AGGRESSIVE PERFECTOR - Havoc at the Midnight Hour (NEW*UK SPEED/THRASH METAL*M.FATE*VENOM) – 13 €

Dying Victims Records 2019 – Brandnew UK Speed / Thrash Metal for Fans of Mercyful Fate, Venom, Deceased, Nasty Savage

Following up their 2016 release Satan's Heavy Metal, Aggressive PerfeCTOR's debut full length, Havoc At The Midnight Hour, finds the English trio in resolutely evil form as they take a major step forward on their path of destruction.

AGGRESSOR - Procreate the Petrifications / Demo 1991 (NEW*THRASH METAL CLASSIC*KREATOR) – 15 €

DARK SYMPHONIES / THE CRYPT 2019 - Estonian death thrash act AGGRESSOR - reissue of their 1992 debut album Procreate the Petrifications with the Demo 1991 included as bonus tracks.

The beginnings of Aggressor lay back in 1989 when Villem Tarvas, Marek Piliste, Kristo Kotkas and Marko Atso started playing together as an unnamed band. At the start of 1990 they released their first demo album named Indestructible – the music on this recording was influenced by German thrash metal band Kreator. Their first big performance was on 17 April 1990, and a year later they put together a 4 track demo which resulted in the recording of their first album, Procreate the Petrifications in June of 1992. Later on they played several shows in Moscow and in 1994 they released their second album Of Long Duration Anguish. The band was first introduced to a wider audience in the summer of 1995 at the Rock Summer festival in Estonia, where Aggressor headlined the B-stage – the crowd gave them a warm welcome.

CD will be designed after the original 1992 original, taking elements from the original layout with attention to detail, even down to the logo and typeface for a touch of nostalgia. Generally we always use the original DAT tapes to master our releases from. This time we were fortunate enough to be able to master directly from the original 1/2" analog tapes! Also included are brand new liner notes from original founding member Marko Atso.

[ANGELICA - Without Words \(NEW*US WHITE MELODIC METAL / HARD ROCK\) – 15 €](#)

Girder Music 2019 - Brandnew US White Melodic Metal / Hard Rock

Angelica is the brainchild of guitarist extraordinaire, Dennis Cameron and is a Christian Melodic Hard Rock/Metal AOR band. Angelica debuted in 1989 and signed a 5 album deal with Frontline Music Group. Thirty Years after that first album and after a 27 year hiatus, Angelica and Dennis Cameron are back with a new album, Without Words. Dennis is a practitioner and is great at his craft. This new album comes not only by way of many hours in the studio but also with the 48 years of him honing his guitar chops.

Dennis, who hails from Canada, is a prolific guitarist who was interviewed by nearly every music magazine in Japan. Sure their label was in the United States, but Dennis's chops were recognized all over the world. He was often compared to some of the great guitarists in the Christian rock scene, but most correctly compared to the greatest mainstream guitarists of all time such as Hendrix, Clapton, Satriani and Steve Vai.

His ability went way beyond "shredding". His playing came with feeling, emotion and a sense of timing that allowed him to reach way past a great guitar solo, something he wears as a badge of honor. "Knowing music theory and practicing to be a good guitar player are only small parts of the formula for making good music", Dennis states, "I spend just as much, if not more, time working on my writing, engineering and producing than I do just working on my guitar playing."

Dennis first picked up guitar 48 years ago at the young age of 6. Now 54 years of age, he leaves nothing off record and lets his guitar and fingers do the talking for him.

Words cannot describe what you'll be listening to. Literally, there are no words, it's just Dennis and Co. doing what he does best and what few are able to accomplish; create an album of entire songs around 6 strings of amazement. It has the Angelica sound that you'd expect, melodic with some serious drive and crunch. You won't be able to stop listening to "Without Words", it's 'all in' with hooks galore and top notch production.

Heaven and Hell Records 2019 - Brandnew US Heavy Metal / Hard Rock Killer

FOR FANS OF: Accept, Heavy Pettin, Toyko Blade, Cinderella & Gillan

In early 1986, the band "The End" from Philadelphia, Pennsylvania was on hiatus. That band had worked with the Paragon Cable Network in New York City who again approached the band with an offer of additional appearances and video shoots on their show "Music Beat". When the band regrouped for these appearances in the fall of 1986, several band members were replaced. Curt Ritchie (guitar), Bazooka Joe Solina (drums) and Jean Pierre Reimer (guitar) decided to revamp the sound a bit and brought in Brian Paine (vocals) and brought back former drummer Roberto Lombardi (bass). Lombardi had ditched the drums and had been a fulltime bassist for two years. It was discussed at this time that a name change to "Brat" might be warranted as the new members gave the band a totally different sound.

BURNING SHADOWS - Beneath the Ruins (NEW*US METAL*ICED EARTH*SLOUGH FEG) – 13 €

Rafchild Records 2019 - Brandnew limited EP of Burning Shadows with 5 new songs and 2 live recordings of old favorites.

