studio albums and a cover of ABBA's Gimme! Gimme! Gimme!. This studio live album introduces Hypnos new singer Linus Johansson.

HYPNOS - Set Fire To The Sky (NEW*SWE HARD ROCK/METAL*THIN LIZZY*GYGAX*HORISONT*RAINBOW) - 14 €

Fantastic Hard Rock, 70/80's Metal for Fans of Thin Lizzy, Scorpions, Rainbow, Gyax, Horisont, Saturn, Flight, early Priest / Maiden, Mountain Hypnos find a balance between the melodrama of 'Heaven and Hell', the relative chill of 'Chinatown' and the fiery wailing of 'Sad Wings of Destiny' showing deeper flashes of NWOBHM-era heavy metal grit amidst their usual dynamic 70's-fed songwriting.

These guys have some greater love for Thin Lizzy that shows up a bit more with each release and despite having heard scores of Lynott style balladry in 2018

A more high flying and dynamic album that hits Mach 3 on the band's career. Eight loud rock tracks that hold a playful and vigorous vibe. On their third album, Hypnos have refined their sound together with producer Ola Ersfjord (Tribulation, Primordial, Honeymoon Disease).

Stronger songwriting, catchier hooks, together with a groovy rhythm section makes "Set Fire To The Sky" Hypnos strongest album to this day. Hypnos are establishing their sound. It's clear that "Set Fire To The Sky" is the launchpad for the bands future.

IRONFLAME - Tales Of Splendor And Sorrow (NEW*US METAL*IRON MAIDEN*AMBUSH*NIGHT DEMON) - 14 €

Divebomb Records 2018 - Brandnew 2nd Album - Killer US Power Metal

FOR FANS OF: IRON MAIDEN, HOLY GRAIL, NIGHT DEMON, HIGH SPIRITS and AMBUSH

Inspired by growing up listening to epic metal legends such as Iron Maiden, Savatage, Helloween, and Judas Priest, multi-instrumentalist Andrew D'Cagna formed IRONFLAME in late-2016 as an outlet for crafting soaring, melodic heavy/power metal of his own. After the immensely positive response toward IRONFLAME's Divebomb Records debut, Lightning Strikes the Crown, motivation for a follow-up surfaced rather quickly. Utilizing the tried-and-true formula of "if it's not broken, don't fix it," the entire process remained largely the same—as fast and improvisational as before.

Rather than release another full-length album, the original concept was to compose a lyrically ambiguous five-song EP nodding to Greco-Roman mythology. The initial tracks paid homage to Nemesis (Goddess of Revenge), Prometheus (God of Fire), Ares (God of War), Theia (Goddess of Shining Light), and Orpheus (God of Music). Lyrics were penned and the ideas were presented to contributing lead guitarist Jim

Dofka (Psycho Scream, Leather, Dofka), who loved the theme, but felt that Andrew should continue writing and flesh out another full-length after all.

Heeding Jim's advice, D'Cagna returned to the studio and decided to shift gears for the remaining compositions, which dwell largely upon the human condition through shared experiences such as temptation, seduction, betrayal, rage, and vengeance. Album closer, "Our Great Defender," is the one exception: an allegorical tribute to the late, great heavy metal icon Ronnie James Dio.

Considering the gamut of emotions contained within this new volume of music, a title was chosen appropriately: Tales of Splendor and Sorrow. The resulting 10-song, 52-minute journey should appeal to any fan of quintessential heavy metal—further cementing IRONFLAME's status as champions for classic metal of the highest order along the way!

JIMMY P. BROWN II's - Eraserhead (NEW*LIM.500 CD*US WHITE METAL*DELIVERANCE*SAVIOR MACHINE) - 14 €

Retroactive Records 2018 - Brandnew Album from Deliverance Mastermind Jimmy Brown - limited edition of 500 copies CD 12 Page booklet with lyrics

As for the vocal side of things, Brown has forsaken the at times high-pitched and others gruff and course style instinctive to old school Deliverance in favor of a lower register and melancholic style not unlike Eric Clayton (Savior Machine) and David Bowie but with a touch of Geoff Tate (Queensryche) thrown in.

For years Deliverance icon and creative mastermind has tried to balance speaking to fans of the thrash metal years, and fans of the Deliverance "creative years". With Jimmy P. Brown II's Eraserhead Jimmy is making a name change for the Deliverance sound that is full on heavy, metal, progressive, dark, and ultra creative (but not thrash or speed metal!).

Featuring Manny Morales on bass, and Jon Knox (Adam Again, White Heart, Great White) on drums - this is the same trio responsible for the epic Deliverance releases titled Learn and River Disturbance which both feature Jimmy Brown as a master axeman on rhythm and lead guitars. As accomplished as Jimmy P. Brown II has been with mind-rattling epic metal releases like Stay of Execution, Learn, & River.... With Eraserhead the bar has been set infinitely higher. Eraserhead is more....more melodic, more progressive, more unified, more diverse, and more creative. Of the many musical masterpieces Jimmy P. Brown has gifted this world, Eraserhead is without a doubt his Magnum Opus, his crowning achievement. And, it's not even close.

This is Deliverance - the "creative years" team that has set their sights on creating the finest metal album of 2018, and decades to come. It's almost impossible to choose a favorite song....the infectious "Digital Postage Stamp" will have you singing in seconds, while "Swell Lot..." flirts with creative heights that are held for the most elite in music and metal. But then the last song on the CD, the 7 minute "The Watchers" (featuring a guest appearance from Eric Clayton of Savior Machine) embarks with a majesty, nobility, and a stateliness that is both jaw-dropping, and drool-inducing! If you are a musical snob who insists your albums are bathed in pure, unadulterated greatness, then stop what you are doing and get this album on CD (12 page insert, jewel case) and limited edition Aqua Colored Vinyl. The album features the best musicians, the best songs, and the best music they have ever done. It's the ultimate ear candy for fans of Jimmy P. Brown II and the creative years Deliverance crew.

LETHEAN - The Waters of Death (NEW*EPIC/DOOM/POWER METAL*ATLANTEAN KODEX*SOLSTICE) - 14 €

Cruz del Sur Records 2018 - Brandnew Epic Doom/Power Metal with NWOBHM influences

For Fans of Atlantean Kodex, Solstice, Legendry, While Heaven Wept

Solemn doom crosses paths with epic heavy metal from this unique U.K. duo ! The 2012 creation of multi-instrumentalist James Ashbey, Lethean's inventive combination of epic metal, NWOBHM and doom is put on full display on their six-song The Waters of Death debut, an album rife with atmosphere and imagery. Hailing from England, Lethean was formed in late 2012 by guitarist/drummer James Ashbey with the ambition of combining epic metal, NWOBHM and doom. The result was a distinctive sound rarely found in the British Isles.

Two demos followed, the first forged in the U.K., the second in Athens, but these did not enjoy physical release and only reached a limited underground audience. Finally, the band got the boost it needed when, in early 2017, vocalist and co-writer Thumri Paavana came aboard.

