The last 4 (Demo Two) was their second demo that the label requested, giving them enough for a full album. The songs here are in the same order as found on the two original demo cassette tapes. S.O.S. has an incredible "Amazing Grace" guitar addition at the end. The Song "One

Step" was later changed to "One Step at a Time" and "Satisfied" was later changed to "Are You Satisfied". Angelica's debut album went on to become one of Christian Rock's greatest classics and was recorded with Rob Rock (Joshua, ) at vocals.

Angelica was a late 80's early 90's Christian Hard Rock/Metal AOR band that was the brainchild of guitarist Dennis Cameron and with a very 80s commercial hard rock sound, less like Sunset Strip metal and more like the heavier side of AOR.

For Fans of 707, Shout, Tamplin, Dokken, Prophet, Strangeways, Alien, Unruly Child, Stryper, Crystavox, Joshua, Mr. Big, Frehley's Comet or Sammy Hagar. Walkin' In Faith achieved a measure of crossover support from the secular heavy rock fraternity, impressed by Cameron's guitar playing.

AXEWITCH maybe weren't as known as let's say CANDLEMASS, HEAVY LOAD or EUROPE, but managed to leave great legacy, and all 4 albums they released back in the day, have these days legendary status. In 1982, shortly after doing first demo tape, the band debuted with a 4-track EP entitled "Pray For Metal". While they were not hiding the fact, that they were inspired by British acts such as JUDAS PRIEST, their very first recordings already presented their very own and unique sound.

**BLITZKRIEG - Ten (NEW\*LIM.500\*BRITISH STEEL\*SATAN\*BLIND FURY\*RERELEASE 1996) – 15 €**

Cult Metal Classic 2019 - Brandnew lim. 500 Rerelease of this British Steel Classic !

This is the 3rd album of the legendary NWOBHM band BLITZKRIEG, that was originally released on CD in 1996, featuring some of the best songs that the band has ever written. The original version has long been out of print and nowadays sells for quite expensive. So a reissue of this great record was more than necessary given the big fan base of the band. This reissue is identical to the mega rare Japanese edition that came with two bonus tracks.

"This album originally started off life in 1991 as the "10 Years of Blitzkrieg" mini album / maxi single. It was recorded and released to commemorate the 10th anniversary of the very first Blitzkrieg single. Unfortunately, it wasn't available in sufficient quantities to satisfy the growing number of Blitzkrieg fans around the world. So we have re-recorded some of the parts contained in the 5 tracks from the original release and added five new songs to make it into what it should have been in the first place, a full Blitzkrieg album. I think that it is a fitting follow-up album to "Unholy Trinity". I hope that you enjoy it! Thank you for your continued support."

Brian Ross 1996

"This album is the result of a lot of hard work in a very short space of time. It's good to be working with Glenn again. I would like to take this opportunity to wish Tony J. Little the best of luck for the future with his new band."

Brian Ross, March 1998

Retroactive Records 2019 - Brandnew US White Thrash / Speed Metal Killer - their Demo stuff from 1986 remastered, their best stuff ever - a real must have !

For Fans of Exodus, Metallica, Believer, Anthrax, Tourniquet

The CD is a 12 page insert with lyrics and pages of iconic band photos with personal reflections from Jimmy Brown. CD features the original six songs, plus the two legendary tracks off of the California Metal Compilation, Attack and A Space Called You.

This is the ultimate Deliverance reissue that celebrates the impact of a band that has a musical legacy second to none. And yes, the album title is Greeting of Death, but the song on the demo is Greetings of Death. That's the way Jimmy's girlfriend heard it when he was telling her what he wanted, and that's the way she made it! Get them while you can - these are treasures! .

Metallica had No Life Til Leather...an iconic demo that catapulted the band into unforeseen glory and status.

Deliverance's Greeting of Death demo (1986) did the same thing for the most heralded Christian thrash act of all-time. Frontman, Jimmy Brown asked his girlfriend to draw up a cover of a Grim Reaper waving "Hi!" Inspired by a Chic Tract he had seen and she drew it, and used rub on letters from a stationary store. Jimmy made all the dubs from a tape deck that belonged to his sister. Three tape decks later, he had ordered 5,000 copies within a year's time. The demo gained a life of its own! People everywhere knew it!

People would sing Speckled Bird (exclusive to this demo) when the band would go to shows and people at the shows were singing along with the songs from the demo! Greeting of Death was a very special moment in time, captured on cellophane magnetic tape and it propelled Deliverance to being a regular at the Sunset Strip and the newly emerging Christian Festival networks. With their roots deeply rooted in the Greeting of Death demo, Deliverance would release two of the most influential and critically acclaimed Christian thrash releases of all time in the 1989 Self-Titled and the 1990 release Weapons of Our Warfare. This 1986 demo, Greeting of Death is what propelled them to impact the thrash scene more than any other single Christian thrash band, ever.

All three versions of this iconic demo were intentional in making it look, feel, and sound like the original release featuring the iconic cover drawn by Jimmy's girlfriend, and printed black and white on uncoated (flat/not glossy) paper just like the original demo.

**ERADIKATOR - Obscura (NEW\*UK POWER/THRASH METAL\*XENTRIX\*M. RAGE\*WRATHCHILD) – 14 €**

Divebomb Records 2019 - Brandnew UK Power/Thrash Metal Killer

Hailing from the birthplace of heavy metal—Birmingham, England—ERADIKATOR are a four-piece thrash outfit that initially set out to create face-melting, ear-shredding metal that would make even the most hardened ears hemorrhage liquid steel. Back with Divebomb Records for their third consecutive release—following *Dystopia* (2013) and *Edge of Humanity* (2015)—the U.K. quartet has, however, broadened its palette and focused on masterfully crafted songwriting with forthcoming nine-song full-length, *Obscura*.

Speaking of the new album, guitarist Andy MacNevin comments, "Obscura is about addressing the darker side of the human psyche. It's a concept album that deals with the different stages of grief and how they impact the mind, looking at how we manage those feelings and ultimately try to move forward whilst not forgetting that which we have lost."

Recorded once more with producer Russ Russell (NAPALM DEATH, AT THE GATES, EVILE) at The Parlour Recording Studio, *Obscura*'s 47-minute journey demonstrates a compositional raising-of-the-bar that one might parallel to MEGADETH circa *Countdown to Extinction*—a more streamlined and immediately memorable approach that doesn't stray too far from its roots. From the undeniable hooks of opener "Nightmare Dawning," ERADIKATOR's first-rate brand of meaty-yet-melodic thrash grows increasingly diverse—take, for example, the echoes of acts such as MASTODON or GOJIRA in "Hourglass," or the unanticipatedly bluesy intro to the epic "I Want to Believe."

Further elaborating on *Obscura*'s lyrical direction, bassist/vocalist Pat Cox adds, "It's about the sense of loss we find within ourselves and the propensity to dwell on and be blinded by grief—following the journey through the sorrow and darkness, reaching the end, and coming out the other side scarred but wiser."

"Growth" and "maturity" are all too often subtle signs of decline with regard to the heavy metal landscape, but ERADIKATOR has executed this impressively ambitious evolution to utter perfection, and *Obscura* is sure to remain a benchmark album amidst the group's growing discography.