For Fans of Iced Earth, Blind Guardian, Slough Feg, Iron Maiden, Liege Lord

Traditional power metal with a mix of American and European outlooks comes into play when taking in these songs. Power riffs, mountaintop vocal melodies, and steady, pounding tempos are stocks in trade for the Burning Shadows style – the type of songs that inject a marching, uplifting spirit while hunkering down to gallop and battle any charging force that dares to subject themselves to the assault placed before them. Vocalist Tom Davy has that deep timbre to his delivery against a natural multi-octave ability that properly gives him comparisons to Matt Barlow and Hansi Kürsch

CAPTOR - Lay It to Rest + Demos (NEW DELUXE DCD*SWE THRASH METAL CLASSIC 1993) – 19 €

Dark Symphonies 2019 - The much sought after, out of print 1993 debut album from cult Swedish thrash band CAPTOR - Lay it to Rest, featuring a bonus second CD with the band's 1991 Memento Mori Demo and 1992's Domination Demos.

Formed 1987 by Jacob Nordangård, Juha Mäyry and Christer Johansson. Initially, they were known under such band names as Gonzola, Midas Touch and Pestilence, but they took the name Captor after the Slayer song "Captor of Sin".

The self-financed debut album Lay it to Rest was recorded early in 1993 and released by the label Eurorecords in the summer the same year. The reactions from the press were genuinely positive and Sweden's biggest metal magazine Close Up included the song T.D.L. on their compilation album Extreme Close Up. Everything was set up for a glorious future. The album was varied, progressive and solid with some death metal vibes, clean vocals and female chorus added.

Now a new renaissance has come. Many of Captor's old fans has always held the Captors Lay it to Rest-era as the best. And now, with the help of Internet, new fans from all parts of the world have started to discover the fabulous thrash gems on Lay it to Rest. The music and lyrics are still as valid today as they were 25 years ago.

DAMIEN STEELE built a following from the ground up, renting halls, putting on concerts, and hammering out red hot, molten metal tunes, playing music that was called "the bridge between Queensryche and Fates Warning." Lead guitarist Steve Matusik and bassist/vocalist Paul Staub co-founded the band around 1982, and many musicians came and went over the years. The core line-up with Steve, Paul, drummer Ben Tomlin, vocalist Mark Hopkins, guitarist Mike Learn is the one that most people remember, the one that packed regional rock clubs in the late eighties. Despite continued interest from hometown fans in Erie, Pennsylvania, the band nearly drifted into obscurity.

DEATH SS was founded in 1977 by Steve Sylvester, with the aim of forming a group that encompasses all its particular interests for occultism, horror films, erotic comics and rock music, in an original way. The singer, then just a teenager, decided to apply the concept of "glamor" with a strong visual characterization to five characters inspired by stories of terror: the Vampire (the singer), the Mummy (the bass player), the Werewolf (the drummer), the Zombie (the guitar player) and the Phantom Of The Opera (the keyboard player). DEATH SS literally means "in DEATH of Steve Sylvester" - name chosen to mean the symbolic "DEATH" of the human state of Steve Sylvester (SS) and its rebirth from the beginning under the light of the Occult, without any political reference.

[DELIVERANCE - Stay of Execution \(NEW*LIM.300 GOLD DISC*US WHITE SPEED/THRASH METAL '92\) – 20 €](#)

Retroactive Records 2019 - Brandnew US White Speed / Thrash Metal Classic - their 4th Album from 1992 ! The gold disc edition is limited to just 300 copies, 6 panel fold with band pics, and remastered from scratch for the maximum ear candy experience.

- US Direct Import ! Some monumental progressive thrash that delivers a multitude of metallic fury in exquisite fashion. Stay of Execution launched the band one step towards the era that would be known as the creative years, while maintaining the epic metal sound that fans expected. The hooks, the riffs, the lyrics all took fans by surprise. We had never heard such artistic thrashing before, and boy, did Stay of Execution hit the spot!

Formed in 1985 in Southern California, Deliverance was one of the earliest speed metal bands on the scene to be overtly singing about Christian ideology. Their self-titled album and the follow-up Weapons of our Warfare are considered classics of the speed metal genre. Their third album titled What A Joke featured several short joke songs, several very cool cover songs, and lots of epic thrashing..

Stay of Execution was the fourth album from Deliverance and featured a new line-up. Replacing guitarist George Ochoa is shredder Mike Phillips. Bassist Mike Grato (ex-Recon) is on board for part of the writing and recording but is replaced by original bassist Brian Khairullah. Stay... marks a return to form, even if it strays from the strict speed metal definition.

original demos, three of which were never released until now. The other songs were eventually re-recorded and put

FIGHTER - The Waiting (NEW*US WHITE HARD ROCK*JOURNEY*DEF LEPPARD*RATT*GIANT) – 15 €

Girder Records 2019 - Brandnew US White Hard Rock / AOR incl. 4 Bonus Tracks

Fighter released two albums in the early 90's. Fighters first album THE WAITING was released in 1991 and brought with it a lot of attention containing 3 charting radio hits. STAR ONE #7, RADIO MAN #26 and DO WHAT YOU WANT #18, a feat that many bands never reached. This album has been completely remastered with modified artwork, photos and band history. Plus it also includes the original 4-song EP (Demo) containing 4 songs: Radio Man, Face to Face, (which were later re-recorded and put on The Waiting) then Leo and Irresponsible Evil which are only on the EP that were sold only at concerts.

