AKTOR - Placebo (NEW*MELODIC HEAVY ROCK*CHRIS BLACK/HIGH SPIRITS) – 14 €

Full Contact Records 2020 - Brandnew melodic Heavy Rock with High Spirits Mastermind Chris Black
The intercontinental rock trio AKTOR release their sophomore album, entitled Placebo. Drawing from the 70s' heavy rock and the 80s' Top 40 pop alike, the album is fit to lead the Adult Contemporary Heavy Metal genre for 2020. A musical pathway to the worlds of universal distance and awkward intimacy, the multi-melodious blend of acoustic, electric, and electronic instrumentation on Placebo provides a deep foundation for singer Chris Black's inquisitive lyrics and smashing choruses. While the myriad propelling forces behind AKTOR – Jussi Lehtisalo, Tomi Leppänen and Chris (Professor) Black – may seem cloaked in the mystery called abundance, the addictive nature of their eclectic blend is no mystery at all.

For fans of Circle, Dawnbringer, Pharaoh Overlord, Alan Davey, Sandy Pearlman, Angel Rat, Mental Vortex, Roky Erickson, Rickenbacker, Rainbow Road, and Paranoia (the first AKTOR album, of course).

Iron Maiden meets Yes or Atomic Rooster

Limited Edition of 300 copies CD-R in Jewel Case – NEW & SEALED !

ARCANE TYRANT is a Traditional/ Epic Metal band hailing from Edmonton, Alberta, Canada. It is the brainchild of Dustin Moroz (guitars/ vocals) and Curtis Beauchamp (guitars). They formed and began writing music in late 2017. They independently released their debut album 'War At The Edge Of Time. The band's main focus is currently on securing a solid live line-up and touring in support of 'War At The Edge Of Time' while also writing new material for a follow up release. So much for the band's description of themselves. I, of course, will add a few wisely chosen and heartfelt words of my own...

The vocal melodies are refreshingly strange but serve the overall composition. Dustin Moroz' voice is somewhat classic as he can hit high notes and is sure in the middles, Curtis Beauchamp is a damn solid guitarist and he and Moroz create fantastic melodies with their guitars. The drumming is, naturally, on point.

ARSYNAL – Millennium (NEW*LIM.300*US 80's MELODIC METAL*DOKKEN*HERICAN ALICE) – 14 €

Lost Realm Records 2020 – Brandnew deluxe CD edition, limited to 300 hand numbered copies, with remastered sound, 8 page booklet with lyrics, biography and enhanced artwork.

After the tremendous result obtained from recording the cassette "The Genesis", ARSYNAL joined forces with vocalist Mark Stewart, thereby attacking and razing the Los Angeles band circuit. With Mark, the band was more than prepared for what the future would bring: Paul Montgomery's guitar playing was better than ever and Mark's powerful voice (for the more attentive, he is the lead singer on THRUST's "Invitation to Insanity" album) would take ARSYNAL to new heights. The highlight of this new lineup was the recording of the album "Millennium", which for the first time has a more than deserved official edition! With "Millennium", the band continues their adventure through the realms of Melodic Metal, adding a great deal of hard-rockish energy!

For fans of DOKKEN, SKID ROW and HERICANE ALICE.

A deluxe CD edition, limited to 300 hand numbered copies, with remastered sound, 8 page booklet with lyrics, biography and enhanced artwork.

ARSYNAL - The Genesis (NEW*LIM.300 US 80's MELODIC METAL*DOKKEN*Q5) – 14 €

Lost Realm Records 2020 – Brandnew deluxe CD edition, limited to 300 hand numbered copies, with remastered sound, 12 page booklet with lyrics, biography and enhanced artwork.

Known only by few, and coming directly from the realms of 80's Melodic Metal, we present ARSYNAL! We tried, and tried, and tried a little more, until we could finally find a contact that could help us making this dream come true. We have been listening to ARSYNAL and its "The Genesis" tape for many years, and now is time to share its music in a proper CD release. It has been a pleasure working with such quality music (it's impossible to not get hooked by Paul Montgomery's guitar playing)! In the "The Genesis" CD we will dwell on the band's early recordings, going back to 1987 with the rare 7" single "Mean Line" and then forward with the 1988 tape.

For fans of DOKKEN and Q5.

[BANSHEE - Take em by Storm \(NEW*LIM.300 CDS ED.*US POWER METAL CLASSIC '93\) – 15 €](#)

No Life Til Metal Records 2019 - US Direct Import ! Brandnew limited Edition of 300 copies CD Edition + an updated 12-page booklet with exclusive photos and liner notes. !

US Power Metal Classic ! The album has been masterfully remastered by Rob Colwell of Bombworks Sound and sounds better than it ever has.

Banshee are a heavy metal band from the Midwest, USA, formed in the spring of 1986 by vocalist Tommy Lee, bassist Chuck Hopkins (both ex-Lick), drummer Kent Burnham (ex-Crypt Keeper) and extraordinary guitarist Terry Dunn of Kansas City-based Frodo. By the fall of 1986, they released their first EP entitled Cry In The Night. Hopkins left shortly thereafter to pursue other projects in L.A. and was quickly replaced by local Kansas City bassist Bill Westfall. In 1988, Metal Blade Records re-released Cry In The Night and included the song "We Want You" on the Metal Massacre 9 compilation. The album was a strong, straight-forward and melodic heavy metal album with big hooks, strong vocals and smoking guitar work. The momentum from the EP gained the band immediate major label attention. After signing with Atlantic records in 1989 the band began recording at the infamous Record Plant Studios for their first full length album "Race Against Time" (released on September 15, 1989).

"Race Against Time" was slightly more melodic and commercial than the more straight-forward heavy metal of "Cry In the Night". Though the band continued to gain momentum with fans in the heavy metal world the band soon parted ways with Atlantic Records and within a couple years began recording their third full-length album "Take 'Em By Storm". The album was self-released by the band in 1993 on their own Snowblind Productions. The album quickly sold out of print and circulation with original copies selling on auction sites at premium prices.

[BENEATH THE SURFACE - Race The Night \(NEW*NWOBHM CLASSIC 1986 + 4 BONUS TR.\) – 15 €](#)

Divebomb Records 2020 - Brandew limited Edition of 500 copies - melodic NWOBHM Classic 1986

FOR FANS OF: SHOGUN, BRONZ, SHY, VIRGINIA WOLF & AIRRACE

SURFACE was formed in Birmingham, England circa 1980 by school friends John Bennett (bass), Mike Cheshire (guitar), and Paul Drew (guitar); who then recruited Tony Floyd (vocals) and Jamie Hawkins (drums). Lineup shifts saw Gez Finnegan replace Tony on vocals, Jamie's younger brother Ian come in on bass, guitarist Mark Davies supplant Paul, and the addition of Dean Field on keyboards. This lineup somehow managed to secure a six-week tour of France before ever recording a single note—after which Loz Rabone replaced Mike on guitar and the lineup stabilized.

A little-known four-song demo was laid down at Warwickshire studio The Barn in 1985 (complete with the late, great Tony Mills of Shy/TNT fame on backing vocals), which caught the attention of the Killerwatt label (ANGEL WITCH, U.K. SUBS, etc.), who were so impressed by SURFACE's live performances that they offered the group an opportunity to record a live album. The 10-song, 46-minute Race The Night was captured at a hometown gig at The Railway in Birmingham and issued on LP in the summer of 1986—a powerful representation of the band's energetic take on metal-tinged hard rock/AOR anthems.

[BLACKLACE - Unlaced / Get it While it's Hot \(NEW*US METAL 1984/85*LIM.500*FEMALE VOC.\) – 13 €](#)

Skol Records 2020 - Brandew limited US Metal Rerelease - 500 copies ! Female fronted US Metal from 1984/1985 !

The New York based heavy metal act BLACKLACE was formed in 1982 by the female singer Maryann Scandiffio, and debuted just 2 years later, with "Unlaced" (1984). The album was released by the already legendary Mausoleum Records label, the same one that the same year launched the career of Doro's WARLOCK with "Burning The Witches".

BLACKLACE promoted their album sharing the stage with acts such as TWISTED SISTER, THE PLASMATICS, TALAS or MANOWAR, whose guitarist Ross The Boss co-produced 3 songs from the debut. "Unlaced" also entered international album charts, and reached #21 in Kerrang, #25 in Music Week Magazine, and #29 in Sounds. In 1985 the band toured the UK, and recorded 2nd studio album "Get It While It's Hot" in London, with producer Phil Chilton (WITCHFYNDE, VARDIS). In 1985 BLACKLACE also landed in the centre of a political scandal (next to TWISTED SISTER, MOTLEY CRUE or DEF LEPPARD), when the PMRC leader Tipper Gore branded the band as "kinky, twisted and perverse" due to their lyrics.

[DEATH THE LEVELLER – II \(NEW*IRELAND EPIC DOOM METAL\) – 13 €](#)

Cruz del Sur Records 2020 – Brandnew Epic, melancholic and churning doom metal from Ireland.

The first full-length from Ireland's Death the Leveller, II combines dark, impenetrable doom with the sweeping arrangements of epic metal.