FOR FANS OF: MEGADETH, WRATHCHILD AMERICA, MELIAH RAGE & XENTRIX

**ETERNAL THIRST - Purge the Bastards (NEW\*CHI HEAVY METAL\*SKELATOR\*ATTACK\*SACRED STEEL) – 13 €**

Metal on Metal Records 2019 - Fourth full-length album of this Chilean heavy/power metal band, featuring the scene veteran Francisco Vera (ex-Battlerage) on drums.

The Chilean purveyors of unadulterated steel are back with their 4th full-length album. Powerful riffs, driving guitars, relentless, galloping drumming and solid songwriting with well thought-out arrangements is what they offer. The vocals are quite versatile and give the band a sharper edge and a more personal character. For some, the high pitched screams might be a bit too quirky, but there's a good chance old school metalheads will dig them, especially if they like the voices of very young Bobby "Blitz", Gerrit Mutz, Jason Conde-Houston or Quimby "Earthquake" Lewis, but also of Jutta Weinhold. The band continues to show their inspiration by both German heavy/speed metal from the early/mid '80s and US power metal, this time also throwing in some more classic Maiden-esque patterns for a good measure. Many bands do, but few combine these influences as successfully as these guys. When sheer energy oozes from the speakers, you know it's done right! Check them out if you're a fan of bands like SKELATOR, SKULLVIEW, SOLITARY SABRED, ZED YAGO, SACRED STEEL, IRON MAIDEN, PARAGON, HELSTAR, ATTACK and the German TYRANT. This is metal as pure as can be!

Svart Records 2019 - Brandew Doom Metal Monster !

For Fans of Black Sabbath, Saint Vitus, Trouble + Kyuss / COC

Goatess summon the frenzy and religious ecstasy of a Bacchus cult with their third, and highly anticipated new album Blood and Wine. Riffs of biblical, Cecil B. DeMille magnitude, part the Red Sea and chariot their way across the dunes like a relentless raging Roman legion. Expert songwriting by modern veterans of the scene, Sweden's Goatess take the traditional doom metal foundations of St Vitus, Trouble and early Cathedral out to the desert and mould it into a set of arid, hypnotic stoner grooves.

Bringing to mind modern classics of desert rock like the catchier moments of Kyuss's Sky Valley and Corrosion Of Conformity's Blind album, Blood and Wine is a thirst quenching refreshment in a parched dust bowl.

The Gygax style is old school melodic heavy metal mixed with some speed and hard rock groove. You might hear some musical references from Think Lizzy to Manilla Road to Cirith Ungol or Iron Maiden, Black Sabbath + Deep Purple. Just over a year after the release of their acclaimed "Second Edition" LP, GYGAX returns with their third, and most triumphant album to date, "High Fantasy". The band's fantastic storylines come blazing to life in the nine brand new tracks on the new LP, which surges with powerful riffs, killer harmonization, and unavoidable hooks from beginning to end.

"High Fantasy" was recorded live in The Captain's Quarters Studios in GYGAX's hometown of Ventura, California, with former guitar player Armand Tambouris at the helm. As with their prior album, the "High Fantasy" artwork was completed by Fares Maese, who is also a renowned artist through his works in the gaming community, including Warhammer, Pathfinder, and more.

**INNER STRENGTH - The Common Theme (NEW\*LIM.ED.\*US POWER/PROG METAL\*LETHAL\*P.WALTZ) – 15 €**

Divebomb Records 2019 - Brandnew melodic US Power/Prog Metal Classic

FOR FANS OF: LETHAL, DRIVE, CRIMSON GLORY, PSYCHOTIC WALTZ & JESTER'S MARCH

The earliest, little-known incarnation of INNER STRENGTH formed in 1986 in Long Island, NY as a crossover hardcore/punk outfit—portions of which would eventually resurface in NYHC notables Beyond (and later Quicksand, among others). Three demos and three years later, founding vocalist Scott Oliva endeavored to put together a stable all-new lineup, transforming INNER STRENGTH into the progressive metal unit for which the band is now remembered. This formation of the band finally took shape by the fall of 1990: Oliva joined by drummer Joe Kirsch—later replaced behind the kit by Frank Todarello in 1992—alongside former Ariocho members Justin Hosman (bass) and Joe Marselle (guitar).

Despite the overall reception of their excellent 1993 album, Shallow Reflections, suffering under the eventual dissipation of their record label, INNER STRENGTH was still firing on all cylinders into the mid-'90s—continuing to rehearse and perform live. The group was also writing and recording some of its best material, gravitating toward a thicker and more crunch-centric sound that still remained true to the core characteristics of the band's identity. While working toward The Common Theme—a sophomore full-length that never fully took shape—however, INNER STRENGTH's sound continued to shift. Eventually, by early-1997, the band had even rechristened itself TILT, shortly after which Marselle stepped away—followed by Oliva—and the INNER STRENGTH story was complete...

...until now! Decades later, Divebomb Records is thrilled to present The Common Theme—the final disc of a comprehensive three-disc series—compiling assorted 1994-1996 recordings (15 songs in total) of material that was intended to eventually develop into INNER STRENGTH's sophomore album—the majority of which have never been publicly released. Remastered by Jamie King at The Basement Recording, the disc will be packaged alongside a thick booklet full of ephemera, and part three of a retrospective interview with Scott Oliva and Joe Marselle.

**JESS BY THE LAKE - Under The Red Light Shine (NEW\*OCCULT ROCK\*JESS AND THE ANCIENT ONES) – 14 €**

Swart Records 2019 - Brandnew Solo Album from the Voice of Jess and the Ancient Ones !  
Jasmin Saarela, known as the enigmatic leader of the cult band Jess and the Ancient Ones, is preparing for the release of her solo debut. To be released under the moniker Jess By The Lake, the solo album Under The Red Light Shine is a more down to earth take on the traditions of rock music than the acid-heavy guitar walls and cosmic dimensions of her main band. Jess By The Lake's building blocks are more organic, with a focus on nature mysticism and a curiously Finnish brand of melancholy. The music flows unrestrained, with a few tasteful nods to genre forebearers such as Danzig or David Bowie hidden here and there.

The straightforward no holds barred -type of song is built around a central theme that's famous from many a Danzig song – a hunter tailing helpless female prey – but turns the setting on its head by placing an empowered female protagonist as the hunter.

Saarela describes how the songwriting process has stemmed from a need to create and ponder one's existence and surroundings.

– “Music for me represents constant progress and a means to get by in our existence in this dimension. I've written these songs on the guitar or piano. I first started my solo project with Timo from Jess and the Ancient Ones, but eventually gathered a solo band around me from people at my school.

Saarela considers the album a paean to nature and the human mind, also to an indescribable longing, so well known to all romantic artists of the past centuries.

– “I named the project based on the fact that I've lived by a lake for more or less my entire life. I've grown in the forest and felt a strong, unchanged bond with nature through the years.”