LIZZIES - On Thin Ice (NEW*FEMALE HEAVY METAL*GIRLSCHOOL*SAXON*HEART*AC/DC*LITA FORD) - 14 €

THE SIGN RECORDS 2018 - Lizzies returns with the second album 'On Thin Ice' released by the Sign Records. Lizzies might be a relatively young band, but they understand all that is good about heavy metal – the riffs, the vocal hooks, the melodies

Heavy Metal / Hard Rock from Spain for Fans of 70's/early 80's Heavy Metal and Hard Rock –Saxon, Judas Priest, Heart, Lita Ford, The Donnas, Vixen, AC/DC, Survivor, Pat Benatar or Girlschool

The eleven track long album is sharper, tighter and filled with some of the strongest hooks and choruses of the year. The album follows the bands applauded debut, 'Good Luck', that made it to an impressive #16 in the Spanish Charts. The album is produced by Ola Ersfjord (Tribulation, Primordial, Night, Honeymoon Disease) and mastered by Magnus Lindberg. The entire recording has an 80's vibe over it and hit songs as 'No Law City', 'Talk Shit And Get Hit' and 'Rosa Maria' would have been immortalized today if released 40 years ago.

"On Thin Ice is forthcoming, but it's safe to say that the album will revisit some of heavy metal's favorite subjects—love, fighting, drinking, death—with enthusiasm" - Decibel Magazine

Formed in 1987 in Carlsbad, New Mexico, MAX TRIXI is perhaps the most obscure band. It's a tremendous example of how a band can be unknown, but still carrying a great sound and remarkable compositions, headed by the guitar mastery of Kenny and the mighty voice of Kathi Young (R.I.P.)!

MAD AT THE WORLD - Through the Forest (NEW*LIM.300 CD*REMASTERES*US PROG ROCK/WHITE METAL) - 14 €

Retroactive Records 2018 - Limited CD packaged in a jewel case with 6 page booklet with lyrics limited to a one-time pressing of just 300 copies and the remaster allows fans to hear the brilliance of this essential hard rock album even more clearly. Through the Forest is pure magic, and it's never looked, or sounded better! Get it while you can!
This manifests from how as advertised it reinforces a full on hard rocking guitar sound but with strong leanings towards the blues, groove, stoner-doom and even some progressive facets.
1992 was an epic year for Christian rock. Bride released Snakes in the Playground. Adam Again delivered the transformational art rock album Dig, Deliverance blew audiences away with the masterful Stay of Execution, Mortification released the deathly Scrolls album, Mortal industrialized white middle-class suburbia with Lusic, L.S. Underground released the concept album The Grape Prophet, and The 77s redefined world-class rock with the self-titled (aka Pray Naked) release. AND..... Mad At the World gifted us with their hardest hitting, most aggressive, and progressive album we could have imagined - Through the Forest!
MATW was a short-lived but brilliant band with seven must-have releases led by brothers Roger and Randy Rose (also of Mothership and Rose - all amazing as well). They started off as a synthpop band and soon did a 180 into organic prog rock. Through the Forest finds MATW mid-career and firing on all cylinders and refining their sound. There's something for everyone on this gem from the driving rock of the title track, to the Jim Morrison/Glen Danzig-inspired sound of "Trapped," the sweet "Always be My Love," and the playful cover of Elvis's "If I Can Dream." Through the Forest is the perfect balance of passion and finesse, excellent musicianship, and great lyrics. And now a great album has been made better digitally remastered to perfection by Rob Colwell of Bombworks Sound. Don't miss it.

The bands entire recording career featuring 3 demo recordings and 7 live recordings from the bands Birmingham's Barrel Organ Pub appearance. Featuring photos, lyrics and history of the band

Montreaux is a Wolverhampton based heavy rock band that was formed in 1981. The band was created by keyboard player Patrick Hatfield formally of Mafia, drummer Andy Harper formally of the Mick Hill Band and bassist Paul Hodson formally of Sabre and Hideaway! The line up was completed by the addition of Mario Janowski formerly of Tall Story and vocalist Rob Byrne who had played in various local bands in the Wolverhampton area.

Montreaux quickly became an active band in the local area, gaining a sizeable following through residencies! As they became more popular they appeared at the world famous Marquee Club supporting Stray, Birmingham's Barrel Organ Pub and also a filmed performance at the Regal Theatre, Hitchen where they appeared with Tony McPhee of the Groundhogs!

They made several demos and a recording of a live performance at the Wolverhampton Polytechnic where they supported prog rockers Pallas was made! They always received positive feedback and support from the local press and their loyal fans! A fine live act, though sadly fame and fortune alluded them and they finally split in April 1984!

NEW LIGHT CHOIR - Torchlight (NEW*LIM.DIGIPAK ED.*US CLASSIC ROCK/PROG METAL) - 14 €

Svart Records 2018 - Limited Edition Digipak ! 8 from 10 Points in Rock Hard by Boris Kaiser !

US classic Rock meets US Prog Metal meets Psychedelic/Black EPIC and all with great hooks and melodies !

Never content to exist in an easily defined space, New Light Choir defy genres, preferring to weave diverse threads of sound into their own unique sonic tapestry. On their previous album Volume II (High Roller Records, 2015) the two-headed genre hybrid group explored the 50-year history of dark, heavy guitar-based music and made what Invisible Oranges called ?music made from missing links?. New Light Choir?s new album Torchlight, due out on Svart Records on November 23rd, sees the duo step on the distortion pedal and travel deeper into the mystical, dusk-filled metallic territory hinted at on its predecessor. Torchlight is possessed with the same creative spirit and a sense of wonder as the early albums by genre forefathers Trouble and Manilla Road, yet New Light Choir are devoid of the trappings of retro worship and prefer to look into the future.

For Fans of Primordial, Satan's Host, Rush, Thought Industry, a touch of NWOBHM

NITRO - Do Ya Wanna Rock - Rarities 83-87 (NEW*LIM.300 CD *US MELODIC METAL*RIOT*ICON*LOOSELY TIGHT) - 14 €

Progaor/ Dyamond Roxx Records 2018 - Pennsylvania Hard Rock history would be poorer if NITRO never came to existence in 1979. This supercharged Hard Rock band took the U.S. and European emerging Metal underground by storm with their privately pressed 10"EP "Lethal" released in early 1982.

At this point their sound was reminiscent of great 70s acts such as Montrose and Teaze but also in the vein of other contemporary high energy rock acts like Riot, Schoolboys (pre-Icon) or the more obscure Loosely Tight. In 83 Mausoleum Records releases the EP with two bonus tracks in Europe giving the band a wider coverage in european territory.

On the second coming of the band in 87, they recorded the pre-production tapes for their follow up album "Volatile Activity" that never happened. This time their sound was more on par with Quiet Riot or Twisted Sister.

However, in the big scheme of Rock and Roll, it was too late for stardom as this "Stadium Metal" type sound has been around since 1983 and the band members look didn't even match with the hairspray and doll-face image that was associated to the "Hair Metal" sound, so important for record sales at the time. The band eventually vanished into obscurity until a comeback in the 21st century when they realised there was still a fan base for their music much due to the Internet, specially Youtube. The Volatile Activity songs appear for the very first time on CD, as they were released on vinyl back in 2013.

The Lethal +II Studio Session 83 unreleased tracks appeared before in the CD "Lethal Dose" released also in 2013 but is now out of print. It's time to enjoy the ride again on this ultimate rarities collection and honour this exciting 4-piece Nitro-fuelled Rock'n'Roll machine!