There is an air of unassailable melancholy in Irish music. Its ballads, poetry, traditional music and folk traditions all carry the weight of loss of the men and women who experienced hardship and fought so vigorously for their country. Passed down through generations, it's only natural for young musicians to have melancholy embedded in their DNA. What they do with it, however, is entirely up to them.

For Death the Leveller, music is the outlet and the common bond between its four members. Therefore, it is no surprise their first full-length album, II, is the perfect union between dark, sweeping epic metal and doom. Originally formed in 2016 out of the ashes of long-running Irish metal ensemble Mael Mórdha, Death the Leveller (who are comprised of vocalist Denis Dowling, guitarist Gerry Clince, bassist Dave Murphy and drummer Shane Cahill), released their debut EP I, in 2017.

Heralded for Dowlings spirited clean vocals and the sheer depth and magnitude of their arrangements, Death the Leveller soon fell onto the radar of Cruz Del Sur Music. Once the band and label cemented their partnership, Death the Leveller began songwriting for II. Driven by the desire to create something with increased dynamic and emotional range, Death the Leveller emerged with four songs totaling 42 minutes which were tracked by Michael Richards at TrackMix Studios in Dublin. II is both carefully constructed and ambitious. Its depth is often channeled through softer, more reflective portions that work in tandem with some of the heaviest riffs the band has written to date. It's all in the spirit of making each song a journey onto itself for Death the Leveller, who spent countless hours on the album's arrangements until the landscapes finally formed in front of them.

Throughout II, Death the Leveller explores the theme of mortality from a deeply personal, introspective viewpoint. It is the foundation for II, an album that is profoundly cathartic and rightfully so? metal with this kind sheer emotional weight can only come from an honest, genuine place.

The attitude, the spirit and the strength to realize and chase your dreams is part of Heavy Metal and DEXTER WARD will guide us to the Road of Light.

CANADIAN HEAVY ROCK...WITH A NWOBHM VIBE! For Fans of UFO, Thin Lizzy, Budgie, Blue Öyster Cult, Tarot and April Wine - along with the distinctive twists of the unsung heroes of the NWOBHM

Indeed, Freeways are a breath of fresh, northern air. Honoring the mystical undercurrents of so much classic Canadian rock of the past, the quartet's sound is firmly built upon a foundation of '70s giants - such as UFO, Thin Lizzy, and April Wine - along with the distinctive twists of the unsung heroes of the NWOBHM. It's a sound that's immediately familiar but also immediately engaging, so richly rendered are these soul-stirring odes to wanderlust,

melancholia, and "Survival" itself. Now, at long last arrives Freeways' full-length debut. Likewise aptly titled, True Bearings roves wild, rough terrain, but with ease that only comes from many road-worn years.

Each of these seven songs is anchored to a plaintive, poignant hook, tastefully embellished with subtly delicate touches that proves Freeways as masters of mood. The quartet's interplay is untouchable here, given that their chosen idiom is the more-or-less hard(er) end of rock, exhibiting class and poise every step of the way, but perhaps no better evinced than on the near-seven-minute vamp of "Time is No Excuse." The 37-minute True Bearings is a highway worth cruising time and time again.

- Special write up by bassist, David Bach
- Gold Disc has original cover on the flip side of booklet insert
- Part of the Legends Remastered series

Miracle Mile built off bands like Tesla, Extreme, and Giant but was distinctly Guardian. Miracle Mile is the band's undisputed Sgt. Pepper, their Appetite for Destruction, their Back in Black. This is the band's defining moment, at the top of their game.

Teaming up with Dino and John Elefante (Kansas/Mastodon/Pakaderm Records) for 1991's Fire and Love album was a game-changing move for Guardian. The album was an overwhelming hit with fans, in regular rotation on MTV's Headbanger's Ball, and the band turned into the consummate road warriors with extensive U.S touring throughout 1991 and a European tour with Stryper in 1992.

With all the touring, the band made the decision to move, families and all, from Los Angeles to Nashville in order to take things to the next level. Not content to make their third album Fire & Love Part 2, Guardian reflected on two years of touring, all their success, and began to dream of what album number three might be like. Bach was influenced by a movie that featured a turn-of-the-century carnival that had terrifying and mystical effects on the towns it visited. Bach was also fascinated with the religious tent revivals from the same period that had such a profound effect on the U.S. landscape. He began envisioning an album that combined the two elements, with snake oils, side shows, carnivals, and deep spirituality. The rest of the band bought in to this concept, and Miracle Mile was born.

The album demonstrates a band locked in as a cohesive unit, being fun, imaginative, and creative in ways that pushed them far beyond anything they had ever done.

Divebomb Records 2020 - Brandew Limited 500 DCD - US 80's Thrash/Speed Metal Classic
FOR FANS OF: AT WAR, RAZOR, MOTORHEAD, DARK ANGEL & METAL CHURCH

The tale of prolific and longstanding metal outfit HOSTILE RAGE began in a New Jersey bedroom back in 1985. Initially called Rampage, the group issued its debut five-song demo, Vol. 1, less than a year after solidifying the lineup and rebranding itself under the banner of HOSTILE RAGE. The following year, these recordings were re-released alongside four new songs as the extremely rare Vol. 1 + 2; while the now-classic "Dead Meat" found its way onto New Renaissance Records' Thrash Metal Attack II compilation. Another five-song demo—the aptly-titled On the Rampage—saw the light in 1989, followed by the blistering Adrenalin Flow in 1990. The future looked bright, but as 1991 approached, the surrounding musical landscape began to shift, so despite the band's writing continuing to progress, momentum slowed and there would be a four-year delay before HOSTILE RAGE presented two final demos during the mid-'90s.

Never officially broken up, toward the end of 2009 HOSTILE RAGE regrouped with all four original members from 1987. Live appearances opening for Whiplash and Joey Belladonna from Anthrax followed. Throughout the next decade, the quartet began re-recording some of the band's vintage cuts—plus newly-composed rippers—at JRod Productions in New York. These sessions even included a guest vocal contribution from one Alan Tecchio (Hades, Watchtower, etc.) on a reworked edition of the mighty "Dead Meat." Having opened for everyone from Dark Angel and Lääz Rockit to Nuclear Assault and Overkill—not to mention securing the interest of labels such as Megaforce, Roadrunner, and New Renaissance—during their initial heyday, the intention was to finally release a full-length album. But, like so many inexplicably missed opportunities throughout the history of HOSTILE RAGE, it never came to pass...

On the Rampage: a comprehensive double-CD representation of the storied output of HOSTILE RAGE. Finally, the group's long overdue nine-song full-length debut will see the light; bolstered by an additional disc containing the Vol. 1, On the Rampage, and Adrenalin Flow demos for a total of 25 tracks and over 90 minutes of pounding, unforgiving heavy metal fury! Fully remastered by Jamie King Audio, the set will be housed alongside a detailed booklet including a retrospective interview with HOSTILE RAGE.

Divebomb Records 2020 - Brandew Limited 500 CD - 3rd Album - US Power Metal Killer !

FOR FANS OF: RIOT, NOCTURNAL RITES, FIFTH ANGEL & DIO

Hailing from eastern Ohio and western Pennsylvania, IRONFLAME is a modern heavy metal outfit with traditionally-based ideals. Their fist-banging anthems hearken back to the sounds of such venerable acts as Riot, Nocturnal Rites, Running Wild, and Fifth Angel. Multi-instrumentalist Andrew D'Cagna formed IRONFLAME in late-2016 as a solo project, but the group soon became a formidable live unit. The current performing lineup consists of D'Cagna on vocals, guitarists Quinn Lukas and Jesse Scott, James Babcock on bass, and Noah Skiba behind the kit.

IRONFLAME has played high-profile festivals such as Legions of Metal in the U.S. and Keep it True in Germany alongside metal heavyweights such as Armored Saint, Grim Reaper, Flotsam and Jetsam, and Uli Jon Roth; and—having recently completed a European tour with Comaniac—a return to Europe is already taking shape for 2020 in support of the band's forthcoming third full-length, Blood Red Victory. Recorded, performed, mixed, and mastered by D'Cagna (with guitar leads by Lukas and Scott) at Sacred Sound in Martins Ferry, OH from December 2018 through February 2019, Blood Red Victory finds IRONFLAME once again brandishing their trademark approach to soaringly triumphant heavy metal hymns. Regarding its subject matter, D'Cagna states, "There is a recurring theme of victory in the lyrics for this album. Some songs have an air of chest-out confidence; others are about overcoming adversaries or even adversity itself. Most have been written from a 'we/us' perspective, which makes the listener feel like, 'We're in this together.'"

Clocking in at 10 tracks in just over 50 minutes, Blood Red Victory. As with past efforts from IRONFLAME, the disc will be a must-have for diehard fanatics of heavy metal's true legacy!

[KINETIC DISSENT - Contolled Reaction: The Demo Anthology \(NEW*US METAL*HEATHEN*REALM*TOXIK\) – 15 €](#)

Divebomb Records 2020 - Brandew Limited 500 CD - US Thrash / Speed / Power Metal Classic from 1987 - 1992 !