**MOON CHAMBER - Lore of the Land (NEW\*NWOBHM/70's HEAVY\*PAGAN ALTAR\*SARACEN\*C.VIPER) – 14 €**

No Remorse Records 2019

Marta Gabriel, the front woman of heavy metal stalwarts CRYSTAL VIPER is considered to be one of the finest singers of her generation. Rob Bendelow is the founder and original guitarist of the legendary British hard rock band SARACEN - as the composer of albums such as "Vox In Excelso", "Redemption", and most notably "Heroes, Saints And Fools", Rob is a truly respected contributor to the history of classic rock. So what might the result be if those two were to join forces, and combine their obvious passion for music? The answer is MOON CHAMBER.

In addition to Marta and Rob, three other musicians complete the MOON CHAMBER ranks. Keyboard duties are handled by Paul Bradder of SARACEN, and the driving percussion comes courtesy of PAGAN ALTAR's Andy Green. In addition to vocals, Marta recorded all the bass guitar parts for the album, but Richard Bendelow (Rob's son) is now responsible for the bass element going forward. The album comprises

ten tracks, deeply rooted in the classic rock of the '70s and '80s, whilst drawing inspiration from the wealth of English folklore, history and legend.

Shadow Kingdom Records 2019 - Brandnew female fronted US Metal Killer in jewel Case CD Edition !

For Fans of obscure and traditional US Metal in the vein of Cirith Ungol, Slough Feg, Brocas Helm, and Judas Priest/Black Sabbath with unbelievable great female Vocals in the vein of a Tim Baker (Cirith Ungol)

One of the most exciting and electrifying bands in today's occult heavy metal scene, for the past six years, SAVAGE MASTER have swiftly built an impressive canon of work over the course of two cult albums, one EP, one single, and especially their over-the-top live shows. The band was founded in 2013 by guitarist Adam Neal and vocalist Stacey Savage, so inspired by their love of heavy metal and horror. Soon enough, a mysterious spectacle was created, and it bore the name SAVAGE MASTER. From there, the band began their assured ascent through the underground, touring non-stop across North America and Europe, playing such festivals such as Keep It True, Hell Over Hammaburg, Legions of Metal, Frost and Fire, Ragnarokkr, Hells Heroes and many more, and now landing themselves an album deal with longtime fans SHADOW KINGDOM.

The first fruit of that union, Myth, Magic & Steel is everything longtime fans of SAVAGE MASTER have been waiting for - and dazzling ammunition to gain a legion of brand-new fans. Right from the very first seconds of the album's opening title track, Myth, Magic & Steel bristles with a timeless electricity that reminds us all of the eternal glory of heavy metal, as well as the wonders that lurk beyond the

shadows. Each song charges forward with energy but also dynamics, drive but also hooks - no sonic overload here - as SAVAGE MASTER's metal is forged from ancient steel. From track to track, the album's namesake is played out with darkness and drama, with the track-flow itself weaving an overarching spell that makes Myth, Magic & Steel more than just a collection of songs, even more than just a mere album: indeed, it is an experience. Of course, leading the charge are the immediately recognizable vocals of Stacey Savage; here, she's never sounded more commanding, her power and clarity truly putting her in a league all her own. Topping it all off is a gritty-yet-nuanced production that's the epitome of ageless - no trendy or computerized "recording" here! Speed metallers, occult rockers, thrashers, NWOBHM fanatics, everyone in between and especially beyond - all will become entranced by SAVAGE MASTER's Myth, Magic & Steel!

**SPACE GOD RITUAL - The Unknown Wants You Dead! (NEW\*US DOOM METAL\*ARKHAM WITCH\*HELL) – 13 €**

Metal on Metal Records 2019 - Brandnew US Doom Metal

Enthusiasts of all things doomy, weird and Lovecraftian... rejoice! The new album from Portland, Oregon's Victorian cultists SPACE GOD RITUAL is the perfect offering to the Ancient Ones, and they are pleased! "The Unknown Wants You Dead!" sees the trio take their proto-doom style and bring it to a whole new level of theatricality and heaviness.

Their sound is familiar, but also very different mostly thanks to the orchestrations that wouldn't be out of place on an old horror movie soundtrack, courtesy of the band's sole instrumentalist, Mr Glamour. The vocals also contribute to their eerie and unique style. The main vocalist, Olaff, has a classic heavy metal voice, yet sounds quite quirky, often resembling Simon from ARKHAM WITCH, while second vocalist, known only as The Owl, is responsible for orations and sounds completely demented. They tell their eldritch tales of the macabre in a vaudevillian style. It's a real treat for all those who love their doom with a twist and with a ghoulish atmosphere.

For Fans of THE LAMP OF THOTH, ARKHAM WITCH, PENTAGRAM, BLACK SABBATH, HELL, LUCIFER'S FALL or BRITON RITES

•1994 Hard Rock Album of the Year

Dove Award winning 1994 Hard Rock Album of the Year has been completely remastered with enhanced art work. This amazing album sounds exactly like you would expect in 2019, a fat punch in the mouth. This is Ken Tamplin (Shout) at his absolute best. It's hard hitting, fist pumping, driving, hard rock. The song SLAVE TRADE has got to be one of greatest fist-pumping anthems out today, no wonder this won a Dove Award.

It's hard to believe that this amazing album is now 26 years old. Originally released in 1993 on Benson records, this is Ken Tamplin's 3rd solo project. Although this went almost undiscovered due to Bensons lack of proper promotion is is without a doubt Ken Tamplin's finest hour. So when the opportunity to remaster this gem and bring it out in all it's glory, it was obvious no-brainer.

**TERMINUS - A Single Point of Light (NEW\*EPIC METAL MASTERPIECE\*E.CHAMPION\*VISIGOTH) – 14 €**

Cruz Del Sur Records 2019 - Brandnew Epic heavy metal from Northern Ireland with science fiction-themed lyrics!

For Fans of Eternal Champion, Slough Feg, Visigoth, Solstice

Second full-length album from Northern Ireland epic metallers Terminus that continues their exploration into science fiction realms. It took three years for Terminus multi-instrumentalist and songwriter David Gillespie to compile the tracks for the bands sophomore A Single Point of Light studio album.

During that time, Gillespie was willingly subjected, in his own words, to endless navel-gazing and hand-wringin over the albums particulars. Since he was responsible for every note and arrangement, not to mention handling the recording process at his home studio, the album became all-encompassing, a quest to improve upon the bands well-received 2015 The Reapers Spiral debut. Based on the strength and depth of A Single Point of Lights seven tracks, Gillespie and vocalist James Beattie succeeded in every respect.

Mixed and mastered by Richard Whittaker (Solstice) and with artwork created by Anaís Mulgrew, A Single Point of Light represents the logical next step in the music development of the Northern Ireland epic metallers. Their brand of twisting, sometimes complex, but always effective metal does not lend itself to one particular era or sonic reference point. Instead, Terminus songs are often mini-journeys onto themselves, a regular confluence of spiraling riff changes, guitar harmony duels and Beatties emotive vocals.

The A Single Point of Light album title stems from the song Mhira, Tell Me the Nature of Your Existence, where the main character had her consciousness digitally preserved upon death. Gillespie compares it to how a blind person who was once sighted still sees in their dreams; the mind will process stimuli and thoughts as images to represent them. The Single Point of Light in the title and the song itself is the

outside world communicating with her which she perceives as a singularity amongst darkness. A Single Point of Light is split between the albums first three standalone tracks, and the concept that ties together the final four songs and relates to the album title.