Brutal Planet Records 2018 - US White Metal featuring members from Metal Church - Ronny Munroe on Vocals, TSO, House of Lords, Yngwie Malmsteen, Obsession, Anthrax, and Tango Down, CD 12 Page booklet with lyrics

The Peacemaker album cover introduces you to Zombie Sheriff J.P. Diggs who embodies the heart and soul of the All-Star heavy metal band, PEACEMAKER! The message of Sheriff Diggs and Peacemaker is clear...."Make your peace....with Peacemaker!" The album artwork steps far beyond typical knuckle-dragging genre defining metal nerdness, as much it intensifies and sears the senses with mind-melting music. Make no mistake, Peacemaker delivers a modern day old-school heavy metal album that has all the "balls" and whistles - an album that is nothing less than the "total package" that you would expect from the All-Star, super-team heavy metal crew that makes Peacemaker so very special!

Featuring members from Metal Church, TSO, House of Lords, Yngwie, Anthrax, and Tango Down, 2018's Brutal Planet Records debut "Concrete & Terror" takes the band's collective genius and unites these brilliant musical virtuosos in metallic triumph and victory! Miller's snarling guitars hammer away with ferocious tones, Zampa provides a true drumming onslaught, and Ciejek is a top-ten bass player thumping it out with perfection! While few people have the distinguished resume' of vocalist Ronny Munroe, he delivers the performance of a lifetime pushing himself to new heights of creativity and technical proficiency.

All these components have been masterfully pulled together by Producer, Ty Sims (HOUSE OF LORDS, TANGO DOWN, ROMEO RIOT) and enhanced by his experienced ear and command from behind the board. The CD is packaged with a 12 page booklet featuring band photos (photographed by renowned Metal Photographer, Jeremy Saffer) and lyrics in a protective jewel case. "Concrete & Terror" has the three things fans of true heavy metal long for - The LOOK! The SOUND! The STORY! Will you dare to meet Sheriff Diggs, and be part of the Peacemaker story? I strongly encourage you to....."Make your peace....with Peacemaker!"

PERPETUAL PARANOIA - The Reapers (NEW*US WHITE SPEED/THRASH METAL*DELIVERANCE*HAND OF FIRE) - 14 €

Retroactive Records 2018 - Brandnew US White Metal - CD 6 Page insert with lyrics - US Speed/Thrash Metal with Melody like early Deliverance

Perpetual Paranoia is Dale Thompson, best known as the frontman of legendary Christian metal band, Bride and The World Will Burn and the Brazilian, Tiago James de Souza, an extraordinary musician best known as the guitarist of Bay Area, California thrash metal band, Hand Of Fire! With Perpetual Paranoia the band is unleashing pure metal mayhem! The Reaper specializes in blunt force trauma that magically transforms brutality into catchy! This is ultra-creative, aggressive HEAVY METAL performed with both skill and precision. Dale's vocals are more aggressive than anything he's ever done, while never losing his signature sounds. Tiago is a guitarist's guitarist - laying down tasty riffs and solos at an elite level. And, while many aggressive metal bands are simply cookie-cutter copy-cats, Perpetual Paranoia utilizes double-bass to hammer home an album filled with progressive, passionate moments that keep the listener on the edge of the seat with a growing anticipation that is ultimately fulfilled. The Reaper strikes a signature balance between light and dark, beauty and repulsion, as the album progresses forward into the unfamiliar and formidable. Not one dimensional at all, multi-layered soundscapes dominate every song. Expect tons of time changes. Every song is a journey of thrashy aggression and darkness. The Reapers will be on many people's best of 2018 list, and yes, it's that good!

SILVER TALON - Becoming A Demon (NEW*US METAL PRIVATE PR.*EX - SPELLCASTER) - 14 €

US Private Press 2018 - Limited Digipak / US Direct Import -The highly anticipated debut from Portland, Oregon's SILVER TALON - EX - Spellcaster !
For fans of Yngwie Malmsteen, Savatage, Sanctuary, Queensrÿche
With a virtuosic guitar attack, a rumbling rhythm section, and powerful, soaring vocals, Portland, Oregon’s Silver Talon is razor sharp and ready to become a major force in heavy metal. In February of 2018, Silver Talon released their first demo track “Devil Machine.” The track offered a small sample of Silver Talon’s ability to masterfully blend hook, melody, and technical ability into fist clenching, head-bangable heavy metal. Their second demo release, “Warrior’s End,” showcases more of Silver Talon’s dexterity in riffs, bent time signatures, and lush melodies. Silver Talon features guitarists Bryce Vanhoosen and Sebastian Silva, Gabe Franco on bass, and Colin Vranizan on drums - all four hailing from Prosthetic Records and internationally touring act Spellcaster.
Once said four horsemen of Spellcaster parted ways with their vocalist, they decided to change their moniker, and cast a worldwide net for some new pipes. Lucky for them, the caught Wyatt Howell of Sanctifyre close by in Eugene, Oregon.
Guitarist Bryce Vanhoosen explains the path Silver Talon is looking to take after the crumbling of Spellcaster.
“We’re basically trying to take Spellcaster a bit more over the top. The songs are more complicated, more progressive, more aggressive, there’s more guitar solos, and crazier vocal harmonies.”

TOKYO BLADE - Unbroken (NEW*NWOBHM COMEBACK*TYGERS OF PAN TANG*JUDAS PRIEST*SAXON) - 16 €

3ms Music Ltd 2018 - Brandnew Comeback Album from this Melodic NWOBHM Heroes ! The "raucous twin guitar gallop" and working class aesthetic of NWOBHM is alive and well.

For Fans of Saxon, Judas Priest, Iron Maiden, Tygers of Pan Tang, Demon

TOKYO BLADE is one of the special bands that comprise the highly esteemed NWOBHM scene. The act initially formed in the late seventies—previously using the monikers WHITE DIAMOND, KILLER and GENGHIS KHAN—and aside from two extended periods of inactivity following disbanding, the band has been kicking out the heavy metal jams for almost 30 years. Not every band can obtain the monstrous commercial success of the likes of IRON MAIDEN or JUDAS PRIEST, and though they came from an exclusive and seminal pack, TOKYO BLADE's star hasn't shined as brightly as those of the aforementioned juggernauts. The group should have received more widespread attention based upon the merits of its music; however, and there is a great deal to be said of the unit's tenacity. TOKYO BLADE's 2018 album, "Unbroken", serves that very point.

The Brits never properly gained steam and built momentum because of its hiatuses, as well as common issues like lineup instability that plague so many bands. Since its second reformation a decade ago, founding member Andy Boulton has provided focus to the heavy metal titan, leading it to churn out a couple of LPs and a pair of EPs. For "Unbroken", Bolton rallied the troops as the lineup is stacked with original members: singer Alan Marsh, guitarist John Wiggins, drummer Steve Pierce and bassist Andy Wrighton.

VERMITHRAX - Imperium Draconus (NEW*US POWER/THRASH METAL*V.RUMORS*SANCTUARY*FORBIDDEN*FLOTSAM) - 15 €

Divebomb Records 2018 - Brandnew US Tech/Thrash Powermetal - 666 Hand numbered Digipaks

FOR FANS OF: SANCTUARY, FORBIDDEN, FLOTSAM & JETSAM, VICIOUS RUMORS and TESTAMENT

Striving to resuscitate the aggressive, driving metal of the mid-'80s thrash scene, VERMITHRAX was forged in "Steel City" Pittsburgh, PA during 2012 by vocalist Chris "Croy" Roy (Reading Zero, Emancipation) and drummer J.R. Jameson (Nunslaughter, Icarus Witch, Mercenary). Joined by guitarist Scott "Hagz" Haggerty and bassist Tom Donaldson (Mercenary, Eye) to round out the lineup, the quartet issued its debut EP, Volume 1, which was met with immediate praise—the metal press hailing the band's deft blend of progressive and thrash elements, thundering drums, shredding solos, as well as Croy's multi-faceted vocals.