Fighter was a Melodic AOR Christian Rock band based in IOWA and was led by Amy Wolter who was also the principal songwriter. They played arena style rock such as Def Leppard and Journey with hooks and melodies galore. The bass player, Jim, was her husband. Jim and Amy had previously played together in a band called SAPPHIRE which recorded an album titled CRYSTAL CLEAR. The distinctive element in fighter sound was the trade-off vocals between Wolter who is similar to Pat Benatar and male singer and Drummer Sean Murphy. Dual vocals proved to work great for them and provided dynamics not seen by a lot of other bands with the exception of Kiss, ZZ Top, Eagles and The Cars.

GOTHIC STONE draw influences from bands like BLACK HOLE, GOBLIN and DARK QUARTERER and combine them next to RAINBOW, MANOWAR, BLACK SABBATH ("Born again" / "Headless Cross" era), CANDLEMASS of course, SORCERER, SOLITUDE AETURNUS etc in order to create a very unique piece of music.

Hailing from Palermo, Italy, GOTHIC STONE have been around for quite some time, yet this is their debut album. Actually it took them 25 years (!) to release it... Well as I mentioned before the band deeply dwells into Doom Metal but with a twist: the songs are not only inspired by Rainbow / late Black Sabbath, but also from Italian Doom Metal acts.

Audio restoration and mastering by Patrick W. Engel at TEMPLE OF DISHARMONY

According to public opinion, Kreator, Destruction, Sodom (and maybe Tankard) were laying the foundations for German Thrash Metal in the mid-1980s. There's surely (at least) one band missing: Living Death (from Velbert, a bleak industrial town in the heart of the Ruhr area). Similar to Swiss legends Hellhammer, Living Death were just a bit too extreme, for fans and press alike. As a result, their early efforts gained extremely bad reviews – only a small cult following understood what the band was trying to achieve.

Living Death were formed in 1981 by the Kelch brothers, Reiner on guitar and Dieter on bass. In the early days, Eric was standing in on drums. The line-up was completed by Frank Fricke on second guitar and Thorsten "Toto" Bergmann behind the microphone. His extremely shrill voice was the main reason why it was hard for the mainstream public to relate to Living Death. In 1983, the band recorded a three-track demo resulting in a deal with the Belgian indie label Mausoleum Records. Their debut album »Vengeance of Hell« was released a year later and suffered from a very tinny production (as a result the album was re-mixed and re-issued in 1985 – with slightly better results). However, it was the raw sound that made Living Death attract a very dedicated hard core of fans (mainly in their home country of Germany).

Despite being far from polished, stripped to the bone Thrash Metal numbers such as "My Victim", "Heavy Metal Hurricane", "Hellpike" or the title track "Vengeance of Hell" stood the test of time. Which proves once and for all that in 1984 Living Death were far ahead of their time. It took the music world 30 years to catch up with them ...

2xCD set with additional cd with instrumental version of the entire album.

Based out of Sacramento, CA, LUNAR is a progressive metal band formed in 2013 when longtime friends Alex Bosson (drums/percussion) and Ryan Erwin (guitar/vocals) decided to get together and write the style of music that was always in their hearts: genre-defiant and free of restrictive influence. After securing Danny Stevenson on keyboards, the search continued for a full lineup... but to no avail. Rather than delay their progress, the trio decided to record and self-release their debut EP, Provenance, in the Winter of 2014.

—including members of HAKEN, THANK YOU SCIENTIST, FALLUJAH, LEPROUS, and CALIGULA'S HORSE, among others.

[MELIAH RAGE - The Deep And Dreamless Sleep \(NEW*US POWER/THRASH METAL*WARGASM*REVEREND\) – 15 €](#)

Divebomb Records 2019 - Brandnew US Power / Thrash Metal Rerelease + Bonus Track

FOR FANS OF: REVEREND, METAL CHURCH, WARGASM, WRATHCHILD AMERICA AND ONSLAUGHT

Having eventually gone their separate ways after the release of Death Valley Dream in 1996, legendary Boston power thrashers MELIAH RAGE opened the door on reunion talks around 2002. Founding guitarist Anthony Nichols quickly roped in fellow axeman Jim Koury, and with original frontman Mike Munro opting out, the two recruited their former Cactus Land bandmate Paul Souza on vocals. Original bassist Jesse Johnson was also a go, and friend and former Wargasm drummer Barry Spillberg rounded out the lineup for 2004's Barely Human, prior to the return of original drummer Stuart Dowie.

With 4/5 of the classic MELIAH RAGE lineup in tow, the group set out to release The Deep and Dreamless Sleep through Screaming Ferret Wreckords in 2006. This darker set of eight tracks offered more tempo variation and textural experimentation than much of the band's prior work, allowing the disc to remain a unique standout amidst their continually-expanding discography. The outfit's second U.S. tour with Metal Church would follow in support of the album, and MELIAH RAGE has been going strong ever since.