The albums lyrics and concept benefit from the longstanding partnership between Gillespie and Beattie - the two men have known each other for 20 years and have spent the last eight in Terminus, using each other as a sounding board for the science fiction themes that are so critical to the bands overall vision. Their work ethic and commitment to the final product is unquestioned: We've spent many, many hours with him standing in front of a microphone and me in front of a computer screen, says Gillespie. Now strictly a studio act, Terminus has continued to carve their own indelible path on A Single Point of Light, an album of infinite possibilities and conceptual intrigue.

#### **THE NEPTUNE POWER FEDERATION - Memoirs of a Rat Queen (NEW\*CD\*AUS OCCULT METAL\*GHOST) – 14 €**

Cruz del Sur Records 2019 - Brandnew CD Edition !

AUS Psychedelic / Heavy / 70's Rock / Occult Metal for Fans of GHOST, Heart, Hawkwind and AC/DC

Infectious space rock and metal from Australia, delivered by the one and only Imperial Priestess. Bow to the Imperial Priestess! On Memoirs of a Rat Queen, Australian psychedelic rock and roll occultists The Neptune Power Federation have arrived to take you on a sonic journey like no other. She came from outer space, a celestial being with supernatural powers, namely, inhuman vocals and a godly stage presence. She is the only one who can make four leather-clad bike-rockers readily dedicate their lives in subservience, ready to serve her in the name of rock and roll. Tales of her existence have already been shared, but there is a new chronicle, one that will shine a light on her trans-dimensional travels and accomplishments. Its name is The Memoirs of a Rat Queen. Its subject?

The Imperial Priestess. Her band? The Neptune Power Federation. Formed in Australia in 2012, The Neptune Power Federation originally started as a studio project with a singer based in the United States. Their trajectory was forever changed when Imperial Priestess Screaming Loz Sutch joined the band in 2015. The Neptune Power Federation, who are rounded out by guitarists Inverted CruciFox and Search & DesTroy, bassist Jaytanic Ritual and drummer Mr. Styx, soon honed in on an image and sound that reflected progressive, metal and space rock, all with the goal of recreating music that was played from 1968 to 1978. Combined with an eye-catching stage presentation that finds the Imperial Priestess assuming the role of a time-traveling space witch, and what you have is one of the most distinctive bands to not only come out of Australia, but the world.

Memoirs of a Rat Queen is The Neptune Power Federations fourth studio album and first for Cruz Del Sur Music, and was tracked by Jaytanic Ritual at The Pet Food Factory in Marrkville, Sydney. The album is a mélange of various rock genres thrown into one rollicking set of songs that recalls the finer aspects of Queen, Motörhead and T-Rex. The album title is inspired by eight diary entries authored by the Imperial Priestess that detail everything she has lived through, from her role in the French Revolution, being falsely accused of manifesting the Black Plague in medieval Germany, all the way to the time she took a lover in the parking lot outside of a Judas Priest concert in 1986. Accompanied by a graphic novel created by Inverted CruciFox, ?Memoirs of a Rat Queen? is a rock and roll spectacle for the ages. The Imperial Priestess has arrived - bow to your knees and repent if you please!

#### **THE SCOURGE - Warrant for Execution (NEW\*US TEXAS THRASH METAL\*HELSTAR\*EXCITER\*R.MORTIS) – 14 €**

Seeing Seed Records 2019 - Brandnew US Texas Thrash Metal

The Scourge are re-invigorating Texas Thrash feat members of Helstar - for fans of Exciter, RAM, Devastation (TX), Testament, and Anthrax (Limited to 200 worldwide CDs)

For Fans Rigor Mortis, Helstar, Wrathchild America, Flotsam & Jetsam, Exciter, RAM, Testament

Hailing from Houston, TX, The Scourge was formed as a quartet in 2012 featuring Andrew Atwood (gtr/vox), Alex Erhardt (drums), Johnny Laird (gtr), and Garrick Smith (bass). The band's goal was to create dynamic thrash metal in the vein of many late 80's and early 90's greats that they grew up listening to such as Rigor Mortis, Rage, Wrathchild America, and Flotsam and Jetsam to name a few. After releasing an EP called Fist Comes Destruction in 2014, Johnny Laird left the band and The Scourge became and stayed a power trio.

Around that same time, Andrew and Garrick were asked to join heavy metal mainstays, Helstar. With Helstar's show and festival schedule filling up, it forced The Scourge to delay the writing and recording of their debut, but today we are happy to announce the release of their first full length record, Warrant For Execution. The bands debut features a range of short and to the point neck-wreckers alongside longer and more technical pieces.

“ The Scourge have a ‘Warrant for Execution’ and they’re serving it in the form of their first full-length album. The Texas thrash trio wear their influences—Rigor Mortis, Flotsam and Jetsam, Wrathchild America—on their sleeve, sticking to hyperactive, bouncy thrash with the goal of inducing whiplash.”

#### **TORPEDO - Rocking Hard (NEW\*AUS SPEED METAL 80's STYLE\*DRACULA\*DEATHHAMMER) – 13 €**

Dying Victims Production 2019 - Street fighting speed metal attack from AUS with hints of 80s US epic metal.

Torpedo bring their deadly strike of street fighting heavy metal! PRIEST and MAIDEN played at 78 speed

Demo compilation of this Speed Metal Project by Seargant Salsten from Deathhammer and Will Spectre from Tarot, The Wizar'd and Dracula.

TORPEDO have found that old vein and have re-mined it to produce some extraordinary results. This sounds like a long lost classic from 1987. The clean, clear and high end vocals, with plenty of heavy metal screams, are fuckin incredible. Every song on here is cool as fuck with these rustic sounding riffs and power chord blasts. The solos are majestic as well as biting and venomous. This release is a non stop blast with a steady rhythm of determined speed as well as punishment

#### **TOXIKULL - Cursed and Punished (NEW\*POR HEAVY METAL\*MIDNIGHT PRIEST\*RAM\*ENFORCER) – 13 €**

Metal on Metal Records 2019 - Second full-length album of this Portuguese heavy/speed metal band, featuring the Lex Thunder, the singer of Midnight Priest on vocals and guitars.

The Portuguese metal maniacs from TOXIKULL return with their 2nd full-length, following the critically acclaimed 2018 EP. They return with full force to lay down the law and show everybody what real metal is all about - even stronger, heavier, faster and more aggressive than before! 10 songs of pure evil metal, taking to the highest level the concepts of speed, heavy and thrash. There's no place for lame melodies, soft breaks or sentimental ballads all too common in today's non-offensive metal. The high-octane vocals, screaming guitar solos, killer speed riffs and a tight rhythm section will take no prisoners and destroy every soul that tries to resist the TOXIKULL's curse. It all happens in the summoning pit, and all dies in summoning pit. You can hear the sound of the sacred whip ripping off and punishing the human flesh, the prayers and the curses of the unfaithful lost souls, the blood dripping while the beast awaits... You can hear the musical form of hell. Get it if you're into JUDAS PRIEST, AGENT STEEL, RAM, MIDNIGHT PRIEST, ENFORCER, early HELLOWEEN and SCANNER, HELSTAR, EVIL INVADERS and MERCYFUL FATE!