Sharing the stage with such heavy-hitters as Iced Earth, Metal Church, Queensrÿche, Fates Warning, Overkill, Sabaton, Lizzy Borden, While Heaven Wept, and Evergrey has aided VERMITHRAX in sharpening their skills in preparation for their sophomore outing, Imperium Draconus—recorded at the band's personal studio, The Lair, and mixed in part by Christopher Lee Simmonds (Thought Industry, Filter, Emancipation Syndicate) and Jim Dofka (Dofka, Psycho Scream, etc.).

The anthemically epic vibe of "Enoch" and brooding chug of "Crucified by Hate" are definitive emblems of VERMITHRAX's balanced yet varied approach—their classic metal-inspired sound featuring an array of blistering guitar solos and animated, identifiable vocals. "Road to Athkatla" emerges as the album's razor-sharp foray into the adventurous worlds of progressive and power metal; while "River Crour" immediately breathes thrashing mad fire. Written as an homage to Slayer's Jeff Hanneman on the day he passed, it lends the perfect counterbalance to the intricately nuanced yet powerful "Spellbound" and the pummeling, prog-tinged driver, "Calling My Name." The disc closes with a steamrolling thrasher that combines VERMITHRAX's unique approach branded deep into a medley of two Flotsam and Jetsam staples—"Hammerhead" and "Hard on You"—as a heartfelt tribute to one of their favorite classic thrash influences.

BLACK VIRGIN - Most Likely To Exceed (MEW*LIM.500 BLACK V.*US SPEED/THRASH METAL '86) - 22 €

WylN Records 2018 - Brandnew Reissue on Black Vinyl. Includes insert with picture collage and band bio. NY Speed/Thrash Metal from 1986 Originally released 1986 on Metal Enterprises Records

"Overall the album is pretty solidly in the dark USPM camp, but there are some obvious NWOBHM influences, especially in the first two songs, "Night Riders" and the title track. One might think Lienhardt's unique vocal delivery wouldn't work well with this style, but it does well enough. This isn't Venom-styled NWOBHM, though - it's more like Angel Witch or later Cloven Hoof, an influence that can be heard in the equally obscure band Heathen's Rage. The title track is rather curious, though, as while it definitely takes influence from NWOBHM, the main riff is almost identical to that of Manilla Road's "Flaming Metal Systems", which was only released the previous year. It's probably just a coincidence, but an interesting one at that." (by Jopherlex, Metal Archives)

High Roller Records 2018 – Brandnew limited black vinyl, ltd 200, 425gsm heavy cardboard cover, lyric sheet, mastered for vinyl by Patrick W. Engel at temple of Disharmony
NWOBHM Classic !

With a name taken from a Victorian novel, Bleak House were one of the more exhilarating bands of the New Wave Of British Heavy Metal. The legacy of the Home Counties' five-piece is just two 7" EPs, but both 'Rainbow Warrior' and 'Lions In Winter' would go on to become legendary in the eyes of fans and collectors alike.

Released in June 1980, the 'Rainbow Warrior' EP featured the title track on the A-side backed by 'Isandhlwana' – a song named after the site of the first major battle of the Zulu War – and 'Inquisition'. "At the time 'Rainbow Warrior' was the track we were in love with," says guitarist Graham Killin. "That was the track that we thought would be the best... When we played live that was the track that people really seemed to like and it seemed to create a buzz, so it was the natural A-side."

'Lions In Winter' was recorded around eighteen months later, and released in 1982. This time the band served up four tracks in fourteen minutes – 'Chase The Wind', 'No Reply', 'Down To Zero' and 'Flight Of The Salamander' – on a record that Killin would later describe as a "natural progression" for the band. Unfortunately, as with so many of their peers, Bleak House fell apart before they could record anything else, and it's these two records that kept their name alive over the years.

This mini-album presents both EPs in full in their original running order.

CRIME – First Crime (NEW*RAW SPEED/HEAVY METAL FROM CHILE*BONUS TRACK) - 10 €

Dying Victims 2018 - Brandnew Raw Heavy/Speed Metal from Chile with their debut ep, enhanced with a bonus track.

Regular edition with sticker

CRIME are a duo hailing from Santiago, Chile. Grounded in all the classics, they explode with a classic early heavy metal sound that's indebted as equally to rock 'n' roll like Rose Tattoo and Motörhead .

Across the three songs comprising their First Crime, CRIME exude both grit and charm, energy and finesse, youthful exuberance and wizened erudition. Verily, it's like a long-lost transmission from the mid '80s, from the corners of the earth where pure heavy metal was a revolutionary act - and yet, it's been thawed out in the present. Fittingly, CRIME's lyrics are mainly inspired by the risks in the city when night falls, with the intention of returning some mystery, rawness, and danger to heavy metal.

DEADLY BLESSING - Psycho Drama (NEW*LIM.200 BLACK V.*US METAL KILLER*TYRANT'S REIGN) - 19 €

Alone Records 2018 – US Metal Killer from the early 90's ! Limited Edition of 200 copies in Black Vinyl, Hand Numbered + Insert + Sticker !

FOR FANS OF: HELSTAR, TYRANT'S REIGN, LIEGE LORD, REALM, TOXIK

In 1989, following the success of their debut album, Ascend From the Cauldron, New Jersey power metallers DEADLY BLESSING made the pivotal decision to part ways with their iconic-yet-polarizing frontman, Norman "Ski" Kiersznowski. In search of a more aggressive singer who could still be melodic, the band approached Larry Betson; whose gruffer, less over-the-top approach provided a perfect fit as the group continued to open for increasingly heavier national acts such as Dark Angel.

The following year, influenced by thrash from the Bay Area to New York, DEADLY BLESSING recorded two hard-hitting demos—the well-received Psycho Drama, and the never officially released Mechanical Solutions—before rechristening themselves OPTIMUS PRIME for one last demo, taking some inspiration from that era's increasingly ubiquitous "grunge"-leaning sounds. However, as work began on their sophomore full-length, internal uncertainties combined with label and management woes left the group without a proper home, and the lineup eventually unraveled.

DELIVERANCE - River Disturbance (NEW*LIM.500 WHITE VINYL*US WHITE METAL 1994*REMASTERED) - 24 €

Retroactive Records 2018 - Brandnew Vinyl comes with a 12" insert and WHITE Vinyl - limited to just 500 units each!

Truly transcendent music is rare. Music that is incomparable, matchless, peerless, unrivaled, or inimitable is a very short list. Many artists strive for transcendence, but a precious few ever accomplish it. Starting out originally as a speed metal act with influences of Metallica and Slayer shining brightly, the band's fourth album, Stay of Execution, signaled both change and growth in this epic metal band!

This new sound was most noticeably embodied by vocalist Jimmy P. Brown II altering his vocal style singing much more like David Bowie and Saviour Machine's Eric Clayton. The vocals fit the newer direction musically and with 1994's River Disturbance, unleashed a new level of brilliance for Deliverance fans as they progressed into 1994 and beyond! A timeless album filled with haunting melodies and powerful metal music, River Disturbance ascended to new artistic heights.