[MELIAH RAGE - Death Valley Dream \(NEW*US POWER/THRASH METAL+9 BONUS TR.*M.CHURCH\) – 15 €](#)

Divebomb Records 2019 - Brandnew US Power / Thrash Metal Rerelease + 9 Bonus Tracks

FOR FANS OF: REVEREND, METAL CHURCH, WARGASM, WRATHCHILD AMERICA AND ONSLAUGHT

Unceremoniously dropped by Epic Records following the release of 1990's Solitary Solitude, the core MELIAH RAGE lineup of Anthony Nichols, Jim Koury, and Mike Munro soldiered on with a new rhythm section that included future Godsmack frontman Sully Erna on drums. The group gradually laid down an album's worth of uncirculated demos (posthumously released as Unfinished Business in 1999) for the purposes of shopping directly to record labels, but—unable to secure a proper deal—would call it quits by 1994.

A year or so later, Backstreet Records reached out to the band regarding the prospect of putting together a new MELIAH RAGE album. Nichols, Koury, and Munro called in their old friend Bob Mayo (Wargasm) on bass, and rounded out the lineup with Dave Barcos behind the kit. The result was 11-song full-length Death Valley Dream: a no-B.S. thrash record that retains a rhythmic midpaced crunch while introducing more speed and energy than what the band had been demoing prior. Unfortunately, with supporting live opportunities drying up in the mid-'90s, the members would ultimately go their separate ways for nearly a decade. Now, more than 20 years later, Divebomb

Records is thrilled to once more join forces with MELIAH RAGE for this definitive edition of Death Valley Dream— complete with meticulously polished retouches of the Unfinished Business recordings as a bonus. Fully remastered by Jamie King Audio, this reissue also features a retrospective interview with guitarist Anthony Nichols.

METAL POWER - The Ultimate EP collection I-V (NEW*LIM.300 DCD*NWOBHM*VILLAIN*PHASER) – 20 €

Pt78 Records 2019 - Brandnew NWOBHM Classic - The (un) holy heavy metal grail of the Low Lands: "Metal Power I to V: The Ultimate EP collection I-V" - limited Edition of 300 CDs only !!!

A great compilation of the complete 'Metal Power' series that was released on Paludium Records / Iceman Records between 1983 and 1985. The initial set consisted of 5 vinyl EPs, each containing 4 talented bands from the Dutch and Belgian hard rock and heavy metal scene.

Not many of the bands that were represented at this re-release have stood the test of time. Most of them actually disappeared from the face of the earth after their contribution to the 'Metal Power' series. The series was therefore the only tangible proof of their existence. This makes this double-CD re-release a real treat for old-style headbangers as well as for the coming generations of metalheads.

'Metal Power' was originally conceived and released by guitarist Tiny 'Iceman' van Stiphout, who at the time was a member of the Dutch cult band Back Out. Rumor has it that not many metal enthusiasts own the entire 'Metal Power I to V' series. The rumor goes that Van Stiphout deposited a large number of EPs directly in the trash bin due to lack of interest. In 2019 a major error because original "Metal Power" EPs are traded individually for ridiculous prices on fairs and websites such as Discogs.

The 20 songs of the doubler have been remastered exclusively for this release by Rick Valcon from RAre recordings. The official re-release of this (un) holy heavy metal grail of the Low Countries

PAGAN ALTAR - Mythical & Magical (NEW*NWOBHM/EPIC DOOM*REMASTERED) – 13 €

Temple of Mystery Records 2019 - Brandnew Rerelease of this occult NWOBHM Classic !

Featuring songs written mostly between 1976 and 1983, Mythical & Magical is Pagan Altars third album and is, without a doubt, the pinnacle of their career.

This grandiose, ancient-sounding masterpiece owes most of its atmosphere to Terry Jones majestic vocals and Alan Jones intricate guitar licks which gracefully weave a web of medieval-tinged solos throughout the songs. The unique mixture of heavy doom rock and mournful English folk found on Mythical & Magical is absolutely impeccable and will forever be celebrated among the knowing as one of the best albums of the genre. Jewel-case CD version includes exclusive liner-notes and remastered songs.

Temple of Mystery Records 2019 - Brandnew Rerelease of this occult NWOBHM Classic ! Jewel-case CD version includes exclusive liner-notes and remastered songs.

Originally recorded back in 1978-79, "The Time Lord" features Pagan Altars earliest recordings. Two of these flawlessly executed tracks are from a 24-track recording session, and the rest of the album are early, atmospheric versions of songs found on Judgement of the Dead. This LP includes a long-lost, never-heard before version of "Night Rider", from the same era as the other songs! This is pure doom metal sorcery.

Guest Vocalists: Les Carlsen (Bloodgood), and Chaz Bond (BioGenesis), JT (Metal Nobre)

Guest Guitarists: Oz Fox (Stryper), Paul Jackson (Bloodgood), and Troy Thompson (Bride), Juninho Afram (Oficina G3 of Brazil)

Tiago James de Souza was first known as guitarist for the bay area thrash band, Hand of Fire. Dale Thompson was first known as the vocalist for Christian hard rock legends, Bride. They have teamed up for their second album of heavy metal enchantment. We say "enchantment" because this slab-o-metal is more dangerous and packed full of more pure magic than an enchanted forest. Trust us – this one is a maturation of the brilliance of the band's debut, The Reaper.