FOR FANS OF: HEATHEN, DROP HAMMER, REALM, TOXIK & FORTE

The infancy of Atlanta, GA's KINETIC DISSENT dates back to around 1984 with a small group of friends writing and recording initial ideas in a four-track home studio. Having immediately set out to be an all-original band, once

solidified as KINETIC DISSENT in 1987, the group quickly set out to work on a six-song demo, *The Fall of Individualism*, that same year. The core lineup—Dwight Irvin (vocals), Stephen Danyo (guitar), and Ed Reimer (drums)—was then joined by new bassist Troy Stephens and the return of early guitarist Rick MacConnell. As a five-piece, the band commenced performing live and subsequently recorded the four-song *Controlled Reaction* demo in 1988 at Audio Animations in Smyrna, GA.

The strengths of that demo landed KINETIC DISSENT a deal with Roadrunner imprint Roadracer Records. The label covered the band for one night at Musicplex Studios in Atlanta to demo four new songs that would eventually be re-recorded for their full-length debut. That album, *I Will Fight No More Forever* (1991)—the group's lone proper release—remains an unsung masterpiece of truly unique and innovative progressive thrash metal. However, despite having opened for the likes of Death Angel, Pantera, Type O Negative, Fates Warning, etc., KINETIC DISSENT never received proper tour support to promote the album. Danyo left, and the remaining quartet self-financed the recording of three new songs in 1992. Roadracer decided to pass, and within a year this promising young outfit had run its course far too soon.

Now, nearly three decades later, Divebomb Records is excited to present *Controlled Reaction: The Demo Anthology*—a complete, 17-track collection of all of KINETIC DISSENT's demo recordings. This marks the material's first time on CD, with several tracks being presented for the first time ever! Completely remastered by Jamie King Audio, the disc will be packaged with one of the label's trademark thick booklets, complete with a retrospective interview with the band, conducted by Konstantin Chilikin of Stay Heavy fanzine.

artist simply entitled Michael with their only album ever released entitled 'The Battle Rages On'. This extremely rare and very good Christian hard rock album from Michael was only ever released on cassette tape. A South Amherst, Ohio based band, this was their only officially released album that originally came out in 1995 on a small defunct indie label called R.A.G.E. Records and in very limited quantities.

Michael featured Shane Freeman (Jake Banshee) on vocals who was the former vocalist of Stutz. Also featuring the keyboard talents of Todd Waites (Who would go on to play in Apologetix) Mike Slone on bass guitar and Dennis Raymond on drums. With solid operatic vocals and shredding guitars this album is reminiscent of bands like Stryper and Holy Soldier.

[MIDAS - Demo Tapes LP \(NEW*US METAL*EARLY J.PRIEST*THIN LIZZY*SCORPIONS\) – 13 €](#)

Dying Victims 2020 – Brandnew Limited CD Edition + Sticker ! US Prototype 70/80's Metal !

For Fans of early Judas Priest, Scorpions, Thins Lizzy, NWOBHM mixed with some Epic and obscure US Metal like early Manilla Road or Cirith Ungol !

Hailing from the mean streets of Detroit, MIDAS are a four-piece band of hard rock warriors. Theirs is an ancient, time-lost sound, recalling rock 'n' roll's first transitions into heavy metal during the hazy, crazy '70s. But, MIDAS are not simply retro-retread plagiarists looking to replicate the past; this era and style of music burns within them, and it bursts forth with effervescence and excitement across their two demos to date.

Both released during 2019, MIDAS' "Solid Gold Heavy Metal" and "Still Hungry" each feature four effervescent, exciting songs, and both trounce most bands regular recordings. Brimming with a startling, stultifying confidence, "Solid Gold Heavy Metal" patiently builds eldritch grooves guided by narrative lead work.

There's a subtle yet no-less-dazzling mysticism here recalling early SCORPIONS and JUDAS PRIEST, and even trio-era THIN LIZZY – just witness the demo's eerily breathtaking closer, "Blackened Blade" – as well as subsequent legends MANILLA ROAD and CIRITH UNGOL. The heavier stylings of the latter begin to come to the fore on "Still Hungry".

Now fully into late '70s heavy metal mode, MIDAS move beyond the moodiness of their first demo to more epic and fantastical landscapes, kicking up the octane and cruising into the night with the ever-aptly titled "Street Knights." Together, both demos could verily hold together as an exceptionally tight 'n' thematic album-length work.

Molten Chains take occult-sounding heavy metal a la France's Blaspheme—or more recently, Canada's Cauchemar—and twist it with odd chord arrangements and spiraling riffage. Riffs upon riffs in cascading bulges of thrash n' trad-metal blasts of galloping sorcery make Molten Chains one of the straight up most promising new heavy metal bands of the year. Darker than hell imagery and relentless streams of riff after riff make for a very dense set of ideas

- Part of the Legends Remastered series

ABOUT THE ALBUM

Reissue one of the finest and most important Christian extreme metal albums ever on both CD (Gold Disc) and Double LP Multi-Color Gatefold Vinyl!

Given a complete remaster by Bombworks Sound's Rob Colwell, the album sounds better than ever, literally! Exhumed of the Earth is the debut album by Paramaecium, released in 1993. Without any exaggeration, the album is one of the landmarks of both doom metal and Christian metal movements. The band incorporated several classical instrument arrangements on the album, most notably on the 17 minute epic "The Unnatural Conception," where Rosemary Sutton played violin and Judy Hellemons flute. Sutton also did the soprano vocals. The storyline of the album based on the Bible: it begins at the birth of Christ, continues through his resurrection, speaks of the disciples, and ends with Christians coming to life from the dead. Because the biblical references in the lyrics are elegantly written, the album has been often compared to old My Dying Bride. Musically, Exhumed of the Earth is mostly slow-paced doom metal with death metal influences, most notably on the death growl vocals of Andrew Tompkins and on tracks like "Injudicial."

Exhumed... would go one to be voted #42 (just ahead of Horde, Vengeance, and Seventh Angel) on Heaven's Metal Magazine's Top 100 Christian Metal Albums of All-Time with music critic Jonathan "Doc" Swank saying, "With its release, the Aussie trio of Andrew Tompkins, Jason De Ron and Jayson Sherlock" essentially delivered the most powerful and moving death/doom recording in the history of Christian metal."

DISSONANCE Productions 2020 – Lim. Digipak Edition !

For Fans of Saxon, Black Sabbath, Judas Priest, Blitzkrieg

The highly anticipated sophomore album by British heavy metal act SATAN'S EMPIRE.

Formed in 1979, Satan's Empire initially made an impact on the NWOBHM scene and are remembered chiefly for the track 'Soldiers of War', which featured on the compilation cassette 'Lead Weight', released by Neat Records in 1981, and which has since gained serious cult status.

Formed in Dundee, but then relocating to London, the band reformed due to irresistible demand from fans.

The reborn band made their debut at the hugely acclaimed UK NWOBHM event 'Brofest' in 2016. Since that barnstorming initial live show, Satan's Empire have stormed their way back into the vanguard of the resurgent NWOBHM and are continuing to gather new fans young and old.

Lost Realm Records 2020 – Brandnew CD edition comes with a 16 page booklet comprising band biography, lyrics and rare photos. Remastered audio and enhanced artwork. Limited to 300 hand numbered copies.

SCARLET's second album 'Phantasm' brought an even bigger Hard Rock approach, compared to the band's first album, released in 1983. While the shock-rock theme remains, the band tries a more radio-friendly songwriting, much in vogue in the mid-1980s, and by adding some glam motifs as well. Guitar driving Hard 'n' Heavy that will please fans of early DOKKEN, early RATT and 80's ALICE COPPER era.

We present SCARLET from Columbus, Ohio, and their hit song (should we say anthem?) "SHE TASTE LIKE METAL" from their 1983 debut album. Early US Metal sound can't get much better than this. If you enjoy your Metal with some hard rocking feeling into it (so common in the early 80's, with bands like XCURSION, TSUNAMI or even KODA KHAN), than you will truly enjoy SCARLET. Catchy melodic tunes, with a dark aura and a shock image, makes this band quite unique and without parallel.

SOJOURNER – Premonitions (NEW*DIGIPAK*EPIC / BLACK METAL KILLER) – 14 €

Napalm Records 2020 – Brandnew Digipak Edition !

Atmospheric + Epic Killer Black Metal with some Folk and some Power Metal elements !

Like an oncoming storm, Premonitions unveils the violent, yet undeniably beautiful stylistic progression of SOJOURNER's sound in an exceptional synthesis of folk and atmospheric black metal. Thanks to the ever-increasing complexity of arrangements and compellingly diverse intros ("The Event Horizon"), Premonitions rises to a broader musical territory where the wide range of melodies and rhythms merge together into a desolated, yet captivating soundscape of expressive harmony. Whether highlighting the atmospheric influences ("Monolith"), Chloe Bray's ethereal vocals ("Talas"), or evolving rhythmically around Emilio Crespo's growls ("Fatal Frame"), SOJOURNER manages each time to captivate the listener. The mysterious and capricious spirit of unexplored wilderness is directly referring to both the legacy of the Scandinavian extreme metal scene and the charm of instrumental folk interludes. Following the lead of powerful riffs and rhythmic accompaniments, voices of Crespo and Bray, two charismatic pillars of SOJOURNER's musical identity, fiercely interact with each other ("Apocalyptic Theatre"), opening a field for the atmospheric journey through melodies of dawn and dark emotional hymns. Amalgamating a wide range of musical forms and concepts, on their third studio album SOJOURNER outlines a captivating soundscape, gradually unfolding into a musically unpredictable ode to the unknown. Premonitions is in this sense not only a masterfully told story, but much more a milestone confirming the group's unique approach towards the genre!