The title track is a tour de force of songwriting and arrangements. Melancholy and strong, with deeply introspective lyrical elements, River Disturbance is a prayer for inner peace with music that is melodic, dark, beautiful, and pummeling! The apex of this album is the 7+ minute almost Queen-like ballad, "You Still Smile". Dedicated to the wife of Jimmy P Brown II, this revealing look into the heart of an artist is powerful and beyond memorable. The piano elements (Gene Eugene) are rich and lush, which provide the stitching that holds this tapestry together. River Disturbance is THE quintessential mid-period Deliverance album. It's progressive heavy metal, but much, much more. River Disturbance was transcendent in 1994, and it will remain transcendent in the decades ahead. This is Jimmy Brown's Sgt. Pepper....his Operation Mindcrime....his Ziggy Stardust!

This is art of the highest order. Recorded by Gene Eugene (Adam Again) and Produced by Terry Scott Taylor (DA) the band stretched themselves like never before and fans were richly rewarded! The 2018 Retroactive Records remastered (by Rob Colwell of Bombworks Sound)

reissue is part of the Legends Remastered series and features enhanced original artwork, band photos, and lyrics. The CD is packaged in a jewel case with a 12 page insert, and the Vinyl comes with a 12" insert and WHITE Vinyl! Both CD and Vinyl are limited to just 500 units each!

Eudoxis are Canadian thrash metal pioneers who burst onto the live music scene in 1984. Performing in full body armor, metal spikes and backed by the legendary six-foot long stainless steel bass drums, they delivered their material with blood curdling speed and deadly precision. Eudoxis were one of the first thrash acts in Canada. The first incarnation of Eudoxis came to life in 1983 in Longueuil, a suburb of the Franco-Canadian city Montreal. The Judas Priest song "Exciter" had been their blueprint for songwriting and the result was way more aggressive than the british rockers themselves.

In 1986, the 12"-single "Attack from Above" was released and has since become a searched gem. After some lineup changes, the band started recordings for the full length album "Open Fire" and it was released in 1991 on vinyl, CD and K7.

On board was the band leader Rick Raczeko, vocalist Sotiri Papafylis, drummer J.P. Perrault and axemen Mario Gilles Vaillancourt and Mars B. Alexander. This lineup gave the seven new songs a very distinct and original sound. "Open Fire" has also become a collector's item over the years. To commemorate 35 years since the formation of Eudoxis, the band members have decided to re-release all of their old material.

"The Gathering" is a compilation of the complete Eudoxis recordings along with two new songs by the band Screen which features 4 of the 5 members of the "Open Fire" lineup.

What you get is one of the most original thrash acts from Canada. Thrash yourself the old-school way!!!

No Remorse Records 2018 - Brandnew melodic US Prog/Power Metal Killer in the vein of One Small Voice with some of the best Guitar Work and one of the best Voices in Metal - Masterpiece !

Limited Edition of 300 copies in Black Vinyl + Insert !

Nearly after 30 years, US Prog Metal legend HEIR APPARENT returns with a new album!

Seattle, WA's Heir Apparent was founded in 1984 by guitarist Terry Gorle. During 1985, Heir Apparent signed with Black Dragon Records and completed the first album "Graceful Inheritance" that was released in January of 1986. Up to this day, the debut album of Heir Apparent is considered as one of the best US metal albums of the 80s.

After highs and lows in the music industry and line-up changes, finally the band was signed by Metal Blade Records and released their second album "One Small Voice" (1989), one of the best progressive metal albums of all times. Although the future looked bright, tensions surrounding commitment and finances within the band caused a rift that split the group.

In 2000, Heir Apparent reunited at the Wacken Open Air festival in Germany, and in the next years more shows followed with different line-ups for festivals like Keep It True, Metal Assault and Up The Hammers.

The current line-up of Heir Apparent consists of original members Terry Gorle (guitar), Derek Peace (bass), Ray Schwartz (drummer) with the addition of Op Sakiya (keyboards) and the great new singer Will Shaw. This line-up dominated Up The Hammers (Greece) and Keep It True (Germany) festivals during 2016 and with this full comeback, the time is right for a new album.

"The View From Below" is produced by Tom Hall and Heir Apparent. Tom Hall has also produced the previous Heir Apparent releases and he has also worked with Queensrÿche on "Queensrÿche" EP (1983) and "Empire" (1990), among others.

The Sign Records 2018 - Limited Edition of 300 copies on blue colored vinyl and 700 copies on black vinyl

Fantastic Hard Rock, 70/80's Metal for Fans of Thin Lizzy, Scorpions, Rainbow, Gygax, Horisont, Saturn, Flight, early Priest / Maiden, Mountain 'The GBG Sessions' introduced the elastic pipes of vocalist Linus Johansson (Trial, Black Cyclone) whose passion for classic rock and metal spews from his 70's Halford-esque tone. Johansson's performances, with no disrespect to Phil Lindgren, are just the extra shove of personality Hypnos' retro heavy metal-tinged hard rock songwriting needed.

Hypnos find a balance between the melodrama of 'Heaven and Hell', the relative chill of 'Chinatown' and the fiery wailing of 'Sad Wings of Destiny' showing deeper flashes of NWOBHM-era heavy metal grit amidst their usual dynamic 70's-fed songwriting.

These guys have some greater love for Thin Lizzy that shows up a bit more with each release and despite having heard scores of Lynott style balladry in 2018

GG Sessions is a studio recorded live album containing the two new tracks "Ain't No Fool" and "Looking Out", five original tracks from previous studio albums and a cover of ABBA's Gimmie! Gimmie! Gimmie!. This studio live album introduces Hypnos new singer Linus Johansson.

For Fans of Dark Forest, Eternal Champion, Visigoth, Blind Guardian, Manilla Road, Legendry, Gatekeeper, Slough Feg

This Double LP features beautiful gatefold album artwork inside and out, painstakingly crafted to the highest quality. Unlike the CD format, front/back and inside covers have no text obstructing the artwork, so you can enjoy an even more pure immersion into the concept album; a full album-insert serves to enhance the experience that much more.. Given the nature of vinyl, audio is fully analog and completely lossless in sonic quality. This is THE way to enjoy this album and all the powerful elements therein.

They hath finished laying proverbial brush to canvas and now full-length double-LP lay complete.... Boasting unbelievable gatefold album artwork by incredible artists Sam Ford and Bryan Buswell, recorded in the heart of the Metal Zone with Andy Lane, and mastered by the legendary Dan Randal at Mammoth Sound, the complete concept-album/tale of our hero-changed (of which the demo is part) is now told in full, the whole story unfurled, and with painstaking effort put forth to best serve the glacial blade - The Ice Sword awaits us all!

FOR FANS OF: IRON MAIDEN, HOLY GRAIL, NIGHT DEMON, HIGH SPIRITS and AMBUSH

Inspired by growing up listening to epic metal legends such as Iron Maiden, Savatage, Helloween, and Judas Priest, multi-instrumentalist Andrew D'Cagna formed IRONFLAME in late-2016 as an outlet for crafting soaring, melodic heavy/power metal of his own. After the immensely positive response toward IRONFLAME's Divebomb Records debut, Lightning Strikes the Crown, motivation for a follow-up surfaced rather quickly. Utilizing the tried-and-true formula of "if it's not broken, don't fix it," the entire process remained largely the same—as fast and improvisational as before.

Rather than release another full-length album, the original concept was to compose a lyrically ambiguous five-song EP nodding to Greco-Roman mythology. The initial tracks paid homage to Nemesis (Goddess of Revenge), Prometheus (God of Fire), Ares (God of War), Theia (Goddess of Shining Light), and Orpheus (God of Music).