For fans of: Judas Priest, Agent Steel, RAM, Midnight Priest, Enforcer, (early) Helloween, Helstar, Evil Invaders, Mercyful Fate, Scanner...

**VORTEX - Them Witches (NEW\*DUTCH STEEL\*MERCYFUL FATE\*J.PRIEST\*I.MAIDEN) – 14 €**

Gates of Hell Records 2019 - Brandnew Dutch Steel for Fans of Mercyful Fate, Judas Priest or Iron Maiden

Groundbreaking Dutch cult metallers celebrate 40th anniversary with ten songs of hard-hitting, anthemic metal! Dutch heavy metal originators Vortex has scratched and clawed their way through the underground, emerging with Them Witches, a collection of songs unearthed from 1987, brought to life in time for the bands 40th anniversary. One of the first practitioners of heavy metal in the Netherlands, Vortex formed in 1979, a time when the style was a blank canvas.

Influenced by the likes of Black Sabbath and Led Zeppelin, the early compositions of founding member and primary songwriter Martjo Whirwolf Brongers revealed a band capable of writing powerful, harmony-dominated metal that would quickly make Vortex a cult favorite in their home country. Since their appearance on 1982s Holland Heavy Metal Vol. 2 - Live in Brouwershoeck, Vortex has steadfastly flown the Dutch metal flag, never chasing trends and always remaining true to themselves. Although mainstream and commercial acceptance has forever eluded the band, Vortex hasn't lasted 40 years by sheer luck.

Them Witches is a testament to the forever-burning flame of old-school metal. In 2018, Brongers digitized the bands old demos. Along the way, he uncovered songs originally intended for the bands third album, which was supposed to see the light of day in 1987. Realizing the potential of these songs, Brongers called vocalist Jurjen Thunderforce Tichelaar with the idea to re-record the demos in preparation for the bands 40th anniversary. Tracked at Soundlodge Studios in Germany, the resultant Them Witches is a ten-song platter of tried-and-true, anthemic metal cuts, guided by soaring twin-guitar harmonies and festival-ready sing-alongs.

From headstrong NWOBHM gallops to mid-tempo romps and everything in between, Them Witches honors the timeless art of pure, no-frills heavy metal songwriting, made all the more remarkable that every song here was written over 30 years ago. Vortex, who are rounded out by second guitarist Orion Roos, bassist Harm Ten Hoove and drummer Henk Bosma, have kept the metal flame burning for 40 years simply out of love and their respect for the genre. They are simply classic guys playing classic metal, a line Brongers and his bandmates can rightfully lay claim to.

**WARSENAL - Feat your Eyes (NEW\*CAN SPEED / THRASH METAL\*RAZOR\*METALLICA\*VOIVOD) – 14 €**

Svart Records 2019 - Brandnew CAN Speed / Thrash Metal !

For Fans of Razor, Sabbat, Voivod, early, Metallica, Slayer, Overkill

"If you crave aggression, look no further. WARSENAL delivers with passion. You may not want to be driving while listening to Feast Your Eyes. You'll most likely be driving twice the speed as the police. Personally, I wouldn't recommend that. In the event you do get pulled over and interrogated, let them hear the opening track and I'm certain they will understand." – Tony Portaro, Whiplash

"That album is great. The songs remind me so much of Voivod! It's basically technical-Metalucifer." – Gezol, Sabbat/ Metalucifer

**WEAPONS OF GOD - Same (NEW\*US WHITE METAL\*STRYPER\*I.MAIDEN\*B.SABBATH) – 14 €**

Roxx Records 2019 - US Import ! US White Metal

Weapons of God is a four piece outfit that plays what they describe as 'Positive Metal' as they deliver the word of God to the masses. The band was formed in 2014 and completed their first demo in 2015. The band members bring a diverse background, each with over 25 years experience.

To describe their musical stylings we would say it is evident when you look at their influences to see just where they draw from, with bands like: Kiss, Stryper, Iron Maiden, Black Sabbath and Evergrey.

The band debuted publicly on October 10, 2016 in Lebanon, OH at the Cornerstone Church of God where they played the opening slot for another Roxx Records recording artist, BioGenesis. Since then the band was focused on writing and recording their debut full length album and after nearly two years of writing and recording the finished product is upon us and we are excited to be bringing you the debut self-titled album from Weapons of God which also happens to have been produced by Luke Nealeigh from BioGenesis.

Retroactive Records 2019 - Brandnew 2-CD, Jewel Case, 8 panel jewel w/ interview - ! Limited to just 500 CDs.

Fantastic US Metal for Fans of Crimson Glory, Queensryche, Metal Church, Sanctuary, Armored Saint

In the mid 80's to early 90's, Whiteray was an integral part of the Metal scene of Kentucky along with fellow home-staters, Bride!

From 1988-1991 the band released four critically acclaimed demos of high quality, elite melodic metal. Collectors have been paying over \$200 each for those demos if lucky enough to find them.

Whiteray was dedicated to the Metal scene - Whiteray was a significant step above other Metal bands in terms of talent and execution.

Fans also loved the fact that in spite of being demo tracks, Whiteray demos are clear, and professional sounding which allows the original magic of those Metal anthems to shine brightly. The band would later regroup and release an album on R.E.X. Records under the moniker of Killed By Cain (another killer aggressive groove metal release, produced by Dale Thompson of Bride).

Until now, the band's legendary demos have been impossible to find. The 2019 Retroactive Records 2-CD reissue features all four demos remastered by Rob Colwell of Bombworks Sound, packaged in a jewel case with an eight page booklet, band photos, and an amazing interview from 1989 featured in Pendragon Magazine!

Original vinyl / cassette transfers and mastering by Patrick W. Engel at TEMPLE OF DISHARMONY in January 2019.

Copenhagen's own Witch Cross must rate as one of the best Danish heavy metal bands ever. Their 1984 album »Fit For Fight« is surely one of the Top 5 albums in the history of Danish metal.

»Fighting Back – The Studio Anthology« spans the years 1983 to 1985 and features all the songs that did not make it onto the band's legendary »Fit For Fight« album.

**WRAITH - Absolute Power (NEW\*LIM.200\*US THRASH METAL\*MIDNIGHT\*METALLICA\*SKELETONWITCH) – 14 €**

Redefining Darkness Records 2019 - Brandnew US Speed / Thrash / Crossover Metal Killer ! A killer combination of Black Thrash and Speed Metal with heavy "Kill 'Em All" influence

For Fans of Midnight, Witchery, early Metallica, Toxic Holocaust, Skeletonwitch

"Precision speed with lascivious vocals for those who like lots of neck-straining tempos in their music. Hard charging riffage is the key here, enthusiastically headbanging stuff that would fit comfortably next to your Witchery and Midnight records."

- The Mighty Decibel

"Many of the guitar riffs from Matt Sokol possess that early Metallica Kill 'em All spirit – as well as churning a bit of that Venom/Motörhead raw energy that galvanized musicians who clamored for bands that trusted instincts and played from the heart, not for commercial fame or fortune....Perfect for those who want to go back to the early/mid-80's period and channel that youthful, pissed-off sound."