[SWIFT - The Worst Of All Things Possible \(NEW*LIM.500*US PROG/THRASH ROCK/METAL*KILLSWITCH ENGAGE\) – 13 €](#)

Divebomb Records 2020 - Brandew Limited 500 CD US Prog/Thrash Metal / Rock for Fans of Killswitch Engage, Deftones, Slipknot or Disembodied

Formed in Winston-Salem, NC in 1998, SWIFT delivered a unique style right out of the gate, drawing upon influences ranging from Foo Fighters and Radiohead to Metallica and Pantera. Early success garnered the interest of major labels such as Atlantic, Dreamworks, and MCA, but the group opted to forge its own path, releasing three full-lengths and one EP through Tribunal Records from 1999 to 2005—all of which were quite well-received by fans seeking something a touch different from the general realm of heavy music.

Shortly after the arrival of The Absolute Uncontrollable in 2005, however, SWIFT went dormant as members began focusing on careers and personal lives—three-fifths of the lineup relocating to Brooklyn, NY in the process.

Fortunately, friendships between the lineup—guitarists Mikey Gentle and Taylor Mabe, Billy Deal (bass), Jamie King (drums), and frontman Gary Forsyth—remained intact, and new music slowly began to take shape during the decade-plus that followed. Based on the strengths of this material, the band decided to evolve these ideas into a brand new full-length to commemorate SWIFT's 20th anniversary.

Released digitally in December of 2017, The Worst of All Things Possible once more achieves an effortless and uncategorizable fusion of aggression and melody across a wide range of both modern and classic influences. It's almost unheard of for a group to issue its finest album 20 years in—and after more than a decade apart, no less—but SWIFT have done just that with this 11-song, 45-minute masterpiece. Equally as appealing to fans of the Deftones or Disembodied as to Killswitch Engage or Slipknot in its seamless balance of catchiness and extremity, The Worst of All Things Possible represents the band's most powerful and mature songwriting to date—highlighted by unbelievably memorable cuts such as "Nothing is Real" or "Goliath."

"This record is musically just an expression of the combination of rock and classic thrash metal that inspired all of us growing up. We are all beyond the style of music that was an influence on the early SWIFT material, but it was a lot of fun revisiting and expanding on the formula that made SWIFT what it is," states King. Speaking more specifically to the lyrical content, Forsyth commented, "I wrote much of the lyrics on trains living in NYC. There is an overarching theme to the record, and that is a first for us. It's about growth through loss and the idea that comfort is not a path to progression, it's a path to complacency. It's about analyzing suffering and its effects on the human condition—how we naturally build walls around ourselves to hide from what will cause us discomfort. Suffering is indiscriminate. We all have suffered, and through that we have grown. The intention was to celebrate that growth..."

No Remorse Records 2020 – Brandnew CD Edition

Debut album of a new Epic Metal band from USA, recommended for fans of MANILLA ROAD, ETERNAL CHAMPION and VISIGOTH.

Tucker Thomasson (ex-THORR-AXE) was inspired to form THRONE OF IRON as a solo project, the night after the death of the legendary composer, guitarist, singer, Godfather of Epic Metal, Mark Shelton (MANILLA ROAD).

THRONE OF IRON was forged that sweltering night of June 2018, in the wake of an alcohol-fueled love of the sounds of classic heavy metal and tomes of roleplaying past.

Just a month later, the 2018 Demo was released with Tucker performing all instruments, and THRONE OF IRON joined No Remorse Records.

Thinking quick, Tucker gathered forces in the form of Corwin Deckard on guitar, his longtime drummer friend from THORR-AXE, Jacob Lett, and the cleric Evan Pruitt on bass.

The four immediately descended into the basement to forge their debut full-length, highly recommended for fans of ETERNAL CHAMPION and VISIGOTH.

US Private Press 2020 - Direct Import - Brandnew US Power Metal with female Vocals !

For Fans of Malteze, Chastain, Judas Priest, Iron Maiden, DIO / Black Sabbath

White Crone's The Prisoner delivers Traditional Heavy Metal, with traces of prog, proto & doom. Featuring soaring
Dickensian female vocals, epic dual guitars, thunderous drums & (most especially) iron fisted bass guitar, The
Prisoner will take you "back to the day."

White Crone is the brand new solo project of established Portland, OR blues artist Lisa Mann, who performs vocals,
guitars, and bass on the album — and man, this lady rips! A bassist and vocalist by trade, Mann brushed up her
guitar skills to prepare for this recording and even taught herself drums to lay down scratch tracks. On the album,
she's joined by Vinny Appice (Dio, Black Sabbath) and Larry London on drums and Mehdi Farjami for some additional
guitars.

The end result is a work that's rooted in trad metal a la Judas Priest, Maiden, and Dio, with occult ideas sewing the
songs together thematically. The composition of the individual songs is exciting, with feel changes that take listeners
down serpentine paths. And from song to song, there's lots of variety; some are heavier on the NWOBHM end of
the spectrum, while "New Planet Earth" provides a unexpectedly proggy romp.

Banshee are a heavy metal band from the Midwest, USA, formed in the spring of 1986 by vocalist Tommy Lee, bassist Chuck Hopkins (both ex-Lick), drummer Kent Burnham (ex-Crypt Keeper) and extraordinary guitarist Terry Dunn of Kansas City-based Frodo. By the fall of 1986, they released their first EP entitled Cry In The Night. Hopkins

left shortly thereafter to pursue other projects in L.A. and was quickly replaced by local Kansas City bassist Bill Westfall. In 1988, Metal Blade Records re-released Cry In The Night and included the song "We Want You" on the Metal Massacre 9 compilation. The album was a strong, straight-forward and melodic heavy metal album with big hooks, strong vocals and smoking guitar work. The momentum from the EP gained the band immediate major label attention. After signing with Atlantic records in 1989 the band began recording at the infamous Record Plant Studios for their first full length album "Race Against Time" (released on September 15, 1989).

"Race Against Time" was slightly more melodic and commercial than the more straight-forward heavy metal of "Cry In the Night". Though the band continued to gain momentum with fans in the heavy metal world the band soon parted ways with Atlantic Records and within a couple years began recording their third full-length album "Take 'Em By Storm". The album was self-released by the band in 1993 on their own Snowblind Productions. The album quickly sold out of print and circulation with original copies selling on auction sites at premium prices.

Banshee are a heavy metal band from the Midwest, USA, formed in the spring of 1986 by vocalist Tommy Lee, bassist Chuck Hopkins (both ex-Lick), drummer Kent Burnham (ex-Crypt Keeper) and extraordinary guitarist Terry Dunn of Kansas City-based Frodo. By the fall of 1986, they released their first EP entitled Cry In The Night. Hopkins left shortly thereafter to pursue other projects in L.A. and was quickly replaced by local Kansas City bassist Bill Westfall. In 1988, Metal Blade Records re-released Cry In The Night and included the song "We Want You" on the Metal Massacre 9 compilation. The album was a strong, straight-forward and melodic heavy metal album with big hooks, strong vocals and smoking guitar work. The momentum from the EP gained the band immediate major label attention. After signing with Atlantic records in 1989 the band began recording at the infamous Record Plant Studios for their first full length album "Race Against Time" (released on September 15, 1989).

[BARNABUS – Beginning to unwind \(NEW*LIM.DLP GREEN V.*UK 70's HARD/PROG ROCK CLASSIC\) – 27 €](#)

RISE ABOVE RELICS 2020 – Brandnew limited double album in Green Vinyl + Insert - comes in gatefold sleeve featuring original 'homemade' artwork for one of the acetates owned by a band member. Truly a cult album for fans of obscure, heavy 70's progressive hard rock!

For Fans of Black Sabbath, Uriah Heep, Deep Purple, Pink Floyd, Edgar Broughton Band

Barnabus were a band from the West Midlands/Warwickshire region of the UK, who were active between the years 1970-1973. During that they built up a local reputation and recorded an album of heavy-duty material in late 1971, which has never seen the light of day until now!

Apart from a handful of acetates being made up and distributed to family & friends, Beginning to Unwind has remained an unreleased album for all this. After several years of extensive research, Rise Above Relics is delighted to bring you this underground heavy 70s monster, painstakingly remastered from the original analogue tapes, which have been carefully baked for optimal reproduction.

In their day, Barnabus were actually given the seal of approval by none other than the dark princes of Doom themselves: Ozzy Osbourne and Tony Iommi, when they judged them winners in the regional heat of a national competition for legendary British Music paper, Melody Maker, in 1972!