Lyrics were penned and the ideas were presented to contributing lead guitarist Jim Dofka (Psycho Scream, Leather, Dofka), who loved the theme, but felt that Andrew should continue writing and flesh out another full-length after all.

Heeding Jim's advice, D'Cagna returned to the studio and decided to shift gears for the remaining compositions, which dwell largely upon the human condition through shared experiences such as temptation, seduction, betrayal, rage, and vengeance. Album closer, "Our Great Defender," is the one exception: an allegorical tribute to the late, great heavy metal icon Ronnie James Dio.

JIMMY P. BROWN II's - Eraserhead (NEW*LIM.500 AQUA COL. VINYL*DELIVERANCE*SAVIOR MACHINE) - 23 €

Retroactive Records 2018 - Brandnew Album from Deliverance Mastermind Jimmy Brown - limited edition of 500 copies in Aqua Colored Vinyl + Insert !

As for the vocal side of things, Brown has forsaken the at times high-pitched and others gruff and course style instinctive to old school Deliverance in favor of a lower register and melancholic style not unlike Eric Clayton (Savior Machine) and David Bowie but with a touch of Geoff Tate (Queensryche) thrown in.

For years Deliverance icon and creative mastermind has tried to balance speaking to fans of the thrash metal years, and fans of the Deliverance "creative years". With Jimmy P. Brown II's Eraserhead Jimmy is making a name change for the Deliverance sound that is full on heavy, metal, progressive, dark, and ultra creative (but not thrash or speed metal!).

Featuring Manny Morales on bass, and Jon Knox (Adam Again, White Heart, Great White) on drums - this is the same trio responsible for the epic Deliverance releases titled Learn and River Disturbance which both feature Jimmy Brown as a master axeman on rhythm and lead guitars. As accomplished as Jimmy P. Brown II has been with mind-rattling epic metal releases like Stay of Execution, Learn, & River.... With Eraserhead the bar has been set infinitely higher. Eraserhead is more....more melodic, more progressive, more unified, more diverse, and more creative. Of the many musical masterpieces Jimmy P. Brown has gifted this world, Eraserhead is without a doubt his Magnum Opus, his crowning achievement. And, it's not even close.

This is Deliverance - the "creative years" team that has set their sights on creating the finest metal album of 2018, and decades to come. It's almost impossible to choose a favorite song.....the infectious "Digital Postage Stamp" will have you singing in seconds, while "Swell Lot..." flirts with creative heights that are held for the most elite in music and metal. But then the last song on the CD, the 7 minute "The Watchers" (featuring a guest appearance from Eric Clayton of Savior Machine) embarks with a majesty, nobility, and a stateliness that is both jaw-dropping, and drool-inducing! If you are a musical snob who insists your albums are bathed in pure, unadulterated greatness, then stop what you are doing and get this album on CD (12 page insert, jewel case) and limited edition Aqua Colored Vinyl. The album features the best musicians, the best songs, and the best music they have ever done. It's the ultimate ear candy for fans of Jimmy P. Brown II and the creative years Deliverance crew.

THE SIGN RECORDS 2018 - Lizzies returns with the second album 'On Thin Ice' released by the Sign Records. Lizzies might be a relatively young band, but they understand all that is good about heavy metal – the riffs, the vocal hooks, the melodies

Limited Vinyl Edition - Black Vinyl - Comes with a digital download card!

Heavy Metal / Hard Rock from Spain for Fans of 70's/early 80's Heavy Metal and Hard Rock –Saxon, Judas Priest, Heart, Lita Ford, The Donnas, Vixen, AC/DC, Survivor, Pat Benatar or Girlschool

The eleven track long album is sharper, tighter and filled with some of the strongest hooks and choruses of the year. The album follows the bands applauded debut, 'Good Luck', that made it to an impressive #16 in the Spanish Charts. The album is produced by Ola Ersfjord (Tribulation, Primordial, Night, Honeymoon Disease) and mastered by Magnus Lindberg. The entire recording has an 80's vibe over it and hit songs as 'No Law City', 'Talk Shit And Get Hit' and 'Rosa Maria' would have been immortalized today if released 40 years ago.

"On Thin Ice is forthcoming, but it's safe to say that the album will revisit some of heavy metal's favorite subjects—love, fighting, drinking, death—with enthusiasm" - Decibel Magazine

9,5 from 10 at Dead Rhetoric by Matt Coe !:

" Beyond the over the top stage monikers like bassist Pontifex Mortis, lead guitarist Baron Taurean Helleshaar and vocalist Fang VonWrathenstein, you have to go in knowing there is equally fantasy/majestic lyrical content to match their style on songs such as "Figaro" and Iced Earth-edged opener "Death Dealer". Baron's leads feature plenty of shred, tapping, and arpeggio excitement while fitting the atmosphere of each song at hand – you can hear bits of Accept, Metallica, Megadeth, and Yngwie Malmsteen throughout these eleven tracks. The band prove equally up to the task on a faster, double kick anthem such as "Burn It Down (With Fire)" that features Brittney Slayes of Unleash the Archers just as much as settling into a more 90's black album Metallica effort such as "Tormentor". Overall the listeners will be hard pressed to not wave fists, headbang, or even jig to certain hooks (the latter evident on the theatrical/folk influenced "Brothers of Cain"). The ace of the appeal lies in the masterful vocal performance of Fang. Utilizing enthusiasm, multi-octave range and sustain, plus that added personal charm necessary to pull off themes of ancient/battle/fantasy times as if you are truly there, he understands the need to fluctuate song to song to help throw this material into the memory banks longer than a single pass. "Chasing Shadows" a perfect example of his commercial tendencies, understanding where to push forward and when to lay back, plus using proper harmonization opportunities to the max. The artwork, production, tones, and performances to these ears rival the main leaders of their preferred influences – generating excitement even if the topics for some may rear into that 'cheesy' tag (think Twilight Force, Grail Knights, Rhapsody (Of Fire) here). Melody and harmony drive Lords of the Trident sonically – and this is prime US traditional metal for those who love the genre and want something new to treasure. Time to seek out some back discography and ride that horse into battle."

Svart Records 2018 - Limited Edition in GOLD VINYL - 300 copies, Gatefold Cover ! 8 from 10 Points in Rock Hard by Boris Kaiser !

US classic Rock meets US Prog Metal meets Psychedelic/Black EPIC and all with great hooks and melodies !

Never content to exist in an easily defined space, New Light Choir defy genres, preferring to weave diverse threads of sound into their own unique sonic tapestry. On their previous album Volume II (High Roller Records, 2015) the two-headed genre hybrid group explored the 50-year history of dark, heavy guitar-based music and made what Invisible Oranges called ?music made from missing links?. New Light Choir?s new album Torchlight, due out on Svart Records on November 23rd, sees the duo step on the distortion pedal and travel deeper into the mystical, dusk-filled metallic territory hinted at on its predecessor. Torchlight is possessed with the same creative spirit and a sense of wonder as the early albums by genre forefathers Trouble and Manilla Road, yet New Light Choir are devoid of the trappings of retro worship and prefer to look into the future.