PHASSLAYNE - Cut It Up (NEW*LIM.500*NWOBHM KILLER 1985 + 11 BONUS TRACKS) – 16 €

This album is easily one of the most criminally underrated NWOBHM albums on the NEAT roster, featuring amazing classic heavy tunes from start to finish. Stuff like "Run for guns", "Feels on wheels", "Minute Man" etc are nothing but sheer greatness. "Cut it up" has never been officially reissued on CD before and thanks to the amazing original founder and guitar player of the band, Michael Maughan, we managed to secure for you 11 (!) unreleased bonus songs, some of which are GIGANTIC metal hymns like "Mercenary Killer" and "To rule the World". Michael also did an interview with us, that's included in the booklet and also provided us with vintage 80's photos.

The CD features remastered sound and is limited to 500 units, so make sure you add this classic to your NWOBHM collection.

High Roller Records 2019 - Brandnew slipcase CD + bonus DVD Live in Kobe 1990

As a founding member of San Antonio Texas legends S.A. Slayer, bassist Don Van Stavern is the longest lasting member of Riot V. The first Riot album he plays on is 1989's legendary »Thundersteel« record. However, not a lot of

people know that his personal connection to Mark Reale goes way back even further, to 1983s »Born In America«, featuring the late great Rhett Forrester:

Theres actually three songs on »Born In America« that I co-wrote but didnt get any credits for. At the time of »Born In America« I was already writing with Mark Reale. I wrote ´Gunfighter´, I wrote ´Heavy Metal Machine with him, and I wrote Running From The Law. And I have demos of that. Because what we would do is, we would get the songs down and then we would demo with the guys from Texas Slayer. That later became Narita.

But ´Gunfighter´, ´Heavy Metal Machine and Running From The Law were already written. Thats where our relationship for writing actually started. With songs like On Your Knees, Runaway, Storming The Gates Of Hell or the striking Killer (with vocalist Tony Moore singing a duet with none other than the mighty Joe Lynn Turner) »Riot Archives Vol.4« contains the original demo versions of a lot of material which later ended up on »The Privilege Of Power« album (from 1990).

Don Van Stavern compares the rough demo takes of the »Privilege Of Power« material (recorded in Texas) to the finished album versions (laid down in New York City): The producers wanted to put a bunch of stars as guest musicians on the album, that was the deal, and they wanted to put horns on there. That was okay. But then they put the noise in-between each song, the little intros, and then a long intro. And then the song would finish and there would be another long intro. A lot of fans said: We just wanna hear the music, we dont wanna hear that. That was one of the things we didnt really like about the finished version of »The Privilege Of Power«. The horns were cool but we didnt like the bits and pieces in-between the actual songs.

Their discography includes more than 200 (yes, 200!) studio and live albums, singles, EPs, tapes and other releases.

"Asian Demonslaught" is a collection of 5 first singles which the band released between 1985 and 1990, with NEW MASTERING / RESTORATION. While band's style evolved into unique, traditional Metal based brand of Black Metal (or as the band used to call it - Blacking Metal), the early recordings show the Classic Metal roots of the band.

Screamer never strays far from the proven sound of roaring guitars and pounding drums that works equally well in the war pit tands in front of stage as when blasting through your stereo. In Screamers music you can hear the classic foundations laid down by the hard rocking heroes of old. With a combination of straight-forward choruses of the likes of Dio, guitar works in the style of 'Maiden or 'Lizzy on speed and the pounding beat of Judas Priest, Screamer has carved out their very own essence of heavy metal that will stand the test of time Highway of Heroes is the fourth studio album from the Swedish heavy metal band.

[SHOCK TREATMENT - Binary Fall Out \(NEW*LIM.500*NWOBHM 1980*SLIPCASE ED.\) – 14 €](#)

High Roller Records 2019 - Brandnew limited 500, slipcase Edition

NWOBHM Classic from 1980 ! Norfolk's SHOCK TREATMENT made their mark on the New Wave Of British Heavy Metal with just one single, 'The Mugger', released at the end of 1980, but constant gigging around their locality ensured that they were well-known despite being having a lifespan of less than two years.

By the time they came to record their single Shock Treatment had already recorded one session, although nothing now remains of this tape. A stunning gig supporting Tygers Of Pan Tang gave them the impetus they needed, and in October 1980 'The Mugger' and its B-side 'Nuclear Warfare' were committed to tape, along with a third song 'Mr Computa' which is also included here. Only 500 copies of the single were pressed up on the band's own Skull Records label, many of which, Lorry thinks, "ended up on juke boxes around East Anglia."

Unfortunately, the singer quit in March 1981 and the band fulfilled its obligations with a guest vocalist, finally calling it a day at the end of May. It was all over too quickly for a band of such potential.

[SILOAM - Sweet Destiny \(NEW*LIM.500*US WHITE MELODIC METAL *GOLD DISC EDITION *HOLY SOLDIER *GUARDIAN\) – 20 €](#)

Retroactive Records 2020 - Brandnew limited US White Metal Classic Rerelease - 500 copies, GOLD Disc -

Remastered by Rob Colwell at Bombworks Sound, 12 page full color booklet

- US Direct Import ! If you like bands that have that distinct 80's sound along the lines of Stryper, Crystavox, Guardian, and Holy Soldier, then grabbing a copy of Siloam's 1991 debut release is a must!