[BETRAYAL - Renaissance By Death \(NEW*LIM.100 COL.V.*US TECH/THRASH METAL*BELIEVER*DELIVERANCE*TOURNIQUET\) – 44 €](#)

Girder Records 2019 - Brandnew US Technical Thrash Metal Rerelease - NEW-Purple Swirl – Random Colored 180 Gram Vinyl, - Very few copies available! Limited to just 100 total copies pressed. Cover is not perfect, but new and still sealed

For fans of Believer, Deliverance, Slayer, Exodus, Overkill, Testament, Tourniquet, The Crucified, Detritus, D.R.I

Remastered by Rob Colwell of Bombworks Sound

Betrayal was a forerunner of technical thrash metal. The band was formed early on as Martyr, but after a few personnel changes, they changed their name to Betrayal. Betrayal was actually considered a new band, separate from Martyr, but however you label them, their first album, 'Renaissance By Death' set the standard for technical thrash metal. This album has been completely remastered and now includes both songs from their "Fear Be Gone" cassette single, as well as the 4-song Demo, Reviling Darkness from 1991. The album is a mixture of progressive thrash, dark gothic overtones, somber acoustic passages, and even hints of early death metal. It's furious and technical. A spiritual assault on the forces of darkness.

Both of these masterpieces are complete unadulterated thrash onslaughts mixing west coast thrash metal, and old school speed-metal with some early hardcore elements which comes through in the vocals.

•For fans of Believer, Deliverance, Slayer, Exodus, Overkill, Testament, Tourniquet, The Crucified, Detritus, D.R.I.

Betrayal was a forerunner of technical speed metal. The band was formed early on as Martyr and after a few personnel changed their name to Betrayal. Their first album, 'Renaissance By Death' set the standard for thrash metal and soon after they released their second album 'The Passing' and then disappeared, but not before making a major impact on the Christian Metal market. Both albums were originally released on Wonderland Records who also owned Intense Records (Vengeance, Sacred Warrior, Deliverance) before selling it off to Frontline Music.

Both of these masterpieces are complete unadulterated thrash onslaughts mixing west coast thrash metal, and old school speed-metal with some early hardcore elements which comes through in the vocals.

The Passing, Betrayals second album, is a polished production with more industrial influences than their first. It's still Thrash but it's clear that these guys are now seasoned and great at their craft. Like the difference between Barren Cross 'Atomic Arena' and 'State of Control' or the difference between Stryper's 'Yellow and Black Attack' and 'Soldiers Under Command'. All great albums but just more polished and time taken to make a stunning quality piece of work. "The Usurper" their second track takes you thrash journey of heavy breakdowns while the songs 'Ichabod' and 'Race of Hypocrisy' are 4 mins each of amazing technical progression and proficiency slowing down for 'Forest of Horrors' and 'Whispers of Chaos'. One listen through it'll become quite clear why although they put out only 2 albums in the 90's they remain favorites of thrash enthusiast across the globe.

Limited Edition of 500 copies in Tortured Galaxy Colored Vinyl + Fold Out cover with Lyrics inside + OBI
For Fans of Rainbow, Saxon, Accept, Bue Öyster Cult

BLOOD STAR is a new creative endeavor from Visigoth guitarist Jamison Palmer. However, let no assumptions linger that BLOOD STAR is Visigoth Part 2: while both rooted in traditional metal, Palmer's new outlet here harkens back to the classiest, most cruising, but also darkest heavy metal of the 1980s both in the US and in Germany. And with the bewitching vocals of Madi Smith rightfully at the forefront - moody, mesmerizing, and equally galvanizing the forces as well as portending their doom - BLOOD STAR is truly a righteous new development in traditional metal.

BLOOD STAR's first public recording, The Fear comprises two equally thrilling tracks. Both move with preternatural ease, their speed graceful but never overdriven, bolstered by a uniquely grinding bass tone that lends further distinction to the band's classic yet not-easily-pigeonholed style. Riffs and leads are given space and shade, allowing the inherently somber atmospheres to shimmer, simmer, and then sizzle. Dynamics are crucial here, locating that ever-elusive balance between restraint and force, but never resorting to trite quiet/loud constructs. And Smith's vocals magically meld as one into the gleaming chrome, working a velvety spell that simply cannot be denied. Put more directly, both the title track and B-side "Tortured Earth" could equally be hits in and of themselves.

Metal in the sense of the absolute riffing madness that ruled both the airwaves and the underground tapetrading scene during the late 70's, through the genre-defining 80's, and well into the early 90's. BÜTCHER's unique blend of metal music is certainly rooted in both German and US Speed Metal, but owes equally as much to proto-metal, hardrock, South-American and Australian black/thrash, NWOBHM both obscure and world dominating, and the Scandinavian cult from the early 90's. To put it simply: BÜTCHER operates in a spectrum influenced by the twin lead masters from the UK – yet derives as much from the legacy of Sweden, Switzerland, Canada and Brazil. These maniacs thrive on the combination of the musical and artistical significances we have come to adore, and deliver a furious frenzy of speed, black & heavy metal – all brewed in a cauldron of analog & vintage recording material. An

acquired taste in these modern times then, but surely to be savoured by the legion of metal maniacs that have an affection for everything that made the older eras of heavy music so magical in the first place. Consider the lack of edits, digital sound compression or most modern recording techniques on their debut **BESTIAL FÜKKIN' WARMACHINE** (Babylon Doom Cult Records, 2017) and the sophomore album **666 GOATS CARRY MY CHARIOT** (to be released by Osmose Productions in 2019). Take a look at their stage wear, taking cues from the classic acts yet adorning it with a blood oath of their own. But above all, absorb the full-on metal assault that has been edged into black wax, burned into silvered discs as well as coded into streamable format. Then you will realize: this is Metal. Metal defined. Forever in service to the ancient godz of Steele!

CLIENTELLE - Destination Unknown (NEW*LIM.RERELEASE BLACK V.*NWOBHM CLASSIC 1981) – 22 €

On the Dole Records 2020 - Brandnew limited Edition of 500 copies in Black Vinyl ! Remastered and restored sound. Extensive liner notes by Kieron Tyler (Mojo Magazine). Richly illustrated with many rare photos

For Fans of Ethel the Frog, Xero, Trespass, Tyrant UK

Clientelle came from St. Albans, UK and in 1981 they released the now extremely hard to find Destination Unknown album. Considered a NWOBHM masterpiece the album perfectly blends heavy and loud metal with frenetic powerpop and punk. Its also beer-stained pubrock with glamrock-roots and even some progish bits thrown in for good measure. Above all its class AAA British working class rocknroll and a piece of UK music history that should be heard by many listeners.

This first-ever vinyl reissue is all the evidence needed for how Clientelle followed their own path. Destination Unknown opens with the punky yet poppy Play To Win. Its followed by the more complex My Lady, where a series of crescendos and softer passages are punctuated by stomping, glam-inclined sections.

Cant Forget comes off like if the Small Faces had been a NWOBHM-act instead of kings of the 60s modscene. The title track verges on prog rock, but retains a rockiness. Missing Persons”is straight-ahead rock, again with this poppiness. Instead of reacting to trends, Clientelle did their own thing which is why Destination Unknown stands apart, and remains as fresh as when it was released.

Iron Maiden, Def Leppard, Judas Priest and Saxon all got signed by majors and sold records galore, meanwhile bands in every village across England formed. Inspired by the energy and DIY attitude of the punk scene these acts recorded and released their records all on their own. Many acts self released singles and a few, like Clientelle, managed to cut a full-length album.

OTD Records -who brought you the Jobcentre Rejects-series- give you now the full Clientelle story.

[DEATH THE LEVELLER – II \(NEW*LIM.BLACK V.*IRELAND EPIC DOOM METAL\) – 19 €](#)

Cruz del Sur Records 2020 – Brandnew Epic, melancholic and churning doom metal from Ireland - BLACK VINYL, INSERT, POSTER & DOWNLOAD CARD

The first full-length from Ireland's Death the Leveller, II combines dark, impenetrable doom with the sweeping arrangements of epic metal.

There is an air of unassailable melancholy in Irish music. Its ballads, poetry, traditional music and folk traditions all carry the weight of loss of the men and women who experienced hardship and fought so vigorously for their country. Passed down through generations, its only natural for young musicians to have melancholy embedded in their DNA. What they do with it, however, is entirely up to them.

For Death the Leveller, music is the outlet and the common bond between its four members. Therefore, it is no surprise their first full-length album, II, is the perfect union between dark, sweeping epic metal and doom. Originally formed in 2016 out of the ashes of long-running Irish metal ensemble Mael Mórdha, Death the Leveller (who are comprised of vocalist Denis Dowling, guitarist Gerry Clince, bassist Dave Murphy and drummer Shane Cahill), released their debut EP I, in 2017.

Heralded for Dowlings spirited clean vocals and the sheer depth and magnitude of their arrangements, Death the Leveller soon fell onto the radar of Cruz Del Sur Music. Once the band and label cemented their partnership, Death the Leveller began songwriting for II. Driven by the desire to create something with increased dynamic and emotional range, Death the Leveller emerged with four songs totaling 42 minutes which were tracked by Michael Richards at TrackMix Studios in Dublin. II is both carefully constructed and ambitious. Its depth is often channeled through softer, more reflective portions that work in tandem with some of the heaviest riffs the band has written to date. Its all in the spirit of making each song a journey onto itself for Death the Leveller, who spent countless hours on the albums arrangements until the landscapes finally formed in front of them.