For Fans of Primordial, Satan's Host, Rush, Thought Industry, a touch of NWOBHM

Return to Analog Records 2018 - Limited Edition of 500 copies in Black Vinyl - Numbered copies

Fantastic Prog Rock from Canada, originally released in 1976

For Fans of King Crimson, Saga, Yes, Gentle Giant, ELP

Founded in Montreal, Quebec, Canada in 1972 - Disbanded in 1976

POLLEN was a Canadian four-some that released only one album of symphonic progressive in the seventies. They were from the Quebecois progressive scene and were perhaps the most-known Canadian symphonic group with HARMONIUM but their music is much purely rooted in the symphonic genre than their countrymen, whose music is more folk-oriented. The group consisted of Jacques Tom Rivest (vocals, bass, acoustic guitar, keyboards), Richard Lemoyne (electric & acoustic guitars, bass, keyboards), Claude Lemay (keyboards, flute, bass, vibraphone, vocals) and Sylvain Coutu (drums, vibraphone).

The only album was released in 1976. It is a very good keyboard dominated symphonic album. They remind mostly of the English groups like YES, GENTLE GIANT and ELP but not really distinctly any of these groups. In addition, they also have some of that typical French sound and similarity to the seventies French symphonic groups such as CARPE DIEM. The vocals are in French, which is common for the French Canadian groups.

POLLEN is essential Quebecois symphonic progressive. Recommended!

Armor Records 2018 - US Private Press - Direct Import ! Limited Edition of 300 copies in White Vinyl

Now on Vinyl for the first time ever!!!!

In The Battle would find Saint returning to its classic metal roots of the 80s in addition to welcoming Josh Kramer back into the fold. Don't expect grungy modern metal from Saint. Expect a lesson in EXACTLY what old-school metal should sound like. When you think of metal, think of Saint. Offering the total package, In the Battle only solidifies Saint as a tremendous force in crunchy, traditional, heavy metal.

Often compared to Judas Priest, the muscular guitar riffs and elite vocals also bring to mind Barren Cross, Dio, Bloodgood and Iron Maiden.

*AngelicWarlord Reviews: "What else can you say? In The Battle proves an all around solid comeback effort in combining a strong production job with the band's top notch musicianship and songwriting. While "Ryders" is by far the album's strongest track, the hard hitting title track, the catchy "The Choice" and the seven minute long masterpiece "Sacrifice" are equally commendable."

SCALD - Will of the gods is a great power DLP (NEW*LIM.300 BLACK V.*EPIC DOOM METAL) - 22 €

The album is to be presented on double-LP vinyl, in three colors - regular black, limited silver with red splatter, and limited white with black splatter - and will include the original album in its entirety as well as four additional live & demo tracks.

Epic Doom Metal for Fans of Bathory, DoomSword, Atlantean Codex, Erebus, and Altar of Oblivion

A true cult classic, Will of the Gods is a Great Power is the lone studio album of Russia's SCALD. Though the band's existence was brief, the majesty & might of their only album serves as a conduit for immense power that reverberates still for posterity.

Originally released in 1996, SCALD's Will of the Gods is a Great Power was a record that was both behind the times and way ahead of them.

Undoubtedly, the band's primary influence was Bathory's now-beloved Viking period, but at the time, such an influence was quite unorthodox and not particularly in favor. Nevertheless, despite its overt nature, where SCALD took this influence was something else entirely. Triumphant, tragic, emotive, EPIC: truly, the 53 minutes comprising Will of the Gods is a Great Power evoke a journey of utterly heroic proportions. Along that journey do SCALD skillfully balance awe-inspiring atmosphere with earth-moving heft, soul-stirring melody with lumbering propulsion - a poignant pagan metal sound that's firmly rooted in doom, but not bound to it. Simply, the album is its own world, its own sound, its own experience. And that experience subsequently found a small-yet-devoted following who shared this grand secret to anyone who would listen, thusly fetching expensive prices among the collector market. Sadly, SCALD's existence ceased in 1997 following the death of vocalist Maxim "Agyi" Andrianov. Nevertheless, what the band accomplished in just one record was a torch that's been picked up in recent years by the likes

of DoomSword, Atlantean Codex, Erebus, and Altar of Oblivion among others. Although there have been subsequent reissues since its original release, this is the first time in over a decade that Will of the Gods is a Great Power has been available on vinyl format. Now, hear this stark 'n' stirring classic in its definitive version!

Everyone's skulls were shattered that night as the immense amount of low end filled the halls of terror. Bottom end was everywhere as the audience shrieked with fear. Fright night was here to stay which lasted for about an hour and a half

UNCLE ACID & THE DEADBEATS - Wasteland (NEW*LIM.BLACK VINYL*OCCULT DOOM METAL*SABBATH*WIZARD) - 22 €

RISE ABOVE Records 2018 - Limited Edition in Black Vinyl - their 5th Album ! Occult Doom / Stoner / Psychedelic Metal for Fans of Black Sabbath, Electric Wizard, early Scorpions

You can probably feel it already. Amid the shimmering haze of dusk. In the marrow of your bones. The darkness is getting darker. Malevolent forces are on the prowl. The wasteland is beckoning. Uncle Acid is on his way home.

A disorientating journey through Kevin Starrs (AKA Uncle Acid)' wonkiest dreams, Wasteland glides majestically from punchy and direct psych-rock anthems like "I See Through You" and "Shockwave City" to the viscous, somnambulant ooze of the eight-minute "No Return" and the twinkly-eyed bad trip of the album's mesmerising title track. Recorded at the legendary Sunset Sound studio in Los Angeles, Wasteland boasts the kind on irresistibly raw and exuberant sound that only the greatest bands can generate.

Yet more confirmation that Uncle Acid exist in their own musical universe, Wasteland is also a powerful cautionary tale: one rooted in the alien landscapes of Starrs' imagination, but with a very clear connection to the deranged chaos of today's political world. As humanity cheerfully circles the plughole, Dystopian visions and present-day horrors have become more-or-less interchangeable, making Wasteland's ghoulish surrealism a lot more pertinent and disturbing in the process.

While most musicians seem content to chase their own (or other people's tails), Uncle Acid & The Deadbeats remain proud and resolute individualists and Wasteland is simply their most powerful and memorable spurge of creativity to date. Masterfully echoing the magical atmospheres of heavy music's turbulent past while sounding entirely unlike anything else available to human ears, this is what happens when the shadows come to life and suffocating darkness, Uncle Acid & The Deadbeats style, is the only show in town.

Excerpts is simultaneously warm in its production yet cool in execution, swaggering through its 43-minute duration with Uriah Heep's jauntiness and lively playfulness. MAGAZINE

DEAF FOREVER #26 (NEW*GER MAG*SACRAL RAGE*FIFTH ANGEL*POSTER: IRON MAIDEN + MARK SHELTON) – 7 €

“I’m waiting in my cold cell, when the bell begins to chime

Reflecting on my past life and it doesn’t have much time...”

Gibt es ein Leben nach Iron Maiden? Wie viel Zeit bleibt uns noch mit Bruce, Steve und Co.? Wenn man von der „wichtigsten Metal-Band der Welt“ spricht, dann provoziert man natürlich Diskussionen - auch redaktionsintern. Letztlich gibt es aber gute Gründe, Iron Maiden als kleinsten gemeinsamen Nenner aller „echten“ Heavy-Metal-Fans zu bezeichnen, und deshalb beschäftigt uns die Frage nach dem Karriere-Ende mehr als bei jeder anderen Band. Titelstory und 20 Seiten Special!