This is THE big monster smash-hit debut from a band that didn't survive long after the grunge on-slaughter! Ottawa, Canada based Siloam is the brainchild of uber-talented drummer, Brian Lutes. Coming out of a real street-wise background, Lutes became a Christian after nearly dying of a drug overdose but went back to the streets in order to work with kids and relate the Gospel to them in a credible way. For naysayers who try and claim Christian hard rock and metal was second-class to mainstream rock like Skid Row, Def Leppard, and Guns-n-Roses we'd like to introduce you to SILOAM! In the words of music critic, Angelic Warlord, "Sweet Destiny flows quite well from front to back in that it includes no filler tracks." Tim Laroche decorates the album with blazing and at times distorted lead guitar work, cutting loose on "Eastern Skies" and "Deceiver" while exhibiting a bluesier side to his playing on "Child Of Mine." Very Oz Fox-esque in style. This is full-on, exceptional, melodic, commercial AOR/metal with massive hooks, killer vocals, and top shelf production.

No Remorse Records 2020 - Brandnew Limited 1000 copies CD Edition + 2 Bonus Tracks

Heavy Metal from Sweden always had a special sound, melodic and emotional, combined with youthful energy and passion. Among legendary acts from Sweden, like Heavy Load and the band of guitar virtuoso Yngwie Malmsteen, there was also Silver Mountain! Formed in the late '70s by guitarist Jonas Hansson, in 1980 Silver Mountain recorded a demo that set new standards in the Swedish heavy metal sound. Influenced by Ritchie Blackmore's Rainbow and the New Wave of British Heavy Metal bands, Silver Mountain became one of Sweden's finest bands!

Before The Storm (Demo 1980) is the beginning of a glorious legacy.

STORMCHILD - Lightning Never Strikes Twice (NEW*LIM.500*NWOBHM*UFO*RAINBOW*OZZY) – 14 €

Skol Records 2019 - The roots of Stormchild go way back to the year 1979: "We wanted to look and sound different from the usual bands at the time and worked on our stage show with bombs and pyrotechnics. We wrote our own stuff from the start and were really ambitious. Stormchild built up their following and fan base by playing live. We played all over and were known for being good live musicians. Music was our life back then, and still is." says Stormchild founder, Chris Mitchell.

There was a new style of rock and metal emerging after punk, and we were out at the same time as Def Leppard, Maiden, Saxon, Magnum etc but never felt that we were N.W.O.B.H.M. We knew we had a unique sound and to us it was more like melodic metal. Looking back, we were at the start of it all, I suppose.

We had so many influences ranging from UFO, Sweet, Rainbow, Ozzy, Van Halen. The list is endless, and there is a mix of all those influences in our playing.

The band released the nowadays legendary single in 1982 (also available as split with Big Daisy), but things didn't go as planned. In 2012 German label High Roller released a compilation of the early Stormchild recordings, but now it's time to finish what has been once started. The actual Stormchild debut album, "Lightning Never Strikes Twice" - Melodic British Metal for fans of Praying Mantis, Saracen, Iron Maiden

Astonishing Guitar themes, Magnificent vocal lines, First class songwriting...NO fillers here!

“Image” was released by the band itself back in 1995 and it is for sure one of the most sought after private Metal CDs of the 90s underground. Only 1000 copies were pressed and they were sold out very quickly.

It took the band two years (from 92 to 94) to complete the recordings but the result was purely magical. They excellently combined, Melodic, Power and Prog Metal, offering an outstanding musical result that is captured on their “Image” release.

The bonus material included on the Arkeyn Steel reissue, completes the WYRED back catalog: “Watch, Look & Listen” (1992 demo track), “Interference” (1996 demo track) plus the complete 1990 -and unreleased until today- demo recordings by CHERRY WENCH: the band that was evolved to WYRED, everything for the first time on CD.

For fans of QUEENSRYPHE, JACOBS DREAM, MARAYA, MERCURY RISING, MEDALYON.

Completely new, incredible artwork by Kai Brocks plus lyrics, liner notes and lots of unreleased photos form a great 16-page booklet to accompany the music.

Z-LOT-Z, from Houston Texas, USA had a very special musical vision. We can hardly recall any band that delivered Heavy Metal music in such an adventurous complex, powerful and inspired way.

Demo 1992: A key release that actually marks the band’s special Heavy Metal sound. All its six tracks are featured for the very first time on an official reissue and yes the “lost” “Stay Alive” track is included.

“Tearing At Your Mind”. The magnificent 1995 debut: The absolute Z-LOT-Z trademark. All the Z-LOT-Z magic is captured on the recordings of this debut. We actually managed to track down the original DATs so a completely new mastering has been done on the demo and debut album recordings.

“Soul Existence”: The band’s second and last album from 1998. It presents an amazing sound evolution and some examples of incredible songwriting. A huge remastering has been done on those recordings. An overall great job has been done -once again- by Kostas Scandalis, mastering from scratch and remastering the Z-LOT-Z material.