Throughout II, Death the Leveller explores the theme of mortality from a deeply personal, introspective viewpoint. It is the foundation for II, an album that is profoundly cathartic and rightfully so? metal with this kind sheer emotional weight can only come from an honest, genuine place.

* 140 gram vinyl

* Yellow vinyl with black splatter

* Limited to only 200 copies

Happy 30th Anniversary to Die Happy! At the time of their first album the band was seen as "Vengeance Rising with a new Vocalist

Formed in 1990 four of the founding members of classic Christian thrash band Vengeance Rising would step out and record this phenomenal debut album. Doug Thieme , Glen Mancaruso , Larry Farkas and Roger Dale Martin would recruit lead vocalist Robyn Kyle Basauri (Joshua, Red Sea) and in 1992 release their debut self titled album.

Still on the heavier side but not quite the thrash their fans were accustomed to, this album would still reach great statures and become a cult classic in the Christian rock world.

The album has been meticulously remastered by Rob Colwell of Bombworks Sound and features brand new cover art from Scott Waters of No Life Til Metal Graphics.

This new cover was the original concept design that the band originally wanted the album cover to be, but the record label at the time had the band use the band photo cover you are accustomed to today. The cover was designed by Scott working close with Doug Thieme to come up with something he was looking for originally.

Limited Edition of 500 copies in Black Vinyl + Insert

A Hammerheart-era Bathory-meets-atmospheric epic metal tour-de-force! Featuring members of *Professor Emeritus*, *Moros Nyx*, *Satan's Hallow*, *Midnight Dice* and *Smoulder*, *Fer De Lance* combines darkness and atmosphere into a four-song epic heavy metal triumph.

As bandmates in Chicago metal outfits *Professor Emeritus* and *Moros Nyx*, guitarist/vocalist MP and drummer Rusty often found themselves in the downtime of these bands consuming music that had nothing to do with the projects they were working on. The two men would do more than just listen to music they discussed it, examined it and lived it, taking in the sounds of metal bands such as *Bathory*, *Amorphis*, *Atlantean Kodex* and *Rotting Christ*, as well as more acoustic-driven music such as *Jethro Tull*, *Pink Floyd*, and unsung Canadian folk artist *Stan Rogers*.

FREEWAYS - True Bearings (NEW*LIM.350 BLACK V.*CAN HARD ROCK*THIN LIZZY*APRIL WINE*UFO) – 19 €

Temple of Mystery Records 2020 - CAN Import - Brandnew limited Edition of 350 copies in black vinyl, insert!

CANADIAN HEAVY ROCK...WITH A NWOBHM VIBE! For Fans of *UFO*, *Thin Lizzy*, *Budgie*, *Blue Öyster Cult*, *Tarot* and *April Wine* - along with the distinctive twists of the unsung heroes of the NWOBHM

Indeed, *Freeways* are a breath of fresh, northern air. Honoring the mystical undercurrents of so much classic Canadian rock of the past, the quartet's sound is firmly built upon a foundation of '70s giants - such as *UFO*, *Thin Lizzy*, and *April Wine* - along with the distinctive twists of the unsung heroes of the NWOBHM. It's a sound that's immediately familiar but also immediately engaging, so richly rendered are these soul-stirring odes to wanderlust, melancholia, and "Survival" itself. Now, at long last arrives *Freeways'* full-length debut. Likewise aptly titled, *True Bearings* roves wild, rough terrain, but with ease that only comes from many road-worn years.

Each of these seven songs is anchored to a plaintive, poignant hook, tastefully embellished with subtly delicate touches that proves *Freeways* as masters of mood. The quartet's interplay is untouchable here, given that their chosen idiom is the more-or-less hard(er) end of rock, exhibiting class and poise every step of the way, but perhaps no better evinced than on the near-seven-minute vamp of "Time is No Excuse." The 37-minute *True Bearings* is a highway worth cruising time and time again.

[GUARDIAN – Miracle Mile \(NEW*LIM.200 SPLATTER V. + 7"*US WHITE MELODIC METAL*STRYPER\) – 40 €](#)

Retroactive Records 2020 – Brandnew limited US White Melodic Metal / Hard Rock Classic Rerelease from 1993 Limited Edition of only 200 copies in Splatter Vinyl + extra 7"

For Fans of Stryper, Tesla, Mastodon, Giant

- 200 Unit Vinyl Pressing
- Full color printed inner sleeve
- Remastered for vinyl by Rob Colwell of Bombworks Sound
- First time ever on vinyl
- Special write up by bassist, David Bach
- Part of the Legends Remastered series

Teaming up with Dino and John Elefante (Kansas/Mastodon/Pakadern Records) for 1991's Fire and Love album was a game-changing move for Guardian. The album was an overwhelming hit with fans, in regular rotation on MTV's Headbanger's Ball, and the band turned into the consummate road warriors with extensive U.S touring throughout 1991 and a European tour with Stryper in 1992.

With all the touring, the band made the decision to move, families and all, from Los Angeles to Nashville in order to take things to the next level. Not content to make their third album Fire & Love Part 2, Guardian reflected on two years of touring, all their success, and began to dream of what album number three might be like. Bach was influenced by a movie that featured a turn-of-the-century carnival that had terrifying and mystical effects on the towns it visited. Bach was also fascinated with the religious tent revivals from the same period that had such a profound effect on the U.S. landscape. He began envisioning an album that combined the two elements, with snake oils, side shows, carnivals, and deep spirituality. The rest of the band bought in to this concept, and Miracle Mile was born.

The album demonstrates a band locked in as a cohesive unit, being fun, imaginative, and creative in ways that pushed them far beyond anything they had ever done. Miracle Mile built off bands like Tesla, Extreme, and Giant but was distinctly Guardian. Miracle Mile is the band's undisputed Sgt. Pepper, their Appetite for Destruction, their Back in Black. This is the band's defining moment, at the top of their game.

Svart Records 2020 - Black vinyl, 500 copies.

Stunning quality, rare live performance recordings of krautrock pioneers Guru Guru, from one of their earliest ever live concerts on Sunday October the 25th 1970. Three long slabs of prime classic psychedelic prog, two from the 'UFO' album and one off 'Hinten', show the band at their apex, defining a sound that had never been heard before. Sourced from tapes recorded directly from the sound desk at the show, the recording quality is phenomenal for something of this vintage era. The original line-up of Mani Neumeier – drums & vocals, Ax Genrich – guitar and Uli Trepte – bass & vocals, are present and on full power.

Guru Guru stood for space, psychedelic experience and electric magic. It stood for energy, imagination and freedom. Turn on, tune in, take off!

If the 80s were the metal years, then 1985 – 1987 were the thrash years. The years 85/86 alone saw the release of Slayer's 'Hell Awaits' and 'Reign In Blood', 'Bonded By Blood' from Exodus, Celtic Frost's 'To Mega Therion', Kreator's 'Endless Pain' and 'Pleasure To Kill', Destructions' 'Infernal Overkill' and 'Eternal Devastation', Possessed's 'Seven Churches' and 'Beyond The Gates'. And off course with Metallica's 'Master of Puppets' hitting the Billboard charts in '86, well thrash had arrived.

Karrion were forerunners of Vancouver, BC's early extreme metal scene, featuring guitarist and main songwriter Shawn Pitts previously of Delta speed metal group Witches Hammer. Karrion hit the scene strong and headlined nearly every show they played, commanding the audience with Duncan Stuart's scorching vocals over a relentless set of original songs. The group's four song self titled and three song "Free In Death" demos are both carefully remastered for this release, packed in a striking heavy gloss sleeve featuring the remarkable artwork of Estelle Ward

For fans of early Iron Maiden, early 80's Priest, Chastain, Malteze, Sentinel Beast, Angel Witch, Diamond Head and also more recent bands like Air Raid, Ambush, Argus, Slough Feg !

Originally formed in 2009, Lady Beast quickly immersed itself in the East Coast live scene, developing a reputation as a band who can seamlessly blend venerable NWOBHM sounds and thrash - fronted by the charismatic Deborah Levine

The powerful vocals of Deborah lead this anthemic, victorious feeling Heavy Metal track (with nods to the NWOBHM) over thunderous basslines, merciless guitar riffs and timeless, 80's drenched leads. Blisteringly driving bass, melodic dual harmony lead guitars, classic USPM riffage and a throaty dramatic alto vocal in the vein of vintage Lee Aaron (with grace tones of both Chastain and Sentinel Beast) and a solo that wouldn't feel out of place on an early Virgin Steele or Artch record !

Dying Victims 2020 – Brandnew Limited Edition Black Vinyl + Insert + poster, sticker, post card, download code ! US Prototype 70/80's Metal !

For Fans of early Judas Priest, Scorpions, Thins Lizzy, NWOBHM mixed with some Epic and obscure US Metal like early Manilla Road or Cirith Ungol !