Die Griechen Sacral Rage sind der heißeste Scheiß im progressiven Heavy Metal und ballern uns mit ihrem zweiten Album „Beyond Celestial Echoes“ eins der großen Jahres-Highlights in diesem Genre um die Ohren. Fans alter Watchtower-Glanztaten, aber auch US-Speed-Metaller mit Agent-Steel-Schlagseite sollten diese Band unbedingt auf dem Schirm haben.

„The Wake“, das neue Album der kanadischen Prog-Thrash-Punks Voivod, begeistert nicht nur unsere Mitarbeiter Annick und Wolf. Wir begaben uns mit der Band in ihrer Heimatstadt Jonquière an den Ort ihres allerersten Live-Auftritts vor 35 Jahren und sprachen über Vergangenheit, Gegenwart und Zukunft. Die volle Packung Voivod also.

Und noch eine volle Packung: Das Party.San Open Air, unser Lieblings-Festival im harten Bereich, hat uns wieder drei Tage lang begeistert, gefordert, aus der Reserve gelockt und rund um die Uhr in Atem gehalten. So wie’s sein muss eben. Und wir haben am Deaf-Forever-Stand, wo auch die Bands ihre Autogramstunden abhalten, wieder viele von euch getroffen und sowohl nette als auch hitzige Diskussionen geführt. Ach ja: Und es gab bemerkenswerte Live-Shows!

Andy Schulz findet das neue Album der polnischen Staatsrebellin Behemoth genauso stark wie den letzten Überflieger „The Satanist“, und dem schließen wir uns an. Wortführer Nergal ist längst zu einer echten Persönlichkeit herangereift, deren Äußerungen nicht nur in kirchlichen Kreisen gehört und bewertet werden. Auch im Metal gehört er längst zu den eloquentesten Gesprächspartnern.

Damit uns Michael Kohsiek nicht ständig auf die Nerven geht, schicken wir ihn hin und wieder gerne zu geheimen Kauz-Metal-Treffen in den Wald. Diesmal traf er im dichtesten Dickicht auf die Herren Slough Feg, die dort seit vielen Jahren Hartholz sammeln - von der Öffentlichkeit weitestgehend unbemerkt. Dass sich Michael auf einmal neben sie hockte, bemerkten die Kultsammler gar nicht.

Weitere Interviews haben wir geführt mit: Sodom, Fifth Angel, Slaegt, Brainstorm, Ultha, Cirith Ungol, Unleashed, Helrunar, Mare, Them, Artillery, Undertow, Ashbury, Weak Aside, Witherfall, Windhand, Tantara, The Skull sowie The Wizards.

Unsere Grabhöhle namens Under A Funeral Moon liefert euch diesmal u.a. Interviews mit Faustcoven, Moenen Of Xezbeth, Manes und Maligner. Unsere beliebte Rubrik The Dungeons Are Calling präsentiert euch wieder Heavy-Metal-Tipps und Talente.

Zu den Schwerpunkten unserer Konzert- und Festivalrückblicke zählen u.a. das Headbangers Open Air und das Chaos Descends.

Natürlich gibt’s ein ganzes Erlebniszentrum voller Tonträger-Reviews, und zwei historienträchtige Poster spendieren wir euch ebenfalls: Manila Road – Mark Shelton (R.I.P.) sowie Iron Maiden “The Soundhouse Tapes”.

DEAF FOREVER #27 (NEW*GER MAG*K.K.DOWNING*HELLOWEEN*POSTER: THE DEVILS BLOOD / PENTAGRAM) – 7 €

“Heavy Metal is the law that keeps us all united free

A law that shatters earth and hell

Heavy Metal can't be beaten by any dynasty

We're all wizards fightin' with our spell”

Diese Zeilen sang Mitte der Achtziger ein 22-jähriger Hamburger namens Kai Hansen, damals Gitarrist und Frontmann von Helloween, die mit ihrem Debütalbum “Walls Of Jericho” DIE deutsche Speed-Metal-Scheibe veröffentlichten und weltweit Legionen von jungen, wilden, ungestümen Bands beeinflussten. Auf 14 Seiten widmen wir uns der Entstehungsgeschichte des Albums, befragen Hinz und Kunz und beleuchten das Teil aus jeder möglichen Perspektive. Der Helloween-eigene Humor sorgt für kurzweiliges Lesevergnügen.

Nicht minder spannend ist unser Interview mit K.K. Downing: Seit seinem Ausstieg bei Judas Priest ist es ziemlich still um den legendären Gitarristen geworden. Nun erscheint seine Autobiografie, in der K.K. schonungslos offen mit sich, seiner Vergangenheit und seinem Umfeld abrechnet. Auch im Gespräch mit Götz Kühnemund, dem ersten Interview seit langer Zeit, nimmt K.K. kein Blatt vor den Mund.

Die Death-Metal-Band der Stunde heißt Sulphur Aeon und hat mit „The Scythe Of Cosmic Chaos“ soeben ihr drittes, überragendes Album abgeliefert und damit unsere Soundchecker völlig begeistert. Ein interessantes inhaltliches Konzept und eine sehr eigenwillige

Herangehensweise an ihr Songwriting heben die Band noch weiter von der Masse ab.

Wie jedes Jahr um diese Zeit haben wir uns in unseren Plattenzimmern verbarrikadiert, sind tagelang in uns gegangen und haben das Jahr 2018 in seine Einzelteile zerlegt. Kurz: Es ist Jahrespoll-Zeit! In musikalischer Hinsicht war es ein tolles Jahr, so viel steht fest. Und ja, auch Fenriz hat trotz heftiger Meckerei eine Top 20 zusammengestellt. Gekoppelt an den Leserpoll-Bogen findet ihr außerdem - wie immer - unsere große Verlosung.

Neudi wollte schon lange ein Hawkwind-Porträt schreiben, und jetzt hat er Captain Dave Brock, den alten Lemmy-Kumpel, endlich an die Strippe bekommen. Der 77-Jährige (!) ist trotz seiner Drogenekapaden noch erstaunlich frisch im Oberstübchen und konnte sich überraschenderweise an vieles erinnern, das Neudi längst vergessen hatte.

Auch die Holländer Picture, lange Zeit die einzige Hardrock- und Metal-Band ihres Landes von internationalem Ruf, waren uns eine größere Story wert. Lars Schuckar dröselte 40 Jahre Rockhistory auf, kommentierte sämtliche Picture-Alben und fragte weitere Löcher in den Käse.

Weitere Interviews haben wir geführt mit: Metal Church, Chapel Of Disease, Darkness, Hank Von Hell, Ironflame, Hangman’s Chair, Legion Of The Damned, Blood Of The Sun, Dawn Of Winter, Jon Schaffer’s Purgatory, Frozen Land, Lethan, Striker, Arroganz, Final Breath sowie Black Oath.

Unsere Friedhofswiese namens Under A Funeral Moon liefert euch diesmal u.a. Interviews mit Svartidaudi, Corpessed, Solar Temple, Zealot Cult und Evoken.

Unsere beliebten Rubriken The Dungeons Are Calling, Maniac der Ausgabe und Forgotten Jewels liefern euch wieder Wahnsinnige, Tipps und Talente. Zu den Schwerpunkten unserer Konzert- und Festivalrückblicke zählen u.a. das Way Of Darkness und das Hammer Of Doom. Natürlich gibt's ein ganzes Schlachtfeld voll an Tonträger-Reviews, und zwei geschmacksichere Poster spendieren wir euch ebenfalls: The Devil's Blood ("The Graveyard Shuffle") sowie Pentagram.