Bonus tracks are of course included: "In My Heart" is an outtake from the "Soul Existence" sessions (1998). There is also a gorgeous live version of "The Shadow" track from 1992 plus an acoustic version of the "Shelter" track which was also recorded back on 1992 during the Metalurgy cable TV show.

DARK WIZARD ARE BACK! DARK WIZARD deliver classic Heavy Metal with a dark and obscure touch.

After 33 years this Dutch heavy metal cult band released this master piece in 2018 on CD (private release). 33 years after their 1985 "Reign Of Evil" album, their sophomore album "Close In The Dark" sees the light of day!

In 2019 Metal Warrior Records came with the official release on vinyl. If you are still in for some dark, obscure, Heavy Metal, THIS is the release for you.

Egbert Berenst is doing an amazing job in here. It was actually his vocals that delivered some "fresh blood" on the Wizard's sound. Those who are following the DARK WIZARD saga closely may be aware of the fact that Egbert was actually the person that resurrected the band. So in this record he got his big chance to sing for the awaken beast, and he is doing it in a really great way!

Riffing and vocals are the two key features on this release, but thankfully we have more: great lead guitar parts and a strong, solid rhythm section that transforms these songs into serious headbanging material.

Limited Edition of 100 copies in Silver Vinyl + Insert

Marta Gabriel, the front woman of heavy metal stalwarts CRYSTAL VIPER is considered to be one of the finest singers of her generation. Rob Bendelow is the founder and original guitarist of the legendary British hard rock band SARACEN - as the composer of albums such as "Vox In Excelso", "Redemption", and most notably "Heroes, Saints And Fools", Rob is a truly respected contributor to the history of classic rock. So what might the result be if those two were to join forces, and combine their obvious passion for music? The answer is MOON CHAMBER.

In addition to Marta and Rob, three other musicians complete the MOON CHAMBER ranks. Keyboard duties are handled by Paul Bradder of SARACEN, and the driving percussion comes courtesy of PAGAN ALTAR's Andy Green. In addition to vocals, Marta recorded all the bass guitar parts for the album, but Richard Bendelow (Rob's son) is now responsible for the bass element going forward. The album comprises ten tracks, deeply rooted in the classic rock of the '70s and '80s, whilst drawing inspiration from the wealth of English folklore, history and legend.

This grandiose, ancient-sounding masterpiece owes most of its atmosphere to Terry Jones majestic vocals and Alan Jones intricate guitar licks which gracefully weave a web of medieval-tinged solos throughout the songs. The unique mixture of heavy doom rock and mournful English folk found on Mythical & Magical is absolutely impeccable and will forever be celebrated among the knowing as one of the best albums of the genre. High Roller Records 2019 - Brandnew Ltd 200 x black vinyl, 425gsm heavy cardboard cover, insert
NWOBHM Classic - It is not often that a band starts out with three guitarists and a drummer, but this happens to be the earliest formation of Orpington, Kent based NWOBHM unit Raw Deal.

This came in the shape of the unreleased "Make Or Break", and the rough and ready, "Cut Above The Rest" that captured the raw energy of the early generation NWOBHM bands, taped 'live' on a 4 track recorder at the 'Mouse Hole Studio' in Orpington with the vocals added later. There's been some misconceptions about the cheering at the end of "Cut Above The Rest"; this actually is the band being relieved to finally get the song right since it had been a rushed recording session. From this recording, "Cut Above The Rest" was then lifted to appear on the much sought after "Kent Rocks" compilation LP, released in 1981 by the obscure White Witch record label in a circulation of 1000 copies.

High Roller Records 2019 - Brandnew double black vinyl, Ltd 300, poster, gatefold cover, restored and mastered for vinyl by Patrick W. Engel at Temple of Disharmony, Bonus DVD Live in Kobe 1990

As a founding member of San Antonio Texas legends S.A. Slayer, bassist Don Van Stavern is the longest lasting member of Riot V. The first Riot album he plays on is 1989s legendary »Thundersteel« record. However, not a lot of people know that his personal connection to Mark Reale goes way back even further, to 1983s »Born In America«, featuring the late great Rhett Forrester:

Theres actually three songs on »Born In America« that I co-wrote but didnt get any credits for. At the time of »Born In America« I was already writing with Mark Reale. I wrote 'Gunfighter', I wrote 'Heavy Metal Machine with him, and I wrote Running From The Law. And I have demos of that. Because what we would do is, we would get the songs down and then we would demo with the guys from Texas Slayer. That later became Narita.

But 'Gunfighter', 'Heavy Metal Machine and Running From The Law were already written. Thats where our relationship for writing actually started. With songs like On Your Knees, Runaway, Storming The Gates Of Hell or the striking Killer (with vocalist Tony Moore singing a duet with none other than the mighty Joe Lynn Turner) »Riot Archives Vol.4« contains the original demo versions of a lot of material which later ended up on »The Privilege Of Power« album (from 1990).