Hailing from the mean streets of Detroit, MIDAS are a four-piece band of hard rock warriors. Theirs is an ancient, time-lost sound, recalling rock 'n' roll's first transitions into heavy metal during the hazy, crazy '70s. But, MIDAS are not simply retro-retread plagiarists looking to replicate the past; this era and style of music burns within them, and it bursts forth with effervescence and excitement across their two demos to date.

Both released during 2019, MIDAS' "Solid Gold Heavy Metal" and "Still Hungry" each feature four effervescent, exciting songs, and both trounce most bands regular recordings. Brimming with a startling, stultifying confidence, "Solid Gold Heavy Metal" patiently builds eldritch grooves guided by narrative lead work.

There's a subtle yet no-less-dazzling mysticism here recalling early SCORPIONS and JUDAS PRIEST, and even trio-era THIN LIZZY – just witness the demo's eerily breathtaking closer, "Blackened Blade" – as well as subsequent legends MANILLA ROAD and CIRITH UNGOL. The heavier stylings of the latter begin to come to the fore on "Still Hungry".

Now fully into late '70s heavy metal mode, MIDAS move beyond the moodiness of their first demo to more epic and fantastical landscapes, kicking up the octane and cruising into the night with the ever-aptly titled "Street Knights." Together, both demos could verily hold together as an exceptionally tight 'n' thematic album-length work.

ITA Doom Metal ! Misanthropus were formed in April, 1998 in Latina (Lazio, Italy) by brothers Alessio (guitar) and Vincenzo (bass) Sanniti.

At that time the brothers had 10 years of musical experience, playing together and collaborating since 1988 in various minor heavy metal and punk/hardcore bands, where Alessio occasionally played drums. In that same year, accompanied by the first of various drummers that would follow in the years to come, they released a demo cassette containing 4 tracks of instrumental dark/doom metal, clearly influenced by Paul Chain's albums from the 1980s and Mario "The Black" Di Donato's previous work with Minotauro Records, as well as early Saint Vitus and Manilla Road. MISSION OF CHRIST - Silence In Grave LP (1987-89) + Realms Of Evil 7" flexi EP (1986) – 26 €

Supreme Echo Records 2019 – CAN Direct Import

This deluxe 10 song, 180 gram 12" LP – limited 500 copies in Black Vinyl - comprises of the 7 song "Silence In Grave" demo '87, three songs from "Demo '89", plus a bonus 7" flexi EP featuring 4 songs from their '86 rehearsal demo. Mission Of Christ were the band that united the punks and metal-heads in Victoria, BC. Young skater kids riding into the collision between metal and punk — those wild days of early crossover. Albums such as COC "Animosity", early Metal Church, Accused "Martha Splatterhead", Sacrilege UK, Trouble, Venom and Slayer were all on heavy rotation. Each band sounded different and many were hard to classify. MOC received multiple record label offers (Metal Blade, Alchemy, Manic Ears), gigged often, released two demos and a split 7" — but failed to fulfill any album agreement.

Remixed by critically acclaimed engineer Kurt Ballou and remastered by Brad Boatright and Audu Obaje for wider dynamics while maintaining vintage authenticity. MOC included a member of the Neos and also future Black Mountain leader Stephen McBean. Includes a generous 16 page booklet with interview, flyers, art, photographs & lyrics. NATUR with all the fury of the late 70s and early 80s, adds a touch of Kill em' All, and brings that leather-clad spirit into the future. It's a rip-roaring good time for fans of glorious no-nonsense heavy metal.

This record sounds like a motorcycle gang gatecrashing a party in a haunted house. Wall-to-wall riffs peppered throughout with heebie-jeebie horror synths that will leave you feeling like MacReady surrounded by burning rubble and passing that bottle of whiskey.

NEKROVAULT - Totenzug: Festering Peregrination (NEW*LIM.PURPLE V.*DEATH/BLACK/DOOM METAL) – 19 €

Van Records 2020 – Brandnew GER Death / Black / Doom Metal Killer on limited 180g purple vinyl, gatefold, 2 sided A4 poster

For Fans of Morbid Angel, Ruins of Beverast, Bolt Thrower, Dissection

After the "Obscure" EP and the "Cursed by Ascended Darkness" 7" it is about time to take the next step further into the deepest of vaults... Finally, German necromancers NEKROVAULT have exhumed their first full-length recording! And it truly has been a Festering Peregrination until the Totenzug took form - presenting the band in its darkest and most threatening manifestation, yet.

The less "necro" the recording may appear, the more crushing and brooding are the songs on "Totenzug: Festering Peregrination" - a necessary improvement to fully convey the primal darkness that rests within each of the songs. Musically far more diverse and heavier than before, the album tells stories inspired by grim local folklore, necromancy and - of course - Dis Pater himself... All of these are masterfully visualized by the mighty Misanthropic-Art. A musical and visual monolith of death awaits... join the Totenzug!

Upon the demise of Bangalore Choir, David Reece formed Sircle Of Silence in 1993 with ex-Hurricane drummer Jay Schellen and ex-Die Happy members, bassist Greg Chaisson (ex-Badlands/RedSea) and shredmaster Larry Farkas (ex-Vengeance Rising). The band released their first homonymous album the same year. A video of the song "Dancing 'on the Sun" was released , directed by Chip Miller. Check out this remastered video for the track 'Dancin on the sun' Shortly after the release of their first album, Chris Colovas entered the band to replace Greg Chaisson and they published a demo of 3 songs, titled "Sircle of Silence":

In 1994 they released their second and final studio album called "Suicide Candyman". Sircle of Silence were also part of the disc 'Metal Edge - The Best Of L.A.'

The band moved away from the more commercial hard rock sound of Reece's former band Bangalore Choir and created a much heavier sound that built around heavy riffs and solid music and lyrical hooks. Larry Farkas peppers both albums with fiery guitar solos. As well, David Reece gives the vocal performance of his life on these two recordings.

Both albums are being released on a high quality 180 gram vinyl. Sircle of Silence features an updated cover while Suicide Candyman features a brand new cover design. Both albums have been brilliantly remastered by Rob Colwell of Bombworks Sound.

[SOJOURNER – Premonitions \(NEW*BLACK VINYL DLP*EPIC / BLACK METAL KILLER\) – 22 €](#)

Napalm Records 2020 – Brandnew limited DLP in Black Vinyl + Gatefold Cover !

Atmospheric + Epic Killer Black Metal with some Folk and some Power Metal elements !

Like an oncoming storm, Premonitions unveils the violent, yet undeniably beautiful stylistic progression of SOJOURNER's sound in an exceptional synthesis of folk and atmospheric black metal. Thanks to the ever-increasing complexity of arrangements and compellingly diverse intros ("The Event Horizon"), Premonitions rises to a broader musical territory where the wide range of melodies and rhythms merge together into a desolated, yet captivating soundscape of expressive harmony. Whether highlighting the atmospheric influences ("Monolith"), Chloe Bray's ethereal vocals ("Talas"), or evolving rhythmically around Emilio Crespo's growls ("Fatal Frame"), SOJOURNER manages each time to captivate the listener. The mysterious and capricious spirit of unexplored wilderness is directly referring to both the legacy of the Scandinavian extreme metal scene and the charm of instrumental folk interludes. Following the lead of powerful riffs and rhythmic accompaniments, voices of Crespo and Bray, two charismatic pillars of SOJOURNER's musical identity, fiercely interact with each other ("Apocalyptic Theatre"), opening a field for the atmospheric journey through melodies of dawn and dark emotional hymns. Amalgamating a wide range of musical forms and concepts, on their third studio album SOJOURNER outlines a captivating soundscape, gradually unfolding into a musically unpredictable ode to the unknown. Premonitions is in this sense not only a masterfully told story, but much more a milestone confirming the group's unique approach towards the genre!

Another Heavy Metal chapter from 80s Seattle... STRYCHNINE "No Escape... Live Or Die! 84-87"

For Fans of Jag Panzer (Ample Destruction), Overkill, Deadly Blessing, Ded Engine, Lääz Rockit, Flotsam & Jetsam (Doomsday), Judas Priest

Formed in 1981 by the Lamberty brothers, Strychnine is another great example of how prolific the Washington Metal scene was at the time. With two demo tapes recorded, one 7" single released (nowadays, a quite rare and desirable item between record collectors) and a notable participation on the famous 'Metal Meltdown Volume 1' LP compilation, Strychnine delivers a puissant wrecking ball to any US Metal appraiser!

Their early recordings, clearly influenced by Judas Priest's riffage, will definitely please enthusiasts of Ded Engine and early Overkill.

With the 1987 'Plug The Plug' demo, Strychnine reached a new level in their sound, playing a more powerful style resembling early Heretic and Lääz Rockit!

For Fans Rigor Mortis, Helstar, Wrathchild America, Flotsam & Jetsam, Exciter, RAM, Testament

Hailing from Houston, TX, The Scourge was formed as a quartet in 2012 featuring Andrew Atwood (gtr/vox), Alex Erhardt (drums), Johnny Laird (gtr), and Garrick Smith (bass). The band's goal was to create dynamic thrash metal in the vein of many late 80's and early 90's greats that they grew up listening to such as Rigor Mortis, Rage, Wrathchild America, and Flotsam and Jetsam to name a few. After releasing an EP called Fist Comes Destruction in 2014, Johnny Laird left the band and The Scourge became and stayed a power trio.