- Dead Rhetoric

"It's got to feel surreal to be Joel Grind. The bleached-blond maniac's work in Toxic Holocaust is now so seminal that there's a young band from Indiana called Wraith who are imitating it down to the tiniest detail. That's not to say that Absolute Power doesn't rule. It kind of rules! If you've ever gotten wasted and wrecked your neck to Hell on Earth or An Overdose of Death, you're absolutely going to like it, and the album-closing cover of Misfits' "Death Comes Ripping" is reason enough to stick around. Wraith are still young. They may well develop into a band with their own vision and sound. If they don't, open another beer and bang your head to some extremely fun blackened metalpunk."

- Brad Sanders, The Best Metal on Bandcamp August 201

"...this translates as something like Skeletonwitch playing The Exploited or Dead Kennedys covers...With the longest of these ten songs clocking in at just three and a half minutes, including a Misfits cover, Wraith are certainly channeling the punk ethos into their pretty straight-up thrash. Indeed at times, including the start of first track "Devil's Hour," you could be forgiven for thinking you were actually listening to an out-and-out punk record. At least until the vocals kick in. Guitarist Matt Sokol also handles mic duties and his delivery owes a lot to Cronos, with a nod to something like Deströyer 666."

- Angry Metal Guy

HEAVY PSYCH SOUNDS 2019 - Brandnew limited Edition in Purple Vinyl !

For Fans of Trouble, Black Sabbath, Jess and the Ancient Ones, The Devil's Blood, Blood Ceremony

On the back of last year's critically acclaimed "Amber & Gold" EP, Alunah return with "Violet Hour", the new album and first for Heavy Psych Sounds.

"Violet Hour" sees the energy of Alunah's dark, doom tinged hard rock being cranked up with the arrival of guitarist Dean Ashton (bass, Diamond Head) alongside the soaring vocals of Sian Greenaway and rhythmic foundation of Dan Burchmore and Jake Mason. Recorded at

the historic Welsh Foel Studio and produced by Chris Fielding (Conan, Electric Wizard, Primordial) the 8 tracks on display show the fruits of a productive early 2019 with a searing combination of melodies, riffs and focused writing. From the opening combination of "Trapped & Bound" and "Dance of Deceit" the album pulls the listener in to an ominous world brought to life by artist "Felipe Froeder - Arcano XV" and doesn't let go until the brooding finale "Lake of Fire".

With roots dating back to 2006 in "Sabbath City" UK and an evolution that has grown over four previous albums and numerous European tours/festival dates, the momentum now picks up the pace. A UK summer tour with The Obsessed and an appearance at this year's prestigious Damnation Festival have just been confirmed with further live dates to TBA.

The 12" Vinyl features the personal reflections, lyrics and rare bands photos on black vinyl (500 units pressed) and Vinyl features the original six songs, plus the two legendary tracks off of the California Metal Compilation, Attack and A Space Called You.

This is the ultimate Deliverance reissue that celebrates the impact of a band that has a musical legacy second to none. And yes, the album title is Greeting of Death, but the song on the demo is Greetings of Death. That's the way Jimmy's girlfriend heard it when he was telling her what he wanted, and that's the way she made it! Get them while you can - these are treasures! .

Metallica had No Life Til Leather...an iconic demo that catapulted the band into unforeseen glory and status.

Deliverance's Greeting of Death demo (1986) did the same thing for the most heralded Christian thrash act of all-time. Frontman, Jimmy Brown asked his girlfriend to draw up a cover of a Grim Reaper waving "Hi!"

**DELIVERANCE - Weapons of our Warfare (NEW\*LIM.300 - 180gr YELLOW VINYL\*US WHITE THRASH/SPEED METAL) – 25 €**

Retroactive Records 2019 - US Direct Import ! - Brandnew US White Thrash / Speed Metal Classic limited from 1990 - limited to 300 copies only in YELLOW Vinyl + Insert !

Only a year after the band released the historic Self-Titled debut, the band released their 1990 tour de force: Weapons of Our Warfare.

Metallica created Master of Puppets, Slayer bludgeoned the world with the classic Reign In Blood, Flotsam & Jetsam had Doomsday..., and Exodus boasted Bonded By Blood - all albums that would create the standard for all other speed metal releases. Weapons of Our Warfare was that album for Deliverance. It cemented the band's place as iconic speed metal royalty. To this very day, Weapons is still mentioned with hushed reverence among Christian metalheads as one of the elite speed metal albums of all time.

Guitarist Glenn Rogers had exited the band and former Recon guitarist George Ochoa had joined in his place. Weapons of our Warfare turned out to be one monster of a record, a genuine speed metal classic. Each and every song is played with a feverish fury, and once again the song writing is outstanding. Since 1985, lead vocalist and rhythm guitarist, Jimmy Brown had been crafting some of the tastiest techniques for complex rhythms and highly technical rhythm guitar. Brown's guitar mastery drives the album from start to finish, setting new standards of power, precision, and stamina. The album shows marked musical growth with several adrenaline-driven, extended, multi-sectioned compositions foreshadowing the band's later progressive epics. And the trade-off guitar leads by Brown and Ochoa provide first rate riffage that will satisfy even the most skilled Guitar Hero addict.

A video version of the title track became the first Christian metal song to gain airplay on MTV, and it placed among the top three on that network's Headbanger's Ball countdown for twelve weeks in a row! In 1999, Lars Ulrich (Metallica) hosted a show in which he named Deliverance "Weapons..." as one of his top ten favorite metal videos of all time.

Weapons of Our Warfare (The Originals: Remastered) takes all the magic from the original release and magnifies it! Featuring a Digital Remastering, Ysidro "Sid" Garcia at Sight 16 Studios worked hard to make it sound substantially better than the original, while still keeping the character of it. The 180 Gram Yellow Vinyl and the redone 12x12 two sided Insert will delight D fans into a thrashing frenzy. Limited to just 300 copies - don't miss out on this deluxe gem!

**DESTRUCTOR - Sonic Bullets (NEW\*LIM.500 BLACK VINYL\*US SPEED METAL RELEASE + 2 LIVE BONUS TR.) – 23 €**

Reaper Metal Records 2019 - Brandnew limited Rerelease of this US Speed Metal Classic ! Limited to 500 copies + Insert, Black Vinyl

The 2003 release of Sonic Bullet is an important piece of DESTRUCTOR's discography. It marked the band's return from hiatus and introduced long-standing bassist Jamie Boulder to the line-up. Armed with 5 new recordings - "Sonic Bullet", "Heavy Artillery", "Silent Enemy", "Blackest Night" and "Master Of The Universe"; the original 2003 Auburn Records release also featured 2 tracks "G-Force" & "The Triangle" from the the unreleased 2000 sessions which have since become the "Back In Bondage" album.

This newly constructed re-release swaps out those tracks with the 2007 "Storm Of Steel" & "We Are Ready" limited edition 'Storm of Steel' EP recordings. Completing the studio archives and honoring an era. Still intact with two 'live' tracks recorded in 2002 - "Pounding Evil" (Classic Metal Festival) and "Iron Curtain" (Slayer). Finalized with 2019 new cover art by artist Larry Weber and a revised layout by Reaper. This is a sonic bullet aimed straight at your head and ears!