Don Van Stavern compares the rough demo takes of the »Privilege Of Power« material (recorded in Texas) to the finished album versions (laid down in New York City): The producers wanted to put a bunch of stars as guest musicians on the album, that was the deal, and they wanted to put horns on there. That was okay. But then they put the noise in-between each song, the little intros, and then a long intro. And then the song would finish and there would be another long intro. A lot of fans said: We just wanna hear the music, we dont wanna hear that. That was one of the things we didnt really like about the finished version of »The Privilege Of Power«. The horns were cool but we didnt like the bits and pieces in-between the actual songs.

Screamer never strays far from the proven sound of roaring guitars and pounding drums that works equally well in the war pit tands in front of stage as when blasting through your stereo. In Screamers music you can hear the classic foundations laid down by the hard rocking heroes of old. With a combination of straight-forward choruses of the likes of Dio, guitar works in the style of 'Maiden or 'Lizzy on speed and the pounding beat of Judas Priest, Screamer has carved out their very own essence of heavy metal that will stand the test of time
Highway of Heroes is the fourth studio album from the Swedish heavy metal band.

High Roller Records 2019 - Brandnew limited 200 x black vinyl, 425gsm heavy cardboard cover, lyric sheet, A4 insert with extensive liner notes, A5 promo card, double A side
NWOBHM Classic from 1980 !

Norfolk's SHOCK TREATMENT made their mark on the New Wave Of British Heavy Metal with just one single, 'The Muggers', released at the end of 1980, but constant gigging around their locality ensured that they were well-known despite being having a lifespan of less than two years.

The band came together at the end of July 1979, as the NWOBHM was starting to spread its wings across the UK, and after just six rehearsals Mike 'Lorry' Carr (vocals), Lloyd 'Ev' Evans (lead guitar), Nick Ward (rhythm guitars) Doug Raymond (bass) and Dave Alden (drums) played their debut gig at a renowned bikers' pub in Norwich. Their gigs were a combination of music and melodrama, the band having decided that theatrics and visual flair should accompany their hard, driving sound.

By the time they came to record their single Shock Treatment had already recorded one session, although nothing now remains of this tape. A stunning gig supporting Tygers Of Pan Tang gave them the impetus they needed, and in October 1980 'The Mugger' and its B-side 'Nuclear Warfare' were committed to tape, along with a third song 'Mr Computa' which is also included here. Only 500 copies of the single were pressed up on the band's own Skull Records label, many of which, Lorry thinks, "ended up on juke boxes around East Anglia." Unfortunately, the singer quit in March 1981 and the band fulfilled its obligations with a guest vocalist, finally calling it a day at the end of May. It was all over too quickly for a band of such potential.

Featuring songs written mostly between 1976 and 1983, Mythical & Magical is Pagan Altar's third album and is, without a doubt, the pinnacle of their career. This grandiose, ancient-sounding masterpiece owes most of its atmosphere to Terry Jones' majestic vocals and Alan Jones' intricate guitar licks—which gracefully weave a web of medieval-tinged solos throughout the songs. The unique mixture of heavy doom rock and mournful English folk found on Mythical & Magical is absolutely impeccable and will forever be celebrated among the knowing as one of the best albums of the genre.

DEAF FOREVER #33 (NEW*GER METAL MAG*CAN METAL SPECIAL*POSTER: VOIVOD/W.DANE) – 7€

Macht doch endlich mal ein großes Kanada-Special! So steht es nicht nur regelmäßig in Leserbriefen, sondern so wurde uns bei Konzerten und auf Festivals oftmals die Pistole vor die Brust gehalten. Euer Wunsch ist uns nun Befehl: Denn Canadian Steel - längst ein Gütesiegel wie US-Metal oder NWOBHM – ist ein mehr als dankbares Special-Thema. Die musikalische Bandbreite geht von Rush bis hin zu Blasphemy, sodass wir mit einem Teil und mit hundert „besten Platten“ in nur einem Heft nicht hinkommen. Hier also Kanada, Teil 1...

DEAF FOREVER # 34 (NEW*GER METAL MAG*CAN METAL SPECIAL*POSTER: NEIL PEART) – 7€

Lange war es angekündigt, aber niemand hat so recht daran geglaubt: ein echtes Psychotic Waltz-Comeback in Form eines neuen, großartigen Studioalbums. Wegen „The God-Shaped Void“, dem ersten Waltz-Longplayer seit fast 25 Jahren, verlor Michael Kohsiek den Verstand, stammelte „Titelstory...“ und quetschte alle fünf Musiker aus wie die Zitronen. Lest das Ergebnis auf acht Seiten.

Bonded heißt die neue Band von Bernemann und Makka (beide ex-Sodom), und ihr Debütalbum „Rest In Violence“ sorgt für freudige Überraschung, denn es handelt sich um ein echtes Thrash-Geschoss. Wer mit einem müden Sodom-Abklatsch gerechnet hat, sieht sich getäuscht: Bonded klingen frisch und eigenständig - und alles andere als verbittert. Bernemann hatte Interessantes zu erzählen.

Im letzten Heft ging's mit unserem großen Kanada-Special los - u.a. mit 75 von 150 besten Alben des kanadischen Hardrock und Metal. Neben einer großen Rush-Story umfasst der zweite, noch umfangreichere Teil unseres Specials natürlich auch die noch fehlenden 75 Scheiben - von Platz 75 bis 1.