Around that same time, Andrew and Garrick were asked to join heavy metal mainstays, Helstar. With Helstar's show and festival schedule filling up, it forced The Scourge to delay the writing and recording of their debut, but today we are happy to announce the release of their first full length record, Warrant For Execution. The bands debut features a range of short and to the point neck-wreckers alongside longer and more technical pieces.

“ The Scourge have a ‘Warrant for Execution’ and they’re serving it in the form of their first full-length album. The Texas thrash trio wear their influences—Rigor Mortis, Flotsam and Jetsam, Wrathchild America—on their sleeve, sticking to hyperactive, bouncy thrash with the goal of inducing whiplash.”

[THRONE OF IRON - Adventure One \(NEW*LIM.500 BLACK V.*US EPIC METAL*ETERNAL CHAMPION\) – 19 €](#)

No Remorse Records 2020 – Brandnew limited Edition of 500 copies on black vinyl, insert!

Debut album of a new Epic Metal band from USA, recommended for fans of MANILLA ROAD, ETERNAL CHAMPION and VISIGOTH.

Tucker Thomasson (ex-THORR-AXE) was inspired to form THRONE OF IRON as a solo project, the night after the death of the legendary composer, guitarist, singer, Godfather of Epic Metal, Mark Shelton (MANILLA ROAD).

THRONE OF IRON was forged that sweltering night of June 2018, in the wake of an alcohol-fueled love of the sounds of classic heavy metal and tomes of roleplaying past.

Just a month later, the 2018 Demo was released with Tucker performing all instruments, and THRONE OF IRON joined No Remorse Records.

Thinking quick, Tucker gathered forces in the form of Corwin Deckard on guitar, his longtime drummer friend from THORR-AXE, Jacob Lett, and the cleric Evan Pruitt on bass.

The four immediately descended into the basement to forge their debut full-length, highly recommended for fans of ETERNAL CHAMPION and VISIGOTH.

[TYRANT – Hereafter \(NEW*LIM.700 GOLD/SMOKE VINYL*US METAL + ROB LOWE ON VOCALS\) – 22 €](#)

Shadow Kingdom Records 2020 – Brandnew limited Fire Burning Gold w/Smoke Vinyl - Limited to 700 in a beautiful Gatefold Cover

Comeback of the US Metal Tyrants with Robe Lowe (EX - Solitude Aeternus and ex-Candlemass) on Vocals – produced by Bill Metoyer !

Hailing from Pasadena, California, TYRANT formed in 1978 and put out their first demo in '82. However, it was with their pair of albums for Metal Blade - 1985's Legions of the Dead and 1987's Too Late to Pray - where they'd etch their name into cult heavy metal legendry. Proud and powerful, theirs was steel tempered in the purest and proudest tradition: neither NWOBHM nor speed metal nor doom nor hair metal by any strict definitions, but uniquely dipping that blade into all at any given moment, and given an almost medieval atmosphere considering the ever-changing stylistic landscape during those years, which would be deemed "old-fashioned" as the 1980s came to a close. It took nearly a decade for TYRANT's next album to arrive, 1996's King of Kings, and indeed were the band even more out of place in that landscape; despite staunchly sticking to their guns, this would be their otherwise-final album.

Just like TYRANT were when they originally formed so long ago, there existed true believers across the pond who were keeping the traditional metal faith alive as the '90s came to a close, as well as a quietly growing renaissance in the States as the 2000s began. TYRANT's catalog subsequently received a long-overdue reappraisal, and a new, younger generation of metalheads investigated their mysteries of steel. Although never "broken up" officially, the sleeping beast awoke, with the original TYRANT lineup reuniting for 2009's esteemed Keep It True festival in

Germany. SHADOW KINGDOM, who've indeed kept it true since the beginning, reissued TYRANT's first two albums in 2018, furthering that reappraisal and bringing the band's name to an even younger, hungrier generation. The stage was thus set for a grand return...

At last, it arrives with Hereafter, courtesy of truest believers SHADOW KINGDOM. With founding member Greg May on bass along with longtime guitarist Rocky Rockwell and powerhouse drummer Ronnie Wallace, who's been with the band since 2010, TYRANT now feature a significant new addition on vocals: the one and only Rob Lowe, he of Solitude Aeternus and ex-Candlemass fame. His addition proves especially significant given TYRANT's doomier direction on Hereafter. While no doubt sounding like the same band who delivered those two classics on Metal Blade so long ago, the TYRANT of Hereafter conjures forth a classy, ominously melodic style of doom METAL - or at least traditional heavy metal steeped in doom, much like Black Sabbath in the early '80s with Dio and then Ian Gillan on the mic - with each of these 11 mini-epics headbanging forward with power, poise, and a stately sort of grace. Aiding that granite-thick surge is the production of one Bill Metoyer, the legendary producer who's recorded all of TYRANT's albums to date. Evading any sort of "retro" moves, Metoyer keeps the sound on Hereafter rich, robust, and above all timeless, just like TYRANT's ever-unyielding style of metal. Truly, this is the homecoming the legions have been waiting for!

[ULTIMATUM - Symphonic Extremities \(NEW*LIM.50 GREEN V.*US WHITE THRASH METAL*OVERKILL\) – 33 €](#)

Roxx Records 2019 – US Direct Import ! Brandnew very limited vinyl pressing. This is for the translucent green LP which is extremely limited to only 50 copies worldwide !!!

US White Thrash Metal – early 80's Bay Area style !

For Fans of early Metallica, Overkill, early Exodus, Megadeth

Ultimatum play a style that's rooted in traditional metal but with a thrashy edge. It's a timeless style pure and simple. Although it's the songs themselves that stand out on SYMPHONIC EXTREMITIES, the musicianship and vocals are certainly worth noting.

The rhythm guitars are reminiscent of early Metallica and Exodus whereas the lead guitars are unschooled with a melodic haunting vibe (think Mercyful Fate). The drums & bass are professional and solid.

As for the vocals, people will likely either love or hate Scott Waters. On this recording he sounds like a mixture of Steve Souza, Dave Mustaine and Udo yet with his own unique flair. He sorta sounds like a snake if it became human and fronted a metal band (huh?).

In the late 80's the two of them got together and a few years later recorded 5 classic tunes, that to this day, are considered to be among the most criminally neglected classic metal tunes that never got to be officially released by any label at the time.

[SNAKEPIT - Archives Vol.1 + Jag Panzer 7" BLACK – 39 €](#)

[SNAKEPIT - Archives Vol.1 + Jag Panzer 7" CLEAR – 42 €](#)

SNAKEPIT Archives Vol. 1 (Issues 1-5) BOOK plus JAG PANZER "Battle Zones / The Crucifix" 7" (From The Legendary Demo 1982!) Without doubt, SNAKEPIT and his editor Laurent Ramadier have established through the years a brand name that is indicative of quality reading. SNAKEPIT since its inception in the late 90s is widely regarded as one of the greatest heavy metal publications of all time with a special attention to 70's and mainly 80's bands that shaped the history of our music, as well as coverage of the young guns who really deserve it. SNAKEPIT originally started by Frank Stover who was the driving force behind the first four issues before handing the torch to Laurent Ramadier, Matt Coe and Heinz Konzett. Eventually Laurent kept the flame alive by continuing the publication up to this day on his own. The first 5 issues have been long out of print and really hard to find nowadays so it was about time for them to be available again. Some attempts were made in the past for issues 1 and 2 to be reissued but the result was quite poor, so we took the hard road and decided to almost reconstruct all low quality parts of the original magazines including advertisements etc, so what you're getting here is super top quality provided by a demanding scanning and restoration process that took us 3 months to complete. Going through the 412 pages of the book is like making a time travel back to the mid to late 90s. Owning this book is like owning a piece of history as you get all the pieces of the heavy metal music puzzle that was started getting compiled in the 90s, a really important period for the continuation of the true metal music. To celebrate this huge edition, Mark Briody of the mighty JAG PANZER (which are featured four times in the first five issues) in collaboration with Laurent Ramadier, gave us his permission to include as an extra, a 7" single that will make every die hard US metal fan and collector go nuts: JAG PANZER "Battle Zones / The Crucifix" 7" featuring two breathtaking compositions by one of the pioneers of US metal from their '82 demo. A fantastic way to accompany your reading of more than two hundred interviews in a massive 412 pages book, which weighs close to two kilos! Nothing more and nothing less but pure heavy metal mania the old school way.

BLOODGOOD - Trenches of Rock DVD DOCUMENTARY (NEW*US WHITE METAL KILLER) – 22 €

Bloodgood Pictures 2019 - This full-length documentary chronicles the 30-year history of the 'Christian Metal' band BLOODGOOD, who was targeted not only by a mainstream music industry that found their blatant use of faith-based lyrics unfitting with heavy metal, but also by religious extremists who believed their music was the work of the devil - confronted by death threats, picketers and protests throughout their career.

The film marks the directorial debut of filmmaker Paul Michael Bloodgood. Executive produced by Oscar and Grammy winner James Moll (Foo Fighters: Back and Forth).