Buried By Time And Dust Records 2019 – Brandnew limited to 250 copies triple YELLOW vinyl, triple gatefold cover, 31 songs, insert, mastered for vinyl by Patrick W. Engel at Temple of Disharmony

Gorgon was formed nearly 25 years ago in Chiba City Japan as an outlet for their sole aim from which they have never waived : To play heavy metal in the old way and display their respect for the heroes of the New Wave of British Heavy Metal. Their reverence is witnessed in the adherence to detail within their original material and the presentation of their numerous singles. The inspiration of Iron Maiden, Praying Mantis, Bleak House, Trespass and numerous others always present.

Over the past decades, mostly though their own label Streetlights Records they have released original material and covers with low pressing numbers and difficult distribution. With the bands approval we are proud to present 31 tracks over three lp's, a nearly exhaustive compilation of their studio output over the past decades.

Brutal Planet Records 2019 - US Direct Import - Brandnew US Thrash Metal Killer for the first time on Vinyl ! Limited 500 copies in Black Vinyl + Insert !

For fans of Vengeance, Deliverance, Metal Church, Reverend, Meliah Rage, and Anthrax.

In 1986 and 1988, Heretic release two iconic and collectible power thrash metal albums on the young Metal Blade Records. Members would go on to play substantial roles in both Reverend and Metal Church.

In 2012 the band reformed and signed with a German label would released A TIME OF CRISIS on CD and it quickly went out of print, fetching ridiculous prices if you were lucky enough to even find a copy.

Brutal Planet Records is fixing a grave injustice....reissuing this tremendous powerful, thrash metal album on both CD and Vinyl. The album features legendary axeman, Glenn Rogers shredding and thrashing as if his life depended on it. Glenn was in both early incarnation of Deliverance and Vengeance contributing and writing many of their most legendary tracks. Glenn now plays in Primal and Deliverance as his current gigs. Angelo played in both Hirax and Reverend, and Brian also played in Reverend.

This historic release is once again available on CD, and for the very first time, Vinyl (featuring a full color, two-sided lyrics & picture sleeve). The riffs, the crunch, the full-steam ahead thrash metal is everything thrash fans could want.

Blood Red vinyl edition, limited to 200.

Jasmin Saarela, known as the enigmatic leader of the cult band Jess and the Ancient Ones, is preparing for the release of her solo debut. To be released under the moniker Jess By The Lake, the solo album Under The Red Light Shine is a more down to earth take on the traditions of rock music than the acid-heavy guitar walls and cosmic dimensions of her main band. Jess By The Lake's building blocks are more organic, with a focus on nature mysticism and a curiously Finnish brand of melancholy. The music flows unrestrained, with a few tasteful nods to genre forebearers such as Danzig or David Bowie hidden here and there.

Set the volume control to maximum level and knock yourself out with obscure but brilliant sounds from bands like Omen Searcher, Bashful Alley, Sapphire and Panza Division. File under: "beyond essential listening for any rock'n'roll fan".

When putting together the first volume of Jobcentre Rejects (and for that reason started On The Dole Records) we initially thought it would be a thing of interest only to a few of our closest music loving and record buying friends. But sales took off in a massive way and rave reviews and orders from all over the world quickly made being On The Dole Records a full time job. There's enough totally great and rare NWOBHM for many further volumes of Jobcentre Rejects. There's so many great tracks just waiting to be heard by more people

Jobcentre Rejects Vol 2 will appeal to all metal fans, but also to punk fanatics, garagerock-maniacs, DIY-lovers and maybe even to a few powerpop aficionados. Jobcentre Rejects is for everyone into rock music history and anyone interested in British music- and culture history

Iron Maiden, Def Leppard, Judas Priest and Saxon all got signed by majors and sold records galore, meanwhile bands in every village across England formed. Inspired by the energy and DIY attitude of the punk scene these acts recorded and released their records all on their own. The music heard on Jobcentre Rejects Vol 2 have so far been treasured only by NWOBHM connoisseurs. Jobcentre Rejects Vol 2 clearly shows that it is music far too good to be buried in the past. It's music that deserve to be heard not only by the most die hard record collectors.

Remastered and restored sound. Extensive liner notes by Kieron Tyler (Mojo Magazine). Richly illustrated with many rare photos

Cult Metal Classic Records 2019 – Epic US Hard Rock Classic from 1979 – a real must have ! Keep It True Band 2020 !

Without doubt, LEGEND "From the Fjords" original vinyl album, has been widely regarded as one of the most influential albums in genre history, showcasing a unique blend of high class musicianship and imaginative epic lyrics and music. The album manages to embrace progressive rock elements as well as classic rock, fusion and jazz passages and it's no wonder that since 1979 of its original release, it made quite of an impact to other heavier music styles as well from the broader rock music spectrum. After many years of careful reconsiderations and taking into account the ongoing demand for an official reissue, the band gave us permission to officially re-release the album on vinyl and CD.

Ray Frigon, the original drummer of the band, supervised the whole process and answered in great depth and detail to our set of questions, resulting to a highly informative multi page interview that basically covers the early years of the band and the years to follow.

Given that 2019 marks the 40th Anniversary since the album's release, we made sure to include everything a LEGEND fan would like to have, so this special black vinyl edition comes with:

- Bonus CD with 5 unreleased LEGEND songs from a demo tape which was recorded before the album

- 180 grams black vinyl

Cult Metal Classic Records 2019 – Brandnew Limited to 200 copies in black vinyl – US Metal Classic at its very best ! For Fans of Lethal, early Fates Warning or Enchanter !

Hailing from New York, MAJESTIC RYTE have become through the years an underground legend. The band started in the mid 80's and recorded a 5 song album loaded with powerful U.S. heavy / power metal with vocals reminiscent of early FATES WARNING and epic lyrics about warlords, dragons and battles.

Their only same-titled album came out in 1988 as a limited edition cassette EP and thanks to the internet it gained a cult following mostly due to its superb quality and also because it was not easy to find and therefore the band members were unknown for quite some time.

After numerous requests to release also a vinyl edition of this masterpiece, we're really happy to announce a reissue of their classic album for the first time on Vinyl!

If you're not familiar with the band, be prepared for an unrelentless sonic assault and some of the best heavy/power/epic metal the 80's had to offer!

Shadow Kingdom/ Nuclear War Now 2019 - Brandnew limited Edition of 500 copies in black vinyl, insert

Obscure US Metal from 1985 with Bill Ward (Black Sabbath) on drums ! The Mezmerist is one of the most mysterious US Metal releases of all time. Nobody even knows who The Mezmerist is, and to even find an original LP was a chore because the band held on to a lot of the pressing.

Originally there was only 500 copies made back in 1985, today those copies have gone for extremely high prices on eBay. It's too hard to exactly pinpoint what this sounds like, its obscure Psychedelic Heavy Metal.

If you're into Led Zeppelin, King Diamond, Cirith Ungol, and Mercyful Fate, you'd get pretty close to their sound.

There are two EPs on this release.

The first is called "The Innocent, The Forsaken, The Guilty". It consists of the first 4 tracks of this release. It was recorded in 1983, but not released until 1985 due to financial reasons. (The release was self funded and it took time to gather the money.) Bill Ward of Black Sabbath fame does indeed play drums on this first EP.

The second EP, titled "Beg For Forgiveness, Pray For Your Life" has never been released until now, currently exclusive on this release. It consists of the last 3 tracks. This features a different lineup. It was recorded in 1985

Potent, classic doom metal from the northeastern corner of the United States! On Thrice as Strong, Portland, Maine trio Ogre deliver a time-honored display of old-school doom with '70s rock elements that scale epic heights and heavy lows.  
Tucked away in the most northeastern part of the United States in Maine, the members of Ogre have taken on the resilient nature of the place they call home. Upon their 1999 formation, the trio of Ed Cunningham (bass/vocals), Ross Markonish (guitar) and Will Broadbent (drums) penned Age of Ice, a rallying cry and anthem reflective of Maine life. The song exemplifies the Ogre live experience their shows often require attendees to trudge through piles of snow just to get there ?conjuring up a unifying spirit when the first doom-edged guitar chords are hit.

**ORODRUIN - Ruins of Eternity (NEW\*LIM.BLACK V.\*US DOOM METAL\*BLACK SABBATH\*SAINT VITUS) - 19 €**  
Cruz Del Sur Records 2019 - Brandnew US DOOM METAL ! Limited black vinyl, insert, download code  
The wait is finally over! American doom legends Orodruin return with their first studio album in 16 years, the masterful Ruins of Eternity. One of the most highly-regarded names in American doom metal picks up where they left off from their classic Epicurean Mass debut with Ruins of Eternity, an epic showing time-honored and epic doom!  
Sixteen years have passed since Orodruin's lone studio album, Epicurean Mass. The album is a veritable American doom touchstone the almost perfect intersection of Black Sabbath heft and the slow atmospheric churn of Saint Vitus. And while those two bands are a proper frame of reference for Orodruin and the American doom scene at large, the Rochester, New York-based outfit immediately proved itself to be its own unique, formidable entity, the creative unit of John Gallo (guitar), Mike Puleo (bass/vocals), Nick Tydelski (guitar) and Mike Waske (drums) writing an album equally as epic as it was forlorn.

**OVERDOSE - Hit the Road (NEW\*LIM.500 BLACK 7" VINYL\*US METAL\*SPEEDWOLF) - 10 €**  
Splattered! Records 2019 - US Direct Import ! Limited edition 500 copies in Black 7" Vinyl .  
If you like ripping Heavy Rock that's built to be blasted with the pedal to the floor in a Seventies muscle car, then turn off Tool's Fear Inoculum and grab a copy of Overdose's new Hit the Road 7-inch, streaming in full here at Revolver.  
The band features members of Speedwolf, Mutilation Rites and Pyrolatrous, and while the influences on this release are fairly obvious — bands like Motörhead, Girlschool, Venom and Midnight are all part of the conversation — what the NYC-based four-piece do the best isn't just recreate a style, but capture the dangerous spirit of it all. "Took the Deal" and "Hit the Road" are perfect for breaking glass, shotgunning beers and causing general mayhem — basically, the perfect soundtrack for Labor Day Weekend.  
"Our second single is more of the same," admits vocalist-guitarist Reed Bruemmer. "One fast song. One mid-paced. All of our influences released singles for years before their debut full-length, so why wouldn't we? Rock & roll in heavy small format at optimum 45 RPM."  
Blast Hit the Road below. You can order the 7-inch, as well as their previous one, via Bruemmer's own Splattered Records

Red Sea released one album entitled 'Blood' before calling it a day back in 1994. The album was critically acclaimed and garnered quite a bit of attention back then, but alas given the hard rock and metal market at that time the album ended up being a one off and a follow up was never recorded.

Red Sea featured the amazing vocal talents of Robin Basauri (Die Happy, Joshua) the guitar playing of Chris Sorenson (Fear Not) drums of Jeff Martin (Badlands, Racer X) and rounded out on bass by Greg Chaisson (Badlands, Die Happy). The album boasted very well done heavy rock boarding on metal. What you got here was a band that sounded very much like Badlands but featured Christian lyrics and themes.

2019 marks the 25th anniversary of this classic album and we revisit it and improve upon it in every way we possibly can. This 25th anniversary edition features only those 11 classic tracks completely remastered by Rob Colwell of Bombworks Sound. It also boasts brand new upgraded artwork and design that holds true to the original concept by Scott Waters of No Life Til Metal Graphics.

Gates of Hell Records 2019 - Brandnew black vinyl, insert ! US female fronted Killer Speed Metal (EX-Substratum) !  
As displayed on the four-song EP, Sölicitör's meld of power, speed and thrash metal is as tight and menacing as they come, and will immediately appeal to fans of Chastain, Liege Lord, Mercyful Fate, Exciter and Painkiller-era Judas Priest.  
Reissue of the band's debut self-titled EP, a blinding combo of feisty speed metal with old-school metal brashness! One of the newest editions to the Gates of Hell roster, this reissue of Solicitor's thrashy and storming self-titled debut 2019 EP sets the stage for their impending first full-length, due for release in 2020.

Formed in 2018 after the split of Seattles Substratum and Hexengeist, a new band came together and was immediately faced with a common problem: They couldn't land on a proper name. The metal scene has accounted for and laid claim to thousands upon thousands of names, all with differing levels of effectiveness. The problem for this newly-fledged quintet was that they wanted something that didn't pigeonhole them and provided a level of ambiguity that would be intriguing for potential listeners. After an extended debate, Sölicitör got the nod for its simplicity, and the fact single words and a bold logo always stand out when slapped on the front cover of an LP or t-shirt. Plus, as vocalist Amy Lee Carson says, It makes you wonder who the hell we are. Playing a brand of breakneck speed metal that is carried through by the banshee vocals of Carson, Sölicitör (who are rounded out by the guitar tandem of Matthew Vogan and Patrick Fry, bassist Damon Cleary-Erickson and drummer Johann Waymire) quickly got to work on writing and recording new material, releasing a demo and an EP barely a year into their existence.

Although a brand-new entity, TEMPTRESS are a veritable blast from the past. Moodily melodic and draped in the cloak of night, TEMPTRESS create effortlessly cruising mid-tempo heavy metal of a most early '80s vintage. Even down to their production style, the power-trio have this style down COLD, and it emits a nostalgic fire that's somehow fresh across these two equally strong tracks.

**TERMINUS - A Single Point of Light (NEW\*LIM.BLACK V.\*EPIC METAL MASTERPIECE\*E.CHAMPION\*VISIGOTH) - 20 €**

Cruz Del Sur Records 2019 - Brandnew Epic heavy metal from Northern Ireland with science fiction-themed lyrics!

Limited Edition in Black Vinyl + Insert !

For Fans of Eternal Champion, Slough Feg, Visigoth, Solstice

Second full-length album from Northern Ireland epic metallers Terminus that continues their exploration into science fiction realms. It took three years for Terminus multi-instrumentalist and songwriter David Gillespie to compile the tracks for the bands sophomore A Single Point of Light studio album.

During that time, Gillespie was willingly subjected, in his own words, to endless navel-gazing and hand-wringing over the albums particulars. Since he was responsible for every note and arrangement, not to mention handling the recording process at his home studio, the album became all-encompassing, a quest to improve upon the bands well-received 2015 The Reapers Spiral debut. Based on the strength and depth of A Single Point of Light's seven tracks, Gillespie and vocalist James Beattie succeeded in every respect.
